Independent Auditors' Report

Plan Administrator of the Behaviorally 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Behaviorally 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Behaviorally 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section —

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Behaviorally 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Behaviorally 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Behaviorally 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Behaviorally 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion —

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Behaviorally 401(k) Plan

Notes to the Financial Statements Years Ended December 31, 2022 and 2021

1. Background and Description of Plan

General

The following description of the Behaviorally 401(k) Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was established effective January 1, 1998, amended and restated in April 2022. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). It is a defined contribution plan covering all eligible employees, as defined, of Behaviorally, Inc. (the "Company"), with the exception of union employees and nonresident aliens who do not receive U.S. source income.

Effective February 1, 2021, the name of the Plan changed from PRS In Vivo, Inc. 401(k) Plan. Additionally, the name of the sponsor changed from PRS In Vivo, Inc. to Behaviorally Inc.

Employees are eligible to make contributions and receive safe harbor matching contributions on the first day of the calendar month coinciding with or next following when they are age 21 and have completed 3 months of service. The plan entry date is the first day of the month coinciding with or next following date eligibility requirements are met. The Plan year begins every January 1 for a twelve consecutive month period, ending every December 31.

Contributions

Each year, participants may contribute up to 90% of eligible compensation and a dollar amount (\$20,500 in 2022) set by law of pre-tax annual compensation, as defined in the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to elect to make "catch-up" contributions set by law (\$6,500 for 2022). Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

On February 1, 2020, the Plan was amended to include an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 1% of eligible compensation.

On January 1, 2021, the Plan was amended to include the safe harbor matching requirement with the contributions equal 100% of the first 6% of eligible compensation that a participant contributes.

Participant Accounts

Each participant account is credited with the participant's voluntary pre-tax and Roth contributions, Company contributions, and Plan earnings. Plan earnings are allocated based on participant balances in each fund. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting

Participants are vested immediately in their contributions and all Company contributions plus actual earnings or losses thereon.

Payment of Benefits

Upon termination of service due to death, disability, or normal retirement, a beneficiary may receive a lump sum payment equal to the value of the participant's vested interest in his or her account, can roll the amount over into another qualified plan, or delay the distribution until the participant is required by law to receive minimum required distributions. For termination of service due to other reasons, a participant may elect to receive the value of the vested interest in a single cash distribution, as soon as administratively feasible after the last day of the Plan year coinciding with or next following the date on which the participant terminate employment.

Behaviorally 401(k) Plan

A participant who terminates employment with a vested balance greater than \$5,000 may elect to receive a distribution. As required by the Internal Revenue Code, no election may be made by a participant to postpone distribution beyond April 1st of the year following the year a participant reaches age 72 (73 if the participant reaches 72 after December 31, 2022). A participant, even if employed at the age of 59-1/2, may commence payment of benefits.

If a participant terminates employment with a vested balance less than \$5,000, the participant may elect to receive a lump sum distribution or roll the distribution to a qualifying retirement account. However, if the participant fails to make an affirmative election, the participant's vested balance will automatically roll over to an individual retirement account.

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's accounts and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. A participant is allowed a maximum of two loans at a given time. The loans are secured by the vested balance in the participant's account and bear interest at the prevailing prime rate plus 1% at the time of application determined quarterly by the plan administrator. Such amounts have repayment schedules of five years or less, except for those loans which are used to acquire a principal residence of the participant, which are repayable over 30 years. Principal and interest is paid ratably through monthly payroll deductions. The interest rate on participants' loans ranges from 4.25% to 6.75% at December 31, 2022.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurements' date. See Note 4 for discussions of fair value measurements.

The Plan's investments in registered investment funds, interest bearing cash, money market funds and brokerage options (self-directed accounts), which consist primarily of equities and money market funds, are stated at fair value. Refer to Note 4 for disclosures provided for fair value measurements of Plan investments.

The Plan presents in the statement of changes in net assets available for benefits the net depreciation in the fair value of its investments which consists of the realized and unrealized gains or losses on those investments. Purchases and sales of securities and registered investment funds are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Behaviorally 401(k) Plan

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Management evaluated subsequent events for the Plan through August 4, 2023, the date the financial statements were available to be issued.

3. Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2022 and 2021, and investment income and interest income on notes receivable from participants for the year ended December 31, 2022, that are disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.

	2022	2021
Registered investment companies	\$ 11,500,255	\$ 13,102,954
Notes receivable from participants	\$ 121,380	\$ 94,116
		2022
Net depreciation in fair value of investments		\$ (2,762,397)
Dividend income		538,882
Total investment loss		\$ (2,223,515)
Interest income from notes receivable from participants		\$ 5,864

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Behaviorally 401(k) Plan

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- Registered investment companies: Valued at unadjusted quoted prices in active markets based on net asset value of the shares determined by the underlying securities held at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments:

Investments at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 11,500,255	\$ -	\$ -	\$ 11,500,255
Total assets measured at fair value	\$ 11,500,255	\$ -	\$ -	\$ 11,500,255

Investments at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 13,102,954	\$ -	\$ -	\$ 13,102,954
Total assets measured at fair value	\$ 13,102,954	\$ -	\$ -	\$ 13,102,954

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue all contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

6. Party-In-Interest Transactions

Plan investments were held by Reliance Trust Company, the trustee. Fees paid to Reliance Trust Company for these services amounts to \$23,600 for the year ended December 31, 2022. Therefore, these investment transactions are considered to be exempt party-in-interest transactions under the Department of Labor's rules and regulations.

Notes receivables from participants also qualify as party-in-interest transactions.

Direct and indirect fees and commission are included in net depreciation in fair value of investments through revenue sharing rather than direct payment.

The Company provides certain accounting and administrative service to the Plan for which no fees are charged.

7. Risks and Uncertainties

The Plan provides for various investment options in registered investment funds that invest in investment securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Behaviorally 401(k) Plan

8. Tax Status

The IRS has determined by a letter dated October 6, 2020, that the prototype document upon which the Plan is based is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has not filed an application for an individual determination letter from the IRS as to whether the Plan meets the qualification requirements of Section 401(a) of the IRC. However, the Company believes that the Plan is currently designed and being operated in compliance with the application requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.
