INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Deschutes Brewery, Inc. 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Deschutes Brewery, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Deschutes Brewery, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section-

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the financial statements referred to above related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules, as described in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DESCHUTES BREWERY, INC. 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan

The following description of the Deschutes Brewery, Inc. 401(k) Plan (the Plan) provides only general information. Reference should be made to the underlying plan document for a more complete description of the Plan's provisions.

General. Established by Deschutes Brewery, Inc. (the Company) on October 1, 1994, the Plan is a tax qualified defined contribution plan formed for the benefit of all eligible employees of the Company. The Plan includes a salary deferral arrangement commonly called a 401(k) plan. Under such provisions, employees are able to make tax deferred contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, all non-union employees of the Company who have attained the age of 18 are eligible to participate in the Plan after fulfilling the service requirement of three calendar months of service. Contractors, interns, temporary full time, and temporary part time employees must satisfy the requirements of age 21 and working 1,000 hours in a 12 month period to become eligible to participate in the Plan. As of December 23, 2021, the Plan was amended to eliminate the different age and service requirements for contractors, interns, temporary full time, and temporary part time employees, resulting in all employees being subject to the same age and service requirements to become eligible to participate in the Plan.

Contributions. Eligible employees may make elective deferral contributions in either a Traditional (pre-tax) or Roth (after-tax) form to the Plan. Total participant contributions are limited by various Internal Revenue Code (IRC) provisions. Participants over 50 years of age may make additional annual "catch-up" contributions as allowed by the IRC. The Plan also provides that refunds may be made to certain participants in order to comply with those statutory limits.

Traditional participant elective deferral contributions represent amounts by which an eligible employee has elected a reduction in taxable compensation in consideration of the Company contributing such amounts to the Plan. Such elective deferral contributions are excluded from the participant's taxable income until received as a distribution from the Plan.

Participants making Roth elective deferral contributions will pay taxes on amounts treated as Roth elective deferral contributions when made. Roth contributions and earnings on those contributions can be withdrawn tax-free as long as the participant has had the account for at least five years and is at least age 59½ at the time of withdrawal. Roth contributions are designated irrevocably by the participant at the time of the cash or deferral election. Roth elective deferral contributions are treated by the plan sponsor as includible in the participant's income at the time the participant would have received that amount in cash if the participant had not made the election.

1. Description of the Plan (Continued)

A participant will be eligible to commence elective deferrals on the first entry date following the satisfaction of the eligibility requirements. Entry dates are the first day of each month. After initial participation, a participant may commence, recommence, or change the amount of the elective deferral monthly. A participant can also elect to cease elective deferrals at any time. The Plan contains an automatic enrollment provision which provides that a participant, upon first becoming eligible to participate in the Plan, will be automatically enrolled. All participants will be treated as having elected to make traditional elective deferral contributions equal to 1% of eligible compensation for each payroll period unless the participant affirmatively elects otherwise. Active participants with deferral elections below 4% will also have their elective deferral increased by 1% per year to a maximum of 4% of compensation at the beginning of each calendar year unless they affirmatively elect otherwise on an annual basis.

The Plan provides for safe harbor matching contributions in an amount equal to 100% of the first 4% of eligible compensation deferred by plan participants. An eligible participant does not need to be employed on the last day of the plan year or satisfy any service requirements to receive a safe harbor matching contribution allocation. Matching contributions are allocated on a plan year basis. Matching contributions of \$673,465 and \$591,302, net of forfeitures, were allocated for the years ended December 31, 2022 and 2021, respectively.

The Plan also provides for discretionary nonelective contributions, which are made at the option of the board of directors. A participant must have 1,000 hours of service during the plan year and must be employed on the last day of the plan year to receive a discretionary nonelective contribution allocation, unless separation from duty is due to death, disability, or retirement at or beyond age 65. The discretionary nonelective contribution is allocated based on the ratio of each participant's eligible salary to the total eligible salary of all participants. During 2022 and 2021, the board of directors did not authorize a discretionary nonelective contribution.

Participant Accounts. Individual accounts are maintained for each plan participant to reflect the participant's elective deferrals, rollover, and employer contributions. These individual accounts are self-directed by the participants, allowing the participants to choose the investment combination they wish from numerous available funds. Income and loss is allocated to the participants' accounts based on the investment performance of the investments the participant has chosen. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

1. Description of the Plan (Continued)

Investment Options. Plan management has selected a menu of registered investment companies from which plan participants can choose. Plan participants invest the amounts in their accounts in these various investment funds. Each participant instructs the trustee as to how the assets are to be invested. The Plan maintains no investments which are not directed by the plan participants.

