Independent Auditor's Report

To the Participants and Plan Administrator of
Marathon Oil Company Thrift Plan

Opinion

We have audited the financial statements of the Marathon Oil Company Thrift Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the Plan's financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Plan Management for the Plan's Financial Statements

Plan management is responsible for the preparation and fair presentation of the Plan's financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Plan's financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Plan's financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the Plan's financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Plan's Financial Statements

Our objectives are to obtain reasonable assurance about whether the Plan's financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the

McConnell Jones

override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Plan's financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Plan's financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Plan's financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the Plan's financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2022, and the schedule of non-exempt transactions, (collectively, Supplemental Schedules), are presented for purposes of additional analysis and is not a required part of the Plan's financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the Plan's financial statements. The information has been subjected to the auditing procedures applied in the audits of the Plan's financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Plan's financial statements or to the Plan's financial statements themselves, and other additional procedures in accordance with U.S. GAAS.

In forming our opinion on the Supplemental Schedules, we evaluated whether the supplemental schedules, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying Supplemental Schedules is fairly stated, in all material respects, in relation to the Plan's financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Marathon Oil Company
Thrift Plan
Notes to the Financial Statements
December 31, 2022 and 2021

1. Description of Plan

The following brief description of the Marathon Oil Company Thrift Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description or the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution thrift savings plan. The Plan covers substantially all regular and casual employees of the following entities, which are participating employers in the Plan: Marathon Oil Corporation ("MRO"), Marathon Oil Company (the "Company"), and Marathon Service Company. All participating employers, other than MRO, are wholly owned subsidiaries of MRO. An eligible employee may participate in the Plan by making contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Amendments and Changes

Effective January 1, 2020, and August 13, 2021, certain governance updates were made to the Plan. Additionally, in 2020, as permitted under the Coronavirus Aid, Relief, and Economic Security Act of 2020 (the "CARES Act"), required minimum distributions ("RMDs") were generally waived, and Coronavirus-related distributions were implemented for the Plan. For RMDs that were made, changes required by the Setting Every Community up for Retirement Enhancement Act of 2019 (the "SECURE Act") were implemented for the Plan, such as the RMD starting-age increase to 72 for certain participants. The Plan was amended effective April 21, 2021, to modify the Plan's Roth in-plan conversion feature by including the option of automated Roth in-plan conversions. If a participant elects this option, following implementation of the election, any new contributions directed to the participant's after-tax account are converted automatically to the participant's Roth account under the Plan. For newly hired and rehired eligible employees who do not timely opt out of automatic enrollment in the Plan and are automatically enrolled in the Plan, the Plan was amended effective January 1, 2022, to provide that a return of automatic contributions is no longer permitted with respect to contributions made to the Plan on or after January 1, 2022. The Plan was also amended effective April 1, 2022, to make an installment settlement option, which had only been available to retired and spouse beneficiary members, also available to other terminated employee and non-spouse beneficiary members with vested balances under the Plan.

Contributions

Participants may elect to contribute 1% to 60% of their eligible pay, as defined in the Plan document, each pay period on a combined 401(k) pre-tax, after-tax, and/or Roth after-tax basis, up to the annual IRS limits. The 2022 annual IRS contribution limit is \$20,500 for participants age 49 or younger and \$27,000 for participants who are or who will attain at least age 50 by the end of the 2022 calendar year.

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

December 31, 2022 and 2021

The contributions of highly compensated employees are subject to additional limitations pursuant to the provisions of Sections 401(k) and 401(m) of the Internal Revenue Code of 1986, as amended ("Code"). Compensation of a participant taken into account under the Plan is limited to \$305,000 and \$290,000 for 2022 and 2021, respectively, as provided in Code Section 401(a)(17).

Newly hired or rehired eligible employees will automatically be enrolled into the Plan at a 7% pre-tax contribution rate, unless the participant opts out or proactively enrolls in the Plan. With this automatic enrollment, participant plan contributions will be invested in the applicable default age based FIAM Blend Target Date Commingled Pool Class Q fund if an investment election is not on file for a participant.

Participants may also make rollover contributions or direct-plan transfer contributions of qualified distributions from the qualified plans of the Company, its subsidiaries, its affiliates, and any other qualified plans or conduit individual retirement accounts ("IRA") upon specific authorization and subject to such terms and conditions as set forth by the Plan Administrator.

To the extent that the Company has accumulated earnings and profits, the Company will match on a dollar for dollar basis each participant's after-tax, pre-tax/Roth 401(k), and catch-up contributions to the Plan up to an aggregate of 7 percent of each participant's eligible gross pay.

Valuation of Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings (losses) based on the participant's relative investment holdings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully and immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in the Company contributions, plus actual earnings thereon, in any of the following ways: at death; after three years of vesting service with the Company or another employer within the controlled group of MRO; or upon attainment of age 65.

