Independent Auditor's Report

The Spiratex Company Retirement Planning Committee
The Spiratex Company Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Spiratex Company Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules, as identified in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Spiratex Company Retirement Plan

Notes to Financial Statements

Note A: Description of Plan

The following description of The Spiratex Company Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers substantially all employees of The Spiratex Company (the "Company" and "Plan Sponsor"), meeting the eligibility requirements discussed below. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA"). Management of the Plan Sponsor is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees.

Eligibility

A non-union, non-leased employee is eligible to become a participant in the Plan, as well as receive a discretionary employer matching contribution, on the first day of each month coinciding with the employee attaining the age of 18 and having completed six months of service. A participant is eligible to receive a discretionary profit sharing employer contribution, provided they have completed one year of service, have worked at least 1,000 hours of service during the applicable Plan year and are employed by the Plan sponsor on the last day of the Plan year.

Contributions

Contributions to participant accounts are made by employees through tax-deferred salary deductions and by the Company from its earnings, at the discretion of management. Participants may contribute up to 100% of their eligible compensation, not to exceed Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions as defined by the IRC. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in the Life Cycle family of funds appropriate for the participant's age and/or anticipated retirement date until changed by the participant. Participants may elect to change fund elections and transfer investment balances between funds on a daily basis. Participants may elect to change contribution percentages each payroll period. Employees may directly "roll over" their assets from a qualified plan at a previous employer and transfer the assets into their Plan account.

During the year ended December 31, 2022, the Company elected to provide discretionary matching contributions equal to 50% of the employees' elective deferrals; the amount contributed totaled approximately \$296,000.

During the year ended December 31, 2022, the Company elected to provide discretionary profit sharing contributions; the amount contributed totaled approximately \$604,000. As of December 31, 2022 and 2021, the full amount of the employer discretionary profit sharing contribution from the respective plan year then ended remaining outstanding as was reported as receivable in the accompanying statements of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's discretionary matching contribution, an allocation of the Company's discretionary profit sharing contribution and an allocation of Plan earnings or losses. Allocations are based upon participant earnings, account balances, or specific participant transactions, as defined in the Plan document. Participant accounts are charged with an allocation of Plan administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Spiratex Company Retirement Plan

Notes to Financial Statements

Note A: Description of Plan

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 100% vested after six years of credited service or upon other conditions as defined in the Plan document.

Forfeitures

Forfeitures of non-vested Company contributions are used to pay for the Plan's administrative expenses with any remaining amounts allocated to participants. At December 31, 2022 and 2021, forfeited non-vested accounts totaled approximately \$39,000 and \$41,000, respectively. During the year ended December 31, 2022, approximately \$37,000 of forfeitures were allocated to participants.

Notes Receivable from Participants

Participants may borrow from the Plan a minimum amount of \$1,000 up to a maximum equal to the lesser of one-half of their total vested account balance, or \$50,000. A maximum of five loans are allowed in any one-year period. Only one loan may be outstanding at a time. The loans are secured by the balance in the Participant's account. Loans bear interest at a rate set by the Plan administrator in accordance with local prevailing rates for similar types of loans. Principal and interest payments are made ratably through payroll deductions over a term not to exceed five years (except for home purchase loans, which can be extended up to thirty years from the date of the loan).

Distributions and Withdrawals

Distributions and withdrawals are allowed upon retirement, attainment of age 59-1/2, disability, death, or termination of employment. Participants or their beneficiaries may receive a lump sum distribution equal to the value of their vested interest in the account or installment payments as requested by the participant, subject to minimum distribution requirements by the Internal Revenue Code ("IRC"). A participant no longer employed by the Company may be subject to various force-out provisions depending on the participant's account balance.

Note B: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts and disclosures presented in the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Plan Sponsor determines the Plan's valuation policies utilizing information provided by the trustee. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded as earned on an accrual basis. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Spiratex Company Retirement Plan

Notes to Financial Statements

Note B: Summary of Significant Accounting Policies

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. There were deemed distributions during the year ended December 31, 2022 in the amount of approximately \$41,000.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, or through the use of forfeitures, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in the net appreciation (depreciation) in investments. See Note F for additional details.

