Independent Auditors' Report

To the Trustees and Plan Administrator of
Bates White, LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bates White, LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Bates White, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all nonunion employees of Bates White, LLC. The Plan was formed on July 21, 2000 and most recently restated effective January 1, 2021. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Fidelity Investments serves as the Plan's recordkeeper and Fidelity Management Trust Company (Fidelity or the Trustee) serves as the Plan's asset custodian.

Eligibility

All employees of Bates White, LLC (the Company) not covered by a collective bargaining agreement or specifically excluded by employee classification by the plan agreement, are eligible to participate in the Plan upon reaching the age of 21. Beginning April 1, 2016, employees classified as summer consultants, seasonal consultants and interns must also complete 1,000 hours of service to be eligible to participate in the Plan. Eligible employees may begin participating in the pre-tax or post-tax Roth deferral contribution, safe harbor nonelective contributions and discretionary matching contribution provisions of the Plan on the first day of service after which the employee meets eligibility requirements set forth in the plan agreement. Plan entry dates for the discretionary profit sharing contributions are on the first day of the first, fourth, seventh and tenth month that next follows when the employee satisfies the eligibility requirements of the Plan.

Contributions

Participants may elect to make pre-tax or post-tax Roth contributions up to the lesser of 70% of their annual compensation, or the maximum allowable contribution under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions and may contribute up to 100% of their annual compensation. Participants may also contribute amounts representing distributions from other qualified plans and individual retirement accounts.

Effective January 1, 2017, the Company contributes a safe harbor nonelective contribution to each eligible participant in an amount equal to 3.00% of their compensation, as defined by the Plan. In addition, the Company may contribute annual discretionary profit sharing contributions to eligible participants in an amount determined at the end of the plan year. For the year ended December 31, 2022, the Company made a basic discretionary profit sharing contribution equal to 2.00% of eligible compensation for all eligible participants. In addition to the basic 2.00% contribution made for all eligible participants, the Company made incremental discretionary profit sharing contributions of 2.00% of eligible compensation for participants designated as Managers, and 4.00% of eligible compensation for participants designated as Principals or Directors. Eligible participants designated as Partners or Senior Directors receive a discretionary profit sharing contribution which results in a total employer contribution equal to the maximum contribution amount permitted under the IRC for the respective plan year, less the maximum 401(k) contribution limit under the IRC for the respective plan year, divided by the total maximum compensation allowable under the IRC for the respective plan year. For the year ended December 31, 2022, this resulted in a discretionary profit sharing contribution percentage of approximately 10.28% for eligible Partners and Senior Directors. The Company may also make a discretionary contribution to the Plan as a percentage match of the participant's salary reduction contributions. The Company did not make any discretionary matching contributions for the year ended December 31, 2022.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of earnings (losses) based on the performance of the investment account(s) selected by the participant. Each participant's account is charged with specific transaction fees related to participant loans and distributions, as applicable, and an allocation of administrative expenses. Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. Each participant directs the investment of his or her individual accounts among various investment options offered by the Plan. A participant may change investment allocations at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their own contributions and the Company's safe harbor nonelective contribution portion of their accounts, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions and discretionary matching contributions are based on years of continuous service. A participant is not vested until completing three full years of service, at which time the participant is fully vested.

Forfeitures

Forfeitures, if any, are used to pay plan administrative expenses or to reduce future company contributions. During the year ended December 31, 2022, forfeitures of \$130,553 were used to reduce company contributions. At December 31, 2022 and 2021, unapplied forfeitures totaled \$109 and \$0, respectively.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of 50% of their vested accounts or \$50,000. Loan terms are limited to five years unless the loan is used for the purchase of a principal residence. The loans are secured by the balance in the borrower's account and shall bear a reasonable rate of interest, as defined by the plan agreement. As of December 31, 2022 and 2021, interest rates on outstanding loans ranged from 4.25% to 8.00%. Principal and interest payments are paid through payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to continue his/her account, receive a lump-sum distribution of all vested amounts or transfer the vested amount to another qualified plan. Payment of benefits also may occur upon death, retirement, attainment of age 59½, plan termination or a qualified hardship distribution request. Terminated participants with account balances less than \$5,000 will automatically receive a lump-sum distribution.

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses except those expenses that are charged directly to participant accounts by the Trustee. Certain recordkeeping and investment management fees are included in net appreciation (depreciation) in fair value of investments on the accompanying Statement of Changes in Net Assets Available for Benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time, subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of the financial statements in accordance with U.S. GAAP requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy for each investment.

Net depreciation in fair value of investments included in the accompanying Statement of Changes in Net Assets Available for Benefits includes realized gains or losses from the sale of investments, unrealized appreciation or depreciation in fair value of investments, and fees that have been charged by the Trustee and sponsoring mutual fund companies for services provided in connection with recordkeeping and investment management. Net unrealized appreciation or depreciation in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants

Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reported as distributions based on the terms of the plan agreement.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Bates White, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

Subsequent Events

The Plan has evaluated subsequent events through July 25, 2023, the date these financial statements were available to be issued.

