Report of Independent Auditors

To the Participants and Administrator of the
Alphadyne Asset Management LP Incentive Savings Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Alphadyne Asset Management LP Incentive Savings Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 (referred to as the "supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The

information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2022 and 2021

1. Description of Plan

The following description of the Alphadyne Asset Management LP Incentive Savings Trust (the “Plan”) provides general information about the Plan’s provisions. Alphadyne Asset Management LP (the “Company”) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more detailed description of the Plan’s provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering all full-time employees of the Company as of the first payroll period occurring after the date the employee becomes an eligible employee. Participation in the Plan is voluntary and all eligible participants must be employed by the Company or its majority owned subsidiary, be age 21 or older, and not: covered by a collective bargaining agreement; a leased employee; a nonresident alien who does not receive any U.S. source earned income from the Company; and/or a part-time, seasonal, and temporary employee with less than one thousand hours of service. The Plan does cover part-time, seasonal, and temporary employees who have completed at least one thousand hours of service and meets the other requirements stated above.

The Company is responsible for the general administration of the Plan. Fidelity Management Trust Company (the “Trustee”) is the trustee and Fidelity Investments is the recordkeeper for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Regular Deferral Contributions

Each year, eligible participants may elect to defer a percentage or a flat dollar amount of their eligible compensation into the Plan. For pre-tax contributions withheld from the participant’s compensation, the percentage or a flat dollar amount deferred is subject to an annual limit of the lesser of 100% of eligible compensation or the annual Internal Revenue Code (“IRC”) contribution limit (\$20,500 in 2022 and \$19,500 in 2021); thereafter as adjusted by the Secretary of the Treasury) in a calendar year. The Plan provides that participants who are projected to be age 50 or older by the end of the taxable year and who are making deferral contributions to the Plan may also make a catch-up contribution of up to \$6,500 in 2022 and 2021 (thereafter as adjusted by the Secretary of the Treasury). Participants have the right to increase, decrease, or discontinue contributions to the Plan, provided sufficient notification has been given.

Notes to Financial Statements
December 31, 2022 and 2021

1. Description of Plan (continued)

Participants are also eligible to designate some or all of their deferral contribution as a Roth Deferral Contribution (“RDCs”). This election is irrevocable. RDCs will be included in the participant’s income for tax purposes, and the income tax withholding amounts will be deducted from the remainder of their pay. RDCs are subject to the same rules as pre-tax deferral contributions. Pre-tax and RDCs are combined to determine whether you have reached the IRC contribution limit.

During the year ended December 31, 2022 participants made traditional contributions in the amount \$1,579,901 and RDCs in the amount of \$106,634 which are reflected on the Statement of Changes in Net Assets Available for Benefits.

Employee After-Tax Contributions

After a participant satisfies the Plan’s eligibility and entry date requirements, the participant may elect to contribute a percentage of their eligible compensation into the Plan on an after-tax basis, up to an annual maximum of 100%. Participants are limited to contributing a combined total of after-tax and deferral contributions of 100%. The Company may refuse to accept a participant’s after-tax contributions if it will have an adverse effect on the Plan’s non-discrimination tests. The participant’s after-tax contributions belong to the individual and cannot be forfeited for any reason.

Bonus Contributions

Eligible participants may defer a flat dollar amount or a whole percentage from 1% to 100% of any bonus designated by the Company into the Plan, or suspend their contribution completely, by completing a special election form. The total amount of a participant’s bonus and regular deferral contributions for the Plan Year may not exceed 100% of their eligible compensation or other applicable IRC contribution limits.

Employer Matching Contributions

Participants that make deferral contributions are eligible for Company matching contributions equal to 25% of the participant’s contributions to the Plan, subject to the annual IRC contribution limit. The Company may designate all or a portion of any matching contributions as “qualifying matching contributions” to help the Plan pass one or more annually required IRC nondiscrimination test(s). Additional non-elective contributions may be made at the Company’s discretion.

