(4) Other	2i(4)	375	
(5) Total administrative expenses. Add lines 2i(1) through (4)	2i(5)		51255
j Total expenses. Add all expense amounts in column (b) and enter total	2j		2145137
Net Income and Reconciliation			
k Net income (loss). Subtract line 2j from line 2d	2k		-6252904
l Transfers of assets:			
(1) To this plan	2l(1)		
(2) From this plan	2l(2)		

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: HAYNIE & COMPANY

(2) EIN: 87-0325228

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

	Yes	No	Amount
4a		X	

	Yes	No	Amount
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)			
4b		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)			
4c		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)			
4d		X	
e Was this plan covered by a fidelity bond?	X		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
4f		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?			
4g		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?			
4h		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
4i	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)			
4j		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?			
4k		X	
l Has the plan failed to provide any benefit when due under the plan?			
4l		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
4m		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			
4n			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☐ Yes ☐ No ☐ Not determined
If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year _____.

SCHEDULE R (Form 5500) Department of the Treasury Internal Revenue Service Department of Labor Employee Benefits Security Administration Pension Benefit Guaranty Corporation	Retirement Plan Information This schedule is required to be filed under sections 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and section 6058(a) of the Internal Revenue Code (the Code). ► File as an attachment to Form 5500.	OMB No. 1210-0110 2022 This Form is Open to Public Inspection.
For calendar plan year 2022 or fiscal plan year beginning 01/01/2022 and ending 12/31/2022		
A Name of plan OKLAHOMA FARM BUREAU AND AFFILIATED COMPANIES VOLUNTARY EMPLOYEE SAVINGS PLAN		B Three-digit plan number (PN) ► 002
C Plan sponsor's name as shown on line 2a of Form 5500 OKLAHOMA FARM BUREAU MUTUAL INSURANCE COMPANY		D Employer Identification Number (EIN) 73-0540035
Part I	Distributions	
All references to distributions relate only to payments of benefits during the plan year.		
1 Total value of distributions paid in property other than in cash or the forms of property specified in the instructions.....		1 0
2 Enter the EIN(s) of payor(s) who paid benefits on behalf of the plan to participants or beneficiaries during the year (if more than two, enter EINs of the two payors who paid the greatest dollar amounts of benefits): EIN(s): 22-1211670		
Profit-sharing plans, ESOPs, and stock bonus plans, skip line 3.		
3 Number of participants (living or deceased) whose benefits were distributed in a single sum, during the plan year.....		3

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of

Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma Farm Bureau Voluntary Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

December 31, 2022 and 2021

1. Summary of Significant Accounting Policies

General Description of the Plan

The following comments provide a brief description of the Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan (the Plan). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan which is participant-directed.

Each participant's account is credited with the participant's contributions and Company contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan is administered by the Oklahoma Farm Bureau Retirement Plans Committee (the Committee).

Generally, any employee except persons paid solely on a commission basis, persons whose principal duties consist of selling insurance, or persons who are agency trainees, or security guard personnel may become a participant after completion of one year of service (a year of service requires 1,000 hours). Participation generally continues until:

- Termination of the Plan;
- Termination of participation in the Plan by the participant's employer;
- Death or total disability of the participant, or;
- Termination of employment and distribution of the participant's entire account.

The Plan automatically enrolls eligible employees at a contribution rate of 3% unless they opt out or elect to defer at another rate or amount.

Generally, a participant may agree to reduce his annual compensation by contributing a discretionary amount (elective deferral) for each year he participates in the Plan. The maximum reductions by law for 2022 and 2021 were \$20,500 and \$19,500, respectively, with certain "catch-up" provisions allowed for participants who have attained age 50 before the end of the plan year.

In addition to any Roth deferrals, a participant may make other nondeductible contributions to the savings fund by means of payroll deductions, but such contributions are minimal.

Rollovers from other qualified plans are permitted.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

The employer, by action of its Board of Directors, may make a discretionary contribution to the Plan in addition to “matching contributions” (also discretionary). The Company may specify different levels of qualified matching, non-qualified matching contributions, or discretionary contributions for the following groups of participants:

Group A: Employees who (1) are active members in the Western Farm Bureau Pension Plan and have not opted out of participation in the Pension Plan, or (2) were hired on or before May 31, 2004, and are not excluded from eligibility to participate in the Pension Plan, regardless of whether they are actively participating in the Pension Plan.

