Independent Auditor's Report

Plan Administrator and Participants
St. Mark's School of Texas Matching Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of the St. Mark's School of Texas Matching Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the financial statements of the Plan referred to in the first paragraph. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Because of inadequacies in the Plan's records prior to 2009, we were unable to perform auditing procedures with respect to individual participant account balances accumulated from inception of the Plan or to satisfy ourselves as to the basis on which participants' equity is stated on the accompanying financial statements, or the propriety of the distributions to participants who terminated and withdrew from the Plan during the years ended December 31, 2022 and 2021. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Responsibilities of Management for the Financial Statements (Continued)

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the St. Mark's School of Texas Matching Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by St. Mark's School of Texas (the "Organization") under the provision of Section 403(b) of the United States Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 403(b) of the IRC, for the benefit of eligible employees of the Organization.

All employees of the Organization who work more than 20 hours per week are eligible to participate in the Plan. Employees are eligible for matching contributions upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is administered by a plan committee appointed by the Board of Trustees of the Organization. The duties of the plan committee are to oversee the operations of the Plan and to provide for prudent investment of Plan assets. Accordingly, the plan committee has been granted discretionary authority concerning investment and management activities. Plan investments held with Teachers Insurance and Annuity Association – College Retirement Equities Fund ("TIAA-CREF" or the "Custodian") are invested in a combination of pooled separate accounts, registered investment company accounts, and insurance company general accounts. The Custodian is responsible for the custody and management of the Plan's assets.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan, subject to the dollar limitation under §402(g) of the IRC. The Plan provides for a participant election to have pre-tax deferral contributions made. Effective, July 1, 2022, the plan was amended to include after-tax Roth deferral contributions, as well as pre-tax deferral contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Organization makes a matching contribution equal to 5% of the participant's elective deferral contributions. The Organization will make additional employer contributions calculated as a percentage of eligible annual compensation of the participant as follows; an additional 1% for 7 to 14 years of service, an additional 2% for 15 to 24 years of service and an additional 3% contribution for service in excess of 25 years. Effective, July 1, 2022, the service requirements were amended and the Organization began making additional employer contributions calculated as a percentage of eligible annual compensation of the participant as follows; an additional 1% for 6 to 10 years of service, an additional 2% for 11 to 15 years of service and an additional 3% contribution for service in excess of 15 years.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and other contributions, as well as the participant's share of investment income, appreciation (depreciation) and any administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon, as well as the Organization's matching contribution at the time the contribution is made.

St. Mark's School of Texas Matching Plan
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the Custodian, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Participant Loans

The Plan allows for participants to borrow from their accounts under the Plan. These borrowings must be for an amount not less than \$1,000 and not greater than the lesser of (a) \$50,000 reduced by the excess (if any) of highest outstanding loan during the prior twelve-month period; or (b) 50% of the participant's vested account balance under the Plan. Each loan, by its terms, must be repaid in five years or less. The loans are secured by the balance in the participant's account and bear interest at the Federal Reserve Board Bank Rate plus 1%. Principal and interest is paid ratably through payroll deductions.

Plan Loans

Participants may borrow amounts directly from the Plan's Custodian. Plan loans may be requested by a participant, using their account as collateral for the Plan loan. A Plan loan is not treated as a distribution from the Plan and is not considered a Plan asset. Therefore, Plan loans are not reported on the accompanying statements of net assets available for benefits. A participant may apply for a Plan loan to be made from his or her vested account balance in the Plan not to exceed the lesser of (a) \$50,000 or (b) 50% of the participant's vested account balance in the Plan. Loans may be further limited by the funding vehicles.

At December 31, 2022 and 2021, \$193,852 and \$362,278, respectively, served as collateral against outstanding Plan loan balances. At December 31, 2022, interest rates of Plan loans ranged from 4.00% to 5.18%.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive: (a) a lump-sum distribution equal to the participant's vested account balance, (b) a series of substantially equal payments over a fixed period of whole years, or (c) a specified dollar amounts each year. Participants are allowed to withdraw their account balances prior to termination of their employment under certain circumstances as specified in the Plan. Benefits are recorded when paid.