Vesting. Participants are always fully vested in their elective deferral, rollover, and safe harbor matching accounts. Vesting in discretionary nonelective contribution accounts is based upon years of service. A participant is 20% vested after two years of service and vesting increases by 20% for each year of service, thereafter, reaching 100% upon earning six years of service. The method for determining a year of service is measured by elapsed time, regardless of hours. If termination is due to death, disability, or retirement, a participant is considered 100% vested, even if the participant has not been credited with six years of vesting services.

Forfeitures. When certain terminations of a participant in the Plan occur, the nonvested portion of the participant's account represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account may be reinstated. Forfeitures may be held in suspense and can be used to pay administrative expenses of the Plan or reduce any employer contribution. Forfeited nonvested accounts totaling \$1,829 and \$3,322 were used to reduce employer contributions in 2022 and 2021, respectively.

Payment of Benefits. On termination of service, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or installment payments in accordance with the Plan's payment provisions. The Plan allows in-service distributions after attaining age 59½. The Plan also allows for limited in-service distributions if a participant suffers a hardship, as defined in the plan document.

Administrative Expenses. The plan sponsor absorbs all significant costs of administering the Plan, except for management fees charged by the various fund managers and some participant fees such as transaction-based fees.

2. Summary of Significant Accounting Policies

Basis of Reporting. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation. The Plan's investments are valued at fair value. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair value.

The fair value framework requires the categorization of assets and liabilities into three levels based upon the ability to observe the inputs used to value the assets and liabilities. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Level One provides the most reliable and observable measure of fair value, whereas Level Three generally requires significant judgment. The fair value hierarchy is categorized into three levels based on the inputs as follows:

- Level One - Unadjusted, quoted prices in active markets for identical assets and liabilities.
- Level Two - Observable inputs, other than those included in Level One. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level Three - Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

Purchase and sales of securities are recorded on a trade-date basis. The cost of investments sold for the purpose of computing gains and losses is based on average cost. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statements of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of the Plan's investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties. The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Payment of Benefits. Benefits are recorded when paid. There were no amounts allocated to persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2022 or 2021.

Subsequent Events. The Plan evaluates subsequent events and the evidence they provide about conditions existing at the date of the statements of net assets available for benefits as well as conditions that arose after the statements of net assets available for benefits date but before the financial statements are issued. The effects of conditions that existed at the date of the statements of net assets available for benefits are recognized in the financial statements. Events and conditions arising after the statements of net assets available for benefits date but before the financial statements are issued are evaluated to determine if disclosure is required to keep the financial statements from being misleading. To the extent such events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions. For purposes of preparing the accompanying financial statements and the following notes to these financial statements, the Plan evaluated subsequent events through August 3, 2023, the date the financial statements were available for issue.

3. Fair Value Measurement

All plan investments are shares in registered investment companies and are measured at fair value. The methodology for determining fair value is based on quoted market prices in active markets which falls within Level One of the fair value hierarchy.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Investments and Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity Trust), a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

Total investments as shown in the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021.

Total investment income as shown in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021.

All investment-related information is in the accompanying supplemental Form 5500, Schedule H, part IV, line 4i - schedule of assets (held at end of year) as of December 31, 2022.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

5. Income Tax Status

The Plan utilizes a pre-approved plan document and relies on the opinion letter issued to the pre-approved document sponsor. The pre-approved document sponsor received an opinion letter on June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the pre-approved document sponsor received the opinion letter. However, the Company believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2022 and 2021. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Related-Party Transactions

Certain plan investments are shares of funds managed by affiliates of Fidelity Trust. Fidelity Trust is the trustee of the trust established to hold assets of the Plan. Therefore, these transactions qualify as exempt parties-in-interest transactions.

Some plan investment funds may pay Fidelity Workplace Services LLC (FWS), the Plan's record-keeper, a portion of the fund management fee they collect on plan investments. FWS is a wholly owned subsidiary of FMR LLC (Fidelity Investments) and an affiliate of Fidelity Trust. These payments are for services FWS provides to the funds. These payments may be used to reduce the recordkeeping fees the Plan would otherwise owe to FWS. Administrative expenses reflected on the statements of changes in net assets available for benefits are shown net of any fee reduction.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets per Form 5500 to net assets available for benefits per the financial statements:

	December 31	
	2022	2021
NET ASSETS RECONCILIATION:		
Net assets per Form 5500:	\$ 23,368,923	\$ 30,904,096
Employer contributions receivable	1,413	527
Participant contributions payable	(73)	-
Net assets available for benefits per financial statements	\$ 23,370,263	\$ 30,904,623

The following is a reconciliation of net income per Form 5500 to the change in net assets available for benefits per the financial statements for the year ended December 31, 2022:

NET INCOME RECONCILIATION:	
Net income for the year per Form 5500:	\$ (7,535,173)
Employer contributions receivable accrued at beginning of year	(527)
Employer contributions receivable accrued at end of year	1,413
Participant contributions payable accrued at end of year	(73)
Change in net assets available for benefits per financial statements	\$ (7,534,360)

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.
