Independent Auditor's Report

The Rio Tinto America Inc. Benefits Governance Committee
Rio Tinto Alcan 401(k) Savings Plan for Former Employees
South Jordan, Utah

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Rio Tinto Alcan 401(k) Savings Plan for Former Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

BDO USA, P.A., a Delaware professional service corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For

information included in the supplemental schedule that agrees to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agrees to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Rio Tinto Alcan 401(k) Savings Plan for Former Employees (the Plan or the Rio Tinto Alcan Plan) provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering former Alcan employees of a wholly owned subsidiary of Rio Tinto plc (the Parent, Company, or Plan Sponsor) with balances from the previous Alcan plans, which merged into the Plan. Eligibility for the Plan was governed by the requirements that were in place at the time the participant was eligible for that specific plan. Refer to the plan document for further details.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The trustees of the Plan are Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. (the Trustees or Prudential). Prudential is also the recordkeeper of the Plan. On April 1, 2022, Prudential was acquired by Empower Annuity Insurance Company of America, the parent company of Empower Retirement, LLC (Empower). On October 3, 2022, Prudential Retirement Insurance and Annuity Company was renamed Empower Annuity Insurance Company (EAIC). The Trustees hold all the assets of the Plan in accordance with provisions of the agreement with the Company.

Contributions

The Plan does not allow participant or Company contributions.

Participant Accounts

Each participant's account is credited with an allocation of Plan earnings (losses), revenue-sharing credits (if applicable), and administrative expenses. Allocations are based on participant earnings (losses), or account balances, as defined. The benefit to which a participant is entitled is the benefit which can be provided from the participant's vested account. Terminated participants are charged a quarterly fee to offset recordkeeping services.

Participant-Directed Options for Investment

Participants have the option to allocate their account balances among various investment options. All choices vary in types of investments, rates of return, and investment risk. Participants may elect to have all or part of their account balances invested in one fund, transferred to another fund, or in any combination. Participants also have the option to invest in funds that are asset class weighted based on the participant's retirement date. The funds assume participants will retire upon reaching age 65.

Vesting

Participant vesting is governed by the underlying vesting schedules of the Plan they were participating in at the time of termination with the Parent.

Payment of Benefits

All participants and beneficiaries are immediately eligible for distributions. The distribution will be equal to the value of the participant's vested interest in the Plan. Participants or beneficiaries will be paid in accordance with the provisions of the Plan.

Forfeitures

Forfeited non-vested accounts are used to pay administrative expenses. At December 31, 2022 and 2021, forfeited non-vested accounts were approximately $4,400 and $500, respectively. Approximately $1,500 in forfeitures was used to pay administrative expenses for the year ended December 31, 2022.

If the distribution of a participant's account is outstanding for 181 days or more, and reasonable efforts were made to locate the participant, such participant's benefit may be forfeited. Any forfeitures from the Plan can be utilized to reinstate benefits should a participant or beneficiary make a claim for the forfeited benefit.

Notes from Participants

The Plan does not allow participants to take loans from the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan reflect transactions on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan management to make estimates and assumptions, which affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities and changes therein, at the date of the financial statements, and additions and deductions during the reporting period. Actual results could differ from those estimates.

Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, currency exchange rate, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. The Plan's investment in the Invesco Stable Value Fund B1 and State Street S&P 500 Index K Fund represented 23.5% and 30.9% of the Plan's total investment balance, respectively, at December 31, 2022. The Plan's investment in the Invesco Stable Value Fund B1, State Street S&P 500 Index K Fund, and Meridian Growth Institutional Class Fund represented 19.9%, 31.0%, and 10.7% of the Plan's total investment balance, respectively, at December 31, 2021. The Rio Tinto America

Inc. Savings Plan Investment Committee (Investment Committee) monitors investment performance on a quarterly basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price, which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and/or Plan Trustees. See Note 4 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year. Realized gains and losses related to sales of investments are recorded on a trade-date basis. Expenses are recorded on the accrual basis. Capital gains are included in the net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid by the Plan.

Administrative Expenses

Certain investment advisor and other administrative fees were paid from the Plan for the year ended December 31, 2022. The Company provides accounting and other services for the Plan at no cost to the Plan. All other expenses related to administering the Plan were paid by the Company, and were excluded from these financial statements.

The Plan has several fund managers, which manage the investments held by the Plan. Fees for certain investment fund management services are included as a reduction of the return earned on each fund.

Certain fees have been withdrawn from participant accounts and are held in an ERISA fee account within the Plan until they can be paid out to the service providers.

3. Information Certified by the Plan's Trustees

The Plan Sponsor has elected the method of annual reporting compliance permitted by ERISA Section 103 (a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Bank & Trust, F.S.B. and Empower Annuity Insurance Company (formerly known as Prudential Retirement Insurance and Annuity Company), which are qualified institutions, have certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Interest and dividend income and net depreciation in fair value of investments, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.

- Investment amounts included in the notes to financial statements.
- All investment information included in the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. The framework provides a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets, which the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds - Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds are open-end mutual funds, which are registered with the U.S. Securities and Exchange

Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded.

