Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan

Report on the Financial Statements

We have performed an audit of the financial statements of Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from the qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of (1) Form 5500 Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and

reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statement

We were engaged to audit the 2020 financial statements of Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 21, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Savings Plan
Notes to Financial Statements
December 31, 2021 and 2020

Note 1. Description of the Plan

The following description of the Caran Precision Eng. & Mfg. Corp. Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that was originally adopted on July 1, 1994 by Caran Precision Eng. & Mfg. Corporation and its affiliates’ (the “Company” or “Employer”) eligible employees. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the “IRC”). The Plan also allows for after-tax contributions as defined under the Roth 401(k) provisions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Participant Eligibility

Each of the Company’s employees is eligible to participate in the Plan upon attaining age 21 and completion of one month of service which includes all employees except members of a collective bargaining unit, non-resident aliens, and leased employees. Participants may enter the Plan on the first day of the month upon satisfaction of the eligibility requirements.

Contributions to the Plan

The Company’s eligible employees may contribute up to the limitations as defined by the IRC each year on a pre-tax basis by salary reduction. In addition, a participant may designate all or a part of his or her contribution as Roth contributions.

The Company may make a matching and/or discretionary contribution without regard to the Company’s current or accumulated profits as determined each year by resolution of the Company’s Board of Directors. The Plan has adopted “Safe Harbor” provisions in which the Company makes a Safe Harbor matching contribution of 100% of deferrals up to 4% of participant deferral contributions. The Company did not make any discretionary contributions during 2021.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions, (b) the Company's discretionary contributions (c) the Company's Safe Harbor matching contributions and (d) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of Company discretionary contributions are allocated to participants who have completed 1,000 hours of service during the Plan year. Company discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Vesting

Participants are 100% vested in their rollovers, elective contributions and Company Safe Harbor matching contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service according to the following schedule:

<u>Years of Service For Vesting</u>	<u>Percentage</u>
Less than two years	0%
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six or more years	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Employer matching and Company discretionary contribution accounts and earnings thereon may be used to reduce administrative expenses of the Plan or to reduce Company contributions. There were no unallocated forfeitures available as of December 31, 2021 and 2020, respectively.

Note 1. Description of the Plan (continued)

Safe Harbor Election

The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to Employer contributions and vesting schedules and meet the applicable “Safe Harbor” requirement. If the Plan meets the “Safe Harbor” requirements it is not subject to certain discrimination tests required by the IRC.

Payment of Benefits

Upon termination of employment, death, disability, or retirement, participants may receive distributions of their vested account balance as soon as administratively feasible in the form of a lump sum payment regardless of the amount or in the form of a partial non-periodic payment regardless of the amount.

Involuntary distributions of amounts \$5,000 or less may be made. Automatic rollover to an individual retirement plan designated by the Company applies to accounts greater than \$1,000 but less than \$5,000 in absence of the participant’s election to either receive or rollover the distribution.

Hardship distributions are permitted from pre-tax elective deferrals. Participants attaining age 59½ may take in-service distributions from pre-tax or Roth deferrals and Company Safe Harbor matching contributions. Active employees that have reached the age of 70 ½ must begin to receive a distribution from their account no later than April 1st following the calendar year in which they reach the age of 70 ½.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant accounts and are included in administration expenses. Additionally, plan recordkeeping fees that are not paid by forfeitures are charged directly to participant accounts and are included in administration expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Contribution Funding

The Company makes contributions to the Plan for employee contributions and any Company matching contributions on a bi-weekly basis. Company discretionary contributions, if any, are funded subsequent to year end.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets. Except for unallocated forfeitures (see Note 1), the net assets of the Plan are allocated entirely to individual participant's accounts.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Concentrations

As of December 31, 2021 and 2020, one investment accounted for approximately 25% and 26% of the Plan's net assets, respectively.

Subsequent Events

The Company has evaluated all events subsequent to December 31, 2021, the date of the statement of net assets available for benefits, through the date of the Independent Auditor's Report, the date which the financial statements were available to be issued, and has determined there are no subsequent events that require disclosure.

Note 3. Guaranteed Interest Accounts

The Plan participates in contracts with John Hancock Life Insurance Company (U.S.A.), (“John Hancock”) whereby the assets of the Plan are part of the general assets of John Hancock. These contracts are identified and accounted for as guaranteed interest accounts. The guaranteed interest accounts provide guaranteed interest rates for specified periods of time as determined or allowed by the contracts. The rate credited is the rate in effect on the day when each deposit is directed to the accounts. The guarantees made with regard to the guaranteed interest accounts are supported by John Hancock's general account. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with the contracts based on certain Plan level initiated transactions. These contracts are not considered fully-benefit responsive due to these possible market value adjustments.

The guaranteed interest accounts guarantee the return of principal plus compound interest earned over a three year or five year term, less any participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. The interest crediting rate is determined on the first day of each calendar month.

The applicable average annual interest rates for amounts contributed to the guaranteed interest accounts with a three year term during 2021 was 0.15%. The applicable average annual interest rates for amounts contributed to the guaranteed interest accounts with a five year term during 2021 was 0.25%. There is no minimum crediting interest rate. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Note 4. Information Certified by the Investment Contract Issuer

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock, the investment contract issuer as complete and accurate, except for comparing such information certified by John Hancock to information included in the Plan's financial statements and supplemental schedule:

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Guaranteed interest accounts: These investments are part of the general assets of an insurance company. These investments are valued by discounting the related cash flows based on the composite yield in effect, current yields for similar contracts of the issuer and the number of months until maturity.

