REPORT OF INDEPENDENT AUDITORS

July 28, 2023

To the Trustee and Administrative Committee
Areté Associates Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Areté Associates Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Areté Associates Employee Stock Ownership Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Areté Associates Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Areté Associates Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Areté Associates Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Areté Associates Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan Description

The following description of the Areté Associates Employee Stock Ownership Plan provides general information. Participants should refer to the Plan agreement for complete information.

General

Areté Associates (Company) established the Areté Associates Employee Stock Ownership Plan (Plan) effective December 1, 2003. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the administrative committee, with an independent third-party trustee serving as the Plan's trustee.

The Plan purchased Company common stock using the proceeds of a borrowing from the Company, and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of seven years by Company contributions to the trust fund. As the Plan makes each payment, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated common stock (Allocated), and
2. common stock not yet allocated to employees (Unallocated).

Eligibility

All full-time employees of the Company are eligible to participate in the Plan as of the date of hire or designation as a full-time employee, provided they have attained 18 years of age.

Voting Rights

Company stock held in the Trust is voted by the Trustee on most issues; however, the Plan provides that currently employed participants are entitled to direct the Trustee as to the exercise of voting rights attributable to shares allocated to his or her account. The Trustee is required to vote any unallocated shares, and any allocated shares for which instructions have not been given by a participant, in the proportion of shares voted by participants.

1. Plan Description (continued)

Payment of Benefits

Except for distributions made pursuant to diversification elections (discussed below), distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions of benefits are paid in substantially equal periodic payments (not less frequently than annually) and generally distributed over a period of five years. The Plan document does not require distribution of any portion of a participant's account which consists of Company stock acquired with the proceeds of an exempt loan prior to the close of the Plan year in which such loan is repaid in full. During the year ended December 31, 2022, the Plan repurchased 30,060 shares from participants at prices determined from the independent appraisal. At December 31, 2022, terminated participants with balances valued at $4,132,449 elected to withdraw from the Plan, with the distribution of their accounts to occur in 2023.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to the participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account, and forfeitures of terminated participants' nonvested accounts. Allocations are made for any participant who was an employee on any day of the plan year, and are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting

Employees earn one year of service for each plan year in which 1,000 or more hours are worked. For participants hired before 2020, benefits become 100% vested after two years of service. For participants hired after 2019, benefits become 100% vested after four years of service. If service terminates due to retirement, death or full disability, benefits become 100% vested regardless of years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. Plan Description (continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a distribution in cash or to another qualified account.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2022 and 2021 totaled $120,220 and $63,517, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

2. Significant Accounting Policies

Nature of Business of Plan Sponsor

Areté Associates is a California corporation that performs applied research as a contractor and subcontractor under primarily fixed price and cost-plus-fee contracts with the U.S. Government.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. The Areté Associates Employee Stock Ownership Plan relies significantly on the use of estimates and forecasts in determining the valuation of the Areté Associates common stock.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

2. Significant Accounting Policies (continued)

Valuation of Investments

The shares of Areté Associates common stock are valued at estimated fair value as determined by the Trustee with the assistance of an independent appraisal company. See Note 7 for a discussion of fair value measurements.

Administrative Expenses

All significant expenses of maintaining the Plan are paid by the Company.

Benefits

Benefits are recorded when paid.

Date of Management's Review

The plan administrator has evaluated subsequent events through July 28, 2023, which was the date the financial statements were available to be issued, and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

3. Administration of Plan Assets

The Plan's assets are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

4. Employer Contributions

Annual employer contributions to the Plan are determined by the Company's Board of Directors, up to a maximum of the lesser of 100% of gross compensation or $61,000 from this Plan and any other defined contribution plan of the Company. Employee contributions to the Plan are not permitted. Contributions are made in cash and/or common stock of the Company, in an amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest on its term loan.

5. Income Tax Status

The IRS has determined and informed the plan sponsor by a letter dated June 21, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

6. Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. Fair Value Measurements

The Plan's investments are reported at estimated fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following table presents fair value measurement information for the Plan's investment in Company common stock.

	Fair Value Measurements at Reporting Date Using:	
	Fair Value	Significant Unobservable Inputs (Level 3)
December 31, 2022		
Areté Associates common stock	$ 62,513,708	$ 62,513,708
December 31, 2021		
Areté Associates common stock	$ 55,761,673	$ 55,761,673

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other that quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

7. Fair Value Measurements (continued)

Level 3 Fair Value Measurements

The fair value of the Areté Associates common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, return on equity, market comparables and the estimated fair value of company assets and liabilities, and applicable discounts and premiums. The following table provides further detail of Level 3 measurements:

Areté Associates common stock at December 31,	2022	2021
Beginning balance	$ 55,761,673	$ 46,905,625
Purchases, Issuances & Settlements	(1,343,703)	(1,123,670)
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	8,095,738	9,979,718
Ending balance	$ 62,513,708	$ 55,761,673
Total gains or losses for the year included in changes in net assets available for benefits attributable to the change in unrealized gains or losses relating to investments still held at the reporting date	$ 8,095,738	$ 9,979,718

Gains and losses (realized and unrealized) included in the changes in net assets available for benefits are reported in net unrealized appreciation in fair value of investments.

8. Related Party and Party-in-Interest Transactions

The Plan invests in common stock of the Company, which is a related party. In addition, the Plan has a number of service providers which are parties in interest under ERISA. The Company pays most of the expenses of maintaining the Plan, which are party in interest transactions.

9. Investment in Employer Securities

The Plan's investment in Areté Associates common stock is presented in the following table:

	December 31, 2022		December 31, 2021	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	1,003,229	214,175	968,710	278,755
Cost	$ 10,422,737	$ 3,713,790	$ 9,528,726	$ 4,833,608
Fair Value	$ 51,515,834	$ 10,997,874	$ 43,301,335	$ 12,460,338

10. Note Payable

The Plan has a note payable to the Company as follows:

	2022	2021
Note payable to the Company, bearing variable interest at the federal reserve rate plus 2.00%, with monthly principal payments of $115,000 beginning January 1, 2022 through December 31, 2025, $150,000 from January 1, 2026 through March 31, 2026 and a final payment of $105,462 in April 30, 2026.	$ 4,695,461	$ 6,075,462
	$ 4,695,461	$ 6,075,462

The scheduled amortization of the note for the next four years is as follows, for the Plan year ending December 31:

2023	$ 1,380,000
2024	1,380,000
2025	1,385,000
2026	550,461
	$ 4,695,461

10. Note Payable (continued)

The borrowing is collateralized by the unallocated shares of common stock. Each year, shares are released from the collateral as the note is repaid, according to the following formula: the total number of shares held as collateral (immediately before the release) multiplied by the ratio of total interest and principal payments for the year to total interest and principal payments remaining on the note. For the years ended December 31, 2022 and 2021, 64,580 and 57,969 shares, respectively, were released from the collateral.
