INDEPENDENT AUDITOR'S REPORT

Board of Trustees
International Union of Operating Engineers
Local 295-295C Employees Annuity Plan

Opinion

We have audited the accompanying financial statements of International Union of Operating Engineers Local 295-295C Employees Annuity Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of International Union of Operating Engineers Local 295-295C Employees Annuity Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of International Union of Operating Engineers Local 295-295C Employees Annuity Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about International Union of Operating Engineers Local 295-295C Employees Annuity Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

One Pennsylvania Plaza, Suite 3200 • New York, NY 10119 • 212.695.5003

— With offices in New Jersey and Maryland —

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of International Union of Operating Engineers Local 295-295C Employees Annuity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about International Union of Operating Engineers Local 295-295C Employees Annuity Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022 and the schedule of reportable transactions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of the Plan

The following brief description of the International Union of Operating Engineers Local 295-295C Employees Annuity Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a multi-employer defined contribution pension plan established on January 1, 2008 pursuant to a collective bargaining agreement between International Operating Engineers Local 295-B, C, D (the "Union"), and various employers in the refrigeration, heating, ventilation and air conditioning industries operating in the New York metropolitan region. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by a joint board of union and employer trustees, each group having equal representation.

Contributions

Contribution rates have been established under collective bargaining agreements entered into between the Union and the various employers. Each employer is required to make monthly contributions to the Plan at the rate(s) specified in its respective collective bargaining agreement.

Of the participating employers, two employers represented approximately 65% and 84% of contribution income for the years ended December 31, 2022 and 2021, respectively, and approximately 86% and 90% of contributions receivable for the years ended December 31, 2022 and 2021, respectively.

In addition, the Union, a related party, makes contributions to the Plan on behalf of its employees.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of the employer's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (Continued)

Vesting

A participant shall become fully vested in their account balance upon the earlier of reaching normal retirement age or accruing at least three years of service. A year of services is earned when a participant completes 1,000 hours of work with a contributing employer.

Payment of Benefits

A participant is entitled to receive, upon the earlier of the participant's death, total and permanent disability, early or normal retirement, the amount in his or her vested portion of their account. If a participant permanently terminates covered employment before any of the above events occur, the participant can receive a full distribution of the vested portion of the account. The normal form of benefit is a lump sum payment.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's losses and gains on investments bought and sold as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events and transactions through July 28, 2023, the date that the financial statements were available to be issued.

Note 3 - Concentrations of Credit Risk

Financial instruments that subject the Plan to concentrations of credit risk include cash, short-term investment fund and employers' contributions. The Plan maintains an account at a high-quality financial institution. Its deposit balances may, at times, exceed federally insured limits. The Plan has not experienced any losses on such accounts.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

**INTERNATIONAL UNION OF OPERATING ENGINEERS
LOCAL 295-295C EMPLOYEES ANNUITY PLAN
Notes to Financial Statements (Continued)
December 31, 2022 and 2021**

Note 4 - Fair Value Measurements (Continued)

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds and exchange-traded funds:

Mutual funds and exchange-traded funds are valued at the closing price reported on the active market on which the individual securities are traded.

**INTERNATIONAL UNION OF OPERATING ENGINEERS
LOCAL 295-295C EMPLOYEES ANNUITY PLAN
Notes to Financial Statements (Continued)
December 31, 2022 and 2021**

Note 4 - Fair Value Measurements (Continued)

Short-term investment fund:

The short-term investment fund is stated at cost which approximates fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2022:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2021:

Gains or losses (realized and unrealized) included in net (decrease) increase in net assets available for benefits for the periods above are reported in net (depreciation) appreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits.

Note 5- Tax Status

The Plan was established to qualify pursuant to Section 401(a) of the Internal Revenue Code ("IRC") as an organization exempt from federal income taxes. The Plan received a favorable tax determination letter dated September 16, 2015. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 6 - Related Party Transactions

The Union operates in a jointly administered office with the Plan and other related collectively bargaining employee benefit plans. Since these organizations coexist in the same premises, utilizing mutual resources, equipment and personnel to effectuate cost-savings and to minimize duplication of efforts, inter-fund relationships have been established on a continuing basis. Due from/(to) related entities balances result from the reimbursement of shared expenses, allocations of shared expenses or transfers of funds. Expenses charged to the Plan by these related party plans amounted to \$17,311 and \$19,706 for the years ended December 31, 2022 and 2021, respectively.

Due (to) related entity:		
IUOE Local 295-295B, C, D Welfare Fund	\$ (8,005)	\$ (2,345)

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Board of Trustees has the right at any time to terminate the Plan. Upon any full or partial termination, all amounts credited to the affected participants' combined accounts shall become 100% vested and not subject to forfeiture.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Contracts with Insurance Companies

Investment Contract with Insurance Company

The Plan entered into a traditionally fully benefit-responsive guaranteed investment contract with John Hancock Trust Company, LLC totaling \$368,416 for 2022. John Hancock Trust Company, LLC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

**INTERNATIONAL UNION OF OPERATING ENGINEERS
LOCAL 295-295C EMPLOYEES ANNUITY PLAN
Notes to Financial Statements (Continued)
December 31, 2022 and 2021**

Note 9 - Contracts with Insurance Companies (Continued)

Investment Contract with Insurance Company (Continued)

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by John Hancock Trust Company, LLC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that may limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.