Group B: Employees who are not in Group A.

For Group A participants, matching contributions equal \$2 per \$1 of participant contributions for the first \$20 per pay period, and dollar for dollar for the next \$20 of participant contributions.

Group B participants were provided with enhanced discretionary and matching company contributions under this Plan as follows:

- An enhanced discretionary contribution equal to 3% of compensation regardless of whether the participant makes any elective deferrals to this Plan.
- An enhanced discretionary matching contribution based on elective deferrals equal to \$1 for every \$1 in elective deferrals for the first 2% of compensation per pay period; and
- An enhanced discretionary matching contribution based on elective deferrals equal to \$.50 for every \$1 in elective deferrals for the next 4% of compensation per pay period.

In addition to these limitations, under Code Section 415, the annual additions to the account of any member attributable to all defined contribution plans of the employer cannot exceed the lesser of \$61,000 in 2022 and \$58,000 in 2021, (as indexed) or 100% of compensation. Annual additions to this plan currently include employer contributions and participant contributions (deferrals).

The Company intends to continue the Plan indefinitely, but its continuance is not a contractual obligation, and the Company may terminate the plan at any time, subject to the provisions of ERISA.

Each Participant who was employed before June 1, 2004, is fully vested.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Each Participant who was first employed with the Company on or after June 1, 2004, shall vest in his Company contributions under the following schedule:

<u>Years of Vesting Service</u>	<u>Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A Participant's entire account will become fully vested and nonforfeitable if he or she reaches normal retirement age while employed with the Company. Distributions of vested amounts are permitted to participants who become totally disabled before reaching retirement age, and to beneficiaries should the participant die. A participant's accounts attributable to his or her own contributions, including rollover contributions, and to the earnings on those contributions will be fully vested and nonforfeitable at all times.

Forfeitures will be applied to pay plan expenses or to reduce Company contributions (\$25,743 and \$30,912 was used to reduce Company contributions in 2022 and 2021, respectively). Forfeiture balances at December 31, 2022 and 2021 amounted to \$0 for both years.

Plan Distributions

The Company has paid for certain direct Plan administrative and other expenses (except for individually assessed charges such as loan fees), but this is discretionary, and such expenses are excluded from these financial statements. Company employees provide certain administrative duties at no charge to the Plan. Certain fees are also paid through revenue sharing from plan investments to the Custodian, which are included in investment appreciation. \$49,705 and \$84,709 of plan expenses in 2022 and 2021, respectively, were paid to Prudential directly from the Plan.

Optional forms of benefit payments include lump-sum, installments, and Ad-Hoc distributions.

A participant may request withdrawal of all or any part of his account attributable to (non-Roth) voluntary after-tax contributions (which are minimal), including earnings and losses applicable thereto. Upon serious financial hardship, a participant may request withdrawal of all or any part of his account attributable to salary reductions, and the earnings thereon.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Investment of Contributions

Each participant designates how his contributions to the Plan and employer matching contributions shall be invested, allocating them between various investment alternatives.

Party in Interest Transactions

Certain Plan investments are managed by Prudential Bank & Trust, FSB (PB&T) and Prudential Retirement Insurance and Annuity Company (PRIAC). PB&T serves as the directed trustee and PRIAC serves as the custodian, conducts the operations of Prudential Retirement, as well as issues the guaranteed separate account contracts. Therefore, these transactions qualify as party in interest transactions.

Notes Receivable from Participants

Participants may borrow from their fund account but with a minimum loan of \$1,000. Aggregate loans to the participant from this and any other qualified Plan maintained by the Company generally may not exceed the lesser of:

- \$50,000, with a calculated reduction for any outstanding loans
- One-half of the value of the participant's vested account balance.

