Report of Independent Auditors

The Plan Administrator
Lucile Salter Packard Children's Hospital at Stanford Pension Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Lucile Salter Packard Children's Hospital at Stanford Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of October 27, 2022 (in liquidation) and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (collectively, the 2022 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended October 27, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- the information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lucile Salter Packard Children's Hospital at Stanford Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the Board of Directors of Lucile Salter Packard Children's Hospital at Stanford approved a plan of liquidation effective February 28, 2021, and management liquidated as of October 27, 2022. As a result, Lucile Salter Packard Children's Hospital changed its basis of accounting from the going-concern basis of accounting used in presenting the 2020 financial statements to the liquidation basis of accounting used in presenting the 2021 and 2022 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lucile Salter Packard Children's Hospital at Stanford Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Auditor's Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of Lucile Salter Packard Children's Hospital at Stanford Pension Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 19, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Lucile Salter Packard Children's Hospital at Stanford Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was a noncontributory defined benefit plan and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors of the Lucile Salter Packard Children's Hospital at Stanford (the LPCH) passed a resolution to freeze the Plan effective December 31, 1990, and to maintain the Plan indefinitely on a frozen basis.

On February 25, 2021, the Board of Directors of LPCH voted to terminate the Plan effective February 28, 2021, and to distribute Plan assets by October 27, 2022. In accordance with Plan provisions, the Sponsor vested 100% of the Plan's assets as of February 28, 2021. Plan assets were liquidated and used to purchase an annuity buy out for approximately \$5,000,000 in order to pay participant benefits.

The net assets of the Plan were allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

- Annuity benefits to participants or their beneficiaries or alternative payee under a qualified domestic relations order that have been receiving benefits shall have a nontransferable annuity contract purchased on his or behalf from an insurance Company selected by the Committee.
- Small lump sum for those not in pay status of as the termination date where his or benefit does not exceed \$1,000. If the participant, spouse or alternate payee does not complete the election materials permitting for a choice between a direct rollover and a cash distribution, the lump sum will be transferred to the Pension Benefit Guaranty Corporation (the PBGC) for payment.
- If the benefit exceeds \$1,000 for those not in pay status as of the termination date, the following options will be made available (1) lump sum payment, (2) a nontransferable immediate annuity contract purchased by the Plan from an insurance company selected by the Committee, or (3) a nontransferable deferred annuity contract purchased by the Plan from an insurance company selected by the Committee.

Administration – The LPCH appointed the Retirement Committee (the Committee) to manage the operation and administration of the Plan. The LPCH had contracted with Vanguard Fiduciary Trust Company (Vanguard) to act as the trustee and custodian, and with Mercer Human Resource Consulting to act as the third-party administrator. All expenses incurred for administering the Plan are paid by the LPCH.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Lucile Salter Packard Children's Hospital at Stanford Pension Plan Notes to Financial Statements

Investment valuation and income recognition – The Plan's investments were reported at fair value. The Plan's trustee, Vanguard, certified the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan's gains and losses on investments bought or sold as well as held during the period.

Payments of benefits – Benefits were recorded when paid.

Income taxes – The Plan had received its final favorable determination letter dated November 5, 2021 for the Plan termination effective February 28, 2021. The plan administrator believed that the Plan was operated in accordance with, and qualifies under, the applicable requirements of the Internal Revenue Code and related state statutes, and that the trust, which forms a part of the Plan, was exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there were currently no audits for any tax periods in progress.

Risks and uncertainties – Investment securities were exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it was at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect investment balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which were subject to change. Due to uncertainties inherent in the estimations and assumptions process, it was at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Funding policy – LPCH's funding policy was for LPCH to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. There was no minimum required contributions for 2022 and 2021.

Pension benefits – Prior to the Plan being frozen, a participant was credited with a benefit ranging from 1.75% to 2% of eligible compensation earned during that Plan year. Due to the frozen status of the Plan, no eligible compensation after December 31, 1990, is considered for purposes of calculating pension benefits under the Plan.

