Independent Auditor's Report

To the Plan Administrator
AccessLex Institute 403(b) Plan
West Chester, PA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of AccessLex Institute 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP"); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, Line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

AccessLex Institute 403(b) Plan

Notes to Financial Statements

1. Description of the Plan

General

The AccessLex Institute 403(b) Plan, ("the Plan"), is a defined contribution retirement plan sponsored by AccessLex Institute ("the Company"). The Plan, initially effective on January 1, 2008, is governed by Section 403(b) of the Internal Revenue Code ("IRC"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). A 403(b) plan, formally referred to as a "tax-sheltered annuity plan," may be sponsored by only certain tax-exempt employers, which generally include organizations established under IRC Section 501(c)(3), and public schools. The Company is a 501(c)(3) organization. The following description provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Plan Participation

All employees are eligible to participate in the Plan on their hire date solely for the purpose of making elective deferrals. Employees who attain age 18 and complete one year of service are eligible for Company matching and nonelective contributions. A year of service for eligibility purposes is a 12-month consecutive period in which an employee completes at least 1,000 hours of service.

Contributions

Participants may enter into a salary deferral agreement with the Company to contribute on a pre-tax basis up to the maximum annual contribution, plus catch-up contributions for participants age 50 or over at the end of a Plan year, as allowed by the IRC. Salary deferral agreements can be changed or cancelled at any time. The Company matching contribution is 100% of the amount of the participants' elective deferral, not to exceed 2% of the participant's eligible compensation. Additionally, there is a Company nonelective contribution equal to 6% of each participant's eligible compensation. For purposes of the calculation of Company contributions, all compensation other than the participant's regular base compensation is excluded. Elective deferrals may be withdrawn upon termination, qualification for a financial hardship, or attainment of age 59^{1/2}. Participants may also contribute certain rollover account balances from other plans.

The Plan allows participants to make Roth deferral contributions, subject to the same IRC limitations as stated above. Roth deferrals allow a participant's contributions to be included in the participant's annual income for the taxable year of the contribution. At time of qualified distribution, the deferrals and earnings are excluded from income. A participant's Roth deferred contributions will be separately accounted for, as will gains and losses attributable to those Roth deferred contributions, in a Roth deferred contributions account.

Participant Accounts and Investment Contributions

The Plan is a 403(b)(7) plan which is allowed to invest in mutual fund shares held in custodial accounts. Each participant's account is credited with the participant's deferrals, Company contributions, and earnings and losses thereon. Allocations are based on participant earnings, deferrals or account balances as defined. All investments are participant directed. Participants can change their investment options at any time, with changes becoming effective immediately.

AccessLex Institute 403(b) Plan

Notes to Financial Statements

1. Description of the Plan (Continued)

Vesting

Participants are immediately 100% vested in their participant salary deferrals, rollover contributions, and Company contributions.

Retirement Benefits

Immediately following retirement, participants may elect to receive the entire vested interest in their account by a lump-sum distribution.

Disability and Death Benefits

The vested interest in each participant's account may be distributed upon total and permanent disability or death.

Termination

Immediately following termination from the Company, participants may elect to receive the entire vested interest in their account by a lump-sum distribution, subject to early withdrawal penalties and taxes, if applicable. The Plan provides for mandatory distributions of participant account balances under \$5,000, whereby participant account balances under \$5,000 will follow the automatic rollover rules and be placed into an individual retirement account ("IRA").

Hardship Distribution

Upon meeting various criteria as described in the plan agreement, a participant may make withdrawals to pay for certain financial hardships.

Notes Receivable From Participants

Participants may borrow the lesser of 50% of their vested account balance or \$50,000, subject to certain guidelines including:

- A participant may not borrow less than \$1,000 in any single loan transaction.
- Each participant may only have one loan outstanding.
- The participant's account is pledged as security for the loan.
- All loans must be repaid within 5 years or less, except for loans used for the purchase of a primary residence.
- Interest rates on loans are prime plus 1% as of the 2nd business day in the month of loan inception.
- As loans are repaid to the Plan ratably through payroll deductions, the total payment, principal plus interest, is credited back to the participant's account.

AccessLex Institute 403(b) Plan

Notes to Financial Statements

1. Description of the Plan (Continued)

Administrative Expenses

Certain administrative expenses are paid by Plan participants. All other expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Certain administrative and operating expenses are offset with revenue sharing payments received by the Plan custodian and record keeper from investment fund managers of \$691 during 2022.

2. Summary of Significant Accounting Policies

Basis of Accounting

These financial statements have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment earnings (losses) are comprised of gains and losses on investments bought and sold (recorded on a trade date basis), dividends (recorded on the ex-dividend date), interest (recorded on the accrual basis) and net change in fair value of the Plan's investments held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. The Plan classifies notes in default for various events, including failure to pay timely installments. Delinquent notes are deemed distributed and recorded as a distribution based upon terms of the Plan agreement. There were no deemed distributions recorded in 2022.

Benefit Payments

Benefit payments are recorded when paid.

AccessLex Institute 403(b) Plan

Notes to Financial Statements

3. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data in correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the assets measured at fair value and the valuation methodologies used to determine fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual funds are valued at the quoted net asset value of units held by the Plan at year end. Mutual fund investments consist primarily of target date funds that seek to provide a diversified asset allocation consistent with the participants' current stage of life.

Money market account holdings are valued at the quoted net asset value of units held by the Plan at year end. While the fund seeks a stable \$1.00 per unit price it cannot guarantee it will do so. The Fund may impose fees upon the sale of shares or may temporarily suspend participants' ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors.

3. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2022, and 2021:

<i>December 31, 2022</i>	Level 1	Level 2	Level 3	Total
Money market funds	\$ 186,367	\$ -	\$ -	\$ 186,367

4. Termination

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, the net assets of the Plan will be distributed or sold exclusively for the benefit of the participants (or their beneficiaries). Upon such termination, participants would remain 100% vested in their accounts.

5. Tax Status

The Plan adopted a volume submitter plan, effective January 1, 2019, which has obtained a favorable opinion letter dated March 31, 2017 from the Internal Revenue Service ("IRS") program on pre-approved plans as outlined in Revenue Procedure 2013-12. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Parties-in-Interest Transactions

AccessLex Institute and its employees are parties-in-interest to the Plan. On December 31, 2022, and 2021, the Plan's assets included \$37,637 and \$30,149 respectively, of notes receivable from participants. Related income earned on notes receivable from participants was \$1,660 for the year ended December 31, 2022.

Notes to Financial Statements

6. Parties-in-Interest Transactions (continued)

Certain Plan assets are managed by an affiliate of Charles Schwab Trust Bank, the custodian of the Plan, therefore, these transactions qualify as party-in-interest transactions. Certain fees incurred for investment management are included in the net depreciation in fair value of the investments.

7. Risks and Uncertainties

The Plan holds various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank, the custodian of the Plan.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule.

9. Subsequent Events

Events and transactions subsequent to year end have been evaluated for potential recognition or disclosure in the financial statements through August 23, 2023, which is the date these financial statements were available to be issued.

In 2023, the volume submitter plan adopted by the Plan was amended to reflect provisions of the CARES Act and SECURE 2.0. Management does not believe these amendments will have a significant impact on plan operations.