Revenue Credit Account

During the 2017 plan year, the Sponsor entered into a record keeping services agreement. This agreement dictated the annual revenue requirements for the services provided would be 0.14% per Plan. On a semi-annual basis, Teachers Insurance and Annuity Association ("TIAA") compares the revenue requirements to the revenue generated by the Plan to determine if the Plan generated sufficient revenue to meet TIAA's revenue requirement. In the event that the reconciliation process determines that the Plan generated revenue in excess of TIAA's revenue requirement, TIAA credits the plan revenue credit account in the amount of excess. The revenue credit account may only be used either to pay direct, reasonable, and necessary plan expenses or to provide benefits for Plan participants and beneficiaries in the form of plan servicing credits. The balance of the revenue credit account as of December 31, 2022 and 2021 was \$12,733 and \$17,910, respectively and is included in the net assets available for benefits reported in the accompanying statements of net assets available for benefits. Plan management elected to redistribute funds that had been collected in the revenue credit account, accordingly during the years ended December 31, 2022 and 2021, \$65,000 and \$25,000, respectively, were redistributed to participants in accordance with Plan provisions. The Plan allocated these funds utilizing the asset based – proportionate above revenue requirement methodology provided by TIAA. This methodology allocated the funds proportionate to participants account balance when compared to total plan assets, in revenue sharing investments only and in proportion to the amount of the investment revenue shares if the revenue share is above the plan's revenue requirement.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Method of Accounting

The accounting records of the Plan are maintained on the accrual basis. Certain administrative expenses of the Plan are paid by the Plan and are netted against the appreciation (depreciation) in fair value of investments by the Custodian. The remaining administrative expenses are paid by the Organization. The Plan has no obligation to reimburse the Organization for the expenses paid by the Organization.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) of investments includes realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year-end as presented in the accompanying statements of changes in net assets available for benefits.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, foreign investment, active management and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that a change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

The pooled separate account represents an investment in the TIAA Real Estate Fund, which is a variable rate annuity. The objective of this fund is to provide favorable long-term returns primarily through rental income and appreciation of real estate investments owned by the fund. A requirement of the fund is to have between 75% and 85% of its assets invested directly in real estate or related investments. Fund holdings are valued principally using external appraisals which are estimates of property values based on a professional's opinion. The remainder of the funds can be invested in highly liquid publicly traded securities which are priced using values from independent pricing sources. This fund will from time to time make foreign real estate investments which are expected to comprise no more than 25% of the fund's total assets. The fund provides for daily purchase and redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value ("NAV") per unit. Each participant is limited to one redemption transaction from this account per quarter. There are no unfunded commitments from participants in the Plan who invest in this account. Expense deductions (of up to 2.5% per year) are made each valuation day from net assets of the account for investment management services.

The registered investment company accounts represent mutual and variable annuity funds held with College Retirement Equities Fund ("CREF") and TIAA-CREF. TIAA is the companion organization of CREF. CREF is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company.

St. Mark's School of Texas Matching Plan
NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

The CREF investments held represent variable annuities; these accounts are valued daily based on the accumulated unit value ("AUV"). Each of the funds seek long term returns through capital appreciation and investment income and have a policy of investing, under normal circumstances, at least 80% of its respective assets in a broadly diversified portfolio of the particular type of securities implied by its name, including such terms as 'equity' and 'index'. These securities are all traded on a public stock exchange and are priced daily. The securities are primarily valued using market quotations or prices obtained from independent pricing sources. CREF money market holdings are generally valued at amortized cost. A portion of investments made may be in foreign securities. Expense deductions are made each valuation day from net assets of the account for investment management services. The fund provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's AUV. Various annuity options can be selected by the Participant at retirement to include one life and two life annuities and fixed period annuities ranging from 2 to 30 years of guaranteed payments. Minimum distribution options are also available for participants who have delayed retirement date. The annuity stream is determined at retirement by CREF based on the accumulated value in the fund, the income options chosen and the assumed annual investment return of 4%. Payments can change after commencement of the annuity based on net investment results and expenses for an account and the mortality experience or the income change method in that account. As annuity payments are withdrawn from the account, the number of units used to determine AUV will decline.

