INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Management of
Romano Auto Network 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the accompanying financial statements of Romano Auto Network 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Romano Auto Network 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Romano Auto Network 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Romano Auto Network 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Romano Auto Network 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Romano Auto Network 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Romano Auto Network 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Romano Chrysler-Jeep, Inc., Romano Ford of Fayetteville, Inc., Romano Volkswagen of Fayetteville, Ltd., Romano Motors Ltd., Romano Subaru, Inc., Romano Toyota Ltd. and Romano Imports, Inc. (collectively the "Company"), who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to begin salary deferrals after the attainment of age 21 and having completed one year of service with at least 1,000 hours worked.

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan subject to maximum limitations established by the Internal Revenue Code. In addition, participants have the option to elect to have after-tax contributions made to the Plan. Participants who have attained the age of 50 before the close of the Plan year may contribute an additional catch-up contribution as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and Plan allocation of earnings/losses and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings/losses thereon.

Investment Options

Investments are held within various investment funds maintained by Capital Bank and Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

1. DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of their account. Upon death, disability, or retirement a participant may elect to receive a series of payments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and their beneficiary.

Hardship withdrawals are permitted in the event of immediate financial need. Participants may elect to receive a hardship withdrawal in an amount equal to their deferral contributions.

In-service withdrawals are permitted for participants that are age 59 ½ or older.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of the participant's vested account balance, subject to certain conditions as defined in the Plan agreement. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to twenty-five years). The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent, as determined on the first day of the calendar quarter in which the loan was issued. Interest rates on outstanding loans ranged from 4.25% to 8% at December 31, 2022. Principal and interest are paid ratably through weekly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles general accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investments advisors and qualified institutions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company absorbs reasonable expenses incurred in the administration of the Plan, which includes accounting and legal fees. Expenses relating to certain participant transactions, such as fees related to distributions and notes receivable from participants, are deducted from the participant's account as the transactions occur.

Fair Value Measurement - Definition and Hierarchy
Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820*, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - Definition and Hierarchy (Continued)
The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 3. There were no transfers between levels of the fair value hierarchy during 2022 or 2021.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

3. FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- *Mutual funds*: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's fair value measurement at December 31, 2022 and 2021.

Fair value measurement at December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,675,060	$ -	$ -	$ 14,675,060

Fair value measurement at December 31, 2021:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,100,304	$ -	$ -	$ 17,100,304

4. CERTIFIED INVESTMENTS

The Plan administrator has received a certification from Capital Bank and Trust Company, the trustee of the Plan, that states that the following information is complete and accurate as of and for the years ended December 31, 2022 and 2021:

	2022	2021
Statements of net assets available for benefits:		
Mutual funds, at fair value	$ 14,675,060	$ 17,100,304
Fully benefit-responsive contracts, at contract value	$ 935,669	$ 635,561
Notes receivable from participants	$ 345,210	$ 374,312
Statements of changes in net assets available for benefits:		
Net appreciation (depreciation) in fair value of investments	$ (3,336,315)	$ 2,235,266
Interest income on notes receivable from participants	$ 16,234	$ 17,299
Schedule of Assets (Held at End of Year)	Schedule I	

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY

The Plan is invested in a fully benefit-responsive income contract with Great West Life & Annuity Insurance Company of New York (GWLAIC). GWLAIC maintains the contributions in a general account. The account is credited with earnings at the credited interest rate and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed income fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by GWLAIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the contract at December 31, 2022 and 2021 was $935,669 and $635,561 respectively. The crediting interest rate is based on a contractually guaranteed interest rate. Such interest rates are reviewed on a quarterly basis for resetting.

Generally there are no events that could limit the ability of the Plan to transact at contract value. If the Plan Sponsor chooses to eliminate this fund from the Plan, there may be participant transfer restrictions until the assets are paid out of the fund. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds managed by Capital Bank and Trust Company, the trustee of the Plan. Capital Bank and Trust Company owns American Funds, the third-party administrator of the Plan. Transactions with these companies qualify as party-in-interest transactions.

In addition, the Plan issues notes receivable to participants, which are secured by the balances in the participants' account. Therefore, these related transactions qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. RECONCILATION OF FINANCIAL STATEMENTS TO FORM 5500

While total net assets available for benefits and the total change in net assets available agree between the financial statements and Form 5500 for 2022 and 2021, certain classifications differ between the financial statements and Form 5500.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 12, 2023, which is the date the financial statements were available to be issued.

Effective February 15, 2023, the plan was amended for the following changes:

- Employees will be eligible to participate in the Plan after the attainment of 18 years of age and having completed 30 days of service.
- Plan entry dates will be the first day of each quarter following meeting eligibility requirements.