Pooled separate accounts: The Plan participates in contracts with John Hancock (the investment contract issuer) whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. John Hancock does not own the underlying assets, but only holds them in trust for the participating plans. These investments are public investment securities valued using the Net Asset Value ("NAV") as a practical expedient provided by the insurance institution. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2021 and 2020:

	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total

Total investments in the fair value hierarchy	\$ ---	\$ ---	\$ 178,629	178,629
Pooled separate accounts measured at NAV*				<u>10,178,428</u>
Total investments, at fair value				<u>\$10,357,057</u>

** Certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the Statements of Net Assets Available for Benefits.*

The following presents additional information relative to Plan investments reported on NAV at December 31, 2021 and 2020:

- (a) Target date funds: Invest in a variety of combinations of equity and fixed income instruments. These funds provide varying degrees of long-term appreciation and capital preservation based on an investor's age or target retirement date through a mix of asset classes. The mix changes over time to become less focused on growth and more focused on income. These funds are also known as "target date retirement" or "age-based" funds. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$1,375,118 and \$851,957, respectively.
- (b) Target risk funds: Invest in a variety of combinations of equity and fixed income instruments. These funds maintain a predetermined risk level and generally use words such as "conservative," "moderate," or "aggressive" in their names to indicate the funds' risk level. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$7,849,005 and \$5,866,403, respectively.
- (c) Aggressive growth funds: Invest primarily in equity securities. These funds take higher risk of loss in return for potentially higher returns or gains. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$1,216,926 and \$963,104, respectively.
- (d) Growth funds: Invest primarily in equity instruments of public companies with above-average risk in return for potentially above-average gains. These companies often pay small or no dividends and their stock prices tend to have the most price fluctuations from day to day. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$975,211 and \$722,264, respectively.

Note 5. Fair Value Measurements (continued)

- (e) Growth and income funds: Invest in a variety of combinations of equity and fixed income instruments. These funds have a dual strategy of growth or capital appreciation and current income generation through dividends or interest payments. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$486,381 and \$341,369, respectively.
- (f) Income funds: Invest primarily in fixed income instruments. These funds primarily seek current income rather than capital appreciation. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$218,807 and \$185,020, respectively.
- (g) Money market fund: Invests primarily in short-term, high-grade fixed-income securities, and seeks the highest level of income consistent with the preservation of capital. As of December 31, 2021 and 2020, amounts invested in these investment funds were \$867,877 and \$1,248,311, respectively.

The pooled separate account investment funds are subject to the redemption frequency of two transactions per month. There are no other redemption restrictions, redemption notice requirements, or unfunded commitments related to the pooled separate account investment funds as of December 31, 2021 and 2020.

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2021:

	<u>Guaranteed Interest Accounts</u>
Beginning balance	\$ 178,629
Interest credited	713
Purchases	2,674
Net transfers	(79,915)
Administrative charge	<u>(1,040)</u>
Ending balance	<u><u>\$ 101,781</u></u>

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the guaranteed interest accounts are based on significant unobservable inputs, including the interest rates of the applicable investment contracts. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3 as of December 31, 2021 and 2020:

Note 5. Fair Value Measurements (continued)

	<u>Fair Value</u>	<u>Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Range Of Inputs</u>
<u>December 31, 2021</u>				
Guaranteed interest accounts	\$ 101,781	Discounted cash flow, See note (1)	Contractual interest rates Maturity dates	0.15%-0.25% 12/31/2021 – 12/31/2025
<u>December 31, 2020</u>				
Guaranteed interest accounts	\$ 178,629	Discounted cash flow, See note (1)	Contractual interest rates Maturity dates	0.30%-0.40.22% 12/31/2020 – 12/31/2022

(1) The market value of the guaranteed interest accounts are equal to the book value of each account multiplied by:

$$(1 + (0.08 \times n) \times (i - j - (0.0050 \times k)))$$

Where: “n” is the number of complete months until maturity;

“i” is the composite rate of interest being earned by that account;

“j” is the declared rate at the effective date of the withdrawal for contributions of the same term as that of the original contribution;

“k” is 0 if the withdrawal is for a pre-retirement distribution at age 59½ or after; or 1 if any other circumstance.

The insurance company will have the right to change the basis of calculating the market value upon providing three months advance written notice. Any such change will only apply to those accounts set up after the effective date of such change.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Note 7. Tax Status

The Company has adopted a prototype non-standardized plan which obtained its latest opinion letter on March 31, 2014 in which the Internal Revenue Service stated that the plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan as adopted has been operated in accordance with the Plan document. Accordingly, no provision was made for federal income taxes in the accompanying financial statements. The Plan document has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account of each member shall be fully vested and nonforfeitable at the time of termination.

Note 9. Related Party and Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts which are managed by John Hancock. The Plan also has investments in guaranteed interest accounts which are held as part of the general assets of John Hancock.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to John Hancock, other investment custodians and investment advisors. Additionally, as noted in Note 1, certain administrative expenses related to participant related activity and certain recordkeeping fees are paid directly to John Hancock. John Hancock is the sponsor of the Plan's investment contract.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 10. Pooled Separate Account Presentation

Certain Plan assets are invested in pooled separate accounts. Pooled separate accounts invest in various investment instruments including equity instruments (common stocks), mutual funds, debt instruments and other investment funds. The pooled separate accounts held by the Plan do not file an Annual Report (Form 5500) on their own and therefore they are not considered Direct Filing Entities ("DFE's") as defined by the U.S. Department of Labor. Pooled separate accounts that are not DFE's are reported on the Form 5500 Schedule H based on the underlying investment types held by each fund and not as pooled separate accounts per the instructions of the Form 5500, whereas the financial statements for the Plan reflect the investments in these funds as pooled separate accounts.
