Report of Independent Auditors

To the Administrator of Thermo Fisher Scientific Inc. Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Thermo Fisher Scientific Inc. Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule G – Schedule of Loans or Fixed Income Obligations in Default or Considered Uncollectible as of December 31, 2022, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2022 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following brief description of the Thermo Fisher Scientific Inc. Retirement Plan is provided for general information purposes only. Participants should refer to the amended and restated plan document for more complete information.

General

The Plan is a defined benefit pension plan sponsored by Thermo Fisher Scientific Inc. (the "Company"). The Company's Pension Committee and the plan administrator control and manage the operation and administration of the Plan. The Bank of New York Mellon ("BNY Mellon") serves as the trustee of the Plan. The Principal Life Insurance Company ("Principal") is the asset custodian of certain assets referred to as investments in "pooled separate accounts" in the accompanying Statements of Net Assets Available for Benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective July 1, 1997, Fisher Scientific International Inc. (the "former Plan Sponsor") amended and restated the Plan to convert from traditional defined benefit pensions to cash balance pension benefits for most participating employees. The old Plan is referred to as the "Prior Plan" and the new Plan is referred to as the "Cash Balance Plan"; together, they are referred to as the "Plan." The rights and benefits of each person who retired prior to July 1, 1997, were determined in accordance with the terms of the Prior Plan. The rights and benefits of a person who retired on or after July 1, 1997, or a person whose employment otherwise terminated or whose severance or separation pay ended on or after July 1, 1997, was determined in accordance with the Cash Balance Plan. For certain employees covered by collective bargaining agreements, this conversion was effective at a later date or in some cases there was no conversion from the Prior Plan. The Plan was formerly known as Fisher Scientific International Inc. Retirement Plan. The Plan's name was changed by an amendment effective March 31, 2008. In addition, effective January 1, 2009, Thermo Fisher Scientific Inc. (the "Plan Sponsor") became the plan sponsor.

Effective January 1, 2006, the Plan was amended to freeze participation and accrued benefits of employees who were not collectively bargained under the Plan. Effective December 30, 2008, the Plan was amended again to freeze participation and accrued benefits of employees covered by one of the collective bargaining units participating in the Plan, and to render those participants fully vested in their benefits at that date. Effective April 30, 2009, the Plan was amended to freeze the accrued benefits of the sole remaining collective bargaining unit that was still accruing benefits.

Funding Policy

Employer contributions are actuarially determined to fund the Plan's current normal costs on a current basis and to generally fund the existing unfunded liability on account of qualified service prior to the valuation date in accordance with the amortization schedules prescribed by ERISA minimum funding requirements (as amended by the Pension Protection Act). At the Company's discretion, and to the extent allowable under maximum tax deductibility regulations, contributions above the ERISA minimum requirements may be made to the Plan. The Plan had no minimum funding requirement under ERISA for the year ended December 31, 2022.

Pension Benefits

Plans that merged into the Plan throughout its history continued to follow the guidelines for calculation of benefits as defined by those respective plans before those mergers took place. Therefore, if a plan that did not allow for a cash balance benefit merged into the Plan, then the participants of that plan would not begin to receive cash balance benefits after that merger, unless a subsequent amendment was adopted.

Under the Cash Balance Plan, the benefit received is the participant's vested balance of their cash balance account. Under both the Cash Balance Plan and the Prior Plan, a participant in the Cash Balance Plan may receive a monthly annuity or lump-sum cash payment upon terminating employment or retiring. A participant solely of the Prior Plan may receive a monthly annuity commencing at age 65 upon terminating or retiring, or commencing as early as age 55 if the participant meets certain service requirements. Furthermore, both Plans include provisions for early retirement, death, and disability benefits.

Under the Cash Balance Plan, participants are not allowed to make contributions to the Plan. Under the Prior Plan, certain union group employees were able to contribute a portion of their earnings; however, these contributions ceased at the time the respective unions' benefits were frozen. Accumulated employee contributions were credited with an interest rate of 1.57% and 0.62% during 2022 and 2021, respectively.

