Report of Independent Auditors

Benefits Committee and Plan Sponsor
Greenville Tool & Die Company Employee
Stock Ownership and 401(k) Plan
Greenville, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the participant-directed portion of the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits of the participant-directed investments need not extend to any statements or information related to participant-directed assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification related to the participant-directed investments from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all

material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the financial statements referred to above related to the participant-directed assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of

internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the participant-directed certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the

financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the participant-directed certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the participant-directed certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2022

1. Description of the Plan and Significant Accounting Policies

The following description of the Greenville Tool & Die Company Employee Stock Ownership and 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan (ESOP) and a defined contribution 401(k) plan. The Plan is administered by a Benefits Committee, consisting of persons appointed by the Board of Directors of Greenville Tool & Die Company (the Company). A Trust Fund has been established under the Plan to hold the Plan's assets. All ESOP shares were fully allocated as of December 31, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On April 13, 2021, the Plan was amended to change the age of required minimum distributions to begin at age 72, effective January 1, 2020, in accordance with the Setting Every Community Up for Retirement Enhancement Act. This amendment also allows the Company to allocate safe harbor matching contributions on a payroll-by-payroll basis, effective January 1, 2022.

On July 27, 2022, the Plan was amended to remove the 1,000 hours of service requirement for participants to be eligible to receive safe harbor matching contributions, effective January 1, 2022. This amendment also defines eligible designated beneficiaries related to death benefits, effective January 1, 2020.

On June 15, 2023, the Plan was amended to reduce the eligibility age for participation in the 401(k) component of the Plan from age 19 to 18, to allow fully-vested active participants to complete a Roth conversion of non-Roth 401(k) balances, and to incorporate a change in the age for required minimum distributions established by SECURE 2.0. The amendment is effective July 1, 2023.

Eligibility

Effective January 1, 2022, the Plan was amended to allow all employees of the Company who have attained 19 years of age and completed 30 days of service to make participant elective deferrals into the 401(k) and to begin receiving employer matching contributions to the 401(k) portion of the Plan. Prior to this amendment, employees were also required to have attained 1,000 hours of service to be eligible to receive employer matching contributions into the 401(k) portion of the Plan. Participants are permitted to enter the Plan during the payroll period in which eligibility requirements are met or on the first day of the first payroll after satisfying the eligibility

Eligibility (continued)

requirements. In order to receive an allocation of the Company's ESOP regular or discretionary contribution, an employee of the Company must attain 19 years of age, complete one year (including at least 1,000 hours) of service, and be employed on the last working day of the Plan year. If termination of employment is due to death, disability, or retirement, the terminated employee would still participate in the ESOP contribution for that Plan year even though not employed at year end.

Participant Accounts

Each separately-maintained participant account consists of an ESOP account and a 401(k) account. Participants' 401(k) accounts are credited with participant contributions, rollovers, Company contributions, ESOP diversification funds, and earnings on the investments in their accounts and may be charged with certain participant administrative expenses based on participants' pro-rata account balances. Participants direct the investments of their contributions into various investment options offered by the 401(k) portion of the Plan.

Participants' ESOP accounts consist of a "Company Stock Account" and an "Other Investments Account". The ESOP account is credited with allocations of Company regular or discretionary contributions and an allocation of Plan earnings and forfeitures of terminated participants' nonvested ESOP accounts. Regular contributions are allocated in proportion to each participant's compensation compared with the total compensation of all participants as defined in the Plan document. Plan investment income is allocated as of the last day of each Plan year based on the ratio of each participant's ESOP account balance as it bears to total participants' ESOP account balances.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All of the net assets available for benefits and changes in net assets available for benefits are allocated to participants.

