INDEPENDENT AUDITOR'S REPORT

The Trustee, Plan Administrator, and Participants
Precision Metal Works, Inc. Frozen ESBP

Opinion

We have audited the accompanying financial statements of Precision Metal Works, Inc. Frozen ESBP (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 (in liquidation) and 2021 (ongoing), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the Plan's net assets available for benefits as of December 31, 2022 (in liquidation) and 2021 (ongoing), and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Basis of Accounting

As discussed in Note 1 to the financial statements, the Plan's governing body approved a plan of liquidation effective May 31, 2022, and management determined plan liquidation was imminent. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2021 financial statements to the liquidation basis used in presenting the 2022 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

PRECISION METAL WORKS, INC. FROZEN ESBP

NOTES TO FINANCIAL STATEMENTS

Years ended December 31, 2022 (in liquidation) and 2021 (ongoing)

1. Plan description

The following brief description of the Precision Metal Works, Inc. Frozen ESBP (the Plan) provides only general information. Participants should refer to the Plan Document and the Plan and Trust Agreement for a more comprehensive description of the Plan's provisions. Copies of the Plan Document and the Plan and Trust Agreement are available from Precision Metal Works, Inc. (the Company), the Plan's sponsor.

General – The Plan was a frozen non-contributory defined contribution profit sharing Plan, subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and was administered by a trustee appointed by the Company's Board of Directors. The Company and The Huntington National Bank (Huntington Bank) were the custodians of the Plan's assets.

On March 16, 2022, the Plan's governing body approved the Plan's termination effective May 31, 2022 and disposed of the Plan's assets and settled the Plan's liabilities during the year ended December 31, 2022. The Company provided the necessary funds to enable the Plan to effect termination.

Prior to liquidation, the Plan held Company Class B common shares of stock in a trust established under the Plan. The Company had no rights against the shares because all shares were allocated to the Plan's participants. The Plan's participants were fully vested in those shares.

Participant accounts – The Plan was a defined contribution plan under which separate accounts were maintained for each participant. The participants' accounts were credited with an allocation of the value of the Plan's Class B common stock, any cash held by the Plan, and administration expenses. Allocations to participant accounts were generally made pro rata based on the ratio that the value of each participant account as of the preceding valuation date, less distributions and any expenses charged to each participant account since that date, bore to all such accounts.

Payments of benefits – In the event of a participant's death, disability, retirement, or termination, or the Plan's termination, a participant's vested benefit were distributed in accordance with specific provisions of the Plan Document. In-service distributions were also permitted upon meeting certain requirements defined in the Plan Document.

Voting rights – Each participant was entitled to exercise voting rights attributable to the shares allocated to his or her account and was notified by the Plan's trustee prior to the time such rights were to be exercised. The Plan's trustee was not permitted to vote any allocated share for which instructions had not been given by a participant.

Administration – Certain administrative functions were performed by Company officers and employees. No such officers or employees received compensation from the Plan. Generally, accounting, legal, and other expenses to maintain the Plan's records were paid by the Company and were therefore not recorded as expenses on the accompanying statements of changes in net assets available for benefits.

2. Summary of significant accounting policies

Basis of accounting – The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). Because the Plan's governing body authorized the Plan's termination effective May 31, 2022, the Plan's management determined liquidation was imminent. Accordingly, the Plan utilized the liquidation basis of accounting for the 2022 financial statements and the ongoing basis of accounting for the 2021 financial statements.

Estimates – The preparation of financial statements in conformity with GAAP required the Plan's administrator to make estimates and assumptions that affected certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – As more fully described in Note 4, the Company's Class B common shares were valued at fair value as determined by independent valuation. Realized gains and losses on the Plan's investments were recognized upon the sale of the related investments, and unrealized appreciation or depreciation was recognized when the carrying values of the related investments were adjusted to their estimated fair values. Net realized and unrealized appreciation or depreciation in fair value of the Plan's investments included gains and losses on investments bought and sold, as well as held during the year. Purchases and sales of securities were recorded on a trade-date basis.

Benefit and withdrawal payments – Benefit and withdrawal payments were recorded when paid.

Fair value measurements – The Plan applied the *Fair Value Measurement* topic of the Accounting Standards Codification (ASC) which requires determination of fair value based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The *Fair Value Measurement* topic emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and it applies in conjunction with other ASC topics that require or permit fair value measurements and disclosures. Impacted assets and liabilities are measured and disclosed in one of three categories based on the significance and source of the inputs to their valuation. The hierarchy consists of three broad levels: Level 1, Level 2, and Level 3. Level 1 inputs have the highest priority and consist of observable unadjusted quoted prices for identical assets or liabilities in active markets that the Plan had the ability to access. Level 2 inputs include: a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c)

inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs have the lowest priority, are unobservable, and include judgments about the assumptions that market participants would use in pricing the asset or liability.