Profit Sharing Contributions

An employer discretionary profit sharing contribution to the Plan, which will represent a portion of an employee’s total compensation package to which an employee is entitled, will generally be made with respect to employees that satisfy certain eligibility requirements based upon meeting a total compensation threshold for the Plan year ending on December 31st. In order to be eligible to share

December 31, 2022 and 2021

1. Description of Plan (continued)

in the profit sharing contribution for a Plan year, a plan participant must satisfy the following conditions: (i) they must be employed with the Company on the last day of the Plan year; (ii) they must complete at least 1,000 Hours of Service during the Plan year; (iii) if they terminate employment (not employed on the last day of the Plan Year), they will not receive a profit sharing contribution regardless of the amount of service the participant completes during the Plan year; and (iv) they will be eligible to share in the profit sharing contribution for the year regardless of the amount of service they completed during the Plan year in the year of their death, disability, or termination of employment after normal retirement age. This waiver of allocation conditions will only apply once during their employment history with the Company (e.g., if they retire, are rehired, and then retire again, then the waiver only applies to their initial retirement).

Profit sharing contributions, if any, are allocated to eligible participants based upon the participant group allocation method, as described by the Plan document. For the 2022 plan year, the Company contributed approximately \$1.4m to the Plan which was funded in 2023 and is reflected on the statement of net assets available for benefits as employer contributions receivable. The contribution will be deposited into participants' accounts in a separate bucket called profit sharing after the annual discretionary bonus is announced for all employees.

Rollover Contributions

Employees may roll over part or all of an eligible rollover distribution they receive from an eligible retirement plan (a "Rollover Contribution") into this Plan even if they have not yet satisfied the age and service eligibility requirements. An eligible retirement plan is a qualified plan under Section 401(a), a 403(a) annuity plan, a 403(b) annuity contract, an eligible 457(b) plan maintained by a governmental employer, and an individual retirement account and individual retirement annuity.

Participant Accounts

Individual accounts are maintained for each Plan participant. Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options daily. For \$100 per year, participants also have the option of electing a wide variety of investment options with a diverse fee structure via the Self-Directed Brokerage program offered by the Plan. Participants who enroll in the Plan but do not make selections from the available investment options have their contributions invested in the applicable target-date funds based on their age until they change their election. The Company's contributions are invested in the same manner as that of the participant's elective contributions, unless otherwise instructed by the participant.

1. Description of Plan (continued)

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and allocations of plan earnings, and is charged with withdrawals and an allocation of administrative expenses. Recordkeeping and advisory fees are deducted from the Plan participants' accounts, while the third-party administrator fees are paid by the Company. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocation of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested amount.

Vesting

Participants are immediately vested in their contributions and the Company's matching and profit sharing contributions, plus actual earnings thereon.

Participant Loans

Participants may borrow from their accounts at a minimum loan amount of \$1,000 and up to a maximum equal to the lesser of \$50,000 or one-half of their vested balance, reduced by the highest outstanding loan balance in their account during the prior twelve-month period. A participant may not have more than one loan outstanding at any given time. All loans shall bear a reasonable rate of interest as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the duration of the loan.

All loans must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five-year period unless it is for the purchase of your principal residence in which case the loan repayment period may not extend beyond 10 years from the date of the loan. The Plan Administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, termination of employment, or disability, the entire outstanding principal and accrued interest shall be immediately due and payable.

If a participant terminates employment with the Company, the entire outstanding principal and accrued interest shall be immediately due and payable. If the loan is not repaid, it will result in treating the balance of the loan as a taxable distribution from the Plan. If a loan is not repaid within its stated period, it will be treated as a taxable distribution.

Any payments after the suspension period will be adjusted to reflect the delay and any interest accruing during the delay.

1. Description of Plan (continued)

During the year employees borrowed \$104,000 from their accounts and as of December 31, 2022, the total loans outstanding to participants, including interest, was \$122,869, which is reflected within notes receivable from participants on the Statements of Net Assets Available for Benefits.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement, or termination, a participant may elect to receive either a lump-sum or defer receipt until a later date. However, the participant cannot postpone if their vested balance is \$5,000 or less in which case the

Plan administrator will direct the Trustee that any account exceeding \$1,000 be distributed to an Individual Retirement Account or Annuity ("IRA") for the participant's benefit. A participant whose vested account balance is \$1,000 or less will receive a lump-sum distribution equal to their vested account balance which can either be paid directly to the participant or rolled-over into a different IRA provider or another retirement plan eligible to receive rollover contributions. The value of the participant's account will continue to increase or decrease, as appropriate, based on the investment returns until it is distributed.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring immediate and heavy financial needs, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service ("IRS"), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Recordkeeping and advisory fees are deducted from the Plan participants' accounts, while the third-party administrator fees are paid by the Company. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Expenses that are paid by the Company are excluded from these financial statements.