Contributions

Each participant may make pre-tax and/or Roth contributions into the 401(k) portion of their account of up to 100% of eligible compensation as defined by the Plan. Total annual pay deferrals are not to exceed the maximum annual amount allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Contributions (continued)

Upon attaining eligibility requirements, participants who do not affirmatively make a deferral election on or after each December 1 will be automatically enrolled in the Plan at 6% of eligible compensation the first payroll period beginning in the following Plan year. In the absence of an affirmative contribution election, the initial contribution rate will increase by 1% annually upon the anniversary date of the participant, until it reaches 15%. Participants may also contribute amounts representing distributions from other qualified plans (rollovers) into their account. Participant contributions are deposited into the 401(k) portion of the Plan. Participants are not permitted to make contributions to the ESOP portion of the Plan.

The Plan includes a safe harbor matching contribution which matches 100% of the first 4% of participants' eligible compensation calculated on a payroll-by-payroll basis for 2022 (calculated on an annual basis for 2021). The Company contribution can be in the form of cash or in whole shares of Company stock, as determined by the Company's Board of Directors. All safe harbor matching contributions must be contributed to the Plan by the last day of the following Plan year quarter. The Company may also contribute to the Plan an amount designated as a discretionary 401(k) matching contribution as determined by the Company or discretionary regular contributions designated as ESOP contributions.

During the year ended December 31, 2022, there were \$360,507 of Company matching contributions to the 401(k) portion of the Plan and \$537,000 of Company discretionary ESOP contributions. During the year ended December 31, 2021, there were \$373,640 of Company matching contributions to the 401(k) portion of the Plan and \$592,994 of Company discretionary ESOP contributions. The Company did not make any discretionary 401(k) contributions during the years ended December 31, 2022 or 2021.

Participant contributions are considered payable to the Plan upon the withholding of contributions from the participant's paycheck. The employer matching contributions are considered payable to the Plan at the time the related compensation is earned by the participant. Any unfunded participant or employer matching contributions are included in the employee or employer contributions receivable on the statements of net assets available for benefits.

Payments of Benefits

At the time of termination of service for any reason, participants or their beneficiaries are entitled to receive the entire vested balance or partial payments of their 401(k) accounts as soon as feasible following termination. Participants are entitled to be paid their ESOP accounts in a single sum in the Plan year following termination due to death, disability, or retirement. For termination of service due to other reasons, with certain exceptions, the ESOP account distribution shall be in the sixth Plan year following termination. Exceptions for the five-year delay in ESOP account distributions are made for participants whose vested balance is valued at less than \$10,000 and for employees who have reached the age of 55 and have 10 years of vesting service. Participants may also receive distributions from their 401(k) account for certain hardship situations or upon obtaining age 59½. Distributions from ESOP accounts may be in the form of cash or Company stock and, if Company stock, must be immediately sold to the Company or Plan, as designated by the Benefits Committee. Benefit payments are recorded when paid.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Substantially all expenses of the Plan, except for investment management fees, are paid by the Company. The Company does not expect reimbursement from the Plan for these expenses; therefore, such expenses are excluded from these financial statements.

Vesting

Participants are immediately vested in employee deferrals, employee rollovers, and employer safe harbor matching contributions plus actual earnings thereon. If employment ends due to retirement on or after the normal retirement age of 62, or because of death or disability, participants will be fully vested in their accounts. For other terminations, participants are 20% vested in Company contributions after the first two years, then 20% each year thereafter and are fully vested after six years of credited service.

Forfeitures

Accounts of nonvested participants are forfeited in the year of termination. The nonvested portion of participant accounts are forfeited as of the earlier of (i) the date of distribution of the vested account or (ii) the December 31 accounting date of the Plan year in which the participant incurs five consecutive one-year breaks in service. Forfeited balances of terminated nonvested

participants will be used to pay Plan expenses or added to employer contributions and allocated to participant accounts in the same manner as regular employer contributions.

During 2022, there were 130 shares of Company stock forfeited and reallocated to other Plan participants. Based on the timing of such forfeitures and the subsequent reallocation, the value of the forfeited shares was \$13,308 and the value of the forfeited shares upon reallocation was \$12,854. During 2021, there were 275 shares of Company stock forfeited and reallocated to other Plan participants. The value of the forfeited and reallocated shares was \$28,152.