Any loan must be repaid in level payments of principal and interest at least quarterly within five years of the date on which it was made or on the occurrence of an event that renders the Participant's account distributable, whichever occurs first, except that any loan used to acquire any dwelling unit used or to be used within a reasonable time as the principal residence of the Participant may be repaid over a longer period. Generally, repayments are made through payroll deductions. Interest rates are based on prevailing rates as determined by the Trustee (currently prime plus 2%), and loans are secured by the balance in the participant's account.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Investment transactions are recorded on the trade date. Benefits are recorded when paid. Dividends are recorded on the ex-dividend date. Interest, if any, is recorded on the accrual basis.

Amounts payable to participants for contributions in excess of amounts allowed by the IRS, if any, are recorded as a liability with corresponding reduction to contributions.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2022 and 2021, the plan's investment in the Guaranteed Income Fund is considered fully benefit-responsive.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, are charged directly to the related participant, and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participants' account balances.

Tax Status

The Internal Revenue Service has issued a letter dated April 29, 2014 that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable tax authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Because plan management believes that the plan had no taxable income, no income tax returns have been filed for 2022 or prior years.

2. Investments

Investments are generally reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines fair values based upon input from the Trustee. See Note 4 for a discussion of fair value measurements.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

2. Investments (continued)

Investments (generally in mutual funds), except for the Guaranteed Income Fund which is carried at contract value, are recorded in the financial statements at quoted market prices, which represent the net asset value of shares held.

The plan held investments sponsored by Prudential at December 31 as follows:

	<u>2022</u>	<u>2021</u>
Prudential High Yield Q	\$ 231,736	\$ 257,999
Prudential Total Return Bond Q	\$ 371,071	\$ 409,775
Prudential Guaranteed Income Fund	\$ 2,418,497	\$ 1,839,758

The Guaranteed Income Fund is a product of Prudential. Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable timeframes. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract is directly between the plan sponsor and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considers this contract to be fully benefit responsive.

Generally, there are not any events that could limit the ability of the plan to transact at Contract Value paid within 90 days or Contract Value paid over time. There are not any events that allow the issuer to terminate and which require the plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate for the first half of 2022 was 1.65%, and for the second half of 2022, 1.7%.

3. Information Certified by the Trustee

The following information, which the Trustee has certified as complete and accurate, has not been subjected to audit procedures:

- Investments in mutual funds and the Guaranteed Income Fund, cash, notes receivable from participants, net appreciation (depreciation) in investments, and other investment income
- Interest income from notes receivable from participants
- Information presented in the accompanying supplemental schedule

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

4. Fair Value Measurements

The Plan adopted Financial Accounting Standards Board Codification Section 820 *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Committee evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers in 2022 or 2021.

Following is a description of the valuation methodologies used for investments. There have been no changes in the methodologies used at December 31, 2022 or 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

4. Fair Value Measurements (continued)

Guaranteed Income Fund: Valued at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2022 and 2021.

December 31, 2022				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$37,253,180	\$ -	\$ -	\$37,253,180
December 31, 2021				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$44,075,704	\$ -	\$ -	\$44,705,704

5. Subsequent Events

Management has considered subsequent event activity for disclosures and/or adjustments through July 31, 2023, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of

Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma Farm Bureau Voluntary Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies

General Description of the Plan

The following comments provide a brief description of the Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan (the Plan). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan which is participant-directed.

Each participant's account is credited with the participant's contributions and Company contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan is administered by the Oklahoma Farm Bureau Retirement Plans Committee (the Committee).

Generally, any employee except persons paid solely on a commission basis, persons whose principal duties consist of selling insurance, or persons who are agency trainees, or security guard personnel may become a participant after completion of one year of service (a year of service requires 1,000 hours). Participation generally continues until:

- Termination of the Plan;
- Termination of participation in the Plan by the participant's employer;
- Death or total disability of the participant, or;
- Termination of employment and distribution of the participant's entire account.

The Plan automatically enrolls eligible employees at a contribution rate of 3% unless they opt out or elect to defer at another rate or amount.

Generally, a participant may agree to reduce his annual compensation by contributing a discretionary amount (elective deferral) for each year he participates in the Plan. The maximum reductions by law for 2022 and 2021 were \$20,500 and \$19,500, respectively, with certain "catch-up" provisions allowed for participants who have attained age 50 before the end of the plan year.

In addition to any Roth deferrals, a participant may make other nondeductible contributions to the savings fund by means of payroll deductions, but such contributions are minimal.

