Independent Auditor's Report

To the Plan Administrator and Participants of
Mexico Foods 401(k) Plan
Garland, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mexico Foods 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MEXICO FOODS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

1. Description of the Plan

The following description of the Mexico Foods 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document in effect for a more complete description of the Plan’s provisions.

General

Mexico Foods 401(k) Plan (the “Plan”) is a defined contribution plan established and adopted effective February 1, 2013, for the benefit of eligible employees of El Rancho, Inc. (the “Company” or “Plan Administrator”). The Plan operates as a 401(k) plan designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (“IRC”) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is overseen by the Plan Committee of the Mexico Foods 401(k) Plan (the “Committee”) and is administered by a Plan Administrator. The Committee is responsible for determining the appropriateness of the Plan’s investments and monitoring of the investments’ performance.

Eligibility

Employees become eligible for participation at the age of 21 and upon completing three months of service, except for non-resident aliens or employees covered by a collective bargaining agreement, as defined by the Plan document. Eligible employees may enter the Plan on the first day of the month following the date in which initial eligibility requirements are met.

Contributions and Rollovers

Participants who have satisfied the Plan’s eligibility requirements may contribute up to 100% of eligible compensation, subject to certain maximum limitations imposed by the Internal Revenue Code (“the Code”), as defined in the Plan. Participants may elect to make pre-tax elective deferrals. Participants who have attained age of 50 before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Code.

Participants are also permitted to rollover contributions representing distributions from other qualified defined benefit or defined contribution plans, including after-tax employee contributions and excluding any portion of a designated Roth account.

The Company elected for the Plan to be treated as a “Safe Harbor Plan.” Under these provisions, the Company makes match contributions based on a participant’s elective deferral contributions in an amount equal to 100% of the first three percent of compensation contributed to the Plan by a participant, plus 50% of the next two percent of compensation contributed to the Plan by the participant.

The Company may also make discretionary profit-sharing contributions in amounts to be determined by the Company. No discretionary profit-sharing contributions were made to participants for the year ended December 31, 2022.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account is credited with the participant’s contribution, discretionary contributions (if any), profit sharing contributions (if any), plan earnings or losses, charges for allocated account-specific plan expenses, and an allocation of the Company’s safe harbor match contribution. The allocations are based on participants’ investment elections and earnings or account balances, as defined in the Plan. A participant is entitled to the benefit that can be provided from the vested account balance.

Vesting

Participants are immediately vested in elective deferrals and safe harbor matching contributions plus actual earnings, thereon. Vesting of employer discretionary contributions and earnings thereon is based on years of service, as defined by the Plan document. Participants vest 20% per year beginning after two years of qualified service and are 100% vested after six years of qualified service or upon occurrence of the participant’s retirement, death, or disability, as defined by the Plan document.

MEXICO FOODS 401(k) PLAN

Investment Options

Participants must direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time throughout the year via internet or direct phone access to the Plan trustee's (Principal Trust Company) plan sponsor web site.

The Plan provides for contributions to be invested by the participants among a variety of common collective funds, pooled separate accounts, and mutual funds of registered investment companies. The Plan's Qualified Default Investment Alternative ("QDIA") for those participants, including beneficiaries, who have not provided investment directions is the Principal Lifetime Hybrid collective investment trust target retirement funds. Contributions are automatically invested in QDIA funds until changed by the participant.

Forfeitures

Forfeitures represent the portion of nonvested benefit payments (resulting from employer discretionary contributions, profit sharing contributions, and related net earnings thereon) remaining in the Plan for all terminated employees. Forfeitures may first be used to pay administrative expenses, then to reduce Company contributions, then to reallocate to participant accounts. There were no forfeitures available for use during 2022 and 2021.

Notes Receivable from Participants

Participants may borrow from their accounts. Notes receivable from participants are limited to a minimum of \$1,000 up to a maximum amount not to exceed the lesser of: (a) one-half of the participant's vested account balance or (b) \$50,000, reduced by the participant's greatest outstanding loan balance during the 12 months preceding the date of the loan. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which is commensurate with local prevailing rates as determined by the Plan administrator. Loans are required to be repaid within five years of the date the loan proceeds are received except in the case of certain loans to acquire a principal residence, which may be repaid over a period not to exceed 10 years. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. Principal and interest are repaid ratably through periodic payroll deductions. Participants may only have one outstanding note at any time.

Payments of Benefits

Upon termination of service due to death, disability, or normal retirement, participants may receive a lump sum payment equal to 100% of their account balance. Distributions to vested account balances less than \$1,000 will be paid in a single sum payment. Distributions to participants with vested account balances greater than \$1,000 but less than \$5,000 may be paid in a single sum payment or in a direct rollover to an eligible retirement plan or, into a direct rollover to an IRA. Distributions to participants with vested account balances greater than \$5,000 will remain in the Plan until such a time that the Plan Administrator receives written distribution instructions from the participant. To comply with certain requirements of the SECURE Act of 2019 and IRS regulations, the Plan requires participants to take their first required minimum distribution (RMDs) in the year they reach age 72.