To the Plan Administrator and Management of
Romano Auto Network 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the accompanying financial statements of Romano Auto Network 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Romano Auto Network 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Romano Auto Network 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Romano Auto Network 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Romano Auto Network 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Romano Auto Network 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Romano Auto Network 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Romano Chrysler-Jeep, Inc., Romano Ford of Fayetteville, Inc., Romano Volkswagen of Fayetteville, Ltd., Romano Motors Ltd., Romano Subaru, Inc., Romano Toyota Ltd. and Romano Imports, Inc. (collectively the "Company"), who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to begin salary deferrals after the attainment of age 21 and having completed one year of service with at least 1,000 hours worked.

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan subject to maximum limitations established by the Internal Revenue Code. In addition, participants have the option to elect to have after-tax contributions made to the Plan. Participants who have attained the age of 50 before the close of the Plan year may contribute an additional catch-up contribution as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and Plan allocation of earnings/losses and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings/losses thereon.

Investment Options

Investments are held within various investment funds maintained by Capital Bank and Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

1. DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of their account. Upon death, disability, or retirement a participant may elect to receive a series of payments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and their beneficiary.

Hardship withdrawals are permitted in the event of immediate financial need. Participants may elect to receive a hardship withdrawal in an amount equal to their deferral contributions.

In-service withdrawals are permitted for participants that are age 59 ½ or older.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of the participant's vested account balance, subject to certain conditions as defined in the Plan agreement. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to twenty-five years). The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent, as determined on the first day of the calendar quarter in which the loan was issued. Interest rates on outstanding loans ranged from 4.25% to 8% at December 31, 2022. Principal and interest are paid ratably through weekly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles general accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investments advisors and qualified institutions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company absorbs reasonable expenses incurred in the administration of the Plan, which includes accounting and legal fees. Expenses relating to certain participant transactions, such as fees related to distributions and notes receivable from participants, are deducted from the participant's account as the transactions occur.

Fair Value Measurement - Definition and Hierarchy
Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820*, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - Definition and Hierarchy (Continued)
The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 3. There were no transfers between levels of the fair value hierarchy during 2022 or 2021.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

3. FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- *Mutual funds*: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's fair value measurement at December 31, 2022 and 2021.

Fair value measurement at December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,675,060	$ -	$ -	$ 14,675,060

Fair value measurement at December 31, 2021:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,100,304	$ -	$ -	$ 17,100,304

4. CERTIFIED INVESTMENTS

The Plan administrator has received a certification from Capital Bank and Trust Company, the trustee of the Plan, that states that the following information is complete and accurate as of and for the years ended December 31, 2022 and 2021:

	2022	2021
Statements of net assets available for benefits:		
Mutual funds, at fair value	$ 14,675,060	$ 17,100,304
Fully benefit-responsive contracts, at contract value	$ 935,669	$ 635,561
Notes receivable from participants	$ 345,210	$ 374,312
Statements of changes in net assets available for benefits:		
Net appreciation (depreciation) in fair value of investments	$ (3,336,315)	$ 2,235,266
Interest income on notes receivable from participants	$ 16,234	$ 17,299
Schedule of Assets (Held at End of Year)	Schedule I	

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY

The Plan is invested in a fully benefit-responsive income contract with Great West Life & Annuity Insurance Company of New York (GWLAIC). GWLAIC maintains the contributions in a general account. The account is credited with earnings at the credited interest rate and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed income fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by GWLAIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the contract at December 31, 2022 and 2021 was $935,669 and $635,561 respectively. The crediting interest rate is based on a contractually guaranteed interest rate. Such interest rates are reviewed on a quarterly basis for resetting.

Generally there are no events that could limit the ability of the Plan to transact at contract value. If the Plan Sponsor chooses to eliminate this fund from the Plan, there may be participant transfer restrictions until the assets are paid out of the fund. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds managed by Capital Bank and Trust Company, the trustee of the Plan. Capital Bank and Trust Company owns American Funds, the third-party administrator of the Plan. Transactions with these companies qualify as party-in-interest transactions.

In addition, the Plan issues notes receivable to participants, which are secured by the balances in the participants' account. Therefore, these related transactions qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. RECONCILATION OF FINANCIAL STATEMENTS TO FORM 5500

While total net assets available for benefits and the total change in net assets available agree between the financial statements and Form 5500 for 2022 and 2021, certain classifications differ between the financial statements and Form 5500.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 12, 2023, which is the date the financial statements were available to be issued.

Effective February 15, 2023, the plan was amended for the following changes:

- Employees will be eligible to participate in the Plan after the attainment of 18 years of age and having completed 30 days of service.
- Plan entry dates will be the first day of each quarter following meeting eligibility requirements.