Rollovers from other qualified plans are permitted.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

The employer, by action of its Board of Directors, may make a discretionary contribution to the Plan in addition to “matching contributions” (also discretionary). The Company may specify different levels of qualified matching, non-qualified matching contributions, or discretionary contributions for the following groups of participants:

Group A: Employees who (1) are active members in the Western Farm Bureau Pension Plan and have not opted out of participation in the Pension Plan, or (2) were hired on or before May 31, 2004, and are not excluded from eligibility to participate in the Pension Plan, regardless of whether they are actively participating in the Pension Plan.

Group B: Employees who are not in Group A.

For Group A participants, matching contributions equal \$2 per \$1 of participant contributions for the first \$20 per pay period, and dollar for dollar for the next \$20 of participant contributions.

Group B participants were provided with enhanced discretionary and matching company contributions under this Plan as follows:

- An enhanced discretionary contribution equal to 3% of compensation regardless of whether the participant makes any elective deferrals to this Plan.
- An enhanced discretionary matching contribution based on elective deferrals equal to \$1 for every \$1 in elective deferrals for the first 2% of compensation per pay period; and
- An enhanced discretionary matching contribution based on elective deferrals equal to \$.50 for every \$1 in elective deferrals for the next 4% of compensation per pay period.

In addition to these limitations, under Code Section 415, the annual additions to the account of any member attributable to all defined contribution plans of the employer cannot exceed the lesser of \$61,000 in 2022 and \$58,000 in 2021, (as indexed) or 100% of compensation. Annual additions to this plan currently include employer contributions and participant contributions (deferrals).

The Company intends to continue the Plan indefinitely, but its continuance is not a contractual obligation, and the Company may terminate the plan at any time, subject to the provisions of ERISA.

Each Participant who was employed before June 1, 2004, is fully vested.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Each Participant who was first employed with the Company on or after June 1, 2004, shall vest in his Company contributions under the following schedule:

<u>Years of Vesting Service</u>	<u>Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A Participant's entire account will become fully vested and nonforfeitable if he or she reaches normal retirement age while employed with the Company. Distributions of vested amounts are permitted to participants who become totally disabled before reaching retirement age, and to beneficiaries should the participant die. A participant's accounts attributable to his or her own contributions, including rollover contributions, and to the earnings on those contributions will be fully vested and nonforfeitable at all times.

Forfeitures will be applied to pay plan expenses or to reduce Company contributions (\$25,743 and \$30,912 was used to reduce Company contributions in 2022 and 2021, respectively). Forfeiture balances at December 31, 2022 and 2021 amounted to \$0 for both years.

Plan Distributions

The Company has paid for certain direct Plan administrative and other expenses (except for individually assessed charges such as loan fees), but this is discretionary, and such expenses are excluded from these financial statements. Company employees provide certain administrative duties at no charge to the Plan. Certain fees are also paid through revenue sharing from plan investments to the Custodian, which are included in investment appreciation. \$49,705 and \$84,709 of plan expenses in 2022 and 2021, respectively, were paid to Prudential directly from the Plan.

Optional forms of benefit payments include lump-sum, installments, and Ad-Hoc distributions.

A participant may request withdrawal of all or any part of his account attributable to (non-Roth) voluntary after-tax contributions (which are minimal), including earnings and losses applicable thereto. Upon serious financial hardship, a participant may request withdrawal of all or any part of his account attributable to salary reductions, and the earnings thereon.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Investment of Contributions

Each participant designates how his contributions to the Plan and employer matching contributions shall be invested, allocating them between various investment alternatives.

Party in Interest Transactions

Certain Plan investments are managed by Prudential Bank & Trust, FSB (PB&T) and Prudential Retirement Insurance and Annuity Company (PRIAC). PB&T serves as the directed trustee and PRIAC serves as the custodian, conducts the operations of Prudential Retirement, as well as issues the guaranteed separate account contracts. Therefore, these transactions qualify as party in interest transactions.

Notes Receivable from Participants

Participants may borrow from their fund account but with a minimum loan of \$1,000. Aggregate loans to the participant from this and any other qualified Plan maintained by the Company generally may not exceed the lesser of:

- \$50,000, with a calculated reduction for any outstanding loans
- One-half of the value of the participant's vested account balance.

