The Retirement Plan Committee
Barlean's Organic Oils 401(k) Plan
Ferndale, Washington

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Barlean's Organic Oils 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Barlean's Organic Oils 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements sections:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Barlean's Organic Oils 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Barlean's Organic Oils 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Barlean's Organic Oils 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Barlean's Organic Oils 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Barlean's Organic Oils 401(k) Plan

Notes to the Financial Statements

December 31, 2022 and 2021

Note A – Description of Plan

The following description of the Barlean's Organic Oils 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all full-time employees of Barlean's Organic Oils, LLC, Lignan Research, LLC, and ManuFlaxsterit, LLC (collectively "the Company") who have three consecutive months of service during which at least 250 hours are completed or one year of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan's Sponsor and serves as Plan Administrator. The Retirement Plan Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan Administrator.

Contributions – Each year, participants may contribute up to the regulatory maximum of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes an amount equal to 100% of the first 3% of compensation deferred by a participant. In addition, the Company may make a discretionary profit sharing contribution. All contributions are invested in a portfolio of investments as directed by the participants. Contributions are subject to certain IRS limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses, if any are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. The vesting percentage of a participant's account balance attributable to the Company's contributions that the participant would be entitled to receive if employment terminates is based on years of continuous service. A participant is 20% vested in employer profit sharing contributions after two years of credited service and an additional 20% vested each year thereafter. A participant is 25% vested in employer matching contributions after one year of credited service and an additional 25% vested each year thereafter. Participants are fully vested upon normal retirement age, death, or permanent disability.

Participant loans – Loans to participants are not permitted by the Plan.

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, as annual installments over a period not longer than his or her life expectancy or joint life expectancy of the participant and his or her designated beneficiary, or as partial withdrawals. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Vested balances that are less than \$5,000 but more than \$1,000 will be automatically rolled over into an IRA if no distribution election is made by the employee. Vested balances that are less than \$1,000 in a terminated employee's account will be automatically distributed to the employee by the Plan.

Notes to the Financial Statements

December 31, 2022 and 2021

Note A – Description of Plan – (Continued)

Forfeitures – Forfeited nonvested accounts totaled \$923 and \$4,339 at December 31, 2022 and 2021, respectively. Forfeited nonvested accounts may be used to pay Plan expenses or to reduce employer contributions when available during the year. Forfeitures totaling \$4,339 were used to reduce employer contributions and \$2,799 were used to pay Plan expenses in 2022.

Note B – Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan are prepared using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment valuation and income recognition – The Plan provides for investments in a guaranteed return account and in pooled separate accounts. The guaranteed return account is fully benefit-responsive and stated at contract value, which is equal to principal plus accrued interest. The Plan's investments in pooled separate accounts are valued at net asset value as a practical expedient to estimate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note E for discussion of fair value measurements and Note F for discussion of guaranteed return account.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net changes in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions receivable – Contributions receivable represent amounts paid by the Company to certain plan participants after year end to comply with the Plan's discretionary contribution requirements.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net changes in fair value of investments.

Use of estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events – In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 5, 2023, the date the financial statements were available to be issued.

Barlean's Organic Oils 401(k) Plan

Notes to the Financial Statements

December 31, 2022 and 2021

Note C – Investments

During 2022, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value as follows:

Net depreciation in fair value of investments	\$ (747,182)
Interest from guaranteed return account	1,870
Other income	2,600
	<u>\$ (742,712)</u>

Note D – Information Certified by Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

	<u>2022</u>	<u>2021</u>
<i>Statements of Net Assets Available for Benefits</i>		
Investments	\$ 4,263,287	\$ 4,854,689
<i>Statement of Changes in Net Assets Available For Benefits</i>		
Net depreciation in the fair value of investments	\$ (747,182)	
Interest from guaranteed return account	\$ 1,870	

Investments reflected on the supplemental Schedule of Assets (Held at End of Year).

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule on page 14.

Note E – Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1: Observable inputs to the valuation methodology that are quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access.

Notes to the Financial Statements

December 31, 2022 and 2021

Note E – Fair Value Measurements – (Continued)

- Level 2: Observable inputs to the valuation methodology other than quoted market prices (unadjusted) for identical assets or liabilities in active markets. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets in markets that are not active and inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology that are unobservable for the asset or liability and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

All of the Plan's investments recorded at fair value of \$4,048,464 and \$4,755,815 at December 31, 2022 and 2021, respectively, are pooled separate accounts. The pooled separate accounts are valued, as a practical expedient, based on the custodian's net asset value of units held by the Plan at year-end. The calculated net asset value is directly related to the net asset value of the underlying investment adjusted for dividends or distributions received by the custodian and the daily equivalent of any fees charged. The investments held by each pooled separate account are traded on an active market.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2022 and 2021.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of:

Principal Instrument	Fair Value December 31,		Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

Note F – Guaranteed Return Account

The Plan holds a group annuity contract, Minnesota Life Guaranteed Return Account, with Minnesota Life Insurance Company. The underlying investment options of this contract are considered to be fully benefit-responsive and, therefore, are reported at contract value of \$214,823 and \$98,874 at December 31, 2022 and 2021, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The account is credited with compound interest, less any applicable contract or participant level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. Such interest rates are reviewed on an annual basis for resetting. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting.

The determination of composite interest rates, as determined by the service provider, reflects a number of factors, including mortality and expense risks, interest guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract.

Notes to the Financial Statements

December 31, 2022 and 2021

Note F – Guaranteed Return Account – (Continued)

The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

The guaranteed interest contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note G – Party-In-Interest Transactions

Certain Plan investments are shares of pooled separate accounts offered by Minnesota Life Insurance Company, the custodian of the plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Minnesota Life Insurance Company for recordkeeping and distribution administration services totaled \$4,818 for the year ended December 31, 2022. Fees for legal, accounting, and general plan administration of the Plan are paid by the Company.

Note H – Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note I – Tax Status

The Plan obtained its latest determination letter on June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving that determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax returns for the prior three fiscal years remain subject to examination by major tax jurisdictions.

Notes to the Financial Statements

December 31, 2022 and 2021

Note J – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note K – Reconciliation to Form 5500

The following is a reconciliation of the net assets and net decrease in net assets per the financial statements to the Form 5500 as of and for the year ended December 31:
