INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator, Retirement Committee, and Participants
Nordson Corporation Salaried Employees Pension Plan
Westlake, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Nordson Corporation Salaried Employees Pension Plan ("Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of October 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions, The Northern Trust Company and John Hancock Trust Company LLC (the Trustees of the Plan), as of and for the years ended October 31, 2022 and 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at End of Year as of October 31, 2022 and Schedule of Reportable Transactions for the year ended October 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

1 Description of Plan

The following description of the Nordson Corporation Salaried Employees Pension Plan ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began November 1, 1970, is a defined benefit plan covering substantially all domestic salaried full-time employees of Nordson Corporation ("Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

As of July 1, 2021, the Plan was closed to new hires and re-hires of Nordson Corporation and any subsidiaries.

Effective March 1, 2022, the Plan was amended to allow participants to make a choice to either continue participation in the Plan, or to cease participation in the Plan and become eligible for a nonelective employer contribution under Nordson's Employees' Savings Trust Plan. Approximately 430 participants elected to stop participating in the Plan.

On April 4, 2022, the Plan was amended to provide for an annuity lift-out so that the benefit liability of certain participants who have commenced a monthly benefit prior to November 1, 2021 under the terms of the Plan would be transferred to an insurance company deemed appropriate by the Nordson Corporation Retirement Plans Administrative Committee. On April 11, 2022, \$160.7 million was transferred out of the Plan to The Prudential Insurance Company of America for benefits owed to 1,317 retirees and other beneficiaries. The monthly retirement benefit payment amounts currently received by retirees and their beneficiaries did not change as a result of this transaction.

Funding Policy:

The Company's funding policy for the Plan is to contribute, over time, an amount at least equal to the minimum contribution required by law. The Company's contributions for 2022 and 2021 comply with the minimum funding requirements.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Reclassifications:

Certain prior year amounts have been reclassified to conform with the current year's presentation.

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

2 Summary of Significant Accounting Policies, Continued

Investment Valuation:

The fair value of the Plan's interest in the Nordson Corporation Pension Investment Trust ("Master Trust") is based on the beginning of the year value of the Plan's investment in the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. See Note 7 for descriptions of investment valuation within the Master Trust.

Investments in money market funds are valued at the market price on the last business day of the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains or losses on sales of securities represent the difference between net proceeds and carrying value determined using the average cost method.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits are those estimated future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered prior to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries or (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation for the highest five consecutive calendar years during the 10-year period ending on the participants' termination date. The accumulated Plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Payment of Benefits:

Participants are vested after five years of service. Retirement benefits are calculated based on the highest consecutive 60 months during the last 120 months of earnings. These earnings are multiplied by a guaranteed percentage, less the social security benefit. The amount is reduced proportionately for benefit service less than 30 years. Benefits are reduced for early retirement.

Benefit payments to participants are recorded upon distribution.

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

2 Summary of Significant Accounting Policies, Continued

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"). In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the priorities mandated by ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. A full description of the defined benefit plan termination priorities is available in the Plan document.

Risks and Uncertainties:

The Master Trust invests in various investments, as described in Note 7. These investments are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Effective November 1, 2022, the Retirement Plan of Xaloy Incorporated was merged into the Plan. The Retirement Plan of Xaloy Incorporated had an interest in the Master Trust of approximately \$7,100,000 and the present value of the accumulated plan benefits was approximately \$4,900,000 at the time it was merged into the Plan.

Subsequent events have been evaluated through August 8, 2023, which is the date the financial statements were available to be issued. No other subsequent events were noted.

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

3 Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 27, 2017, that the Plan and related Master Trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has amendments subsequent to those covered in the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of October 31, 2022, there were no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Accumulated Plan Benefits

The present value of vested benefits under the Plan and the accrued benefits not vested were calculated by consulting actuaries based on personnel information provided by the Company as of the valuation date. Accrued benefits are estimated actuarially using the standard unit credit cost method. The accumulated Plan benefit information as of the beginning of the Plan year is as follows:

Actuarial present value of accumulated Plan benefits:

Vested Benefits:

Participants currently receiving payments	\$ 146,525,171
Other participants	193,014,294
	<u>339,539,465</u>
Non-vested benefits	7,233,996
	<u>7,233,996</u>

Actuarial present value of accumulated Plan benefits at November 1, 2021	<u><u>\$ 346,773,461</u></u>
--	------------------------------

The changes in accumulated Plan benefits between the two valuation dates were as follows:

Actuarial present value of accumulated Plan benefits at November 1, 2020	\$ 324,528,420
--	----------------

Increase (Decrease) During the Year Attributable to:

Benefits accrued	14,893,898
Plan experience	2,257,086
Benefits paid	(14,124,970)
Interest	18,259,967
Change in actuarial assumptions	959,060
	<u>22,245,041</u>

Actuarial present value of accumulated Plan benefits at November 1, 2021	<u><u>\$ 346,773,461</u></u>
--	------------------------------

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

4 Accumulated Plan Benefits, Continued

Plan experience typically results from participants retiring earlier or later than expected, and demographic changes that are more or less than anticipated.

The increase attributable to the change in actuarial assumptions is primarily due to changes in the mortality rates used, with a smaller increase due to changes in the retirement rates.

Significant assumptions underlying the actuarial computations are:

Mortality basis - employees and former employees - amounts-weighted aggregate rates from the Pri-2012 mortality study (projected generationally from 2012 using Scale MP-2021).

Mortality basis - disabled lives - amounts-weighted disabled retiree rates from Pri-2012 mortality study (projected generationally from 2012 using Scale MP-2021).

Mortality basis - contingent survivors - amounts-weighted aggregate contingent survivor rates from Pri-2012 mortality study (projected generationally from 2012 using Scale MP-2021).

Discount rate - 5.75%

Retirement - according to the following schedule:

Age	Rate	Age	Rate
55	1%	63	9%
56	4%	64	13%
57	6%	65	28%
58	2%	66	20%
59	4%	67	29%
60	3%	68	18%
61	10%	69	20%
62	11%	70	100%

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of November 1, 2021 and do not reflect amendments effective after November 1, 2021. The impact on actuarial present value value of the accumulated Plan benefits related to the April 2022 amendment to provide for an annuity lift-out was a decrease of approximately \$140 million.

5 Information Prepared and Certified by Trustees

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Trustees (The Northern Trust Company and John Hancock Trust Company LLC):

6 Fair Value Measurements

Accounting standards define fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be reported at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions and risk of nonperformance.

The standard also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The standard establishes three levels of inputs that may be used to measure fair value:

- * Level 1: Quoted prices in active markets for identical assets or liabilities;
- * Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability;

- * Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

6 Fair Value Measurements, Continued

The Plan's investments, excluding the investment in the Master Trust, consist of a money market fund. The money market fund is a public investment vehicle that is valued with a net asset value ("NAV") of \$1. This NAV is a quoted price in an active market, thus this investment is classified within Level 1 of the hierarchy.

Investments, excluding investment in the Master Trust, measured at fair value on a recurring basis consisted of the following types of instruments as of October 31, 2021:

	Fair Value Measurements Using Input Type:			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ 220,511	\$ -	\$ -	\$ 220,511

The preceding table does not include the Plan's interest in the Master Trust because that information is presented in Note 7.

At October 31, 2022, there were no Plan investments other than the investment in the Master Trust.

7 Interest in Master Trust and Net Investment Gain

The following is a description of the valuation methodologies used to measure fair value of assets held in the Master Trust:

U.S. Government Securities: U.S. Treasury bills reflect the closing price in the active market in which the security is traded and are classified within Level 1 of the hierarchy. Securities of U.S. agencies are valued using bid evaluations and are classified within Level 2 of the hierarchy.

NOTES TO FINANCIAL STATEMENTS

Nordson Corporation Salaried Employees Pension Plan

7 Interest in Master Trust and Net Investment Gain, Continued

Common Stocks: Common stocks are valued at fair value based on closing prices reported in active markets where the securities are traded and are classified within Level 1 of the hierarchy.

Mutual Funds: Mutual funds are valued at fair value based on closing prices reported in active markets where the securities are traded and are classified within Level 1 of the hierarchy.

