INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants
Mount Desert Island Hospital Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mount Desert Island Hospital Employee Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from qualified institutions as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

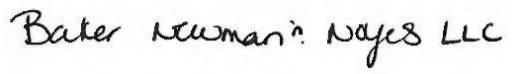

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Administrator and Participants
Mount Desert Island Hospital Employee Savings Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Mount Desert Island Hospital Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan effective May 1, 1997, amended and restated on December 31, 2017. The Plan covers substantially all employees of Mount Desert Island Hospital (MDIH) and its subsidiary, Birch Bay Retirement Village. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Eligibility

Employees are eligible for elective deferrals immediately upon their hire date and become eligible for the nonelective employer contributions after completing two years of service. All contributions to the Plan are 100% vested.

Contributions

The Plan allows participant voluntary pre-tax and Roth contributions of up to the maximum allowed as determined by the Internal Revenue Code (IRC). The Plan allows for an employer discretionary match calculated as up to 4.25% of gross compensation for each payroll period.

Rollover Contributions

Rollover contributions are permitted under the Plan, subject to the approval of the plan administrator and the appropriate sections of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution, MDIH's contributions, if any, and an allocation of the Plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each account is directed by the participant to be invested among funds established by MDIH.

Vesting

Participants are immediately vested in their voluntary contributions, employer contributions and all earnings thereon.

1. Description of the Plan (Continued)

Payment of Benefits

Upon termination of service due to retirement, death, or disability of the participant, the balance in a participant's account will be paid to the participant or his/her beneficiaries in either a lump sum or periodic installments. For termination of service due to other reasons, a participant may elect to receive their vested accounts at any time up to the normal age of retirement.

Loans

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Notes receivable terms range from one to five years or up to ten years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear an interest rate based on the discretion of the Plan sponsor.

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2022, the interest rates on outstanding participant loans are stated at prime plus 1% with various maturities through September 2032.

Plan Termination

Although it has not expressed any intent to do so, the plan administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants' total accounts will be distributed in accordance with the terms of the Plan.

Administrative Expenses

MDIH is responsible for certain administrative costs of the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from these estimates.

2. Summary of Significant Accounting Policies (Continued)

Contributions

Contributions from employees are recorded during the period in which payroll deductions are made. Employer contributions are recorded in the same period as the corresponding employee contributions.

Benefits

Benefit payments are recorded upon distribution.

Investments

The Plan's investments consist of mutual funds, pooled separate accounts, self-directed brokerage accounts and group annuity contracts. Mutual funds, the pooled separate accounts and self-directed brokerage accounts are stated at fair value. Certain group annuity contracts are stated at contract value and one is stated at fair value. The pooled separate accounts' fair value is based upon the net asset value of shares, which is based on the fair value of the fund's net assets and the number of outstanding shares. See Note 4 for further disclosure on fair value measurements.

Certain group annuity contracts have been determined to be fully benefit responsive and are stated at contract value. Contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the contract plus interest earned, less participant withdrawals and administrative expenses. See Note 3. One group annuity contract has been determined to be non-fully benefit responsive and is stated at fair value.

The crediting interest rate for the contracts is reset annually by the issuer, but cannot be below 1% to 3% depending upon the contract. Participants receive contract value upon separation of service, retirement, minimum distribution, hardship withdrawal, death and transfers to other investment options as approved by Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF).

Participants have the option to invest in a self-directed brokerage service that allows participants access to a wide variety of short-term securities and mutual funds.

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes gains and losses on investments bought and sold, as well as held, during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by the plan administrator to determine whether such events should be recognized or disclosed in the financial statements. The plan administrator has evaluated subsequent events through August 21, 2023, the date the financial statements were available to be issued.

3. Information Certified by Custodians

All Plan asset information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2022 and 2021, net (depreciation) appreciation in fair value of investments, interest and dividends, investment transactions and interest income on notes receivable from participants for the years ended December 31, 2022 and 2021, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Lincoln National Life Insurance Company and TIAA-CREF, the custodians of the Plan. Accordingly, as permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodians, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule.