During the year ended December 31, 2022, there was \$2,095 in 401(k) forfeitures used to reduce employer contributions or to pay expenses (\$3,905 during the year ended December 31, 2021). In addition, there was a balance of \$2,082 of 401(k) forfeitures as of December 31, 2021 (none as of December 31, 2022).

Hardship Withdrawals

The Plan agreement allows for participants to make hardship withdrawals of participant deferrals and earnings thereon held in the Plan, subject to certain requirements as defined in the Plan agreement. Hardship withdrawals of employer 401(k) matching or ESOP contributions are not permitted by the Plan agreement. The Plan agreement does not allow for participants to obtain loans from the Plan.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have completed at least 5 years in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over an eleven-year period, which begins at the start of the Plan year following the Plan year in which the participant becomes eligible. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. Beginning in the sixth year, the percentage changes to 50 percent. Participants who elect to diversify and have a 401(k) account will have a portion of their ESOP account liquidated and transferred to their 401(k) account. Participants who elect to diversify and do not have a 401(k) account receive a cash distribution.

1. Description of the Plan and Significant Accounting Policies (continued)

Put Option

In accordance with U.S. federal income tax regulations, the employer stock that is held by the Plan is subject to a put option. The put option is the participant's right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is the fair market value of the stock. The Company may pay for the purchase by issuing a collateralized, interest-bearing promissory note with a term of not more than five years and which requires annual payments. The purpose of the put option is to ensure that a participant has the ability to ultimately obtain cash for the value of the shares upon termination of employment.

Voting Rights

The trustee will generally vote all shares of Company stock held in the Trust Fund at such time and in such manner as directed by the Benefits Committee. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with regard to a merger or consolidation, recapitalization, liquidation, or sale of substantially all of the assets of the Company.

In accordance with instructions from the Plan's Benefits Committee, the trustee shall vote any unallocated shares, as well as any allocated shares for which a participant has failed to give timely voting direction.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or partial termination, all expenses and debts of the Plan are to be satisfied out of assets of the Plan, and all remaining assets are to be vested in the participants' accounts (affected participants in the case of a partial termination) and distributed to them. Such distribution shall be made as directed by the Benefits Committee. Plan assets previously segregated due to retirement or other termination shall continue to be held by the custodian and trustee and distributed as provided under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, results could differ from those estimates.

Basis of Accounting

The financial statements have been presented on the accrual basis of accounting in accordance with U.S. GAAP.

Valuation of Investments

The fair values of the investments held in mutual funds are determined using quoted market values as of the last business day of the Plan year.

One of the investments held by the Plan is the Putnam Stable Value Fund (Fund), which is a collective investment trust. The Fund is designed to provide a stable fixed income investment vehicle. The stable value fund trades at the net asset value (NAV) which is based on the contract value of the underlying investments and approximates fair value (Level 1). The net asset value (NAV) per share is used as a practical expedient for determining the fair value of the Fund. The stable value fund has restrictions on withdrawals up to one year in the event the Company eliminates this investment option.

See Note 4 for information on the valuation of the investment in Greenville Tool & Die Company class A common stock.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The difference between fair value and the cost of investments held is combined with realized gains and losses on the sale of investments and reported in the statements of changes in net assets available for benefits as net realized and unrealized appreciation in fair value of investments on an annual basis. Realized gains and losses on the sale of investments represent the difference between the proceeds received and the original cost of investments sold.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values.

Notes to Financial Statements

December 31, 2022

1. Description of the Plan and Significant Accounting Policies (continued)

Fair Value Measurements (continued)

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

- Mutual funds: Valued using quoted market prices.
- Stable value fund: Valued using the NAV as a practical expedient.
- Employer common stock: Valued using a third-party appraisal.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Subsequent Events

Plan management has evaluated subsequent events for potential recognition and disclosure in the financial statements through July 20, 2023, which is the date the financial statements were available to be issued.

