INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Illinois College of Optometry Master Retirement and Annuity Plan
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of Illinois College of Optometry Master Retirement and Annuity Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in the Certified Investment Information footnote to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2022 Financial Statements

We do not express an opinion on the accompanying 2022 financial statements of Illinois College of Optometry Master Retirement and Annuity Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion for the 2022 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2022 Financial Statements

As described in the Investments Excluded From Plan footnote to the financial statements, Illinois College of Optometry Master Retirement and Annuity Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Illinois College of Optometry Master Retirement and Annuity Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Our responsibility is to conduct an audit of Illinois College of Optometry Master Retirement and Annuity Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of Illinois College of Optometry Master Retirement and Annuity Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion for the 2022 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Other Matter – 2021 Financial Statements

The financial statements of the Plan as of, and for the year ended December 31, 2021, were audited by predecessor auditors. In their report dated October 5, 2022, they did not express an opinion on the 2021 financial statements because the financial statement excludes from investments certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009 as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*.

ILLINOIS COLLEGE OF OPTOMETRY
MASTER RETIREMENT AND ANNUITY PLAN

Notes to Financial Statements

December 31, 2022 and 2021

Plan Description

The following description of the Illinois College of Optometry Master Retirement and Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan utilizes Teachers Insurance, Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (together, TIAA-CREF) as its trustee. Illinois College of Optometry (Institution) is the Plan sponsor.

General

The Plan is a defined contribution plan covering all eligible employees as defined by the Plan of Illinois College of Optometry (Institution). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation. The Plan was adopted on January 1, 1970. The Plan was initially restated effective January 1, 2009, and was subsequently restated on July 17, 2019. Teachers Insurance and Annuity Association of America (TIAA) serves as the issuer of the TIAA Traditional Annuity contract held by the Plan and is the recordkeeper of the Plan.

Contributions

Each year participants may contribute a percentage or fixed amount of their annual compensation, as defined in the Plan. Eligible compensation for any plan year shall not exceed the maximum provided by the Internal Revenue Code. Contributions can be made on a before-tax basis only and cannot exceed \$20,500 in 2022. Age 50 and over participants can contribute an additional \$6,500 in 2022. Participants who have completed 15 years of service may make a special code 403(b) catch-up contribution. A participant's account may include contributions made to another plan and transferred to the Plan as part of a rollover contribution. Effective March 1, 2021, all employees who are eligible to make pretax contributions can also make Roth contributions.

The Institution can make a discretionary contribution to participants who meet the eligibility requirements and have attained the age of 21. The Institution made a discretionary contribution equal to 4% of participant compensation of all eligible participants for the period January 1, 2021 through June 15, 2021, and 12% of participant compensation of all eligible participants for the period June 16, 2021 through December 31, 2021. The Institution also elected to make a retroactive discretionary contribution of 8% from January 1, 2021 through June 15, 2021. The Institution made a discretionary contribution equal to 12% of participant compensation of all eligible participants for the period January 1, 2022 through December 31, 2022.

Investment Options

Participants in the Plan have the right to direct the investment of their account balances in one or more investment funds made available under the Plan. The Plan currently offers a pooled separate account, various registered investment companies, variable annuity accounts and a fixed-annuity contract as investment options for participants.

Plan Description (continued)

Participant Accounts

Each participant's self-directed account is credited with the participant's contribution and allocations of the Institution's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective January 1, 2012, participants are not vested in the Institution's contributions plus actual earnings until three years of credited service has been reached, at which time they become 100% vested. Prior to January 1, 2012, participants were immediately vested in their contributions and Institution contributions plus actual earnings thereon.

<u>Years of Service</u>	<u>Vesting Percentage</u>
1-3	0%
4	100%

Payment of Benefits

Participants may request a distribution of their account balance. Distributions will be made upon severance of employment, disability, retirement or to meet a financial hardship. The distribution of a participant's account is payable at his/her option in either a lump sum, installment payments, the purchase of an annuity contract, or a rollover into a qualified plan or IRA.

Plan Loans

TIAA issues loans to Plan participants outside the scope of the Plan. Participants pledge as security a portion of their balance in TIAA Traditional Annuity, which represents 110% of the outstanding loan balance. At December 31, 2022 and 2021, outstanding loan principal is \$595,021 and \$788,523, respectively. Plan loan interest rates ranged from 4.00% to 6.85% as of December 31, 2022.

At December 31, 2022, defaulted loans of \$432,747 are included as part of the TIAA Traditional fixed annuity contract and are owed directly to TIAA-CREF upon a participant distributable event.