The Plan maintains investment contracts with the Lincoln National Life Insurance Company and TIAA-CREF. The issuers maintain contributions in separate accounts. The contracts allow the Plan to offer the investment options with a guaranteed rate of return. Once invested in these funds, the participant may be limited under certain circumstances to transfer or withdraw funds from the investment. The contracts were determined to be fully benefit-responsive by the plan administrator and, therefore, the contracts are stated at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

The group annuity contract and the fixed account are products with insurance companies. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets compared to the minimum interest crediting rate, as stated in the contracts, and prevailing market conditions. The group annuity contract and the fixed account pay interest at crediting rates, which are announced in advance and guaranteed for a specific period of time as outlined in the contracts.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reset quarterly.

4. Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The fair value hierarchy for valuation inputs prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the net asset value of shares (based upon quoted market price) held by the Plan at year end.

Self-directed brokerage accounts: Made up of mutual funds that are valued at quoted market prices.

Pooled separate accounts: Valued at the underlying net asset value of units held by the Plan at year end. The net asset value is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments in the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

4. Fair Value Measurements (Continued)

Group annuity contract: The group annuity contract is reported at fair value, which approximates contract value. As this contract is contract-based, observable prices for identical or similar investments do not exist and, accordingly, this investment is valued using unobservable inputs. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2022:				
Mutual funds	$27,374,322	$ –	$ –	$27,374,322

During 2022 and 2021, $347,377 and $255,383 was contributed to the group annuity contract, respectively.

5. Income Tax Status

The Plan is subject to ERISA and certain provisions of the IRC. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Parties-in-Interest Transactions

Lincoln and TIAA-CREF are custodians and, therefore, transactions with both Lincoln and TIAA-CREF qualify as party-in-interest transactions. Notes receivable from Plan participants, and the related interest income and transactions, are also considered party-in-interest transactions.

7. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as a receivable on the financial statements which is different from the Form 5500 presentation. On the Form 5500, notes receivable are classified as investments under the caption “participant loans”.

INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants
Mount Desert Island Hospital Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mount Desert Island Hospital Employee Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from qualified institutions as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

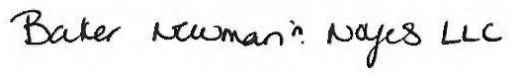

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Administrator and Participants
Mount Desert Island Hospital Employee Savings Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Mount Desert Island Hospital Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan effective May 1, 1997, amended and restated on December 31, 2017. The Plan covers substantially all employees of Mount Desert Island Hospital (MDIH) and its subsidiary, Birch Bay Retirement Village. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Eligibility

Employees are eligible for elective deferrals immediately upon their hire date and become eligible for the nonelective employer contributions after completing two years of service. All contributions to the Plan are 100% vested.

Contributions

The Plan allows participant voluntary pre-tax and Roth contributions of up to the maximum allowed as determined by the Internal Revenue Code (IRC). The Plan allows for an employer discretionary match calculated as up to 4.25% of gross compensation for each payroll period.

Rollover Contributions

Rollover contributions are permitted under the Plan, subject to the approval of the plan administrator and the appropriate sections of the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution, MDIH's contributions, if any, and an allocation of the Plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each account is directed by the participant to be invested among funds established by MDIH.

Vesting

Participants are immediately vested in their voluntary contributions, employer contributions and all earnings thereon.

1. Description of the Plan (Continued)

Payment of Benefits

Upon termination of service due to retirement, death, or disability of the participant, the balance in a participant's account will be paid to the participant or his/her beneficiaries in either a lump sum or periodic installments. For termination of service due to other reasons, a participant may elect to receive their vested accounts at any time up to the normal age of retirement.

Loans

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Notes receivable terms range from one to five years or up to ten years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear an interest rate based on the discretion of the Plan sponsor.

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2022, the interest rates on outstanding participant loans are stated at prime plus 1% with various maturities through September 2032.

Plan Termination

Although it has not expressed any intent to do so, the plan administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants' total accounts will be distributed in accordance with the terms of the Plan.

Administrative Expenses

MDIH is responsible for certain administrative costs of the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from these estimates.

2. Summary of Significant Accounting Policies (Continued)

Contributions

Contributions from employees are recorded during the period in which payroll deductions are made. Employer contributions are recorded in the same period as the corresponding employee contributions.

Benefits

Benefit payments are recorded upon distribution.