Any loan must be repaid in level payments of principal and interest at least quarterly within five years of the date on which it was made or on the occurrence of an event that renders the Participant's account distributable, whichever occurs first, except that any loan used to acquire any dwelling unit used or to be used within a reasonable time as the principal residence of the Participant may be repaid over a longer period. Generally, repayments are made through payroll deductions. Interest rates are based on prevailing rates as determined by the Trustee (currently prime plus 2%), and loans are secured by the balance in the participant's account.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Investment transactions are recorded on the trade date. Benefits are recorded when paid. Dividends are recorded on the ex-dividend date. Interest, if any, is recorded on the accrual basis.

Amounts payable to participants for contributions in excess of amounts allowed by the IRS, if any, are recorded as a liability with corresponding reduction to contributions.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2022 and 2021, the plan's investment in the Guaranteed Income Fund is considered fully benefit-responsive.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, are charged directly to the related participant, and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participants' account balances.

Tax Status

The Internal Revenue Service has issued a letter dated April 29, 2014 that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable tax authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Because plan management believes that the plan had no taxable income, no income tax returns have been filed for 2022 or prior years.

2. Investments

Investments are generally reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines fair values based upon input from the Trustee. See Note 4 for a discussion of fair value measurements.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

2. Investments (continued)

Investments (generally in mutual funds), except for the Guaranteed Income Fund which is carried at contract value, are recorded in the financial statements at quoted market prices, which represent the net asset value of shares held.

The plan held investments sponsored by Prudential at December 31 as follows:

	<u>2022</u>	<u>2021</u>
Prudential High Yield Q	\$ 231,736	\$ 257,999
Prudential Total Return Bond Q	\$ 371,071	\$ 409,775
Prudential Guaranteed Income Fund	\$ 2,418,497	\$ 1,839,758

The Guaranteed Income Fund is a product of Prudential. Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable timeframes. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract is directly between the plan sponsor and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considers this contract to be fully benefit responsive.

Generally, there are not any events that could limit the ability of the plan to transact at Contract Value paid within 90 days or Contract Value paid over time. There are not any events that allow the issuer to terminate and which require the plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate for the first half of 2022 was 1.65%, and for the second half of 2022, 1.7%.

3. Information Certified by the Trustee

The following information, which the Trustee has certified as complete and accurate, has not been subjected to audit procedures:

- Investments in mutual funds and the Guaranteed Income Fund, cash, notes receivable from participants, net appreciation (depreciation) in investments, and other investment income
- Interest income from notes receivable from participants
- Information presented in the accompanying supplemental schedule

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

4. Fair Value Measurements

The Plan adopted Financial Accounting Standards Board Codification Section 820 *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Committee evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers in 2022 or 2021.

Following is a description of the valuation methodologies used for investments. There have been no changes in the methodologies used at December 31, 2022 or 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

4. Fair Value Measurements (continued)

Guaranteed Income Fund: Valued at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2022 and 2021.

	December 31, 2022			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$37,253,180	\$ -	\$ -	\$37,253,180
	December 31, 2021			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$44,075,704	\$ -	\$ -	\$44,705,704

5. Subsequent Events

Management has considered subsequent event activity for disclosures and/or adjustments through July 31, 2023, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of

Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Oklahoma Farm Bureau Voluntary Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies

General Description of the Plan

The following comments provide a brief description of the Oklahoma Farm Bureau and Affiliated Companies Voluntary Employee Savings Plan (the Plan). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan which is participant-directed.

Each participant's account is credited with the participant's contributions and Company contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan is administered by the Oklahoma Farm Bureau Retirement Plans Committee (the Committee).

Generally, any employee except persons paid solely on a commission basis, persons whose principal duties consist of selling insurance, or persons who are agency trainees, or security guard personnel may become a participant after completion of one year of service (a year of service requires 1,000 hours). Participation generally continues until:

- Termination of the Plan;
- Termination of participation in the Plan by the participant's employer;
- Death or total disability of the participant, or;
- Termination of employment and distribution of the participant's entire account.

The Plan automatically enrolls eligible employees at a contribution rate of 3% unless they opt out or elect to defer at another rate or amount.