A participant with a financial hardship may be able to withdraw all or any part of their vested account resulting from 401(k) elective deferral contributions provided the hardship distribution is for: (1) payment of medical expenses that would be tax deductible; (2) purchase of a primary home; (3) stop eviction from primary home, or stop foreclosure on such home; (4) payment of tuition, related educational fees, and room and board expenses for up to the next 12 months of post-secondary education of the participant, spouse, children, or dependents defined in the Plan; (5) burial or funeral expenses for a deceased parent, spouse, child, or dependents defined in the Plan; and (6) expenses to repair damage to primary home that would be tax deductible. To comply with certain requirements of the SECURE Act of 2019 and IRS regulations, the Plan relaxed the substantiation rule, and the six-month elective deferrals suspension rule for hardship distributions.

MEXICO FOODS 401(k) PLAN

2. Summary of Significant Accounting Policies

Date of Management's Review and Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure through July 28, 2023, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for FBRICS, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The net depreciation in value of investments consists of the realized gains and losses on investments bought and sold as well as held during the year and unrealized appreciation (depreciation) of investments. The net change in unrealized appreciation (depreciation) in value of investments is determined by the change in fair value from the beginning of the year to the end of the year or change in fair value from date of the purchase to the end of the year.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The income earned on participant accounts is allocated daily using the previous day's ending account balance.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2022 and 2021, no allowance for credit losses has been recorded.

If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. The fair value disclosures for financial instruments are not required for participant loans. Also, participant loans continue to be considered as investments for Form 5500 reporting purposes.

Payments of Benefit

Benefits are recorded when paid.

Administrative Expenses

Officers or employees of the Company perform certain administrative functions. However, such officers and employees receive no compensation from the Plan. The expenses of maintaining the Plan are paid by the Company, unless paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and fees paid related to benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net depreciation in value of investments.

MEXICO FOODS 401(k) PLAN

4. Investment Contract with Insurance Company

The Plan has a benefit-responsive group annuity contract comprised of stable value funds (collective investment trust) in a general account and variable annuities in pooled separate accounts with Principal Life Insurance Company ("Principal"). The group annuity contract may provide payments or values which are not guaranteed as to fixed dollar amount but may increase or decrease according to the investment experience of a variable account or separate account.

Variable annuities in pooled separate accounts

Contributions into the variable annuities are maintained in various pooled separate accounts. Each Eligible Fund is a separate mutual fund having its own investment objectives and policies and is registered with the Securities and Exchange Commission ("SEC") as an open-end management investment company or portfolio thereof. The SEC does not supervise the management or the investment practices and policies of any of the Eligible Funds. Many of the Eligible Funds are available only to insurance companies for their variable contracts (Insurance-Dedicated Funds) and are used for mixed and shared funding. Mixed funding occurs when shares of an Eligible Fund under the group contract are bought for variable life insurance policies issued by Principal or other insurance companies. Shared funding occurs when shares of an Eligible Fund under the Group Contract are also bought by other insurance companies for their variable annuity contract.

Some of the Insurance-Dedicated Eligible Funds have been established by investment advisers which manage publicly traded mutual funds having similar names and investment objectives. While some of the Eligible Funds may be similar to and may in fact be modeled after publicly traded mutual funds, those Eligible Funds are not otherwise directly related to any publicly traded mutual fund. Consequently, the investment performance of publicly traded mutual funds and any corresponding Eligible Funds may differ substantially. At December 31, 2022 and 2021, the fair value of the variable annuities in pooled separate accounts included in the presentation of investments at fair value on the statement of net assets was \$748,389 and \$549,265, respectively.

Short-term fixed income (Stable Value) funds in collective investment trust

Contributions into the Morley Principal Stable Value fund represents fixed income funds maintained in a collective investment trust managed by Principal Global Investors Trust Company (f/k/a Union Bond & Trust Company). The fixed income funds are fully benefit-responsive guaranteed investment contracts and are presented at contract value because contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The underlying assets of the collective trust fund are mainly: non-affiliated synthetic investment contracts, affiliated synthetic investment contracts, conventional guaranteed investment contracts, wrap contracts and short-term government debt securities, in that order. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the crediting interest rate and prevailing market conditions.

Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. At December 31, 2022 and 2021, the contract value of the fixed income funds in collective investments trusts was \$82,951 and \$66,825, respectively.

The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the Plan's ability to transact at contract value with Principal Life Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974 (ERISA). Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The guaranteed investment contract does not permit Principal Life Insurance Company to terminate the agreement prior to the scheduled maturity date.