Plan Termination

The plan sponsor or the Company has no legal or contractual obligation to make annual contributions to or to continue the Plan. The Company reserves the right to terminate the Plan at any time by taking appropriate action as circumstances may dictate. In the event the Plan should terminate, each participant affected by such termination shall have a vested interest in his Account of 100 percent. The Plan administrator will facilitate the distribution of account balances in single

lump sum payments to each participant in accordance with Plan provisions until all assets have been distributed by the Trustee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles" or "GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are earned. If a participant ceases to make loan repayments and the Company deems the participant loan to be in default, the entire outstanding principal and accrued interest shall be immediately due and payable. Any default in repayment to the Plan will result in the treating of the balance due for the loan as a taxable distribution from the Plan. No allowance for credit losses have been recorded as of December 31, 2022 and 2021.

Excess Contributions

Contributions in excess of amounts allowed by the IRS are returned to participants and recorded as benefits payments. For the year ended December 31, 2022, there were \$1,448 in excess contributions, which are reflected within the Statement of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gain and losses on investments bought and sold as well as held during the year.

3. Investments

As permitted by 29 CFR 2520.103-5(c) of the Department of Labor's rules and regulation for reporting disclosure under ERISA certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and note receivable from participants at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained or derived from information provided to the Company and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the assets or liabilities.

Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Observable inputs other than quoted prices that are used in the valuation of assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); and
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

4. Fair Value Measurements (continued)

Level 3 – Unobservable inputs for the assets or liabilities (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the assets or liabilities, including assumptions about risk.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan.

Mutual Funds – These investments are valued daily at the closing price as reported on the active market in which the securities are traded. The mutual funds held by the Plan are deemed to be actively traded and therefore, have been categorized as Level 1 assets.

Self-directed Brokerage Accounts – Investments held in the self-directed brokerage accounts (“SDBA”) include additional mutual funds which are valued daily at the closing prices as reported on the active market in which the securities are traded. The SDBA held by the Plan are deemed to be actively traded and therefore, have been categorized as Level 1 assets.

The following tables summarize in accordance with the fair value hierarchy the Plan’s assets that are accounted for and reported at fair value on a recurring basis by level as of December 31, 2022 and 2021:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 21,581,955	\$ -	\$ -	\$ 21,581,955
SDBA	3,482,551	-	-	3,482,551
	<u>\$ 25,064,506</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 25,064,506</u>

Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 24,570,848	\$ -	\$ -	\$ 24,570,848
SDBA	3,352,836	-	-	3,352,836
	<u>\$ 27,923,684</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 27,923,684</u>

The Plan did not hold any Level 3 assets for the years ended December 31, 2022 and 2021.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related-Party and Party-in-Interest Transactions

Alphadyne Asset Management LP is the plan sponsor. Fidelity Management Trust Company operates as the Plan's custodian, directed trustee and recordkeeper. The Plan includes a self-directed brokerage account sponsored by the Trustee. Pension Mark Financial Group serves as the Plan's 3(21) investment adviser in a co-fiduciary role, whereby it provides advice to the plan sponsor with respect to investment options. The plan sponsor retains the discretion to accept or reject the advice. These transactions qualify as party-in interest transactions; however, they are exempted from the prohibited transaction rules under ERISA.

7. Tax Status

The underlying non-standardized pre-approved plan with Cash or Deferred Arrangements ("CODA") has received an opinion letter from the IRS dated June 30, 2020, stating that the form of the plan is qualified under Section 401 of the IRC and, therefore the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS advisory letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Subsequent Events

Management evaluated subsequent events for the Plan through August 18, 2023, the date the financial statements were available to be issued and concluded that no events have occurred that would require recognition or disclosure.
