The Plan Administrator
Community Action, Inc. Central Texas 401(k) Retirement Plan
San Marcos, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of Community Action, Inc. Central Texas 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of October 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of October 31, 2022, and for the year then ended, stating that the certified investment information, as described in Note 2 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2022 Financial Statements* section of our report

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP"); and
- the certified investment information in the accompanying 2022 financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2022 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2022 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2022 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2022 Supplemental Schedules Required by ERISA

The 2022 supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions is presented for purposes of additional analysis and is not a required part of the 2022 financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2022 financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2022 financial statements or to the 2022 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Report on the 2021 Financial Statements

We were engaged to audit the statement of net assets available for benefits of the Plan as of October 31, 2021. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by the qualified institution. Our audit report, dated August 11, 2022 indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the information certified by the qualified institution were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Community Action, Inc. Central Texas 401(k) Retirement Plan

Summary of Significant Accounting Policies

Description of Plan

The following brief description of the Community Action, Inc. Central Texas 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established and effective on November 1, 2009. All employees of Community Action, Inc. Central Texas (the “Company”) are eligible to participate in the Plan. The Plan provides for a qualified cash or deferred arrangement described in Section 401(k) of the Internal Revenue Code (the “Code”). The Plan is subject to the Employee Retirement Income Security Act of 1974 (“ERISA”).

Investment Options

The Company selects and makes available as investment options various investment securities. The Plan currently offers various mutual funds through a pooled separate account and a group annuity contract as investment options for participants. The contributions related to these accounts are invested in accordance with directives from the individual participants in investment securities available through the administrator as approved by the trustee.

Contributions

Participants may contribute a percentage of their annual compensation, up to the lesser of 100% of compensation or the maximum allowable not to exceed the limits of the applicable code sections of the Code, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also rollover amounts representing distributions from other qualified plans.

The Company may make a matching contribution to all employees as a percentage of the employee’s deferral compensation, as defined, subject to the limits provided by the Code.

For the years ended October 31, 2022 and 2021, the Company elected to contribute a matching contribution to all employees in an amount equal to a percentage of the participant’s elective deferral based on the participant’s years of service as set forth in the table below. Years of service are defined by the Plan’s years of service definition for vesting.

Years of Service	Matching Percentage
1-10	3%
11-15	4%
16 +	5%

Community Action, Inc. Central Texas 401(k) Retirement Plan

Summary of Significant Accounting Policies

Participant Accounts

Each participant's account is credited with the participant's deferral contribution, the Company's matching contributions, and earnings of the participant's individual account. The benefit to which each participant is entitled, is the benefit that can be provided from the participant's account.

Employees become eligible to participate for purposes of salary deferrals on their date of hire and receive matching contributions once they complete one year of service. Five hundred hours of service shall be required to constitute a year of eligibility service. Employees may stop their plan contributions at any time.

Vesting

Participants are immediately 100% vested in their deferral contributions. The Company's matching contribution becomes vested based on the participant's number of years of service with the Company according to the following schedule: 2 years – 25% vested; 3 years – 50% vested; 4 years – 75% vested; and 5 years or more – 100% vested. Five hundred hours of service must be completed to be credited with a year of vesting.

Forfeitures

Forfeitures of employer matching contributions are used to pay the plan's administrative expenses and to reduce future employer contributions. Any remaining forfeitures attributable to employer matching contributions are allocated to participants in the same proportion that the compensation for each participant bears to the total compensation of all participants.

Benefit Payments

The Plan provides for distributions to participants upon termination of employment, retirement, disability, death, or upon reaching the normal retirement age. Participants can request a distribution from their elective deferral account in the Plan before termination if they satisfy financial hardship criteria. Participants will receive their benefits as a lump-sum amount equal to the value of the participant's elective deferral account. In-service withdrawal of elective deferral and rollover accounts may be elected by participants who have reached 59 ½ years of age.

Administrative Expenses

Administrative costs and expenses, including trustee, legal, and accounting fees are paid out of the Plan unless paid directly by the Company. Expenses paid by the Company are excluded from these financial statements.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP") and present the net assets available for benefits and changes in those net assets.

Community Action, Inc. Central Texas 401(k) Retirement Plan

Summary of Significant Accounting Policies

Investment contracts held by a defined-contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to full benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for fair value measurement information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Recently Adopted Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this ASU modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement. The amendments in this ASU are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted. The Plan adopted this guidance effective November 1, 2020 with no impact on the Plan's financial statements.