Participant Notes Receivable

Beginning in 2022, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans generally must be repaid within five years. The loans are secured by the balance in the participant's account and bear interest at fixed rates that are commensurate with local prevailing rates in effect at the time the loan is made between 4.25% and 8.00%. Principal and interest are paid ratably directly by the participant outside of payroll. A participant can prepay all of the unpaid principal balance without penalty.

Plan Description (continued)

Forfeited Accounts

Forfeitures may be used to reduce nonelective contributions. During 2022, participants forfeited \$4,731 of unvested employer contributions. At December 31, 2022 and 2021, there were \$17,004 and \$12,092 of forfeitures available for future use, respectively. No forfeitures were used to reduce contributions during 2022.

Reclassification

Certain accounts presented on the 2021 fair value measurements have been reclassified in order to conform to 2022 presentation.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types are considered fully benefit-responsive and contract value approximates fair value as of December 31, 2022 and 2021.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets, change in net assets, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Institution on behalf of the Plan. Additionally, certain employees of the Institution provide administrative and trustee services to the Plan and are not reimbursed by the Plan for such services.

Fair Value Measurements

ASC 820, Fair Value Measurements and Disclosures establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fair Value Measurements (continued)

TIAA Real Estate Pooled Separate Account: The TIAA Real Estate Pooled Separate account is valued at the net asset value (NAV) per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice periods.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristic or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows, such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See definitions above of inputs utilized to determine fair value.

The TIAA Real Estate Pooled Separate Account (Account) seeks favorable long-term returns primarily through rental income and appreciation of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term high quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties, or to cover other expense needs.

TIAA Traditional Annuity: The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company. The annuity is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

The TIAA Traditional Annuity provides a guarantee of principal, a 3 percent guaranteed minimum rate of interest and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the declaration year, which begins annually on March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside the Plan and does not represent an obligation to the Plan.

ILLINOIS COLLEGE OF OPTOMETRY
MASTER RETIREMENT AND ANNUITY PLAN

Notes to Financial Statements

December 31, 2022 and 2021

Fair Value Measurements (continued)

The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments after a participant's termination of employment. Therefore, a portion of this account is considered a fully benefit-responsive investment contract (FBRIC) and another portion is considered non-benefit-responsive.

The TIAA Traditional Annuity fully benefit-responsive account is recorded at contract value. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus interest at the contract rate, less funds to pay withdrawal benefits and administrative expenses. The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment.

A portion of the TIAA Traditional Annuity has been determined to be fully benefit-responsive. Among other requirements, fully benefit-responsive contracts require all permitted participant initiated transactions with the Plan to occur at contract value with no restrictions. At December 31, 2022, the value of the nonbenefit-responsive contracts totaled \$14,907,385, and the benefit responsive contracts totaled \$12,854,952. At December 31, 2021, the value of the nonbenefit-responsive contracts totaled \$14,084,264, and the benefit-responsive contracts totaled \$12,392,311.

CREF Variable Annuity Accounts: Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable annuity accounts, except for the money market account, are recorded at their estimated fair value which is based upon the underlying value of assets. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and then thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF, a qualified institution, has certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021.
- Investments and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2022.

The Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified information to the related information included in the financial statements and ERISA-required supplemental schedule.

Party In Interest

Certain Plan investments are units in variable annuity accounts, a pooled separate account, registered investment companies and fixed annuity contracts managed by TIAA-CREF. TIAA-CREF is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Investment-related expenses are included in net appreciation in fair value of investments.

Risks and Uncertainties

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Corrective Contribution

During 2022, the Institution did not match on an eligible employee as defined by the Plan documents. The financial statements reflect a receivable from the Institution for the self-correction of the operational failure. The Institution believes that the matters identified for remediation would not cause the Plan to be disqualified by the IRS; therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan has recorded a receivable in the amount of \$7,901 for 2022 to correct for the operational failure.

ILLINOIS COLLEGE OF OPTOMETRY
MASTER RETIREMENT AND ANNUITY PLAN

Notes to Financial Statements

December 31, 2022 and 2021

Investments Excluded From Plan

The Plan has excluded from investments in the statements of net assets available for benefits certain annuity and custodial accounts, of an undetermined amount, issued to former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The effects on the financial statements from the exclusion of these investments are not readily determinable.

Plan Termination

Although it has not expressed any intent to do so, the Institution has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants would become 100% vested in their employer's contributions.

Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter 403(b) plan sponsored by TIAA. This volume submitter 403(b) plan has been filed with the appropriate agency and has obtained an opinion letter from the Internal Revenue Service stating that the volume submitter 403(b) plan constitutes a qualified plan under Section 403(b) of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified, and the related trust is tax exempt as of the financial statement date.

Subsequent Events

Subsequent events have been evaluated through August 31, 2023, which is the date the financial statements were available to be issued.