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

3. Investment Information Certified by the Trustee, Unaudited

The Plan's investments and notes receivable from participants are held by the Trustee in a trust for the Plan. The investment assets, transactions, income and notes receivable from participants, as presented in the accompanying financial statements and supplemental schedule, were certified to be complete and accurate by the Trustee as of December 31, 2022 and 2021 and for the year ended December 31, 2022.

The following is a disclosure of individual investments, as a percentage of net assets available for benefits, which represent a significant concentration as of December 31, 2022 and 2021:

	2022	2021
Fidelity 500 Index	20 %	21 %
Fidelity Contrafund Class K6	*	12

*not a significant concentration

4. Fair Value Measurements

The Plan follows U.S. GAAP for measuring, reporting and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Bates White, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021:

Mutual funds and the money market fund are based on quoted market prices of the shares held by the Plan at year-end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

Common collective trust determines fair value using net asset value (NAV) as a practical expedient, which is determined based on the underlying NAV of the common collective trust. Accordingly, these investments are not included within the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Investments Measured Using NAV per Share Practical Expedient

The table below presents the fair value of those investments that determine fair value using NAV as a practical expedient, in addition to the unfunded commitment, redemption frequency and redemption notice period by class within each category as of December 31, 2022 and 2021:

December 31, 2022

5. Related-Party and Party in Interest Transactions

Certain plan investments are shares of mutual funds and a money market fund managed by an affiliate of the Trustee, to whom the Plan pays certain administrative and transactional fees. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as exempt party in interest transactions under ERISA, which are exempt from the prohibited transaction rules.

Notes to Financial Statements

December 31, 2022 and 2021

6. Tax Status

The Plan is organized as a pre-approved plan intended to satisfy the tax qualification requirements under Section 401(a) of the IRC; therefore, the funds of the Plan are intended to be exempt from federal income taxes under the applicable sections of the IRC. On June 30, 2020, Fidelity received a favorable determination letter from the Internal Revenue Service for its nonstandardized profit sharing plan with a cash or deferred arrangement. The Plan has been amended since the date of the determination letter; however, the plan administrator and management believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits reported on the accompanying financial statements to the Form 5500 as of December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>

Independent Auditors' Report

To the Trustees and Plan Administrator of
Bates White, LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bates White, LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Bates White, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of the Plan

The following description of the Bates White, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all nonunion employees of Bates White, LLC. The Plan was formed on July 21, 2000 and most recently restated effective January 1, 2021. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Fidelity Investments serves as the Plan's recordkeeper and Fidelity Management Trust Company (Fidelity or the Trustee) serves as the Plan's asset custodian.

Eligibility

All employees of Bates White, LLC (the Company) not covered by a collective bargaining agreement or specifically excluded by employee classification by the plan agreement, are eligible to participate in the Plan upon reaching the age of 21. Beginning April 1, 2016, employees classified as summer consultants, seasonal consultants and interns must also complete 1,000 hours of service to be eligible to participate in the Plan. Eligible employees may begin participating in the pre-tax or post-tax Roth deferral contribution, safe harbor nonelective contributions and discretionary matching contribution provisions of the Plan on the first day of service after which the employee meets eligibility requirements set forth in the plan agreement. Plan entry dates for the discretionary profit sharing contributions are on the first day of the first, fourth, seventh and tenth month that next follows when the employee satisfies the eligibility requirements of the Plan.

Contributions

Participants may elect to make pre-tax or post-tax Roth contributions up to the lesser of 70% of their annual compensation, or the maximum allowable contribution under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions and may contribute up to 100% of their annual compensation. Participants may also contribute amounts representing distributions from other qualified plans and individual retirement accounts.

Effective January 1, 2017, the Company contributes a safe harbor nonelective contribution to each eligible participant in an amount equal to 3.00% of their compensation, as defined by the Plan. In addition, the Company may contribute annual discretionary profit sharing contributions to eligible participants in an amount determined at the end of the plan year. For the year ended December 31, 2022, the Company made a basic discretionary profit sharing contribution equal to 2.00% of eligible compensation for all eligible participants. In addition to the basic 2.00% contribution made for all eligible participants, the Company made incremental discretionary profit sharing contributions of 2.00% of eligible compensation for participants designated as Managers, and 4.00% of eligible compensation for participants designated as Principals or Directors. Eligible participants designated as Partners or Senior Directors receive a discretionary profit sharing contribution which results in a total employer contribution equal to the maximum contribution amount permitted under the IRC for the respective plan year, less the maximum 401(k) contribution limit under the IRC for the respective plan year, divided by the total maximum compensation allowable under the IRC for the respective plan year. For the year ended December 31, 2022, this resulted in a discretionary profit sharing contribution percentage of approximately 10.28% for eligible Partners and Senior Directors. The Company may also make a discretionary contribution to the Plan as a percentage match of the participant's salary reduction contributions. The Company did not make any discretionary matching contributions for the year ended December 31, 2022.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of earnings (losses) based on the performance of the investment account(s) selected by the participant. Each participant's account is charged with specific transaction fees related to participant loans and distributions, as applicable, and an allocation of administrative expenses. Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. Each participant directs the investment of his or her individual accounts among various investment options offered by the Plan. A participant may change investment allocations at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their own contributions and the Company's safe harbor nonelective contribution portion of their accounts, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions and discretionary matching contributions are based on years of continuous service. A participant is not vested until completing three full years of service, at which time the participant is fully vested.

