INDEPENDENT AUDITOR'S REPORT

August 9, 2023

To the Participants and Plan Administrator of the
Lactalis Dairy USA 401(K) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Lactalis Dairy USA 401(K) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITOR'S REPORT

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lactalis Dairy USA 401(K) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Lactalis Dairy USA 401(K) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Lactalis Dairy USA 401(K) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

(Continued)

INDEPENDENT AUDITOR'S REPORT

(Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

LACTALIS DAIRY USA 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF THE PLAN

The following description of the Lactalis Dairy USA 401(K) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan and profit-sharing plan as permitted under Section 401(k) of the Internal Revenue Code with a Roth feature, covering eligible employees of Karoun Dairies, LLC (the Plan Sponsor) and its subsidiaries and affiliates (collectively the Employer). The Plan is funded by employee and employer contributions. The assets of the Plan are maintained in a trust held by John Hancock Trust Company LLC (John Hancock). Investment fees are paid by the Plan. Administrative expenses not paid by the Plan are paid by the Plan Sponsor. The Plan is intended to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, where applicable.

Effective December 31, 2021, The Lactalis US Yogurt 401(k) Plan's assets were merged and transferred into the Plan.

Contributions

Each eligible participant may contribute to the Plan from 1% to 85% of their compensation (as defined by the Plan document) as pre-tax and/or Roth contributions. The Employer provides safe-harbor matching contributions, which are allocated on the basis of each participant's elective deferral, equal to 100% of the first 3% of compensation plus 50% of the next 2% that the participant contributes to the Plan.

The Employer, at its sole discretion, may also make additional matching contributions and/or profit-sharing contributions to the Plan on behalf of participants. Profit-sharing contributions are allocated amongst participants based upon the ratio that a participant's compensation for the Plan year bears to the total compensation for the Plan year of all participants. The Employer made a discretionary contribution of \$3,140,861 during 2022. No additional discretionary contribution was made to the Plan during 2021.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) plan earnings and losses, and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may receive their accumulated vested benefits held by the Plan's trustee upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death, or disability if their account balance is in excess of \$5,000. If the participant elects to keep his or her interest in the Plan, the participant's account will continue to receive its share of earnings or losses.

1. DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are vested immediately in all their contributions, rollovers, employer contributions, and earnings thereon.

Forfeited Accounts

Forfeitures of nonvested separated participants are first used to pay administrative expenses, and then applied toward future employer contributions. No forfeitures were used to reduce employer contributions for the years ended December 31, 2022 and 2021, respectively. Unused forfeited account balances were \$5 and \$58 at December 31, 2022 and 2021, respectively.

Withdrawals and Distributions

Upon termination of employment or for reasons of death or disability, participants may withdraw the balance of their account in the form of a lump sum. Participants still employed with the Employer may withdraw all or a portion of their account balance upon attainment of age 59½ or for reasons of a financial hardship, as allowed under the Internal Revenue Code (IRC).

Notes Receivable from Participants

Participants may borrow, from their fund accounts, amounts ranging from \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balances. The maximum term of repayment for a loan is five years, unless it is for the purchase of a principal residence, in which case it may be longer. A participant may only have one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at prime plus 1.00%. Principal and interest are paid ratably through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan's assets include various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to the value of such investments, changes in the values of investments will occur and such changes could materially affect the amounts reported in the financial statements.

Income Taxes

The Internal Revenue Service has determined and informed the company by a letter dated December 8, 2022 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

3. FAIR VALUE MEASUREMENTS

The Plan uses various valuation techniques in determining fair value. FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued based on quoted market prices in active markets.

Pooled Separate Account: The pooled separate account (PSA) is made available to participating plans through a group annuity contract. The group annuity contract provides for two distinct accounts:

- The Stable Value Account - this is a book value record of the amounts deposited to and withdrawn from the PSA. That is, the Stable Value Account is at all times equal to the contributions made to the contract, plus interest credited, plus dividends, if any, minus expenses withdrawn and minus withdrawals made from the account.
- New York Life Insurance Anchor Account III - is the underlying investment account in which all contributions are invested.

Interest is accrued daily and credited monthly to the Stable Value Account and reflects the investment experience of the PSA. Interest rates are guaranteed to be no less than 0%, before any deduction for expenses. The contract provides that, subject to certain restrictions, withdrawals for benefit payments at death, retirement, disability and termination of employment, and for loans, hardship withdrawals or in-service withdrawals as permitted by the plan. At contract termination, a participating plan may receive a book value distribution of the plan's interest in the Stable Value Account, provided the plan sponsor provides twelve months' advance written notice. Transfers to a competing fund must first go through a non-competing investment option for at least 90 days. There are no unfunded commitments.

The assets in the PSA are invested primarily in fixed income securities. The assets in the PSA are priced by independent third parties. If a price is not available from an outside vendor and two independent dealer quotes are not available, a price will be derived as follows:

The value of any security for which market quotations are not readily available shall be determined based on a consideration of all available facts and all available information, including, but not limited to, the following: (i) the fundamental analytical data relating to the investment, (ii) the value of other relevant financial instruments, including derivative securities, traded on other markets or among dealers, (iii) an evaluation of the forces which influence the market in which these securities are purchased and sold (e.g., the existence of merger proposals or tender offers that might affect the value of the security), (iv) the type of the security, (v) the size of the holding, (vi) the initial cost of the security, (vii) trading volumes on markets, exchanges, or among dealers, (viii) price quotes from dealers and/or pricing services, (ix) values of baskets of securities traded on other markets, exchanges, or among dealers, (x) changes in interest rates, (xi) information obtained from the issuer, analysts, other financial institutions and/or the appropriate stock exchange (for exchange-traded securities), (xii) an analysis of the company's financial statements, (xiii) government (domestic or foreign) actions or pronouncements, and (xiv) other news events.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments that were accounted for at fair value on a recurring basis as of December 31, 2022.