The TIAA-CREF funds represent investments in mutual funds. The funds invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term instruments in accordance with each fund's investment objective. Fund holdings are valued daily using amortized cost for money market accounts or market price quotations or prices obtained from independent pricing services. The fund provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's NAV per unit. Expense deductions (of up to 2.5% per year) are made each valuation day from net assets of the Account for investment management services.

The insurance company general account represents investments in the TIAA Traditional Annuity (the "Traditional Annuity") is a fixed rate annuity contract that is fully and unconditionally guaranteed by TIAA. The type of contract through which a participant invests in the Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement. When participants choose to allocate a portion of their retirement savings to the Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA-CREF's claims-paying ability. The Traditional Annuity is reported at contract value and segregated into non-benefit and fully benefit responsive categories. During the accumulation phase, the Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (between 1% and 3%) and the potential for additional interest if declared by TIAA. Additional interest, when declared remains in effect for the declaration year, which begins each March 1. Additional interest is not guaranteed for future years. When the contract value accumulation is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation. The Traditional Annuity is reported at contract value which is considered to approximate fair value. Contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. The Traditional Annuity is not available for sale or transfer on any securities exchange. TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

St. Mark's School of Texas Matching Plan
NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan provides for investments in various investment securities with different investment strategies, which, in general, are exposed to various risks, such as interest rate, credit, foreign investment, active management, and overall market volatility risks. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. The Plan attempts to limit these risks by authorizing and offering participants a broad range of investment options that are invested in high quality securities or are offered and administered by reputable and known investment companies. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. The Plan's exposure to a concentration of risk is limited by the diversification of investments across multiple investment fund options. Additionally, the investments within each investment fund option are further diversified into varied financial instruments.

Market conditions have resulted in an unusually high degree of volatility and increased the risks and may affect the short-term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

3. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

St. Mark's School of Texas Matching Plan
NOTES TO FINANCIAL STATEMENTS

3. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

Pooled separate account: Valued at the NAV of units held by the Plan at year end. The NAV of these accounts is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. As this investment is primarily in real estate, estimates of the fair value of investments made by fund managers are used to generate the NAV of the fund. Daily unit values for the investments in the pooled separate account are listed on the NASDAQ's website. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

Registered investment company accounts: Valued at the NAV or AUV of shares held by the Plan at year end. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. The AUV of variable annuity contracts is based on the fair value of the underlying investments and is based on the information reported by the contract holder. The NAV of mutual funds is based on the quoted market price of shares held by the Plan at year end.

Insurance company general account: Non-fully benefit responsive fixed annuity contracts are Level 3 investments and are valued based on the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. This fund is not available for sale or transfer on any securities exchange.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Registered investment company accounts	\$ 45,544,885	\$ -	\$ -	\$ 45,544,885

Total investments at fair value	<u>\$ 58,256,986</u>	<u>\$ -</u>	<u>\$ 14,934,989</u>	<u>\$ 73,191,975</u>

There were no transfers into or out of Level 3 of the fair value hierarchy in 2022 or 2021. There were \$1,412,193 and \$1,555,917 in purchases of Level 3 investments in 2022 and 2021, respectively. There were \$2,320,075 and \$2,068,066 in sales of Level 3 investments in 2022 and 2021, respectively.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

5. REPORTABLE TRANSACTIONS

During the years ended December 31, 2022 and 2021, there were no reportable transactions, no investments both acquired and disposed of within the Plan year, no loans or leases in default or uncollectible or non-exempt transactions with parties-in-interest which would require presentation under the DOL's Rules and Regulations.