Bonds: Bonds are valued using evaluated prices. Because evaluated prices are based on observable inputs such as dealer quotes, bids and offers, these securities are classified within Level 2 of the hierarchy.

Real Estate Collective Funds: These funds are valued using the net asset value of the underlying properties. Net asset value is calculated using a combination of key inputs, such as revenue and expense growth rates, terminal capitalization rates and discount rates.

Pooled Investment Funds: These are public investment vehicles valued using the net asset value. The net asset value is based on the value of the assets owned by the fund, less liabilities. Participant transactions (purchases and sales) may occur daily. These investments are not quoted on an active exchange. Included in pooled investment funds are money market and mutual funds that are not exchange-traded, and are valued daily at their closing net asset value.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investment assets at fair value as of October 31, 2022:

	Fair Value Measurements Using Input Type:

8 Financial Instruments

The investment managers of the Master Trust invest in futures contracts to buy or sell United States Treasuries at a future date for a specified price. Futures contracts are used primarily to mitigate exposure to changes in interest rates. At October 31, 2022, the Master Trust had contracts outstanding to sell Treasury bonds with a notional value of \$22,947,578. At October 31, 2021, the Master Trust had contracts outstanding to sell Treasury bonds with a notional value of \$24,487,000. The Master Trust accounts for these futures contracts at fair value, which is based on the current exchange closing price. Gains and losses on the contracts are settled daily. Changes in value of these instruments are included in Net investment income from Master Trust on the Statement of Changes in Net Assets. The Master Trust recognized net losses of \$5,658,558 (2022) and net gains of \$245,157 (2021) related to these contracts.

These instruments involve elements of credit and market risks. The daily settlement on the futures contracts serves to greatly reduce credit risk. The Master Trust enters into futures contracts on exchanges where the exchange acts as the counterparty, thus limiting the credit risk to the failure of the exchange.

9 Party-in-Interest and Related Party Transactions

Certain investments held by the Master Trust are funds managed by The Northern Trust Company. A majority of the expenses with respect to the Plan were paid by the Master Trust, and these expenses were allocated between the Plan, the Nordson Corporation Hourly-Rated Employees Pension Plan, and the Retirement Plan of Xaloy Incorporated. In addition, the Plan has arrangements with various service providers, and these arrangements qualify as party-in-interest transactions.

Schedule SB Attachment (Form 5500)—2021 Plan Year
Nordson Corporation Salaried Employees Pension Plan
EIN: 34-0590250 PN: 005

Early Retirement

Eligibility

Age 55 and five years of vesting service.

Benefits

An early retiree shall receive a monthly benefit computed in the same manner as a normal retirement benefit but based on years of service at early retirement. This amount will be reduced by $\frac{1}{2}$ of 1% for each month that the employee's benefit commencement date precedes his normal retirement date.

Preretirement Spouse Benefit

Eligibility

Five years of vesting service.

Benefits

A spouse who survives a vested participant who has not yet retired shall receive a life annuity commencing at the later of the participant's earliest retirement age or the participant's date of death. The benefit amount will be equal to the survivor portion that the spouse would have received had the participant separated from service on the date of death with a 50% joint-and-survivor annuity in effect. The benefit will be unreduced for early retirement.

Disability

Eligibility

Five years of vesting service and total and permanent disability.

Benefits

A participant who becomes disabled with less than 10 years of vesting service shall be entitled to receive his accrued benefit according to the normal or early retirement provisions. The accrued benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of termination.

Prior to January 1, 2010, a participant who becomes disabled with 10 or more years of vesting service shall be entitled to receive a projected age 65 benefit. The projected age 65 benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of disability plus the service from disability to age 65.

Effective January 1, 2010, a participant who becomes disabled with 10 or more years of vesting service shall be entitled to receive a projected age 65 benefit. The projected age 65 benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of disability plus an additional 18 months from disability.

Nordson Corporation Salaried Employees Pension Plan
EIN: 34-0590250 PN: 005

Deferred With Vesting
Eligibility

Five years of vesting service.

