INDEPENDENT AUDITORS' REPORT

**To the American Society for Radiation
Oncology Retirement Committee**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ASTRO 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The Supplemental Schedule H, Line 4i – Schedule of Assets (Held at Year-end), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ASTRO 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2022 and 2021

1. Description of the Plan

The following description of the ASTRO 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on February 1, 1998 by the Society for the purpose of providing plan participants with retirement benefits. A plan year is the 12-month period commencing each January 1 and ending on December 31. The Plan is a defined contribution plan intended to operate in accordance with Section 401 of the Internal Revenue Code (the IRC). All benefits under the Plan are fully funded and provided through the funding vehicles selected by the participants.

The Plan is modified from time to time and in July 2022, the plan administrator adopted a Non-Standardized Pre-Approved Profit-Sharing Plan.

Eligibility

An employee is eligible to participate in the elective deferral portion of the Plan on the date of hire and the attainment of age 21. An employee may begin participation in the Society's discretionary contributions upon completion of one year of service and having attained the age of 21.

Contributions

Employees are automatically enrolled in the Plan upon hire with a default deferral rate set at 4% of eligible compensation. The automatic deferral amount increases by 1% of compensation each plan year until a maximum of 10% of compensation is reached. Effective February 2023, the default rate is now automatically set at 6% with annual increases of 1% until a maximum of 15%. Such increase is applied as of the second year that begins after the year in which the initial deferral amount is made. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Society makes safe harbor matching contributions equal to 100% of each participant's elective deferral up to 4% of compensation. The Society may elect to make additional discretionary profit-sharing contributions to the Plan. The Society made discretionary profit-sharing contributions of 6% for each of the years ended December 31, 2022 and 2021, respectively. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Rollovers from Other Plans

A participant who has received a distribution of his or her interest from another qualified retirement plan may elect to deposit all or any portion of the distribution into the Plan.

ASTRO 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2022 and 2021

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of Society's contributions and earnings from the participant's investments. Allocations are based on participant contributions or account balances, as defined in the Plan agreement.

Vesting

Participants are immediately vested in their voluntary contributions and the Society's safe harbor matching contributions, plus actual earnings thereon. Participants' vested percentage attributable to Society discretionary profit-sharing contributions is determined based on years of services as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
1 year	25%
2 years	50%
3 years	100%

Investment Options

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) is the trustee (Trustee) of the Plan. The Society has designated a list of investment options under Principal that may be selected by participants for contributions. Participants have the ability to change their initial investment option selections, or transfer Plan assets among the selected investment options, to the extent permitted by the Plan agreement.

Notes Receivable from Participants

The Plan allows participants to borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan administrator. As of December 31, 2022 and 2021, the interest rate charged on existing loans was 3.25%.

Payment of Benefits

Plan participants are entitled to receive a distribution of the vested amounts in their individual accounts upon termination of employment, death or reaching age 65. If the total value of the vested account is greater than \$5,000, the participant may delay distribution, but not later than the year in which the participant reaches age 70 ½. If the vested amount is less than \$5,000 at the time of termination, the participant is required to withdraw the funds from the plan through either a distribution or a rollover into another qualified plan. Hardship distributions are permitted, provided that the withdrawal is to satisfy a heavy financial need.

ASTRO 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2022 and 2021

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Society has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of Plan termination, the Plan provides that the amounts credited to the accounts of participants will be nonforfeitable, and that the Plan trustee will either (a) continue to administer the trust fund and pay account balances in accordance with a stipulated agreement until the trust fund has been liquidated or (b) distribute the assets remaining in the trust fund to the members, inactive members and beneficiaries in proportion to their respective account balances.

Forfeitures

The Society may use forfeitures to pay the Plan's expenses or to reduce amounts otherwise required to be contributed to the Plan. During the years ended December 31, 2022 and 2021, the Society used \$205 and \$12,037, respectively, of forfeited, nonvested accounts to reduce its contributions. The forfeitures were fully applied as of December 31, 2022 and 2021.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Society and are excluded from these financial statements. Administrative expenses are paid from the Plan's assets and will be allocated among the accounts of all participants in the plan. These expenses are allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest and dividend income is recognized on the accrual basis of accounting. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the years.

ASTRO 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2022 and 2021

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments to participants are recorded upon distribution. As of December 31, 2022 and 2021, no amounts were allocated to the accounts of participants who elected to withdraw from the Plan, but had not been paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts in the financial statements and the accompanying notes. Actual results could differ from those estimates.

3. Investment Information Certified by the Plan's Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net (depreciation) appreciation in fair value of investments, interest and dividends, interest income on notes receivable from participants and other income for the years then ended was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee. This information has not been audited by the Plan's independent auditors.

4. Fair Value Measurement

In accordance with the accounting standards for fair value measurement for those assets and liabilities that are measured at fair value on a recurring basis, the Plan has categorized its applicable financial instruments into a required fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest-level input that is significant to the fair value measurement of the instrument.

Applicable financial assets and liabilities are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities accessible at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets.

ASTRO 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2022 and 2021

4. Fair Value Measurement (continued)

Level 3 – Unobservable inputs for the asset or liability, including the reporting entity's own assumptions in determining the fair value measurement.

The asset and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered Investment Companies (Mutual Funds)

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts

Valued at the NAV of units as determined by the insurance company or trust company. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the trust will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the common collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables summarize the Plan's investments measured at fair value on a recurring basis as of December 31, 2022 and 2021, aggregated by the fair value hierarchy level within which those measurements were made:

		Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Mutual funds	\$ 15,199,012	\$ 15,199,012	\$ -	\$ -

(a) In accordance with Financial Accounting Standards Board, Accounting Standards Codification Subtopic 820-10, Fair Value Measurements and Disclosures, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following summarizes investments measured at fair value based on the NAV per share as follows at December 31, 2022 and 2021:

NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2022 and 2021

5. Party-in-Interest Transactions

Certain investment options of the Plan are funds sponsored by the Trustee. Transactions involving these investments are considered to be party-in-interest transactions for which a statutory exemption exists. Other transactions that may be considered party-in-interest transactions relate to normal management and administrative services and the payment of expenses related thereto. The Plan extends loans to participants who are considered parties-in-interest, therefore, these transactions qualify as party-in-interest transactions.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investments securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Income Tax Status

The IRS issued an opinion letter dated June 30, 2020, indicating that the Volume Submitter 403(b) Plan, as then designed, was in compliance with applicable requirements of the IRC. The plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements. Generally accepted accounting principles requires the Plan's management to evaluate the Plan's uncertainty in income taxes and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken and has concluded that as of December 31, 2022 and 2021 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements for the year ended December 31, 2022 to the Form 5500:

Net decrease in net assets available for benefits per the financial statements	(\$ 3,495,960)
Change in participant contribution receivable	(9,363)
Change in in employer contribution receivable	<u>(330)</u>
Net decrease in net assets available for benefits per the Form 5500	<u>(\$ 3,505,653)</u>

9. Subsequent Events

In preparing the financial statements, the Plan has evaluated events and transactions, for potential recognition or disclosure, through September 18, 2023, the date the financial statements were available to be issued. Except as disclosed in Note 1 and below, there were no other subsequent events that require recognition or disclosure in these financial statements.

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective 2023 and beyond. Plan management in evaluating the impact of the adoption and implementation of this legislation on the Plan.