Stable Value Fund - Collective Investment Fund - The stable value fund is valued at NAV per unit as a practical expedient, which is calculated based on the fair values of the underlying investments. This practical expedient would not be used if it is determined to be probable the fund will sell the investment for an amount different from the reported NAV. The underlying investments include synthetic guaranteed investment contracts (GICs) and traditional GICs, for which contract value is used as the fair value, since contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require 12 months' notification in order to ensure that security liquidations will be carried out in an orderly manner.

Target Date Funds - Collective Investment Trusts - The target date funds are valued at NAV per unit as a practical expedient, which is calculated based on the fair values of the underlying investments. This practical expedient would not be used if it is determined to be probable the fund will sell the investment for an amount different from the reported NAV. Equities and other exchange-traded instruments are valued at the last sale price or official market closing price on the primary exchange on which the instrument is traded before the NAV of the funds are calculated on a valuation date. Certain foreign equity instruments, as well as certain derivatives with equity reference obligations, are valued by applying international fair value factors provided by approved pricing services. The factors seek to adjust the local closing price for movements of local markets post-closing, but prior to the time the NAVs are calculated. Investments in open-end investment companies excluding exchange-traded funds (Underlying Funds) are valued at each Underlying Fund's NAV per share as of the report date. Fixed-income instruments are valued based on prices received from approved affiliated and unaffiliated pricing vendors or third-party broker-dealers. Futures contracts are generally valued on the basis of available market quotations. In the event current market prices or quotations are not readily available or deemed unreliable by the fund trustee, the fair value of the underlying fund will be determined in good faith by the fund trustee using alternative fair valuation methods. Participant transactions (purchases and sales) may occur daily, at NAV per unit. There are no restrictions on redemption.

Collective Trust Funds - The collective trust funds are valued at the NAV per unit as a practical expedient, which is based on the fair values of the underlying investments using a market approach. This practical expedient would not be used if it is determined to be probable the fund will sell the investment for an amount different from the reported NAV. Underlying equity investments for which market quotations are readily available are reported at the last reported sale price on their principal exchange, market or system on valuation date, or official close price of certain markets. If no sales are reported for that day, investments are valued at the last published sales price, the mean between the last reported bid and asked prices, or at fair value as determined in good faith by the trustee of the fund. Underlying short-term investments are stated at amortized costs, which approximates fair value. Underlying registered investment companies or collective investment funds are valued at their respective NAV. Underlying-fixed income investments are valued based on the basis of valuations furnished by independent pricing services. In the event current market prices or quotations are not readily available or deemed unreliable by the fund trustee, the fair value of the underlying fund will be determined in good faith by the fund trustee using alternative fair valuation methods. Participant transactions (purchases and sales) may occur daily, at NAV per unit. There are no restrictions on redemption.

Pooled Separate Account - The fund is valued based on the redemption price of units held by the Plan, which is based on the fair value of the separate account's underlying assets. Unit values are determined daily by the issuer by applying the NAV of the underlying fund less a management fee. The following tables set forth, by level within the fair value hierarchy, the Plan's fair value measurements:

December 31, 2022

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 26,538,605	$ -	$ -	$ 26,538,605

Target date funds: collective investments trusts				14,968,907
Collective trust funds				34,469,182
Pooled separate account				7,724,626
Total Investments, measured at NAV				82,809,117
Total Investments, at fair value				$ 109,347,722

December 31, 2021

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 34,053,193	$ -	$ -	$ 34,053,193
Total Assets in the Fair Value Hierarchy	$ 34,053,193	$ -	$ -	34,053,193
Investments measured at NAV[(a)]:				
Stable value fund: collective investment trust				27,387,947
Target date funds: collective investments trusts				19,188,815
Collective trust funds				43,674,830
Pooled separate account				13,578,340
Total Investments, measured at NAV				103,829,932
Total Investments, at fair value				$ 137,883,125

(a) In accordance with Accounting Standards Codification Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation, which may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV.

The following table includes categories of investments within the Plan where NAV is available as a practical expedient:

Investment Type	**Fair Value, December 31, 2022**	Fair Value, December 31, 2021	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable value fund: collective investment trust	**$ 25,646,402**	$ 27,387,947	None	Daily	12 months**
Target date funds: collective investment trusts	**14,968,907**	19,188,815	None	Daily*	None
Collective trust funds	**34,469,182**	43,674,830	None	Daily*	None
Pooled separate account	**7,724,626**	13,578,340	None	Daily*	None

* The fund trustee, in its sole discretion, reserves the right to value any contributions or withdrawals as of the next succeeding valuation date or another date as the fund trustee deems appropriate.

** The redemption notice period relates to Company-initiated events only.

5. Related Party and Party-in-Interest Transactions

Prudential and EAIC are the Plan's trustees and recordkeeper and, as such, transactions with Prudential and EAIC qualify as party-in-interest transactions. The Plan paid fees to Prudential of approximately $25,000 and accounting fees of approximately $1,500 during the year ended December 31, 2022. These transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants would become fully vested in their accounts.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 1, 2018 that the Plan and related trust were designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been restated and amended since receiving the determination letter; however, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe the Plan and the related trust are tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Subsequent Events

The Company has evaluated subsequent events through July 31, 2023 which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation, which require recognition or disclosure in the financial statements.
