INDEPENDENT AUDITOR'S REPORT

To the Profit Sharing Plan Committee of the Bessemer Trust Company 401(k) and Profit Sharing Plan:

Opinion

We have audited the financial statements of the Bessemer Trust Company 401(k) and Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

401(K) AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2022 AND 2021 AND FOR THE YEAR ENDED DECEMBER 31, 2022

1. PLAN DESCRIPTION

The following description of the Bessemer Trust Company 401(k) and Profit Sharing Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General - The Plan is a defined contribution plan generally covering all employees of Bessemer Trust Company (the “Company”), as well as The Bessemer Group, Incorporated (the “Parent”), Bessemer Investment Management LLC, Bessemer Trust Company, N.A., Bessemer Trust Company of Delaware, N.A., and Bessemer Trust Company of Florida (collectively, the “Affiliates”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Except for the “safe harbor” contribution noted below, contributions to provide benefits under the Plan are made by the Company and the Affiliates and their employees on a voluntary basis. Such contributions are invested in a trust fund administered by the Company, as trustee. The Company has engaged Sentinel Benefits & Financial Group to support participants in connection with accessing benefit information and changing investment elections. All investment selections are participant-directed. The Plan is administered by a Profit Sharing Plan Committee consisting of persons appointed by the Board of Directors of the Company.

The Plan includes a 401(k) feature and has been designed to be a “safe harbor” plan, which means that the Company must make a 3% contribution, as defined, for all eligible employees with respect to the 401(k) feature, and does not have to perform annual testing to ensure that the Plan meets the nondiscrimination requirements of the Internal Revenue Service (“IRS”).

Contributions – The Company and Affiliates make contributions to the Plan from income before deduction of income taxes. The annual contribution cannot exceed the greater of that year’s income or the maximum amount deductible by the Company and Affiliates for federal income tax purposes. The maximum amount credited to each participant’s account during 2022, including the above-mentioned “safe harbor” contribution, equaled the lesser of 15.00% of such participant’s total eligible compensation, as defined, or \$45,750 (15.00% of the \$305,000 annual IRS limitation). Other than the “safe harbor” portion of the contribution, a participant must either be age 55 or older at termination or employed on the last day of the year to receive Company contributions.

Additionally, Plan participants can make voluntary pre-tax and/or post-tax contributions to the Plan. Participant contributions are subject to the IRS limitation of \$20,500 in 2022. In addition, the Plan provides for “catch up” contributions by Plan participants age 50 or older at December 31, 2022, subject to the IRS limitation of \$6,500.

The total aggregate contributions to the Plan, including those of the Company and participants, are subject to the IRS limitation which is calculated as the lesser of 100% of a participant’s annual compensation (salary and bonus) or \$61,000 for participants under age 50, and \$67,500 for participants age 50 or older at December 31, 2022. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans.

Vesting – Benefits under the Plan are equal to the sum of the contributions and earnings thereon credited to such participant's account. Participants are vested immediately in their contributions plus earnings thereon. Benefits vest for the Company's contribution portion of an account based on years of service, and are fully vested after five years of service, except those participants who have attained age 55 or who die while in active service are fully vested regardless of years of service. Furthermore, the 3% "safe harbor" contributions are fully vested after two years of service as defined in the Plan.

Forfeited Accounts – During 2022 and 2021, forfeited non-vested accounts totaled \$472,735 and \$753,493, respectively. These amounts were used to reduce the 2022 and 2021 Company and Affiliate contributions to the Plan.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, Company and Affiliates' contributions, and an allocation of Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in accordance with the Plan document until changed by the participant.

Notes Receivable from Plan Participants – Under the general provisions of the Plan, participants may borrow from their Plan accounts up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at prevailing rates at the time funds are borrowed (see Note 6). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – On termination of service (including retirement), a participant may generally elect to either receive a lump-sum payment (direct payment or roll-over) of their account balance or continue to invest their entire account balance in the Plan. Participants are also eligible to make hardship withdrawals from their vested accounts in the event of certain financial hardships.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of the financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan utilizes various investment instruments including mutual funds. Investment securities, in general, are exposed to various risks, including interest rate, credit, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for more information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) in fair value of investments includes the Plan's realized gains and losses on investments bought and sold as well as the change in unrealized gains and losses on investments held during the year.

Cash and Cash Equivalents – Cash and cash equivalents may include amounts due from banks, interest-bearing deposits with banks, and short-term investments, all of which are readily convertible into cash and have original maturities of three months or less. The carrying value of cash and cash equivalents equals cost. Cash and cash equivalents exclude participant-directed investments in money market funds.