NOTES TO FINANCIAL STATEMENTS

6. PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and insurance contracts managed by TIAA-CREF. TIAA-CREF is the Custodian and record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the IRC.

8. TAX STATUS OF THE PLAN

The Organization has adopted the TIAA-CREF ERISA Specimen 403(b) Plan. The United States Internal Revenue Service ("IRS") has not issued an opinion letter for this plan. The Organization is relying on the Custodian that the Plan meets the qualification requirements of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 **and 2021** there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any open tax periods or any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

9. CHANGES IN PLAN OPERATIONS

Effective July 1, 2022 the plan was amended to change service requirements for additional employer contributions. The Organization will make additional employer contributions calculated as a percentage of eligible annual compensation of the participant as follows; an additional 1% for 6 to 10 years of service, an additional 2% for 11 to 15 years of service and an additional 3% contribution for service in excess of 16 years. In addition, the plan was amended to add the ability for participants to elect to after tax or Roth deferrals.

Effective January 1, 2020, certain administrative defaults for the Plan were updated to be in accordance with final regulations of the Setting Every Community Up for Retirement Enhancement ("SECURE") Act of 2019. These changes included (1) allows long-term, part time workers to participate in 401(k) plans beginning in 2024 if 500 hours are worked each year of the preceding period; (2) changes the age for required minimum distributions from 70½ to 72 effective December 31, 2020; (3) allows in-service withdrawals for childbirth and adoption expenses up to \$5,000; (4) establishes a 10-year rule for distribution of inherited retirement plan accounts and IRA's; and (5) provides special provisions to count certain non-taxable foster care payments as eligible 415 compensation. Formal amendments to the Plan document for these changes in plan operations will be executed prior to the deadline set forth by the SECURE Act, which is December 31, 2022 for calendar year-end plans. On August 3, 2022, the IRS announced in Notice 2022-33 that it is extending the deadline for amending a retirement plan to reflect the provisions of the SECURE Act. The extended deadline under this notice is December 31, 2025.

9. CHANGES IN PLAN OPERATIONS (Continued)

On March 27, 2020, in response to COVID-19, Congress passed into law the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"). The CARES Act provides several relief provisions temporarily available to qualified retirement plans and their participants which includes a penalty free coronavirus-related distribution for qualifying individuals, increased loan limits and up to a one-year deferral of loan repayments for qualifying individuals, and a waiver for minimum required distributions otherwise required to be made in the 2020 calendar year. For purposes of receiving a coronavirus-related distribution or loan, a "qualifying individual" is defined as an individual who is diagnosed with COVID-19, whose spouse or dependent is diagnosed with COVID-19, or who, as a result of COVID-19, experiences adverse financial consequences as a result of being quarantined, furloughed or laid off, having work hours reduced, being unable to work due to lack of child care, or other factors as determined by the Secretary of the Treasury. Plan management has evaluated the optional provisions of the CARES Act and has implemented the following provisions: (1) waiver of penalties and withholdings for qualified distributions; (2) increased loan limits for qualifying individuals to the lesser of (i) \$100,000 or (ii) 100% of the participant's vested account balance; and (3) waiver of required minimum distributions otherwise payable during calendar year 2020. Formal amendments to the Plan document for these changes in plan operations will be executed prior to the deadline set forth by the CARES Act, which is December 31, 2022, for calendar year-end plans. On August 3, 2022, the IRS announced in Notice 2022-33 that it is extending the deadline for amending a retirement plan to reflect the provisions of Section 2203 of the CARES Act, which includes a temporary waiver of minimum required distributions for certain retirement plans and accounts. The extended deadline under this notice is December 31, 2025. This extended deadline does not alter the original deadline set forth by the CARES Act as it pertains to Section 2202, which includes coronavirus-related distributions and changes in loan limits and repayment requirements.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 29, 2023, the date the financial statements were available to be issued.