Participant Loans

Participants may borrow from their fund accounts at a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are collateralized by the balance in the participant's account and bear interest rates that ranged from 3.25 percent to 6.25 percent throughout 2022 and 3.25 percent to 5.5 percent throughout 2021, determined in accordance with Plan provisions. Principal and interest is paid ratably through payroll deductions for active employees and through automatic payments for participants not receiving pay and retirees. The loans must be repaid within a certain period of time as specified in the Plan's loan procedures. The terms of these Plan loan notes range from a minimum of 12 months to a maximum of 60 months. Upon a participant's termination of employment from a participating employer and all companies within the controlled group of MRO prior to being a retired member, an outstanding loan generally becomes payable (with a limited exception for parties-in-interest). Effective January 1, 2019, generally no more than two outstanding loans at one time are allowed per participant under the Plan.

Marathon Oil Company
Thrift Plan
Notes to the Financial Statements
December 31, 2022 and 2021

Hardship Withdrawals

Hardship withdrawals are available to participants. A hardship withdrawal is a withdrawal due to an immediate and significant financial need at a time when other resources are not readily available. Reasons for hardship withdrawals are limited to specific IRS requirements. As noted above, as permitted under the CARES Act, Coronavirus-related distributions were also implemented for the Plan in 2020 and permitted through the end of 2020.

Payment of Benefits

On termination of service, unless a participant elects otherwise or as required by the Code, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The participant alternatively may elect to defer the commencement of benefits until benefits are required to commence under the Code's applicable RMD rules. However, if a participant's vested account balance is \$5,000 or less when he or she terminates employment from all companies within the controlled group of MRO or thereafter, if he or she does not initiate a full distribution or rollover, the participant's vested account balance will be distributed. In such case, vested accounts of \$1,000 or less will be paid as a lump sum distribution, and in accordance with the provisions of the Code, mandatory distributions equal to or less than \$5,000 but greater than \$1,000 require automatic rollover to an IRA for participants who fail to make an active election otherwise available under the Plan. A retired member or a spouse beneficiary member may withdraw, during any year, all or any portion of the remaining balance in his or her account, subject to certain restrictions. An installment settlement option is available to retired and spouse beneficiary members subject to certain requirements and restrictions; effective April 1, 2022, this option is also available to other terminated employee and non-spouse beneficiary members with vested account balances under the Plan.

Forfeitures

Non-vested participants whose services with the Company have been terminated will forfeit their entire Company-matching contribution and earnings thereon when either of the following takes place: (1) they remove their participant contributions from the Plan, or (2) they do not regain employment within five years of termination. Company contributions and earnings thereon are eligible for reinstatement, should a member be rehired prior to the limitation indicated under the Plan. Total forfeitures of \$395,000 for the year ended December 31, 2022 were used to reduce employer matching contributions made to the Plan. The forfeited balance held in the Plan as of December 31, 2022 and 2021 was \$894,766 and \$557,497, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

December 31, 2022 and 2021

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year. Investment related expenses are also included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Administration of Plan Assets

All costs, expenses, and fees incurred in administering the Plan, to the extent not paid by the Company, are incurred by the participants. Fees or charges for investment management services are not paid by the Company but are borne by the participants electing such services. Any taxes applicable to the participants' accounts are charged or credited to the participants' accounts by Fidelity Investments Institutional Operations Company, Inc ("FIIOS").

3. Fair Value Measurements

The FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. There are three approaches for measuring the fair value of assets and liabilities: the market approach, the income approach, and the cost approach, each of which includes multiple valuation techniques. This hierarchy consists of three broad levels:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities and have the highest priority;
- Level 2 inputs consist of quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in inactive markets, or inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- Level 3 inputs are unobservable and significant to the fair value measurement and have the lowest priority.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following provides a description of the valuation techniques employed for each major plan asset class at December 31, 2022 and 2021.

Common stock - Investments in common stocks are valued using a market approach at the closing price reported in an active market and is therefore considered Level 1.

Self-Directed Brokerage Account Investments - Participants can open a self-directed brokerage account within the Plan that allows participants to buy and sell stocks, corporate bonds, treasury securities, and other securities on the active market available through Fidelity BrokerageLink ("BrokerageLink"). These securities are valued using a market approach at the closing price reported in an active market and are therefore considered Level 1.

Mutual funds - Investments in mutual funds, including money market mutual funds, are valued using a market approach at the net asset value of shares held. The net asset value is generally based on prices from a public exchange, which is normally the principal market on which the investments are traded, and is considered Level 1. Interest-bearing cash includes cash on deposit.