Generally, a participant may agree to reduce his annual compensation by contributing a discretionary amount (elective deferral) for each year he participates in the Plan. The maximum reductions by law for 2022 and 2021 were \$20,500 and \$19,500, respectively, with certain "catch-up" provisions allowed for participants who have attained age 50 before the end of the plan year.

In addition to any Roth deferrals, a participant may make other nondeductible contributions to the savings fund by means of payroll deductions, but such contributions are minimal.

Rollovers from other qualified plans are permitted.

Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

The employer, by action of its Board of Directors, may make a discretionary contribution to the Plan in addition to “matching contributions” (also discretionary). The Company may specify different levels of qualified matching, non-qualified matching contributions, or discretionary contributions for the following groups of participants:

Group A: Employees who (1) are active members in the Western Farm Bureau Pension Plan and have not opted out of participation in the Pension Plan, or (2) were hired on or before May 31, 2004, and are not excluded from eligibility to participate in the Pension Plan, regardless of whether they are actively participating in the Pension Plan.

Group B: Employees who are not in Group A.

For Group A participants, matching contributions equal \$2 per \$1 of participant contributions for the first \$20 per pay period, and dollar for dollar for the next \$20 of participant contributions.

Group B participants were provided with enhanced discretionary and matching company contributions under this Plan as follows:

- An enhanced discretionary contribution equal to 3% of compensation regardless of whether the participant makes any elective deferrals to this Plan.
- An enhanced discretionary matching contribution based on elective deferrals equal to \$1 for every \$1 in elective deferrals for the first 2% of compensation per pay period; and
- An enhanced discretionary matching contribution based on elective deferrals equal to \$.50 for every \$1 in elective deferrals for the next 4% of compensation per pay period.

In addition to these limitations, under Code Section 415, the annual additions to the account of any member attributable to all defined contribution plans of the employer cannot exceed the lesser of \$61,000 in 2022 and \$58,000 in 2021, (as indexed) or 100% of compensation. Annual additions to this plan currently include employer contributions and participant contributions (deferrals).

The Company intends to continue the Plan indefinitely, but its continuance is not a contractual obligation, and the Company may terminate the plan at any time, subject to the provisions of ERISA.

Each Participant who was employed before June 1, 2004, is fully vested.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Each Participant who was first employed with the Company on or after June 1, 2004, shall vest in his Company contributions under the following schedule:

<u>Years of Vesting Service</u>	<u>Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A Participant's entire account will become fully vested and nonforfeitable if he or she reaches normal retirement age while employed with the Company. Distributions of vested amounts are permitted to participants who become totally disabled before reaching retirement age, and to beneficiaries should the participant die. A participant's accounts attributable to his or her own contributions, including rollover contributions, and to the earnings on those contributions will be fully vested and nonforfeitable at all times.

Forfeitures will be applied to pay plan expenses or to reduce Company contributions (\$25,743 and \$30,912 was used to reduce Company contributions in 2022 and 2021, respectively). Forfeiture balances at December 31, 2022 and 2021 amounted to \$0 for both years.

Plan Distributions

The Company has paid for certain direct Plan administrative and other expenses (except for individually assessed charges such as loan fees), but this is discretionary, and such expenses are excluded from these financial statements. Company employees provide certain administrative duties at no charge to the Plan. Certain fees are also paid through revenue sharing from plan investments to the Custodian, which are included in investment appreciation. \$49,705 and \$84,709 of plan expenses in 2022 and 2021, respectively, were paid to Prudential directly from the Plan.

Optional forms of benefit payments include lump-sum, installments, and Ad-Hoc distributions.

A participant may request withdrawal of all or any part of his account attributable to (non-Roth) voluntary after-tax contributions (which are minimal), including earnings and losses applicable thereto. Upon serious financial hardship, a participant may request withdrawal of all or any part of his account attributable to salary reductions, and the earnings thereon.

1. Summary of Significant Accounting Policies (continued)

Investment of Contributions

Each participant designates how his contributions to the Plan and employer matching contributions shall be invested, allocating them between various investment alternatives.