Note C: Certification of Information

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"), the Plan's trustee, holds the Plan's investments and executes investment transactions. Principal has certified that investment balances, notes receivable from participants and investment income (losses), that have been included in the accompanying financial statements, as well as the supplemental schedule, are complete and accurate as of December 31, 2022 and 2021 and for the year ended December 31, 2022.

Note D: Investment Contract

The Plan has entered into a traditional investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life Insurance Company is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The guaranteed investment contract promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity. Thus, the guaranteed investment contract is considered non-benefit responsive.

Because the investment contract is not fully benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Fair value is the value paid when funds are withdrawn prior to their maturity. If the applicable interest rate is greater than the interest rate on account, the fair market value is the contract value reduced by a percentage, as defined in the contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value. The balance in the investment contract December 31, 2022 and 2021 was approximately \$1,000 and \$7,000, respectively.

The Spiratex Company Retirement Plan

Notes to Financial Statements

Note E: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, as such:

- » Quoted prices for similar assets or liabilities in active markets;
- » Quoted prices for identical or similar assets or liabilities in inactive markets;
- » Inputs other than quoted prices that are observable for the asset or liability;
- » Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts ("PSAs"): Valued using the unadjusted net asset value ("NAV") as of the reporting date, which is the basis for current transactions. The NAV is used as a practical expedient to estimate fair value. PSAs are valued based on the underlying investments (i.e., common stock, mutual funds, and short-term securities) in the separate account as reported by the custodian. While the majority of the underlying assets' values are based on quoted prices, NAV of the PSAs are not publicly quoted. The NAV is reported by the custodian as of the financial statement date based on recent transaction prices. The PSAs held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date.

Collective investment trust: Valued at the NAV of units of the collective investment trust. The collective investment trust is composed primarily of fully benefit-responsive investment contracts as well as a variety of separate accounts and mutual funds. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Spiratex Company Retirement Plan

Notes to Financial Statements

Note E: Fair Value Measurements

Guaranteed investment contract: The guaranteed investment contract is valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (Note D). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Management of the Plan Sponsor evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investment at fair value. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 8,611,947	\$ -	\$ -	\$ 8,611,947

Note E: Fair Value Measurements

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2022 and 2021, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 16,924,399	\$ -	Monthly	1 Day
December 31, 2021	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 22,934,656	\$ -	Monthly	1 Day

The following table represents changes in the Plan's Level 3 financial instruments attributable to the following for the years ended December 31 (approximates):

	2022	2021
Purchases	\$ 2,000	\$ 9,000
Sales	8,000	139,000

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2022 and 2021, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value 12/31/22	Fair Value 12/31/21	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contract	\$743	\$6,586	Discounted cash flows	Crediting interest rate	0.79%-5.21%

Note F: Party-In-Interest Transactions

Certain expenses, including salaries and services required for Internal Revenue Service ("IRS") reporting related to the administration of the Plan are paid by the Company, as described in Note B. The Company sponsors the Plan and, therefore, these qualify as party-in-interest transactions.

Certain Plan investments are shares of mutual funds, shares of pooled separate accounts, shares of collective investment trusts, and a guaranteed investment contract managed by Principal, which is a party-in-interest; as such, these qualify as party-in-interest transactions.

The Spiratex Company Retirement Plan

Notes to Financial Statements

Note G: Plan Termination

Although it has not expressed any intent to do so, the Company may, by action of its Board of Directors, amend the Plan, discontinue its contributions, or terminate the Plan subject to the provisions of ERISA. Upon termination, participants would be 100% vested in their employer contributions.

Note H: Income Tax Status

The Plan has received a determination letter from the IRS dated April 15, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Note I: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note J: Subsequent Events

The financial statements were approved and authorized for issuance by management on the date of the accompanying Independent Auditor's Report. All events and transactions through that date were evaluated by management for potential recognition and disclosure in the financial statements.