Community Action, Inc. Central Texas 401(k) Retirement Plan

Notes to Financial Statements

1. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

2. Information Certified by the Plan's Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, American United Life Insurance Company has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

<i>October 31,</i>	2022	2021
Investments, at fair value	\$ 171,968	\$ 181,039
Fully benefit-responsive investment contracts, at contract value	3,078,048	3,769,141

3. Fair Value Measurements

The Plan follows the provisions of FASB ASC 820, *Fair Value Measurement*, (“FASB ASC 820”) which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2022 and 2021.

Pooled separate accounts: Amounts allocated to the pooled separate account are credited to a participant's account in the form of accumulation units. The value of an accumulation unit is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received. The value of each accumulation unit is published each business day. Each investment account is invested exclusively in shares of a specific mutual fund.

Notes to Financial Statements

Fully benefit-responsive investment contracts (Stable value fund): Valued based on amounts contributed or transferred to this investment less any withdrawals or transfers out plus all accrued interest as determined by American United Life Insurance Company (“AUL”). See Note 4 for additional information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value:

<i>October 31, 2022</i>	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ 3,078,048	\$ -	\$ -	\$ 3,078,048

<i>October 31, 2021</i>	Level 1	Level 2	Level 3	Total

4. Fully Benefit-Responsive Investment Contract with Insurance Company

The Plan holds an investment in the AUL Stable Value Account (“Fixed Option”). AUL maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Under the terms of the contract, participant-initiated transactions for the purpose of receiving benefits are allowed under the Plan for such events as retirement, death, disability, hardship, required minimum distribution, and allowable in-service withdrawal. These transactions are completed at contract value without conditions, limits, or restrictions. Benefits related to termination of employment receive the same treatment unless a termination is associated with a full or partial plan termination, the insolvency of the Plan sponsor, or aggregate terminations in any contract year exceed 20% of the full contract value as determined on the first day of that contract year. Under those unlikely events, a surrender charge may apply depending on the terms of the particular contract. There were no unfunded commitments related to this investment as of October 31, 2022 and 2021.

Funds are placed in a general account where they are invested in accordance with a general account investment policy. The objective of the investment policy is to maximize long-term, risk-adjusted returns. General account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is just over 10 years, and the average duration is between 7 and 8 years.

It is possible to make transfers between the various options and to redirect the investment of future contributions as specified by the Plan document and contract provisions. Participants can execute transfers between the available investment options once per business day without limitation subject to any other restrictions per the terms of the contract. The termination and subsequent distribution of the entire contract may result in the application of a surrender charge and/or a one-time adjustment to the aggregate Fixed Option value. This is a contingent event, which cannot be initiated by the Plan participants, and can only be initiated by those authorized by the Plan or by the Plan Sponsor. Currently, Plan management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

As of October 31, 2022 and 2021, there were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreement, but cannot be less than zero percent. Such interest rates are declared prior to the beginning of a calendar year. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract.

5. Tax Status

The Plan is as a volume submitter plan sponsored by OneAmerica Financial Partners, Inc. The Internal Revenue Service (“IRS”) has determined and informed OneAmerica Financial Partners, Inc. by a letter dated August 19, 2020 that the volume submitter plan was designed in accordance with applicable sections of the Code. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2018.

6. Benefit Payments

As of October 31, 2022 and 2021, there were no unprocessed benefit payments.

7. Forfeitures

As of October 31, 2022 and 2021, forfeited non-vested accounts totaled \$13,210 and \$15,037, respectively. These accounts will be used to pay plan expenses and to reduce future employer contributions. During 2022 and 2021, employer contributions were reduced by \$0 and \$1,444, respectively, from forfeited non-vested accounts. During 2022 and 2021, plan expenses of \$1,000 and \$0, respectively, were paid from forfeited non-vested accounts.

8. Party-In-Interest Transactions

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others.

During 2022 and 2021, certain Plan investments were managed by American United Life Insurance Company, and, therefore, these transactions qualify as party-in-interest transactions. The Plan’s investment transactions are covered by exemptions from the prohibited transaction provision of ERISA and the Code.

Calhoun, Thomson + Matza, LLP is the independent auditor of the Plan.

Notes to Financial Statements

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant accounts and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

There were no differences noted between the financial statements and the Form 5500 at October 31, 2022 and 2021.

11. Prohibited Transactions

During the Plan years ended October 31, 2022 and 2021, employee withholdings in the amount of \$10,108 and \$19,937, respectively, were not remitted within the appropriate time period by the Company. These transactions were constituted as prohibited transactions as defined by ERISA.

12. Subsequent Events

The Plan has evaluated subsequent events occurring after October 31, 2022, the date of the most recent statement of net assets available for benefits date, through August 11, 2023, the date the financial statements were available to be issued. The Plan does not believe any subsequent events have occurred that would require further disclosure or adjustment to the financial statements.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