Each participant's cash balance account is credited with interest at a rate determined annually (2.04% and 1.61% for 2022 and 2021, respectively) based on the 30-year Treasury bill rate. The rate is adjusted in November for the following year.

The Plan Sponsor entered into an agreement with John Hancock Financial in 1986 under which the Plan continued its role as paymaster for certain annuities which are reimbursed monthly from John Hancock Financial. Benefit payments and related reimbursements associated with this arrangement were $2,428,000 for the year ended December 31, 2022, and are not included in the Statement of Changes of Net Assets Available for Benefits.

In 2014, the Employee Pension Plan of Applied Biosystems, Inc. (the "ABI Plan") merged with the Plan and continues to operate as a separate benefit structure. Benefit accruals under the ABI Plan were frozen effective July 1, 2004. Any benefits earned from October 1, 1995 through June 30, 2004 were paid entirely under a fixed benefit final average salary formula. For benefits accrued prior to October 1, 1995, participants had the option to have benefits paid entirely under a fixed benefit formula or under fixed and variable benefit formulas with the variable portion being based on investment fund performance and mortality. The annual retirement benefit was equal to the sum of the benefits accrued through September 30, 1995 under prior formulas (see below) plus the benefits calculated under the following method with respect to each year of service completed from October 1, 1995 through June 30, 2004:

ABI Plan Fixed Benefit - The fixed benefit accrual for service from October 1, 1995 was equal to 1.4% of the three-year Final Average Salary ("FAS") plus 0.5% of FAS in excess of covered compensation (35-year average of social security taxable wage base), multiplied by years of service from October 1, 1995. If a participant had over 35 years of vesting service, the benefit accrual was equal to 1.7% of FAS times years of service in excess of 35 years. Participants awarded Incentive Compensation Income ("ICI") received an additional benefit of 1.5% of the three-year average of ICI payments times years of service from July 1, 1995. For retirement benefits earned between August 1, 1989 and October 1, 1995, the benefit accrual was 1.4% of annual compensation plus 0.5% of annual compensation in excess of covered compensation. For retirement benefits earned prior to August 1, 1989 the benefit accrual was 1.25% of annual compensation plus 0.75% of annual compensation in excess of the Federal Social Security Integration Base.

ABI Plan Fixed and Variable Annuity Benefit - Effective October 1, 1995 the variable annuity option election was no longer available and variable annuity benefit accruals were frozen. Participants who previously elected the variable annuity option received or will receive one-half of their benefits based on the pre-October 1, 1995 fixed benefit accruals described above, plus one-half of the benefits expressed in variable annuity units, attributable to the period during which the participant elected to participate in the variable benefit. At retirement, the accumulated variable annuity units are converted to a monthly annuity based on the variable annuity unit value at that time. Each year thereafter, the variable annuity portion of the retiree's benefit is adjusted to reflect changes in the variable annuity unit value. Effective July 1, 2008 the ABI Plan was amended to include a minimum benefit that a participant in the variable annuity would receive. If in any plan year the value of a participant's variable annuity pension decreases to a level that is lower than the benefit the participant would have received had the participant not elected the variable annuity and instead elected the fixed benefit, then for that plan year, the participant would have received the value of the fixed benefit.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are measured at fair value. See Note 4 for more information on valuation of the Plan’s investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in the fair value of investments includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in the fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits. As provided by the plan document, charges for administering the Plan including recordkeeping fees, actuarial fees and Pension Benefit Guarantee Corporation ("PBGC") premiums, as well as trustee fees and investment management fees are paid by the Plan.

