Independent Auditors' Report

To the Participants and Plan Administrator of
Southwest Ambulance Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Southwest Ambulance Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022, and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, and Schedule H Line 4(i) - Schedule of Reportable Transactions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Southwest Ambulance Pension Plan

Notes to Financial Statements
December 31, 2022 and 2021

1. Description of the Plan

General

Southwest Ambulance Pension Plan (the Plan), established July 1, 2004, is a defined benefit pension plan designed to provide retirement benefits to eligible employees of the Plan's sponsor, Southwest Ambulance (the Company or Plan Administrator) who are subject to a collective bargaining agreement between the Company and the International Association of Fire Fighters Local I-60 or any nonhighly compensated employee who is employed as a district manager. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Effective July 1, 2008, the Plan was amended, to allow for lump sum distributions and to adjust the benefit formula. The Plan was again amended in January 2016, to implement the benefit formula under the April 2014 arbitration decision formalized in January 2016.

Effective June 30, 2016, the Plan was amended to freeze eligibility and cease accrual of benefits under the Plan. Additionally, the normal benefit of each participant was frozen.

Plan Administration

The Plan is administered by officers and employees of the Company. The Plan Administrator is responsible for controlling and managing the Plan's operations and making investment allocations. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the Trustee or Principal) executes investment transactions and invests cash received and investment income as directed by the Plan Administrator.

Benefits and Vesting

Until the Plan was frozen on June 30, 2016, all employees to whom the Plan has been extended were eligible for participation in the Plan upon completion of one year of service.

The normal retirement age is defined as the earlier of age 65 or age 62 with 15 years of service. The Plan permits early retirement prior to reaching the normal retirement age if the participant is at least age 55 and has five years of service. The annual benefit received during early retirement is reduced by 5% for each year prior to Normal Retirement Age that the distribution of benefits begins. Special early retirement is permitted by the Plan prior to reaching the normal retirement age if the participant attains 20 years of service. Benefits are not reduced when special early retirement is elected. If the actuarial equivalent of the participant's vested accrued benefit does not exceed \$5,000, it will be paid in a lump sum.

Participants who have completed five years of service with the Company or have reached the age of 65 are fully vested in the Plan and are entitled to annual pension benefits beginning at normal retirement age. These benefits are payable while the retiree is alive. Plan participants are eligible for their plan benefit after terminating employment with vested rights.

There are two parts to the retirement benefit:

Flat Dollar Benefit

1. \$325 per year for years of credited service beginning July 1, 2004 and ending June 30, 2006, plus
2. \$650 per year times years of credited service after July 1, 2006, up to a total of 20 years of credited service.

Southwest Ambulance Pension Plan

Notes to Financial Statements
December 31, 2022 and 2021

Percent of Pay Benefit

1. 0.45% of final three-year average plan compensation times of credited service beginning July 1, 2004 and ending June 30, 2006, plus
2. 0.9% of final three-year average plan compensation times of credited service after July 1, 2006.

Federal law limits the amount of annual compensation on which benefits can be calculated (\$305,000 and \$290,000 for 2022 and 2021, respectively) and the amount of the maximum annual benefit (\$245,000 and \$230,000 for 2022 and 2021, respectively). These limitations are subject to adjustment each year by the Secretary of the Treasury.

Termination Provisions

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts, and plan assets will be distributed in accordance with ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

Expenses of the Plan

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to administrative expenses of the Plan are paid with Plan assets. Investment related expenses are included in net appreciation (depreciation) of fair value in investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting in accordance with United States generally accepted accounting principles (U.S. GAAP) from data provided to the Plan Administrator by the Trustee, which the Trustee has certified as being complete and accurate.

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the accumulated plan benefits at the date of the financial statements and the changes in the net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ significantly from those estimates.

Benefit Payments

Benefits are recorded when paid.

Southwest Ambulance Pension Plan

Notes to Financial Statements
December 31, 2022 and 2021

Funding Policy

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements and in accordance with the Internal Revenue Code (IRC). Annual contributions are based on the recommendations of the Plan's consulting actuary using actuarial assumptions. The Plan has met the ERISA minimum funding requirements for the years ended December 31, 2022 and 2021.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 5 - Fair Value Measurements and Disclosures). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) of fair value in investments includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. The actuarial present value of accumulated plan benefits is determined by the Plan's actuary based on beginning of year convention and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the present value of future payments (through discounts for interest) and the probability of payment (by means of decrements for events such as death, withdrawal, or early retirement) between the valuation date and the expected date of payment. Certain assumptions require the use of management estimates which could differ from actual results. Actuarial present values of accumulated benefits were prepared by the actuary as of January 1, 2022, and for the fiscal year ended January 1, 2022. Had the actuarial valuation been prepared as of December 31, 2021, there would be no material change.