Notes to the Financial Statements

December 31, 2022 and 2021

Common Collective Trusts ("CCTs") - The Fidelity Freedom Blend Commingled Pools, the Fidelity Growth Company Commingled Pool, the Fidelity Contrafund Commingled Pool and the MIP II are CCTs. The Fidelity Freedom Blend Commingled Pools seek high total return until the pool's targeted retirement year. Thereafter, the pool's objective will be capital appreciation. These pools invest in a diversified portfolio of equity, bond and short-term products. The underlying pools may use futures contracts, to remain fully invested, manage cash flows efficiently, or facilitate asset allocation. Each target date pool's target asset allocation percentages will become more conservative over time by reducing allocations to equity and increasing allocations to fixed income and/or short-term products. The growth company CCT's objective is capital appreciation over a market cycle relative to the Russell 3000 Growth Index. The CCT invests primarily in common stocks of domestic and foreign issuers with the potential for above-average growth with similar market capitalization to the Russell 3000 Growth Index. Growth may be measured by factors such as earnings or revenue. The contrafund CCT's objective is capital appreciation over a market cycle relative to the S&P 500 Index. The CCT invests primarily in common stocks of domestic and foreign issuers with a focus on companies that have strong long-term growth prospects and whose value is not fully recognized by the public. The MIP II invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds. Under the terms of the contracts, the assets of the fund are invested in fixed income securities and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. The fund seeks principal preservation to maintain a stable net asset value (NAV) of \$1 per share. There are no redemption restrictions on any of these CCTs. There are also no unfunded commitments attributable to any of the CCTs. Investment in CCTs are valued using a market approach at the net asset value of units held, but investment opportunities in such funds are limited to institutional investors on behalf of defined contribution plans. CCTs have been reported in the fair value table without leveling since fair value is measured using the net asset value per share practical expedient.

The following tables set forth the Plan's total investments:

4. Party-in-Interest Transactions

The trustee of the Plan's trust (Trustee) provides certain accounting and administrative services to the Plan for which approximately \$394,711 and \$249,679 of expenses were charged for the years ended December 31, 2022 and 2021, respectively.

Certain employees and officers of the Company, who may also participate in the Plan, perform administrative services to the Plan at no cost.

Shares of MRO common stock previously could be purchased directly from MRO or on the open market. MRO common stock held in the Plan as of December 31, 2022 and 2021 was \$14,962,102 and \$13,513,869, respectively. All shares of the MRO common stock were purchased on the open market until December 30, 2016, when MRO stock became a frozen investment option in the Plan. Certain Plan investments, amounting to \$640,217,978 and \$817,173,076 at December 31, 2022 and 2021, are shares of mutual funds managed by FIIOS, the target date CCTs are managed by FIAM (Fidelity Institutional Asset Management) and the other CCT's are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

The Plan also holds notes receivable representing participant loans that qualify as party-in-interest transactions.

All party-in-interest transactions noted above are deemed exempt from the prohibited transaction rules.

Notes to the Financial Statements

December 31, 2022 and 2021

The Plan Administrator has determined in 2022 that a small number of participant-directed transactions effecting the purchase of publicly traded MRO bonds in the Plan's self-directed brokerage accounts through BrokerageLink (the "Self-Directed Brokerage Window"), and the resulting holdings of those bonds within the Plan, constituted nonexempt party-in-interest transactions. The Plan Administrator has taken steps necessary to correct these. MRO has filed the appropriate excise tax returns with the Internal Revenue Service ("IRS") and paid the associated excise tax and, if applicable, will pay any associated penalties and interest. Any such liability has or will be paid solely by MRO, and the administrative expenses associated with filing the excise tax returns have been paid solely by MRO. The Plan has no liability in relation to the excise tax returns; accordingly, no expense or liability is recorded in the Plan's financial statements. Neither the Plan, nor any participating employer, took action to draw participant attention to the possibility of investing in employer securities through the Self-Directed Brokerage Window. The terms of the Self-Directed Brokerage Window prohibit the purchase of employer securities, and the occurrence of these transactions was in error.

5. Plan Termination

Although it has not expressed any current intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

6. Tax Status

The IRS has determined and informed the Plan Administrator by letter dated June 11, 2015, that the Plan, as amended, meets the requirements of Code Section 401(a), and the trust is not subject to tax under present income tax law. This determination letter was applicable for the amendments executed September 24, 2014 and prior. The Plan Administrator and legal counsel believe that the Plan, as amended and restated, is designed and is currently being operated in compliance with the applicable requirements of the Code.

GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, the level of uncertainty related to changes in the value of investment securities and current market volatility, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

8. Subsequent Events

In December 2022, the SECURE 2.0 Act of 2022 (the "SECURE 2.0 Act") was enacted, which built on the original SECURE Act's focus on expanding retirement plan coverage and participation. The Plan will incorporate the SECURE 2.0 Act changes in its Plan document by the deadlines prescribed in the legislation. The Plan was amended effective January 1, 2023, to incorporate certain governance, administrative, and investment related changes.

Events and transactions subsequent to the balance sheet date have been evaluated through June 30, 2023, the date these financial statements were issued for potential recognition or disclosure in the financial statements.