Risks and Uncertainties

The Plan invests in various investment securities, including collective trust funds, pooled separate accounts, private equity funds, and alternative investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Subsequent Events

The Plan has evaluated events and transactions through August 25, 2023, the date the financial statements were available to be issued, for recognition or disclosure in the financial statements and notes.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2022 and 2021 are as follows:

	2022	2021
Discount Rate	5.01% Compounded Annually	2.71% Compounded Annually
Mortality	Pri-2012 Mortality Tables for annuitants and non-annuitants projected generationally using scale MP-2021 with endemic adjustment for COVID-19	Pri-2012 Mortality Tables for annuitants and non-annuitants projected generationally with using scale MP-2021
Retirement Age	Specified percentages commencing at age 55, with a weighted average age of 63.0	Specified percentages varying by former plan commencing at age 55, with weighted averages of ages varying by former plan from age 61.1 to age 62.8

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value of accumulated plan benefits as of December 31, 2022 and 2021 are as follows:

(In thousands)	2022	2021
Vested Benefits		
Participants currently receiving payments	$ 591,466	$ 730,126
Other participants*	346,590	460,423
Total vested benefits	938,056	1,190,549
Nonvested Benefits	1,105	1,247
Total actuarial present value of accumulated plan benefits	$ 939,161	$ 1,191,796

* Includes accumulated participant contributions, including interest, for active employees of $1,318 and $1,552 at December 31, 2022 and 2021, respectively.

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2022 are as follows:

(In thousands)	2022
Actuarial present value of accumulated plan benefits at December 31, 2021	$ 1,191,796
Increase (decrease) during the year attributed to:	
Change in actuarial assumptions (a)	(156,122)
Other gains/losses	(3,338)
Benefit payments	(77,071)
Change in variable annuity unit value	(47,357)
Interest accrual	31,253
Net decrease	(252,635)
Actuarial present value of accumulated plan benefits at December 31, 2022	$ 939,161

(a) Represents the change in discount rate from 2.71% to 5.01%, and the change in the cash balance interest crediting rate from 2.58% to 4.96%. Also represents the change in mortality assumption from the Pri-2012 Mortality Tables projected with scale MP-2021 to the Pri-2012 Mortality Tables projected with scale MP-2021 with endemic adjustment for COVID-19.

4. Fair Value Measurements

The fair value accounting guidance requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data such as quoted prices, interest rates and yield curves.

Level 3: Inputs are unobservable data points that are not corroborated by market data.

The asset’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan’s interests in collective trust funds and pooled separate accounts are valued based on the net asset value per share as provided by the trustee of the collective trust funds and by the asset custodian of the pooled separate accounts, which is used as a practical expedient to estimate fair value. The Plan's interest in private equity funds and alternative investments are stated at estimated fair value based on capital balances reported by the fund managers or their record keepers which are used as a practical expedient to estimate fair value. There were no changes in valuation techniques during 2022 or 2021.

As of December 31, 2022 and 2021, all of the Plan's investments were measured at the net asset value (or its equivalent) as the practical expedient and have not been classified in the fair value hierarchy.

The following table presents information about the Plan's investments that are measured at the net asset value per share (or its equivalent) practical expedient:

(In thousands)	Fair Value as of December 31, 2022	Fair Value as of December 31, 2021	Redemption Frequency	Redemption Notice Period, if currently eligible
Asset Category (a)				
Collective trust funds:				
U.S. equity funds	$ 89,447	$ 123,457	Daily	No more than 15 days
International equity fund	90,796	117,226	Daily	No more than 15 days
Fixed income funds	722,881	945,376	Daily	No more than 15 days
Money market fund	17,430	19,130	Daily	Daily
Pooled separate accounts (b)	16,319	20,361	Daily	Daily
Private equity funds (c)	7	8	Not applicable	Not eligible
Alternative investments (d)	10	10	Not applicable	Not eligible
	$ 936,890	$ 1,225,568		

(a) There were no unfunded commitments at December 31, 2022 and December 31, 2021.

(b) Primarily fixed income.

(c) These investments cannot be redeemed during the life of the funds. Instead, distributions are received through the liquidation of the underlying assets of the funds. It is estimated that the underlying assets will be liquidated over the next 1 to 2 years.

(d) The remaining investment was fully liquidated and distributed during 2023.