MEXICO FOODS 401(k) PLAN

Balanced/Asset allocation funds in collective investment trusts

Contributions into the Principal LifeTime Hybrid target date retirement funds represents balanced/asset allocation funds maintained in various collective investment trusts managed by Principal Global Investors Trust Company (f/k/a Union Bond & Trust Company). The balanced/asset allocation funds are not fully benefit-responsive guaranteed investment contracts and are presented at fair value. The underlying assets of the collective investment trust funds are generally: affiliated open-ended mutual funds, insurance company separate accounts, unaffiliated mutual funds, and unaffiliated collective trusts funds that Principal Trust Company considers appropriate based on the remaining time horizon of a particular target date fund. At December 31, 2022 and 2021, the fair value of the balanced/asset allocation funds in collective investment trusts included in the presentation of investments at fair value on the statement of net assets was \$3,469,178 and \$3,657,020, respectively.

5. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures* establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are as follows:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.
- Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1).
- Level 3 inputs consist of unobservable inputs and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs are not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs are not available. At December 31, 2022 and 2021, no plan assets required the use of Level 3 inputs.

Level 1 Fair Value Measurements

Mutual funds - The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are actively traded.

Level 2 Fair Value Measurements

Collective investment trusts - The Plan's interest in the collective investment trusts with balanced/asset allocation funds is based on the fair value of the respective collective investment trusts' underlying investments based on information reported by the trustee using the audited financial statements of the collective investment trusts at year end. Investments in the balanced/asset allocation funds in these collective investment trusts can be redeemed on a daily basis to meet benefit payments and other participant-initiated withdrawals.

Pooled separate accounts – Pooled separate accounts ("PSAs") invests in mutual funds. The fair value of a mutual fund is a publicly quoted pricing input used in determining the net asset value ("NAV") of the PSA, which is not publicly quoted but is available to current investors via the Employer website or when plan participants access their account values. The NAV is the basis for current transactions and the PSAs can be redeemed at NAV as of the measurement date. The fair value of the underlying mutual fund is based on third-party pricing vendors and utilize observable market information. PSAs typically can be redeemed on a daily basis.

MEXICO FOODS 401(k) PLAN

The following table set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	Fair Value Measurements Using:		
	Quoted Prices in Active	Other	
	Markets for Identical Assets	Observable Inputs	Fair Value
	(Level 1)	(Level 2)	
December 31, 2022:			
Balanced funds in collective investment trusts	\$ -	\$ 3,469,178	\$ 3,469,178
Variable annuities in pooled separate accounts	-	748,389	748,389
Mutual funds	<u>901,370</u>	<u>-</u>	<u>901,370</u>
Total investments at fair value	<u>\$ 901,370</u>	<u>\$ 4,217,567</u>	<u>\$ 5,118,937</u>
December 31, 2021:			
Balanced funds in collective investment trusts	\$ -	\$ 3,657,020	\$ 3,657,020
Variable annuities in pooled separate accounts	-	549,265	549,265
Mutual funds	<u>1,024,761</u>	<u>-</u>	<u>1,024,761</u>
Total investments at fair value	<u>\$ 1,024,761</u>	<u>\$ 4,206,285</u>	<u>\$ 5,231,046</u>

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2022 are reported in net depreciation in value of investments.

6. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds, variable annuities in pooled separate accounts, and fixed annuities in collective investment trust funds managed by the trustee of the Plan, Principal Trust Company ("PTC"), a member company of the Principal Financial Group ("PFG"). Therefore, PTC is a party-in-interest under ERISA and transactions with PTC qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in net depreciation in value of investments within the investment income (loss) caption on the accompanying statement of changes in net assets available for benefits, as they are paid through investment revenue sharing arrangements rather than direct payment arrangements.

Plan transactions and records are administered by Principal Life Insurance Company ("PLI"), a member company of PFG. PLI is also the Plan's third-party contract administrator. Therefore, PLI is a party-in-interest under ERISA and transactions with PLI qualify as party-in-interest transactions. Fees paid by the Plan to PLI for contract administration and recordkeeping services are included in administrative expenses on the accompanying statement of changes in net assets available for benefits. During 2022, the Plan paid \$6,877 in administrative expenses to PLI.

Payne & Smith, LLC is the Plan's independent public accountant (IPA) as defined by the Plan. Therefore, the IPA is a party-in-interest under ERISA and transactions with the IPA qualify as party-in-interest transactions. Fees incurred by the Plan for audit and nonattest services provided by the IPA are absorbed fully by the Company and are therefore, neither disclosed nor included or accrued on the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

Focus 401(k) Group ("FG") is the Plan's third-party investments adviser as defined by the Plan. Therefore, FG is a party-in-interest under ERISA and transactions with FG qualify as party-in-interest transactions. Fees incurred by the Plan for investment advisement services provided by FG are paid quarterly and are absorbed fully by the Company and are therefore, neither disclosed nor included or accrued on the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

7. Tax Status

The Plan is based on a prototype plan developed by Benefit Investment Group Inc, which received a favorable opinion letter dated March 31, 2014, from the IRS stating that the prototype plan constitutes a qualified plan under Section 401 of the IRC. The Plan Administrator believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. Plan Termination

While there is no intention to do so, the Company reserves the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The following table presents concentrations of investments that represented 5% or more of the Plan's net assets at December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