Benefit

A vested participant who terminates shall be entitled to receive his accrued benefit according to the normal or early retirement provisions. The accrued benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of termination.

Normal Form of Benefits

Life annuity. Married employees are assumed to receive the 50% joint-and-survivor option unless they elect otherwise.

Optional Forms of Benefits

Employees may choose one of the following actuarial equivalent forms of payments:

- A reduced monthly benefit payable to the retiree with a percentage (100%, 75%, or 50%) of such amount continued to the contingent annuitant upon the employee's death.
- A reduced monthly benefit payable to the retiree for life with 120 months of guaranteed payments.
- Social Security level income form of payment.

Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	November 1, 2020 to October 31, 2021 pensionable earnings (including target bonus amounts, if any) rolled forward one year with the salary increase assumption
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$230,000 and the IRC section 401(a)(17) compensation limit of \$290,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2019 Plan Year	5.75%
2020 Plan Year	5.75%
2021 Plan Year	5.75%
Trust Expenses Included in Target Normal Cost	\$466,000. Expenses are assumed to be equal to the prior year's actual administrative expenses paid from the trust, rounded to the nearest \$1,000.
Actuarial Method	Standard unit credit cost method
Valuation Date	November 1, 2021

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in terminated vested retirement age to reflect anticipated future experience.

This assumption change does not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	November 1, 2020 to October 31, 2021 pensionable earnings (including target bonus amounts, if any) rolled forward one year with the salary increase assumption
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$230,000 and the IRC section 401(a)(17) compensation limit of \$290,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2019 Plan Year	5.75%
2020 Plan Year	5.75%
2021 Plan Year	5.75%
Trust Expenses Included in Target Normal Cost	\$466,000. Expenses are assumed to be equal to the prior year's actual administrative expenses paid from the trust, rounded to the nearest \$1,000.
Actuarial Method	Standard unit credit cost method

Early Retirement

Eligibility

Age 55 and five years of vesting service.

Benefits

An early retiree shall receive a monthly benefit computed in the same manner as a normal retirement benefit but based on years of service at early retirement. This amount will be reduced by $\frac{1}{2}$ of 1% for each month that the employee's benefit commencement date precedes his normal retirement date.

Preretirement Spouse Benefit

Eligibility

Five years of vesting service.

Benefits

A spouse who survives a vested participant who has not yet retired shall receive a life annuity commencing at the later of the participant's earliest retirement age or the participant's date of death. The benefit amount will be equal to the survivor portion that the spouse would have received had the participant separated from service on the date of death with a 50% joint-and-survivor annuity in effect. The benefit will be unreduced for early retirement.

Disability

Eligibility

Five years of vesting service and total and permanent disability.

Benefits

A participant who becomes disabled with less than 10 years of vesting service shall be entitled to receive his accrued benefit according to the normal or early retirement provisions. The accrued benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of termination.

Prior to January 1, 2010, a participant who becomes disabled with 10 or more years of vesting service shall be entitled to receive a projected age 65 benefit. The projected age 65 benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of disability plus the service from disability to age 65.

Effective January 1, 2010, a participant who becomes disabled with 10 or more years of vesting service shall be entitled to receive a projected age 65 benefit. The projected age 65 benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of disability plus an additional 18 months from disability.

Deferred With Vesting
Eligibility

Five years of vesting service.

Benefit

A vested participant who terminates shall be entitled to receive his accrued benefit according to the normal or early retirement provisions. The accrued benefit is computed in the same manner as a normal retirement benefit but based on the participant's service at the time of termination.

Normal Form of Benefits

Life annuity. Married employees are assumed to receive the 50% joint-and-survivor option unless they elect otherwise.

Optional Forms of Benefits

Employees may choose one of the following actuarial equivalent forms of payments:

- A reduced monthly benefit payable to the retiree with a percentage (100%, 75%, or 50%) of such amount continued to the contingent annuitant upon the employee's death.
- A reduced monthly benefit payable to the retiree for life with 120 months of guaranteed payments.
- Social Security level income form of payment.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in terminated vested retirement age to reflect anticipated future experience.

This assumption change does not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
