Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of the Karyopharm Therapeutics, Inc. 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, (1) Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 and (2) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

KARYOPHARM THERAPEUTICS, INC. 401(k) PLAN

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Karyopharm Therapeutics, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees, excluding interns, of Karyopharm Therapeutics, Inc. (the “Employer”). Employees are allowed to enter the Plan on the day after they have attained age 19 (the “Participant”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Fidelity Management Trust Company (“Fidelity”) is the Plan’s Trustee and Custodian. Substantially all investments are participant directed.

Participant Contributions

Participants may contribute up to 100% of their annual eligible compensation to the Plan, up to certain limitations. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (“Participant Rollovers”).

Employer Contributions

Employer Safe Harbor Matching Contributions

The Employer contributes 100% of the first 3% of eligible compensation a participant contributes to the Plan and 50% of the next 2%. For the year ended December 31, 2022, the Employer safe harbor matching contribution totaled \$3,080,953.

Employer Nonelective Contributions

The Employer may make nonelective contributions. Such contributions are allocated in the same proportion of each eligible participant’s compensation bears to total eligible participants’ compensation. For the Plan year ended December 31, 2022, there were no Employer discretionary profit sharing contributions made.

Participant Accounts

Participants direct the investment of all contributions into various investment options offered by the Plan, which consists of shares in mutual funds. Each participant’s account is credited with the Participant’s contributions and allocations of the Employer’s contributions and Plan earnings/losses, and reduced by direct loan and distribution fees. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the Participant’s vested account.

KARYOPHARM THERAPEUTICS, INC. 401(k) PLAN

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Vesting

Participants are always fully vested in their deferral account, rollover account, Employer matching, plus earnings thereon. A participant begins vesting in Employer nonelective contributions after one year of service and is fully vested after six years of service.

Forfeitures

At December 31, 2022 and 2021, forfeited non-vested amounts totaled \$16,632 and \$6,931, respectively. During the Plan year ended December 31, 2022, \$2,600 of forfeitures were utilized to offset a portion of Plan expenses.

Payments of Benefits

In-service withdrawals from a participant's account are permitted only due to financial hardship or upon reaching 59½. Hardship withdrawals may be taken from a participant's vested account balances. The amount of hardship distribution cannot exceed the amount to meet the immediate financial hardship. Upon termination of service, if a participant's account balance is greater than \$1,000, the participant may elect to receive either a lump-sum amount equal to the value of his or her account or installment payments of such amounts, frequency and duration as the participant or beneficiary may elect. If the account balance is less than \$1,000, after notification, the entire amount may be paid in a lump sum as soon as possible. If a former participant's vested account is greater than \$1,000, but not more than \$5,000, the Plan administrator, after notification, may distribute his or her entire non-forfeited account balance to an IRA rollover account for the benefit of the former participant.

Notes Receivable from Participants

Subject to approval by the Plan administrator (as defined below), a participant may borrow a minimum of \$1,000 up to the lesser of \$50,000 or 50% of the participant's vested account balance reduced by the highest outstanding loan balance in the prior twelve month period. There is no limit to the number of loans a participant may have at any given time. Loan terms are up to five years (or longer). The loans are secured by the balance in the Participant's vested account and bear interest at an interest rate equal to the prime rate plus 1% at the day the loan is given. Principal and interest are paid ratably through payroll deductions.

Plan Administration

The Employer is the Plan administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan. Investment management expenses are netted against investment earnings. Certain Plan administrative expenses are charged to and paid by the Plan and others are paid by the Employer.

KARYOPHARM THERAPEUTICS, INC. 401(k) PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by Fidelity.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Benefits Paid

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from the estimates that were used.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Subsequent Events

The Plan administrator has evaluated subsequent events through September 11, 2023, the date that the financial statements were available to be issued. No significant matters for disclosure were identified during the evaluation.

KARYOPHARM THERAPEUTICS, INC. 401(k) PLAN

Notes to Financial Statements

Note 3 - Information Certified by Trustee and Custodian

Plan investments are held by the Plan's trustee and custodian, Fidelity Management Trust Company ("Fidelity"). Fidelity certified the fair value of investments as of December 31, 2022 and 2021, and all investment transactions for the year ended December 31, 2022. Investment transactions include interest and dividend income and net depreciation in fair value of investments. Information included in the supplemental Schedule of Assets (Held at End of Year), including participant loans (notes receivable from participants), has also been derived from information certified by Fidelity.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level II – Inputs other than quoted prices within Level I that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 4 - Fair Value Measurements (Continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2022 and 2021.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The mutual fund investments held by the Plan as of December 31, 2022 and 2021 amounted to \$35,164,727 and \$38,239,274, respectively, and based on the fair value hierarchy, have been classified as Level I as of December 31, 2022 and 2021.

Note 5 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events such as an international conflict which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine. In the event of Plan termination, participants would become 100% vested in their Employer contributions.

Note 7 - Tax Status

The Plan has adopted the Fidelity Management & Research Co Volume Submitter Profit Sharing Plan with CODA and received a favorable opinion letter on June 30, 2020. The Plan has been amended since that date; however, the Employer believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, the Plan continues to qualify under Section 401(a) and the related trust continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Related Party Transactions and Party-in-Interest Transactions

Plan investments are managed by Fidelity, the trustee and custodian of the Plan. Accordingly, these transactions qualify as exempt party-in-interest transactions. During the Plan year ended December 31, 2022, the Plan incurred expenses totaling \$53,094 from Fidelity. In addition, notes receivable from participants also qualify as exempt party-in-interest transactions, as defined by ERISA.

Note 9 - Delinquent Participant Contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the Employer's general assets. While the Employer remitted all participant contributions to the Plan, contributions of \$262,776 were not remitted within the required time period during the year ended December 31, 2021, as reflected in the accompanying Schedule of Delinquent Participant Contributions. The Employer calculated and funded the lost earnings in 2022.