An asset's or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to its fair value measurement. Valuation techniques used maximized the use of observable inputs and minimized the use of unobservable inputs. The Plan's management used specific valuation techniques based on the available inputs to measure the fair values of the Plan's impacted assets and liabilities. When available, the Plan's management measured fair value using Level 1 inputs because they generally provided the most reliable evidence of fair value.

These methods may have produced fair value calculations that may not have been indicative of net realizable values, or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods utilized were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair values of certain assets and liabilities could have resulted in different fair value measurements.

Subsequent events – The Plan's management has evaluated subsequent events through August 15, 2023, the date the financial statements were available for issue.

3. Investment in sponsor company Class B common stock

The Plan's investment in the Company's Class B common stock was non-participant directed. The following table sets forth information regarding the Plan's investment in the Company's Class B common stock as of December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Number of shares	-	598,973
Cost	\$ -	\$ 58,315
Fair value	\$ -	\$ 307,273

The Company repurchased 598,973 shares of the Company's Class B common stock from the Plan's participants during the year ended December 31, 2022 as part of the Plan's termination.

4. Fair value measurements

The Company's Class B common shares were valued at fair value utilizing Level 3 inputs as determined through independent valuation. The calculation of value as of May 31, 2022 and

the valuation as of December 31, 2021 were based on the adjusted book value method, an asset-based approach to valuation. This approach assumes the benefits of ownership would be realized through the hypothetical sale of the Company's assets. This method consists of determining the fair value of the Company's assets and subtracting the fair value of the Company's liabilities to arrive at the fair value of the Company's equity, which is the Company's fair value. Appraisals are used to value certain assets when appropriate and the remaining assets and liabilities are included at book value, which should approximate fair value, or they are adjusted when deemed necessary. The valuator considered the impact of a preferred stock preference (see Note 7) included in the Company's Amended and Restated Articles of Incorporation on the Company's Class B common stock share value. The valuator considered various market, income, and asset-based approaches.

There have been no changes in the valuation methodologies used to value the Plan's investment in the Company's Class B common stock for the years ended December 31, 2022 and 2021.

5. Income tax status

The Plan operated under a non-standardized pre-approved profit sharing plan and trust sponsored by Retirement Management Services, LLC. The Internal Revenue Service (IRS) ruled in an opinion letter dated June 30, 2020 that the non-standardized plan was qualified under applicable sections of the IRC. The Plan's trustee, sponsor, administrator, and tax counsel are not aware of any occurrences that would adversely affect the Plan's qualified status, and believe the Plan was designed and operated in compliance with the applicable IRC requirements, was qualified, and the related trust was tax-exempt.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken, or expected to be taken, that would require recognition of a tax liability, or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan's administrator believes the Plan is no longer subject to income tax examinations for years prior to the year ended December 31, 2019.

6. Parties-in-interest assets and transactions

The Plan's cash was held by Huntington Bank, a plan custodian. The Plan's cash, its investment in the Company's Class B common stock, and its receivable from sponsor company qualified as party-in-interest assets. Certain fees paid to the Plan's third-party administrator qualify as party-in-interest transactions. These transactions are permitted

under the Plan's provisions and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

7. Preferred stock preference

The Company's preferred shares carry specific liquidation rights. In the event of any sale, merger, capital transaction, liquidation, dissolution, or winding-up of the Company, whether voluntary or involuntary, the holders of the preferred shares should be entitled to receive \$1 per preferred share owned. This \$1 per share would be paid prior to any allocation of sale proceeds to holders of common shares. If the sale proceeds are insufficient to pay each preferred shareholder \$1, preferred shareholders shall receive the entire sale proceeds on a pro rata basis.

8. Risks and uncertainties

The Plan's Forms 5500 for the years ended December 31, 2019 through 2015 were not filed timely. Accordingly, the Department of Labor and/or the IRS may take any action authorized by law, including assessment of penalties. The Plan's administrator cannot provide a reasonable estimate regarding a range of loss, if any, related to this matter. The accompanying financial statements do not include any adjustments that might result from this uncertainty. The Plan's administrator has not been contacted by the authorities regarding this matter.
