INDEPENDENT AUDITORS' REPORT ON REQUIRED COMMUNICATIONS

To the Audit Committee
Fortifi Bank 401(k) Plan

We have audited the financial statements of Fortifi Bank 401(k) Plan ("the plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) for the year ended December 31, 2022, and we have issued our report thereon dated July 5, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets for investment of the plan ("investment information") held by Empower Trust Company, LLC, the directed trustee that holds custody of plan investments, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplementary information, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of generally accepted accounting principles ("GAAP"). Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under GAAP, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated March 28, 2023. We performed the audit according to the planned scope and timing previously communicated to you. Professional standards also require that we communicate to you the following information related to our audit.

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the plan, an employee benefit plan subject to ERISA as of and for the year ended December 31, 2022, in accordance with GAAP, we considered the plan's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any investment information held by the trustee that prepared and certified the investment information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses. In addition, because of the inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the plan are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of the other existing policies was not changed during 2022. We noted no transactions entered into by the plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

The financial statement disclosures are neutral, consistent and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditors' report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the plan's financial statements. After the third party administrator posted any suggested edits we had to the draft Form 5500, we identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. The material misstatements detected as a result of audit procedures that were corrected by management relate to relieving the other liability that was recorded in 2021 against other income. There were no uncorrected misstatements detected as a result of audit procedures.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 5, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the plan's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

Our responsibility for the ERISA-required supplementary information accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplementary information, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplementary information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matters for Your Consideration

- As part of our audit work, we select a sample of participants to verify certain demographic information, recalculate employee and employer contribution amounts, etc. We noted the following during our participant level testing.
 - ✓ In certain cases, we were unable to view deferral change notifications supporting participants' current deferral percentages. Election forms act as proof that the company provided the employee the opportunity to participate in the plan and that the deferral amount per payroll is consistent with that which was requested by the employee. Consider establishing a process that allows the company to maintain notifications received from Empower when an employee enrolls, changes deferral percentages or opts out of the plan (notifications could be printed out and maintained within hard copy personnel files or an electronic folder could be maintained as the notifications are received from Empower via email).
 - ✓ The plan documents specify all participants who were auto enrolled in the plan are auto increased 1% on October 1 of each year (until they reach a 10% deferral rate), unless they opt out. Since the auto increase is only applicable to certain individuals of the plan (only those who participate under the auto enroll feature), it is very important to maintain documentation to support why or why not certain individuals were auto increased. We recommend that each October 1, management review the list of all participants contributing to plan, identify which individuals were auto enrolled and/or have opted out of the auto increase, and compare this to who was actually changed in Empower. We remind you that although Empower has taken on the administrative task of the yearly auto increase, it is your ultimate fiduciary responsibility to ensure this is being processed correctly as the plan sponsor.
 - ✓ During our work we noted that two individuals were not enrolled timely due to an issue with the electronic feed. Plan management is confident the issue was isolated to the two individuals, whom they communicated with and they agreed that they were okay with not enrolling until the later date. Plan management is also confident that the error has subsequently been corrected. We would recommend performing periodic audits to ensure the electronic feed is being properly administered to mitigate these risks going forward.

- In 2018 there were various contributions allocated to incorrect participant accounts. This resulted in participants either having too much in their account, or too little. In 2019, a corrective contribution was made to make whole the participants who had too little in their accounts. In the previous year we recorded an other liability on the financials to take money from individuals accounts who had too much. During the 2021 exit meeting, it was decided that the plan would not be withdrawing money from the participants accounts who were funded too much, which resulted in the adjusting journal entry discussed above to relieve the other liability against other income. We would recommend maintaining documentation of the error and how it was subsequently corrected or forgiven.

This information is intended solely for the use of the audit committee and management of the plan and is not intended to be and should not be used by anyone other than these specified parties.