Forfeitures

Forfeitures, if any, are used to pay plan administrative expenses or to reduce future company contributions. During the year ended December 31, 2022, forfeitures of \$130,553 were used to reduce company contributions. At December 31, 2022 and 2021, unapplied forfeitures totaled \$109 and \$0, respectively.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of 50% of their vested accounts or \$50,000. Loan terms are limited to five years unless the loan is used for the purchase of a principal residence. The loans are secured by the balance in the borrower's account and shall bear a reasonable rate of interest, as defined by the plan agreement. As of December 31, 2022 and 2021, interest rates on outstanding loans ranged from 4.25% to 8.00%. Principal and interest payments are paid through payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to continue his/her account, receive a lump-sum distribution of all vested amounts or transfer the vested amount to another qualified plan. Payment of benefits also may occur upon death, retirement, attainment of age 59½, plan termination or a qualified hardship distribution request. Terminated participants with account balances less than \$5,000 will automatically receive a lump-sum distribution.

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses except those expenses that are charged directly to participant accounts by the Trustee. Certain recordkeeping and investment management fees are included in net appreciation (depreciation) in fair value of investments on the accompanying Statement of Changes in Net Assets Available for Benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time, subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of the financial statements in accordance with U.S. GAAP requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy for each investment.

Net depreciation in fair value of investments included in the accompanying Statement of Changes in Net Assets Available for Benefits includes realized gains or losses from the sale of investments, unrealized appreciation or depreciation in fair value of investments, and fees that have been charged by the Trustee and sponsoring mutual fund companies for services provided in connection with recordkeeping and investment management. Net unrealized appreciation or depreciation in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants

Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reported as distributions based on the terms of the plan agreement.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Notes to Financial Statements

Subsequent Events

The Plan has evaluated subsequent events through July 25, 2023, the date these financial statements were available to be issued.

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

3. Investment Information Certified by the Trustee, Unaudited

The Plan's investments and notes receivable from participants are held by the Trustee in a trust for the Plan. The investment assets, transactions, income and notes receivable from participants, as presented in the accompanying financial statements and supplemental schedule, were certified to be complete and accurate by the Trustee as of December 31, 2022 and 2021 and for the year ended December 31, 2022.

The following is a disclosure of individual investments, as a percentage of net assets available for benefits, which represent a significant concentration as of December 31, 2022 and 2021:

	2022	2021
Fidelity 500 Index	20 %	21 %
Fidelity Contrafund Class K6	*	12

*not a significant concentration

4. Fair Value Measurements

The Plan follows U.S. GAAP for measuring, reporting and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Bates White, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021:

Mutual funds and the money market fund are based on quoted market prices of the shares held by the Plan at year-end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

Common collective trust determines fair value using net asset value (NAV) as a practical expedient, which is determined based on the underlying NAV of the common collective trust. Accordingly, these investments are not included within the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Investments Measured Using NAV per Share Practical Expedient

The table below presents the fair value of those investments that determine fair value using NAV as a practical expedient, in addition to the unfunded commitment, redemption frequency and redemption notice period by class within each category as of December 31, 2022 and 2021:

December 31, 2022

5. Related-Party and Party in Interest Transactions

Certain plan investments are shares of mutual funds and a money market fund managed by an affiliate of the Trustee, to whom the Plan pays certain administrative and transactional fees. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as exempt party in interest transactions under ERISA, which are exempt from the prohibited transaction rules.

6. Tax Status

The Plan is organized as a pre-approved plan intended to satisfy the tax qualification requirements under Section 401(a) of the IRC; therefore, the funds of the Plan are intended to be exempt from federal income taxes under the applicable sections of the IRC. On June 30, 2020, Fidelity received a favorable determination letter from the Internal Revenue Service for its nonstandardized profit sharing plan with a cash or deferred arrangement. The Plan has been amended since the date of the determination letter; however, the plan administrator and management believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits reported on the accompanying financial statements to the Form 5500 as of December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
