INDEPENDENT AUDITORS' REPORT

To the Administrative and Investment Committees of the Simplot Pension Plan "S"

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of Simplot Pension Plan "S" ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits (in liquidation) as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits (in liquidation) for the years then ended, the statements of accumulated plan benefits (in liquidation) as of December 31, 2022 and 2021, and the related statements of changes in accumulated plan benefits (in liquidation) for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

INDEPENDENT AUDITOR'S REPORT - CONTINUED

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of as listed in the accompanying table of contents as of and for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling

such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the plan

The following description of the Simplot Pension Plan "S" (the Plan) provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored by J.R. Simplot Company (the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and has acquired pension benefit insurance protection through the Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency. The Plan was closed to participants hired or rehired on or after January 1, 2004. Effective as of December 31, 2012, all future benefit accruals under the Plan were frozen. Effective December 31, 2021, the Plan was legally terminated (Plan Termination). In 2022, assets of the Plan were distributed to participants or used to purchase group annuity contracts for the benefit of the participants. For additional information, see Note 8, Plan Termination.

Pension benefits

Participants with five or more years of vesting service are entitled to a pension benefit beginning at normal retirement age (65). Regardless of the number of years of vesting service, however, participants employed on or after age 65 become automatically vested. The Plan permits early retirement at ages 55 through 64 if the participant has completed 10 years of vesting service. Based on years of vesting service, the pension benefit otherwise payable may or may not be adjusted upon early retirement. Generally, a participant's annual pension benefit is computed as 1% of average pensionable earnings for the highest five consecutive calendar years during the last ten years of service multiplied by the years of benefit service. The annual pension benefit of other participants, comprised mainly of participants from the merged Mid-America Retirement Plan, is equal to 1.5% of the final average monthly earnings multiplied by the years of benefit service. Pensionable earnings and years of benefit service shall not include any amounts paid or earned by a participant after December 31, 2012. Effective December 31, 2021, all participants are fully vested.

If a participant's present value of their benefit is less than $1,000 at termination, their benefit shall be distributed in a lump sum with or without a request or application from the participant. If the participant's present value of their benefit is in excess of $1,000 but not greater than $5,000 at termination, their benefit balance will be directly rolled over to an individual retirement account held by Principal Bank unless otherwise directed by the participant. If the present value of the benefit is greater than $5,000 upon retirement or termination, they may elect to receive their benefits in various forms including monthly income for life, a joint and survivor annuity or life annuity with period certain.

Death and disability benefits

If a vested participant dies prior to retirement, their spouse is eligible to receive a portion, depending on the participant's age at the time of death, of their accrued pension benefit for life. Prior to benefit accruals being frozen as of December 31, 2012, participants who completed six months of service and became totally and permanently disabled prior to age 65 continued to earn benefit credited service under the Plan. This benefit credit accrual continued until the earlier of the date of recovery, retirement, death, or age 65.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are presented on the liquidation basis of accounting.

Investment valuation and income recognition

The fair value of the assets in the J.R. Simplot Company Pension Plan "S" Trust is based on the beginning of the year value plus actual contributions, if any, and allocated investment income less actual benefit payments and allocated administrative expenses. Investments in the J.R. Simplot Company Pension Plan "S" Trust are valued at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of assets includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of significant accounting policies (continued)

The Plan's investment income represents the difference between fair value at the beginning of the year or date of purchase and the end of the applicable year and the difference between the proceeds received from the sale of investments and the fair value at the beginning of the year of such investments.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial present value of accumulated plan benefits
Due to the Plan Termination, the actuarial present value of accumulated plan benefits is measured on a plan liquidation basis. Therefore, accumulated plan benefits are the distributions that will occur as part of the Plan Termination including lump sum payments to participants during the special lump sum window offered to active and deferred participants, purchase of group annuity contracts for the benefits of the participants, and the remaining periodic payments of benefits from the measurement date until either the lump sum window payment or the annuity purchase.

The actuarial present value of accumulated plan benefits is presented based on a beginning-of-the-year benefit information date and is determined by an actuarial firm, Milliman, Inc. It represents the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2022 and 2021, included all settlements discounted back to the valuation date using an interest rate of 2.00%.

Payment of benefits
Benefit payments to participants are recorded upon distribution.

Use of estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administration costs
Certain managerial and administrative services are provided by the Sponsor without charge to the Plan. All other administrative costs are paid by the Plan. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

3. Funding policy

The annual contribution required to be made to the plan is computed using the unit credit method, as required by statute. The Sponsor has no minimum funding requirements under ERISA for the years ended December 31, 2022 and 2021.

4. Information certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the investments, related investment income, pending trade receivables, and net appreciation (depreciation) in fair value of investments information in the financial statements and notes (excluding leveling information) to the financial statements, and the investment information in the supplemental schedules, were derived from information certified as complete and accurate by the Trustee, Russell Investments Trust Company, as of and for the years ended December 31, 2022 and 2021.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information provided by the Trustee to the related information included in the accompanying financial statements and schedule of assets (held at end of year).

5. Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820-10, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820-10 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common/collective trusts

Common/collective trusts are valued at the net asset value (NAV) of units of the collective investment. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. At December 31, 2022 and 2021, there were no unfunded commitments and no restrictions on redemption of these investments.

The following tables summarize the Plan investments at fair value as of December 31:

	Level 1	2022 (in liquidation) Total
Common/collective trust funds*		
Fixed income	$ -	$ 24,855,710

	Level 1	2021 (in liquidation) Total
Common/collective trust funds*		
Fixed income	$ -	$ 551,647,782

* In accordance with Subtopic 820-10, certain investments that are measured using NAV per share (or its equivalent) as a practical expedient for fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

6. Party-in-interest transactions

The assets of the Plan's Trust are held by the Trustee. Plan investments are also managed by the Trustee and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the Trustee were $625,064 and $1,438,824 for the years ended December 31, 2022 and 2021, respectively.

7. Internal Revenue Service status

The Internal Revenue Service (IRS) has determined and informed the Company by letter, dated April 12, 2018, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. Subsequent to year end, the Company received a determination letter from the IRS with regards to the Plan termination dated March 9, 2023.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examination for years prior to 2019.

8. Plan termination

In conjunction with the Plan Termination (effective December 31, 2021), the Plan's investments as of December 31, 2022, are concentrated in one investment option. The Plan made lump sum payments of $74,872,369 to active and deferred participants through an elective lump sum window during June and August 2022. The lump sum payments are included in the $95,920,500 in benefit payments shown on the Statement of changes in net assets in liquidation along with regular monthly benefit payments made prior to the lump sum payments. All remaining participants were included in a buy-out group annuity contract paid in July 2022, which is effective October 1, 2022, with an insurance company and its New York affiliate or included in Pension Benefit Guaranty Corporation's (PBGC) missing participants program. The annuity buy-out of $353,461,955 and PBGC filing of $1,410,439 irrevocably transferred to the insurance companies or PBGC the future benefit obligations and annuity administration for all remaining plan participants (or their beneficiaries) in the Plan. These transactions fully eliminated the pension liabilities of the Plan.

9. Subsequent event

In accordance with the IRS determination letter dated March 9, 2023, approximately $26 million in assets will be transferred to the Simplot Retirement Savings Plan (a qualified replacement plan under IRS rules) in 2023 after settlement of Plan liabilities, at which date, the Plan liquidation will be complete.

Subsequent events have been evaluated through August 10, 2023, which is the date the financial statements were available to be issued.