Early retirement – The Plan permitted early retirement at ages 55 to 64. Retirement benefits were reduced by 1/180 for each of the first 60 months and 1/360 for each of the second 60 months prior to the participant's normal retirement age.

Lucile Salter Packard Children's Hospital at Stanford Pension Plan

Notes to Financial Statements

Payment of benefits – Upon termination of employment, participants of any age are eligible for a one-time election to receive a single lump-sum payment, representing the present value of the benefit amount as calculated under the provisions of the Plan. At retirement (age 65) or upon early retirement, participants may elect to receive their pension benefits in the form of a life annuity, a joint and survivor annuity, a contingent annuity, or a term certain life annuity payable monthly. If a vested participant dies prior to retirement, a death benefit equal to the survivor's benefit payable under the joint and survivor benefit option is paid to the participant's surviving spouse. Eligible participants who become totally and permanently disabled receive monthly disability benefits that are equal to the normal retirement benefits they have accumulated at the time they become disabled. If the present value of a participant's benefit amount under the Plan is less than \$1,000, the benefit is paid in a single lump-sum cash payment.

Vesting – Participants were 100% vested in their accrued benefit. Effective February 28, 2021, in conjunction with the termination of the Plan, participants were made fully vested in all contributions.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through August 11, 2023, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Lucile Salter Packard Children’s Hospital at Stanford Pension Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There had been no changes in the methodology used at December 31, 2021.

Mutual funds: Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2021:

	2021			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 5,366,300	\$ -	\$ -	\$ 5,366,300
Total assets at fair value	\$ 5,366,300	\$ -	\$ -	\$ 5,366,300

NOTE 3 – RELATED-PARTY TRANSACTIONS

Certain Plan investments were managed by an affiliate of Vanguard, the trustee of the Plan. Any purchases and sales of these funds were performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, were permitted under the provisions of the Plan and were specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – CERTIFIED INFORMATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of October 27, 2022 and December 31, 2021.
- Net depreciation in fair value of investments, dividends, and interest reflected on the accompanying statements of changes in net assets available for benefits for the period from January 1, 2022 through October 27, 2022 and for the year ended December 31, 2021.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to present and former employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment), in accordance with the Plan document, are included to the extent that they are deemed attributable to employee service rendered up to the valuation date.

The actuarial value of accumulated Plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2021 (beginning of the Plan year), are as follows:

- a. For 2021, life expectancy of participants based on the Pri-2012 base employee mortality tables with no collar adjustments, with projections beyond 2012 based on the Social of Actuaries MP-2020 projection scale.
- b. Retirement ages between 55 and 70, with probability of varying by age.
- c. For 2021, an interest rate of 2.11%.

The foregoing assumptions are based on the presumption that the Plan has been terminated effective February 28, 2021. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2021. Had the valuations been performed as of December 31, there will be no material difference.

Lucile Salter Packard Children's Hospital at Stanford Pension Plan Notes to Financial Statements

As of January 1, 2021, the actuarial present value of accumulated Plan benefits as calculated by the actuary is as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Active participants	\$ 1,601,704
Inactive participants with deferred benefits	1,990,918
Inactive participants receiving benefits	<u>4,867,697</u>
	8,460,319
Nonvested benefits	
	<u>-</u>
Total actuarial present value of accumulated Plan benefits	<u><u>\$ 8,460,319</u></u>

As of January 1, 2021, the changes in the actuarially determined present value of the accumulated Plan benefits are as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	<u>\$ 7,160,739</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gain) loss	305,615
Benefits paid	(681,769)
Change in actuarial assumptions	<u>1,675,734</u>
Net increase	<u>1,299,580</u>
Actuarial present value of accumulated Plan benefits at end of year	<u><u>\$ 8,460,319</u></u>

Changes in actuarial assumptions for the January 1, 2021, accumulated plan benefits relate to the following:

- The interest rate was updated from 4.50% to 2.11% to reflect the change in asset allocation to anticipate the upcoming plan termination.
- Plan termination assumptions are used instead of ongoing assumptions except for the interest rate.