2. Federal Income Taxes

The Plan received an opinion letter from the Internal Revenue Service dated October 17, 2013, stating that the Plan qualified under Section 401 of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been restated and amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the Plan and related trust are tax-exempt. Therefore, there is no provision for income taxes in the Plan's financial statements.

Generally, tax years 2019 through the current year remain open to examination. The plan administrator does not believe that the results from any examination of these open years would have a material adverse effect on the Plan.

3. Information Certified by the Custodian (Unaudited)

Matrix Trust Company held the participant-directed investment assets and executed related transactions as of and for the years ended December 31, 2022 and 2021. Substantially all information pertaining to the Plan's participant-directed investment balances and investment income, including the dividends receivable, included in the financial statements and supplemental schedule has been certified by them. This certified investment information has not been audited by independent accountants.

The Greenville Tool & Die Company class A common stock held by the Plan is reported at fair value based upon an annual independent appraisal. The estimated fair value of common stock of the Company was \$98.88 as of December 31, 2022 and \$102.37 as of December 31, 2021. This appraisal was based upon a combination of the market and income valuation techniques on a basis consistent with prior years. The appraisal took into account historical and projected cash flow and

net income, return on assets, return on equity, market comparables, fair value of Company assets and liabilities, as well as a discount for lack of marketability.

The valuation process of the Company's stock involves Plan management's annual selection of an independent appraiser. Plan management accumulates the data for the appraiser from the financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

The below table summarizes the Plan's investment in Greenville Tool & Die Company class A common stock as of December 31:

	<u>2022</u>	<u>2021</u>
Number of shares	160,885	161,639
Cost	\$ 8,623,449	\$ 8,663,846
Fair value	\$ 15,908,341	\$ 16,547,033

5. Investment in Stable Value Fund

The stable value fund invests in high-quality guaranteed investment contracts and similar contracts issued by insurance companies, banks, and other financial institutions. The fund also invests in security-backed investment contracts, including separate account products of insurance companies. The fund invests a portion of its assets in high-quality money market instruments, cash, cash equivalents, and stable value funds with investment policies and other provisions similar to those of the stable value fund. As described in Note 4, the NAV is the relevant measurement attribute for the stable value fund.

The stable value fund's instruments are structured to create a stream of internal cash flows from interest payments and maturing proceeds. The average weighted maturity of the fund will not exceed 5 years. The fund will seek to diversify contract maturities by purchasing 1-year through 10-year contracts. Investment contracts may not be purchased with a stated maturity of greater than 10 years.

Withdrawal from the fund will generally be permitted daily at book value. It is possible that such requests to withdraw from the fund will exceed the fund's available liquidity. If that is the case, the stable value fund withdrawal may be deferred until the appropriate liquidity is available.

Notes to Financial Statements

December 31, 2022

5. Investment in Stable Value Fund (continued)

The Plan is required to pay a management fee equal to a percentage of the Plan's assets invested in the fund, not to exceed 1.00%. Such fees shall be accrued daily and paid on a quarterly basis.

6. Transactions with Parties-in-Interest

Administrative expenses paid by the Company include payments to the Plan's third-party administrators, legal counsel, and auditor for services to the Plan. These administrative expenses are considered party-in-interest transactions.

Transactions in the Company's common stock constitute transactions with a party-in-interest to the Plan. During 2022, the Plan purchased 6,000 shares of stock from terminated participants, of which 5,246 shares were reallocated to participants as of December 31, 2022, in accordance with the Plan document. The remaining 754 shares were retired during the year ended December 31, 2022. During 2021, the Plan purchased 22,216 shares of stock from terminated participants, of which 7,056 shares were reallocated to participants as of December 31, 2021, in accordance with the Plan document. The remaining 15,160 shares were retired during the year ended December 31, 2021.

7. Risks and Economic Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.