Investments

The Plan's investments consist of mutual funds, pooled separate accounts, self-directed brokerage accounts and group annuity contracts. Mutual funds, the pooled separate accounts and self-directed brokerage accounts are stated at fair value. Certain group annuity contracts are stated at contract value and one is stated at fair value. The pooled separate accounts' fair value is based upon the net asset value of shares, which is based on the fair value of the fund's net assets and the number of outstanding shares. See Note 4 for further disclosure on fair value measurements.

Certain group annuity contracts have been determined to be fully benefit responsive and are stated at contract value. Contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the contract plus interest earned, less participant withdrawals and administrative expenses. See Note 3. One group annuity contract has been determined to be non-fully benefit responsive and is stated at fair value.

The crediting interest rate for the contracts is reset annually by the issuer, but cannot be below 1% to 3% depending upon the contract. Participants receive contract value upon separation of service, retirement, minimum distribution, hardship withdrawal, death and transfers to other investment options as approved by Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF).

Participants have the option to invest in a self-directed brokerage service that allows participants access to a wide variety of short-term securities and mutual funds.

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes gains and losses on investments bought and sold, as well as held, during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by the plan administrator to determine whether such events should be recognized or disclosed in the financial statements. The plan administrator has evaluated subsequent events through August 21, 2023, the date the financial statements were available to be issued.

3. Information Certified by Custodians

All Plan asset information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2022 and 2021, net (depreciation) appreciation in fair value of investments, interest and dividends, investment transactions and interest income on notes receivable from participants for the years ended December 31, 2022 and 2021, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Lincoln National Life Insurance Company and TIAA-CREF, the custodians of the Plan. Accordingly, as permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodians, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule.

The Plan maintains investment contracts with the Lincoln National Life Insurance Company and TIAA-CREF. The issuers maintain contributions in separate accounts. The contracts allow the Plan to offer the investment options with a guaranteed rate of return. Once invested in these funds, the participant may be limited under certain circumstances to transfer or withdraw funds from the investment. The contracts were determined to be fully benefit-responsive by the plan administrator and, therefore, the contracts are stated at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

The group annuity contract and the fixed account are products with insurance companies. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets compared to the minimum interest crediting rate, as stated in the contracts, and prevailing market conditions. The group annuity contract and the fixed account pay interest at crediting rates, which are announced in advance and guaranteed for a specific period of time as outlined in the contracts.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reset quarterly.

4. Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The fair value hierarchy for valuation inputs prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the net asset value of shares (based upon quoted market price) held by the Plan at year end.

Self-directed brokerage accounts: Made up of mutual funds that are valued at quoted market prices.

Pooled separate accounts: Valued at the underlying net asset value of units held by the Plan at year end. The net asset value is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments in the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

4. Fair Value Measurements (Continued)

Group annuity contract: The group annuity contract is reported at fair value, which approximates contract value. As this contract is contract-based, observable prices for identical or similar investments do not exist and, accordingly, this investment is valued using unobservable inputs. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2022:				
Mutual funds	$27,374,322	$ –	$ –	$27,374,322
Self-directed brokerage accounts	1,176,233	–	–	1,176,233
Group annuity contract	–	–	3,118,744	3,118,744
	$28,550,555	$ –	$3,118,744	31,669,299
Pooled separate accounts, at net asset value				2,210,535
Total assets at fair value				$33,879,834
2021:				
Mutual funds	$32,362,685	$ –	$ –	$32,362,685
Self-directed brokerage accounts	1,395,729	–	–	1,395,729
Group annuity contract	–	–	2,726,962	2,726,962
	$33,758,414	$ –	$2,726,962	36,485,376
Pooled separate accounts, at net asset value				2,143,624
Total assets at fair value				$38,629,000

During 2022 and 2021, $347,377 and $255,383 was contributed to the group annuity contract, respectively.

5. Income Tax Status

The Plan is subject to ERISA and certain provisions of the IRC. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Parties-in-Interest Transactions

Lincoln and TIAA-CREF are custodians and, therefore, transactions with both Lincoln and TIAA-CREF qualify as party-in-interest transactions. Notes receivable from Plan participants, and the related interest income and transactions, are also considered party-in-interest transactions.

7. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as a receivable on the financial statements which is different from the Form 5500 presentation. On the Form 5500, notes receivable are classified as investments under the caption “participant loans”.