The significant actuarial assumptions used in the valuation as of January 1, 2022 and 2021, are as follows:

Interest rate	6.00% for 2022 and 5.25% for 2021
Retirement ages	Earlier of age 62 with 15 years of service or age 65
Mortality rates:	
2022	Based on Pri-2012 Blue collar base rate mortality table projected generationally using MP-2021
2021	Based on Pri-2012 Blue collar base rate mortality table projected generationally using MP-2020

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue in its frozen state. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Southwest Ambulance Pension Plan

Notes to Financial Statements
December 31, 2022 and 2021

The actuarial present value of accumulated plan benefits as of January 1, 2022 (the most recent valuation date), as determined by the Plan's actuary, is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 6,223,763
Inactive participants	6,609,783
Active participants	<u>12,415,674</u>
Total	25,249,220
Nonvested benefits	<u>2,182,238</u>
Actuarial present value of accumulated plan benefits	<u>\$ 27,431,458</u>

The changes in the actuarial present value of accumulated plan benefits for the years ended January 1, 2021 to 2022, as determined by the Plan's actuary, are as follows:

Actuarial present value of accumulated benefits at January 1, 2021:	<u>\$ 30,526,754</u>
Increase (decrease) during the year attributable to:	
Interest	1,590,176
Benefits paid to participants or their beneficiaries	(481,520)
Mortality improvement assumption changes	(3,818,837)
Accumulation of benefits and plan experience	<u>(385,115)</u>
Net decrease	<u>(3,095,296)</u>
Actuarial present value of accumulated plan benefits at January 1, 2022	<u>\$ 27,431,458</u>

4. Information Certified by Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA for 2022 and 2021. Accordingly, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2022 and 2021, and the related supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2022.

5. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Southwest Ambulance Pension Plan

Notes to Financial Statements
December 31, 2022 and 2021

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Pooled separate accounts valued at the net asset value (NAV) of shares held by the Plan at year-end, as determined by Principal. The NAV, as provided by Principal, is used to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts or common collective trusts, the Trustee reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments on these accounts at December 31, 2022 and 2021.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 25,092,111	\$ -	\$ 25,092,111
Total assets at fair value	\$ -	\$ 25,092,111	\$ -	\$ 25,092,111
Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 35,174,704	\$ -	\$ 35,174,074

6. Tax Status

The Plan obtained its latest determination letter on July 6, 2012, in which the Internal Revenue Service (IRS) states that the Plan is in compliance with the applicable requirements of the IRC. The Plan Administrator believes that the Plan, as adopted and amended, was operating within the guidelines of the IRC, and was exempt. Accordingly, no provisions for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related-Party and Party in Interest Transactions

Certain Plan investments are managed by an affiliate of the Trustee. Any purchases and sales of these investments, while considered party in interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibitions of party in interest transactions under ERISA. Certain administrative functions of the Plan are performed by an officer or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Risks and Uncertainties

The investment allocation of the Plan is directed by the Company. Such investments are exposed to various risks, such as interest rate, market, concentration, and credit risk. Market risks include global events, such as a pandemic or international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amount reported in the Statements of Net Assets Available for Benefits and the funding status of the Plan.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change due to uncertainty inherent in the estimations and assumptions process. It is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

As of December 31, 2022, the Plan had investments of \$18,856,214 that were concentrated in three different investments. As of December 31, 2021, the Plan had investments of \$22,801,766 that were concentrated in two different investments.

9. Reconciliation to the Form 5500

There are no material reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 as of and for the years ended December 31, 2022 and 2021.

10. Subsequent Events

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 855, *Subsequent Events*, the Plan Administrator has evaluated events or transactions occurring after December 31, 2022, the Statements of Net Assets Available for Benefits date, through September 12, 2023, the date the financial statements were ready to be issued. There were no events or transactions that would impact the financial statements for the year ended December 31, 2022.

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.25% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
------------------	---

Asset return	6.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
---------------------	---

Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
-------------------------	--

Retirement	Table provided by Willis Towers Watson

Years of Service	Probability of retirement - Males	Probability of retirement - Females
20	15.00%	15.00%
21-24	7.50%	7.50%
25	20.00%	20.00%
26 and over	7.50%	7.50%

100% retirement at earliest of age 62 with 15 years of vesting service and age 65.

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments in the future.

Disability

Table provided by Willis Towers Watson

Selected rates of disability are shown below:

Age	Rate of disability - Males	Rate of disability - Females
25	0.09%	0.09%
30	0.10%	0.10%
35	0.13%	0.13%

55	1.02%	1.02%
60	1.60%	1.60%
65	2.28%	2.28%

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments in the future.

Marriage

85% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal

Table provided by Willis Towers Watson

Selected rates of withdrawal are shown below:

Age	Rate of withdrawal - Males	Rate of withdrawal - Females
25	13.90%	13.90%
30	13.31%	13.31%
35	12.34%	12.34%

50	6.51%	6.51%
55	2.47%	2.47%
60	0.24%	0.24%

In the first 5 years of employment, the following rates are applicable in addition to the above rates.

years	Rate of withdrawal
0	15.00%
1	14.10%
2	12.00%
3	9.00%
4	4.50%

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments in the future.