5. Information Certified by the Trustee and Asset Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments at fair value and interest receivable at December 31, 2022 and 2021, and the net appreciation (depreciation) in the fair value of investments and interest income for the year ended December 31, 2022, was obtained by management and agreed to or derived from information provided by BNY Mellon, the trustee of the Plan, and Principal, the asset custodian of the Plan’s pooled separate accounts, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee and asset custodian that such information is complete and accurate.

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan in certain circumstances to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter, dated May 19, 2022 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

8. Parties-in-Interest and Related Party Transactions

Certain investments of the Plan are managed by BNY Mellon and Principal. BNY Mellon and Principal are the trustee of the Plan and the asset custodian of the Plan's pooled separate accounts, respectively; therefore, these transactions and expenses qualify as party-in-interest transactions. In addition, certain Plan investments are interests in common collective trust funds managed by Aon Hewitt Investment Consultants, an affiliate of Aon, the actuary of the Plan. Therefore, transactions in these investments also qualify as party-in-interest transactions.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 is age 62. This is based on a weighting of the averages for Difco, Hamilton Union, Apogent RSP, Barnstead, Chase, Life Technologies, Applied Biosystems Inc., and the rest of the active participant populations. The average retirement age for each of the populations has been calculated according to the following tables and assuming no decrements other than retirement for the calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Definitions

Cash Balance Benefit

Cash Balance Account expressed as an actuarially equivalent single life annuity based on the 30-year Treasury note rate for November of the preceding year.

Cash Balance Plan (continued)

Definitions (continued)

Cash Balance Account	Cash Balance Accounts were initially established as of date of cash balance participation (generally effective June 30, 1997) as the present value of accrued benefits (with enhancements for certain participants based on their age, service, and prior plan participation). Cash Balance Accounts increase with Contribution and Interest Credits. Fairlawn union employees as of July 11, 1997 could elect to participate effective July 12, 1997, with future hires automatically participating. Morris Plains union employees participate effective June 29, 1998. Indiana, Pennsylvania union employees as of July 10, 1998 could elect to participate effective July 27, 1998, with future hires automatically participating. Hamilton Machinists union employees could elect to participate effective January 1, 2000. A second election was offered effective January 1, 2003, with employees hired after 2002 automatically participating. Hamilton Machinists union employees electing to participate in the cash balance plan are also eligible for the $100 monthly annuity supplement described under the Fisher Hamilton provisions.
Contribution Credits	3.50% of participant’s compensation, including overtime, commissions, and bonuses. Frozen effective December 31, 2005 for non-collectively bargained employees, March 2, 2006 for Epoxyn decertified union employees, March 31, 2006 for Fair Lawn union employees, April 21, 2006 for Epoxyn union employees, and April 30, 2009 for Hamilton Machinists union employees. Hamilton Machinists who, as of October 1, 2002, were both actively employed and had at least 20 years of service (a closed group), receive an additional cash balance credit of $50 in each month for which a Contribution Credit was received between October 1, 2002 and September 30, 2005.

Cash Balance Plan (continued)

Definitions (continued)

Interest Credits	The average of the 30-year Treasury note rate over the 12-month period ending during November of the preceding plan year. Interest shall be credited on the last day of each calendar month.
Forms of Payment	The following optional forms of payment are available: ▪ Lump sum equal to the Cash Balance Account ▪ Single life annuity equal to the Cash Balance Benefit (automatic form for unmarried participants) ▪ Reduced 5-year certain and continuous single life annuity ▪ Reduced 50%, 75%, or 100% joint and survivor annuity with the spouse as beneficiary (50% is automatic form for married participants)

Career Average Plan—Fisher Scientific Division

Effective Date	May 1, 1950
Participation in Plan	Employees are eligible to participate upon completion of 1 year of service with 1,000 hours. Amount of Pension

Normal Retirement

Benefit accruals were frozen effective June 30, 2004.