Notes Receivable from Plan Participants – Notes receivable from Plan participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits – Benefit payments to participants are recorded upon distribution. As of December 31, 2022 there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Administrative Expenses – Expenses incurred in connection with the payment of benefits, as well as professional and administrative fees, are paid by the Company as provided in the Plan document.

Contributions – Participant contributions and rollover contributions are recorded when contributed to the Plan. Company and Affiliate contributions are recorded when they become due to participants in accordance with the terms of the Plan document.

3. **PLAN TERMINATION**

Although it has not made any determination to do so, the Board of Directors of the Company may terminate the Plan at any time. In the event of termination of the Plan, the separate accounts of all participants of the Plan shall be fully vested and non-forfeitable.

4. **FEDERAL INCOME TAX STATUS**

Each year, the IRS publishes a Required Amendments List for individually designed plans, which specifies changes in qualification requirements. The list requires plans to be amended for each change, as applicable, to retain its tax-exempt status. Management believes the Plan is currently designed, has been amended, and is being operated in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. **RELATED PARTY / EXEMPT PARTY-IN-INTEREST TRANSACTIONS**

With the exception of the Vanguard mutual funds, the State Street Aggregate Bond Index Fund Class K, and the State Street Institutional U.S. Government Money Market Fund, all of the Plan's investments are managed by the Company and its Affiliates. Fees and expenses paid within the funds are included as a reduction of the return on each fund, which is consistent with the treatment for other investors in such funds. As of December 31, 2022 and 2021, transitional cash of \$9,811 and \$700,684, respectively, was on deposit with the Company. Certain officers and employees of the Company and its Affiliates who may also be participants in the Plan perform administrative services related to the operation, record-keeping, and financial reporting of the Plan. The Company and its Affiliates pay these and other professional and administrative expenses on behalf of the Plan. The related-party transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions from the IRS and ERISA's rules on prohibited transactions.

6. **PARTICIPANTS' ACCOUNTS**

On a daily basis, participants may elect to have their account balances invested, wholly or partially, in various investments, as defined.

Participants may make pre-tax contributions (or salary deferral contributions) or make after-tax contributions (Roth 401(k) feature) to the Plan. The maximum of all contributions to the Plan (employer and employee) permitted by law effective January 1, 2022 and 2021, was the lesser of 100% of a participant's annual compensation (salary and bonus) or \$61,000 and \$58,000, respectively. Participants who are or will be age 50 by the end of the Plan year may make catch-up contributions as permitted by IRC Section 414(v). Total contributions did not exceed the maximum amount permitted by law in either year.

Participants who are employed with the Company are able to initiate a loan at each pay period (bi-weekly) and may borrow amounts equal to no more than the lesser of \$50,000 or an amount equal to 50% of their vested interests. Loans are repayable in equal installments of principal and interest. Participants are charged an interest rate equal to 1% above the prime rate in effect on the date the loan application is processed. Loans are issued over a period requested by the borrower but not to exceed the lesser of five years, except for home purchase loans which can be payable over a period of 15 years, or the number of years to the borrower's normal retirement date. As of December 31, 2022, participant loans had maturities through 2037 at interest rates ranging from 3.39% to 8.50%. As of December 31, 2021, participant loans had maturities through 2036 at interest rates ranging from 3.39% to 6.71%.

7. **FAIR VALUE MEASUREMENTS**

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides a framework for measuring fair value. Fair value measurement is achieved using a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

The three levels are defined as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets that the Company can access at the measurement date.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and considers factors specific to the financial instrument that a market participant may use.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value at December 31, 2022 and 2021:

Asset Valuation Techniques – Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. During 2022, the Plan added one new investment option: the State Street Aggregate Bond Index Fund Class K (symbol: SSFEX).

Money Market Fund – The money market fund is an actively traded fund valued at the daily closing price as reported by the fund.

Financial Instruments – Other than investments, the Plan's financial instruments consist of cash, receivables and other liabilities. The fair values of these financial instruments have been determined to approximate cost as they are short-term in nature. In the event Plan management determines that the fair values of these financial instruments do not approximate their carrying amounts, fair value will be determined using other reasonable procedures.

8. SUBSEQUENT EVENTS

Subsequent events were evaluated through September 13, 2023, the date financial statements were available to be issued, and it has been determined that there were no subsequent events requiring adjustment or additional disclosure in the financial statements.