Form of benefit

Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Benefit accrual

All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

The portion based on the plan's definition of accrued benefit.

The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

HCE benefit payment restrictions	A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by: - any retiree benefit index or floor - amounts for HCEs who were previously restricted - an amount for the retiring HCE The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2018 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Blue collar base rate mortality table projected generationally using MP-2021.
------------------	---

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement (MI)

MP-2021 is the most recent improvement scale published by the SOA in October 2021.

Interest rate used to value liabilities

6.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
Southwest Ambulance Pension Plan
EIN 86-0434455 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$90,200 contributions received after the plan year end with a discounted value of \$86,944.

Schedule SB, Line 22 - Description of Weighted Average Retirement Age
Southwest Ambulance Pension Plan
EIN 86-0434455 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 01/01/2012 including amendments through number #6.

Plan eligibility

Age Each employee who (1) is under a collective bargaining agreement or (2) is a non-highly compensated employee who is employed as a district manager whose employment is regularly performed in one of the following Arizona: Maricopa, Pinal, Pima and/or Graham, will become a participant in the plan on the January 1 or July 1 following the completion of a year of service.

Service No employee shall become an active participant effective June 30, 2016. One year of service in which at least 1,000 hours worked.

Normal retirement benefit

Age/Service The first day of the month next following the date a participant attains age 62 with 15 years of vesting service or attains age 65.

Form Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Amount (accrued benefit) For commencement at age 65, the monthly benefit is the greater of A), and B) below:

A) The difference of 2.5% of the participant's Final 3-year Average Compensation and 5.0% of the participant's anticipated benefit payable from Social Security (but not less than \$0), multiplied by the sum of Years of Benefit Service at Normal Retirement Date, up to a maximum of 20 years.

B) The sum of (1), (2), and (3) below:

- 1) 0.45% of your Average Compensation multiplied by your Years of Benefit Service from July 1, 2004 to June 30, 2006.
- 2) 0.9% of your Average Compensation multiplied by your Years of Benefit Service after June 30, 2006 and up to your Normal Retirement Date.
- 3) \$650.00 multiplied by your Years of Benefit Service at Normal Retirement Date (but limited to a maximum of 20 Years of Benefit Service); provided, however, that if you have Years of Benefit Service from July 1, 2004 to June 30, 2006 and your Years of Benefit Service (including any purchased Years of Benefit Service) after June 30, 2006 do not equal or exceed 20, then your Years of Benefit Service from July 1, 2004 to June 30, 2006 which are taken into account will be multiplied by \$325.00 (rather than \$650.00).

Benefit accruals are frozen effective June 30, 2016.

Additional benefit for participants who commence benefit under A. above, prior to age 65 and have at least 20 years of vesting service at termination of employment is defined below:

Qualified Social Security Supplement (QSUPP): A temporary supplement equal to the anticipated benefit payable from Social Security multiplied by a fraction equal to Years of Benefit Service at termination of employment up to a maximum of 20 years, divided by 20. The QSUPP will be payable from commencement date to age 65

Under B. above, for purpose of determining the monthly benefit prior to age 65, the QSUPP and the monthly benefit at age 65, Years of Benefit Service credited for the period July 1, 2004 through June 30, 2006 will be at half the rate otherwise applicable.

Special Early retirement benefit

Service The first day of any month coinciding with or following the date a participant attains 20 years of vesting service, but prior to the participant's Normal Retirement Date.

Form Same as normal retirement benefit.

Amount Normal Retirement Benefit with no reduction.

Early retirement benefit

Age Attained age 55 prior to termination of employment.

Service Completed 5 years of service.

Form Same as normal retirement benefit.

Amount Accrued benefit on early retirement date reduced by 5% for each year that the early retirement date precedes normal retirement date.

Late retirement benefit

Age No maximum age.

Form Same as normal retirement benefit.

Amount Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date. retirement age.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Must be vested participant who has met Social Security Disability requirements.
Form	Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Actuarial equivalent of accrued benefit on disability retirement date.

Survivor annuity death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day. In the case of a single participant, the designated beneficiary will receive a benefit as of the participant had elected a 5 Year Certain and Life pension.

Definitions

Benefit service	Each month a participant works 120 hours or more they are credited with one month of Benefit service. For purpose of the benefit formula that became effective July 1, 2008, service from July 1, 2004 to July 1, 2006 is earned at half the regular rate.
Final average monthly compensation/salary	The monthly average of a participant's compensation averaged over the final 36 calendar status. Only months with 120 hours or more are reflected.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life, or 10 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100. • Social Security Bridge which only applies to the Flat Dollar Benefit Portion as defined under the benefit formula in effect prior to July 1, 2008. The optional form conversion basis is 7.5% interest and the mortality table in 1994 Group Annuity blended 70% male and 30% female for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417(e) for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Southwest Ambulance Pension Plan
EIN 86-0434455 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 5.50% to 6.50%. This rate is used in the calculation of the actuarial value of plan assets.