INDEPENDENT AUDITOR'S REPORT

September 12, 2023

To the Plan Administrator and Management of
Romano Auto Network 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the accompanying financial statements of Romano Auto Network 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Romano Auto Network 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Romano Auto Network 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Romano Auto Network 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Romano Auto Network 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Romano Auto Network 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA
The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Romano Auto Network 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Romano Chrysler-Jeep, Inc., Romano Ford of Fayetteville, Inc., Romano Volkswagen of Fayetteville, Ltd., Romano Motors Ltd., Romano Subaru, Inc., Romano Toyota Ltd. and Romano Imports, Inc. (collectively the "Company"), who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible to begin salary deferrals after the attainment of age 21 and having completed one year of service with at least 1,000 hours worked.

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan subject to maximum limitations established by the Internal Revenue Code. In addition, participants have the option to elect to have after-tax contributions made to the Plan. Participants who have attained the age of 50 before the close of the Plan year may contribute an additional catch-up contribution as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and Plan allocation of earnings/losses and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings/losses thereon.

Investment Options

Investments are held within various investment funds maintained by Capital Bank and Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

1. DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of their account. Upon death, disability, or retirement a participant may elect to receive a series of payments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and their beneficiary.

Hardship withdrawals are permitted in the event of immediate financial need. Participants may elect to receive a hardship withdrawal in an amount equal to their deferral contributions.

In-service withdrawals are permitted for participants that are age 59 ½ or older.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of the participant's vested account balance, subject to certain conditions as defined in the Plan agreement. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to twenty-five years). The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent, as determined on the first day of the calendar quarter in which the loan was issued. Interest rates on outstanding loans ranged from 4.25% to 8% at December 31, 2022. Principal and interest are paid ratably through weekly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles general accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investments advisors and qualified institutions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company absorbs reasonable expenses incurred in the administration of the Plan, which includes accounting and legal fees. Expenses relating to certain participant transactions, such as fees related to distributions and notes receivable from participants, are deducted from the participant's account as the transactions occur.

Fair Value Measurement - Definition and Hierarchy
Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820*, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - Definition and Hierarchy (Continued)
The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 3. There were no transfers between levels of the fair value hierarchy during 2022 or 2021.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

3. FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- *Mutual funds*: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's fair value measurement at December 31, 2022 and 2021.

Fair value measurement at December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,675,060	$ -	$ -	$ 14,675,060

Fair value measurement at December 31, 2021:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,100,304	$ -	$ -	$ 17,100,304

4. CERTIFIED INVESTMENTS

The Plan administrator has received a certification from Capital Bank and Trust Company, the trustee of the Plan, that states that the following information is complete and accurate as of and for the years ended December 31, 2022 and 2021:

	2022	2021
Statements of net assets available for benefits:		
Mutual funds, at fair value	$ 14,675,060	$ 17,100,304
Fully benefit-responsive contracts, at contract value	$ 935,669	$ 635,561
Notes receivable from participants	$ 345,210	$ 374,312
Statements of changes in net assets available for benefits:		
Net appreciation (depreciation) in fair value of investments	$ (3,336,315)	$ 2,235,266
Interest income on notes receivable from participants	$ 16,234	$ 17,299
Schedule of Assets (Held at End of Year)	Schedule I	

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY

The Plan is invested in a fully benefit-responsive income contract with Great West Life & Annuity Insurance Company of New York (GWLAIC). GWLAIC maintains the contributions in a general account. The account is credited with earnings at the credited interest rate and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed income fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by GWLAIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the contract at December 31, 2022 and 2021 was $935,669 and $635,561 respectively. The crediting interest rate is based on a contractually guaranteed interest rate. Such interest rates are reviewed on a quarterly basis for resetting.

Generally there are no events that could limit the ability of the Plan to transact at contract value. If the Plan Sponsor chooses to eliminate this fund from the Plan, there may be participant transfer restrictions until the assets are paid out of the fund. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds managed by Capital Bank and Trust Company, the trustee of the Plan. Capital Bank and Trust Company owns American Funds, the third-party administrator of the Plan. Transactions with these companies qualify as party-in-interest transactions.

In addition, the Plan issues notes receivable to participants, which are secured by the balances in the participants' account. Therefore, these related transactions qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. RECONCILATION OF FINANCIAL STATEMENTS TO FORM 5500

While total net assets available for benefits and the total change in net assets available agree between the financial statements and Form 5500 for 2022 and 2021, certain classifications differ between the financial statements and Form 5500.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 12, 2023, which is the date the financial statements were available to be issued.

Effective February 15, 2023, the plan was amended for the following changes:

- Employees will be eligible to participate in the Plan after the attainment of 18 years of age and having completed 30 days of service.
- Plan entry dates will be the first day of each quarter following meeting eligibility requirements.