Party in Interest Transactions

Certain Plan investments are managed by Prudential Bank & Trust, FSB (PB&T) and Prudential Retirement Insurance and Annuity Company (PRIAC). PB&T serves as the directed trustee and PRIAC serves as the custodian, conducts the operations of Prudential Retirement, as well as issues the guaranteed separate account contracts. Therefore, these transactions qualify as party in interest transactions.

Notes Receivable from Participants

Participants may borrow from their fund account but with a minimum loan of \$1,000. Aggregate loans to the participant from this and any other qualified Plan maintained by the Company generally may not exceed the lesser of:

- \$50,000, with a calculated reduction for any outstanding loans
- One-half of the value of the participant's vested account balance.

Any loan must be repaid in level payments of principal and interest at least quarterly within five years of the date on which it was made or on the occurrence of an event that renders the Participant's account distributable, whichever occurs first, except that any loan used to acquire any dwelling unit used or to be used within a reasonable time as the principal residence of the Participant may be repaid over a longer period. Generally, repayments are made through payroll deductions. Interest rates are based on prevailing rates as determined by the Trustee (currently prime plus 2%), and loans are secured by the balance in the participant's account.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Investment transactions are recorded on the trade date. Benefits are recorded when paid. Dividends are recorded on the ex-dividend date. Interest, if any, is recorded on the accrual basis.

Amounts payable to participants for contributions in excess of amounts allowed by the IRS, if any, are recorded as a liability with corresponding reduction to contributions.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2022 and 2021, the plan's investment in the Guaranteed Income Fund is considered fully benefit-responsive.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, are charged directly to the related participant, and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participants' account balances.

Tax Status

The Internal Revenue Service has issued a letter dated April 29, 2014 that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable tax authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Because plan management believes that the plan had no taxable income, no income tax returns have been filed for 2022 or prior years.

2. Investments

Investments are generally reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines fair values based upon input from the Trustee. See Note 4 for a discussion of fair value measurements.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

2. Investments (continued)

Investments (generally in mutual funds), except for the Guaranteed Income Fund which is carried at contract value, are recorded in the financial statements at quoted market prices, which represent the net asset value of shares held.

The plan held investments sponsored by Prudential at December 31 as follows:

	<u>2022</u>	<u>2021</u>
Prudential High Yield Q	\$ 231,736	\$ 257,999
Prudential Total Return Bond Q	\$ 371,071	\$ 409,775
Prudential Guaranteed Income Fund	\$ 2,418,497	\$ 1,839,758

The Guaranteed Income Fund is a product of Prudential. Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at Contract Value within reasonable timeframes. Contract Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract is directly between the plan sponsor and the issuer. The repayment of principal and interest credited to participants is a financial obligation of the issuer. Given these provisions, Prudential considers this contract to be fully benefit responsive.

Generally, there are not any events that could limit the ability of the plan to transact at Contract Value paid within 90 days or Contract Value paid over time. There are not any events that allow the issuer to terminate and which require the plan sponsor to settle at an amount different than Contract Value paid either within 90 days or over time.

There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate for the first half of 2022 was 1.65%, and for the second half of 2022, 1.7%.

3. Information Certified by the Trustee

The following information, which the Trustee has certified as complete and accurate, has not been subjected to audit procedures:

- Investments in mutual funds and the Guaranteed Income Fund, cash, notes receivable from participants, net appreciation (depreciation) in investments, and other investment income
- Interest income from notes receivable from participants
- Information presented in the accompanying supplemental schedule

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

4. Fair Value Measurements

The Plan adopted Financial Accounting Standards Board Codification Section 820 *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Committee evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers in 2022 or 2021.

Following is a description of the valuation methodologies used for investments. There have been no changes in the methodologies used at December 31, 2022 or 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Oklahoma Farm Bureau and Affiliated Companies
Voluntary Employee Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

4. Fair Value Measurements (continued)

Guaranteed Income Fund: Valued at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2022 and 2021.

	December 31, 2022			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$37,253,180	\$ -	\$ -	\$37,253,180

	December 31, 2021			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$44,075,704	\$ -	\$ -	\$44,705,704

5. Subsequent Events

Management has considered subsequent event activity for disclosures and/or adjustments through July 31, 2023, the date the financial statements were available to be issued.