An annual pension payable monthly equal to (1) plus (2):

(1) For service prior to October 1, 1995, the sum (a) and (b):

(a) the benefit accrued to July 31, 1989 under the prior formula

(b) with respect to each year of service after July 31, 1989, a benefit provided by (i), (ii), (iii) or (iv) below.

(i) If an employee participated in the Fixed Benefit only and had less than 35 years vesting service, the sum of:

(A) 1.4% of compensation, plus

(B) 0.5% of compensation in excess of covered compensation.

(ii) If an employee participated in the Fixed Benefit only and had over 35 years of vesting service: 1.7% of compensation.

(iii) If an employee participated in the Variable Annuity: The Fixed Benefit accrual is one half of what would have been the accrual if the employee participated in the Fixed Benefit only. The Variable Annuity portion is the benefit based upon the value at termination of the accumulated company and employee Variable Annuity units accrued at September 30, 1995. The annual Variable Annuity units credited on behalf of the participant is the amount necessary to provide an annual benefit at age 65 equal to the Fixed Benefit accrual assuming that the Variable Annuity unit value increases at 3 ½% per annum to retirement. The Variable Annuity benefit is determined by multiplying the number of Variable Annuity benefit units credited to the participant at retirement by the Variable Annuity unit value as of the most recent valuation date preceding the date of retirement. The actual Variable Annuity benefit during retirement will increase or decrease based on changes in the unit value net of the assumed 3 ½% growth. Effective July 1, 2008, the Variable Benefit paid to a retiree will not be less than the benefit the participant would have received as a Fixed Benefit had they not elected to participate in the Variable Benefit.

Final Average Pay Plan with Variable Component—Applied Biosystems Inc. (continued)

(iv) Applied Biosystems Inc. employees became plan participants on July 1, 1993. A past service benefit equal to 0.75% of an employee's pay rate at the participation date times the completed years and months of service to participation date was granted under the Fixed Benefit fund.

(2) For service after September 30, 1995, the sum of (a), (b) and (c):

(a) Sum of:

(i) 1.4% of final average compensation (highest 36 consecutive months out of last 120 months), plus

(ii) 0.5% of final average compensation in excess of covered compensation,

multiplied by years of service not greater than 35, minus any years of service not in excess of 35 included in (1) above.

(b) 1.7% of final average compensation multiplied by years of service in excess of 35, not including years of service in excess of 35 included in (1) above.

(c) 1.5% of final average qualified compensation (accrued for a fiscal year and paid from the Contingent Compensation and Incentive Compensation Plan) multiplied by qualified years of service after September 30, 1995.

Final Average Pay Plan with Variable Component—Applied Biosystems Inc. (continued)

Early Retirement	The accrued normal retirement benefit, reduced for early commencement: (a) If participant performs an hour of service after June 30, 1999, ¼% per month prior to normal retirement age; (b) If participant does not perform an hour of service after June 30, 1999, ¼% per month prior to normal retirement age for first 60 months, and ½% per month for next 60 months.
Disability Retirement	The accrued normal retirement benefit, payable reduced immediately.
Deferred Vested Retirement	The accrued normal retirement benefit payable as early as age 55, reduced actuarially.
Preretirement Surviving Benefit	Benefit to qualifying spouse upon death of a participant with 5 years of service, equal to 50% of the deceased participant's accrued benefit, reduced for commencement prior to participant's normal retirement age (but not payable before the participant's early retirement age), and further reduced as if participant had elected a 50% joint and survivor annuity. An active participant may elect 100% joint and survivor form, in which case benefit is reduced 0.03% per month that the increased survivor benefit is in effect.
Forms of Payment	The following optional forms of payment are available: ▪ Single life annuity (automatic form for unmarried participants) ▪ Reduced 5-year and 10-year certain and continuous single life annuity ▪ Reduced 33-1/3%, 50%, 66-2/3%, 75%, or 100% joint and survivor annuity with contingent annuitant (50% is automatic form for married participants) ▪ Social Security level income option (excluding Variable Annuity benefit) to Social Security normal retirement age ▪ Mandatory lump sum if total value is $1,000 or less
