Independent Auditor's Report

Plan Administrator and Human Resources Committee
ImpactLife 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ImpactLife 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

ImpactLife 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the ImpactLife 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering substantially all employees of ImpactLife (the Company) who have completed one month of service and who are 18 years of age or older. Employees who have met the eligibility requirements can enter the Plan on the first day of the next month for elective deferral and matching contributions. A participant must also complete one year of service with at least 1,000 hours of service and be employed on the last day of the plan year to receive an allocation of the employer discretionary contribution. Employees who have met this eligibility requirement will enter the Plan quarterly on January 1, April 1, July 1 and October 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding policy: Participants may contribute up to, but not more than, 85% of their wages in the form of a payroll deduction. The Plan includes an automatic deferral feature, with a deferral percentage of 6%, unless the employee opts out of this feature. Also, effective annually on February 1, the elective deferral amount of all participants who have an automatic deferral amount or whose elective deferral percent is less than 10% shall be increased by 1% per year until either their deferral amount reaches 10% of eligible compensation or the participant affirmatively opts out. This provision shall not apply to those participants who have made a contrary election within the 12 months immediately preceding the initial automatic increase, have made a specific dollar election or have previously declined the automatic increase option.

In addition, the Company makes matching contributions of 100% of the first 4% of eligible compensation that a participant contributes to the Plan. The Plan also allows the Company to make a discretionary contribution, which is determined annually by the Company's board of directors. No discretionary contribution was made for the year ended December 31, 2022.

Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Participant accounts: Each participant's account is credited with the participant's contribution, the employer matching contributions, the employer discretionary contribution and an allocation of plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed investments: The Plan allows each participant to select their own investment mix in which to invest their salary deferral and employer contributions. Participants can make changes to their investment mix on a daily basis. If a participant does not make investment elections, their funds are deposited into the appropriate Principal Target Date Funds.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of service, a participant may elect to receive an amount equal to the value of their vested account balance in a lump-sum payment, installments or a combination of lump-sum and installments. If the participant's vested account balance does not exceed \$1,000, then the participant will receive their benefit in a lump-sum payment. In the event of a mandatory distribution for participants with vested account balances greater than \$1,000, but less than \$5,000, their benefit will be rolled over to an individual retirement account (IRA). The Plan also allows for hardship withdrawals that meet safe harbor requirements defined in the Plan document and for in-service distributions by participants after age 59½.

Vesting: Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the employer matching contributions, employer discretionary contribution and earnings thereon is based on years of service. The participant is 0% vested for less than two years of credited service and then vests 20% per year of credited service until they are 100% vested after six years of credited service. Participants become 100% vested the later of the date upon reaching normal retirement age of 65 or the sixth anniversary of the year in which the participant commenced participation in the Plan if still an active employee.

Forfeitures: Forfeitures of terminated participants' nonvested employer portion of their accounts are used to reduce future employer contributions. Forfeitures used to reduce employer contributions were \$177,088 for the year ended December 31, 2022. Unused forfeitures included in net assets available for benefits were \$5,317 and \$8,510 as of December 31, 2022 and 2021, respectively.

Administrative expenses: The Plan paid investment and administrative expenses of \$96,990 for the year ended December 31, 2022. All other administrative expenses were paid by the Company.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis. These amounts are included in net appreciation (depreciation) of fair value of investments on the statement of changes in net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events through August 1, 2023, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4. Tax Status

The Plan has adopted a non-standardized pre-approved plan sponsored by Principal Life Insurance Company. The pre-approved plan has received an opinion letter from the Internal Revenue Service as to the pre-approved plan's qualified status. The pre-approved plan opinion letter has been relied upon by the Plan. The Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5. Information Certified by the Plan Trustee

The following is a summary of the asset information as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information provided by the plan trustee, Delaware Charter Guarantee & Trust Company d/b/a/ Principal Trust Company (Principal) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information, which appears throughout the financial statements and ERISA-required supplemental schedule, related to the following assets:

Note 6. Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common collective trust funds: One of these investments is a stable value fund managed by Galliard as of December 31, 2022 and by Wells Fargo as of December 31, 2021 that invests primarily in fully benefit-responsive investment contracts and is valued at the net asset value (NAV) of units of the collective trust. The other investments are collective investment trusts managed by Principal Trust Company (Principal) that invest primarily in collective investment trusts, mutual funds and pooled separate accounts managed by Principal. The NAV is used as a practical expedient to estimate fair value for all of these funds. This practical expedient would not be used if it is determined to be probable that investments would be sold for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of any of the collective trust funds, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued based on unadjusted quoted prices in the active markets in which they are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Investments and Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	Investments at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 11,488,442	\$ -	\$ -	\$ 11,488,442
Investments measured at NAV (a)				18,234,867
Total investments				<u>\$ 29,723,309</u>

	Investments at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 14,761,965	\$ -	\$ -	\$ 14,761,965
Investments measured at NAV (a)				20,370,843
Total investments				<u>\$ 35,132,808</u>

(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments presented using the NAV per share (or its equivalent) practical expedient as of December 31, 2022 and 2021:

	Net Asset Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2022	2021			
Common collective trust funds:					
Managed by Galliard	\$ 1,194,542	\$ -	\$ -	Daily	None
Managed by Wells Fargo	-	846,567	-	Daily	None
Managed by Principal	17,040,325	19,524,276	-	Daily	None
	<u>\$ 18,234,867</u>	<u>\$ 20,370,843</u>			

Note 7. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Principal. Principal is the plan trustee as defined by the Plan and, therefore, transactions with investments managed by the trustee qualify as party-in-interest transactions. Administrative fees paid to Principal during the year ended December 31, 2022, were approximately \$66,000, and fees paid to Morgan Stanley (a plan consultant) were approximately \$31,000.

Note 8. Risks and Uncertainties

The investments of the Plan are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.
