Independent Auditor's Report

The Plan Administrator and Participants
Amended Employees' Pension and Investment Plan of the Hunt Corporation and Related Companies
Los Angeles, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Amended Employees' Pension and Investment Plan of the Hunt Corporation and Related Companies (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, line 4i – schedule of assets held at end of year, and Schedule H, line 4j – schedule of reportable transactions as of or for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance

with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

December 31, 2022 and 2021

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Amended Employees' Pension and Investment Plan of The Hunt Corporation and Related Companies (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document and the *Summary Plan Description* for more complete information regarding the terms of the Plan.

General – The Plan is a frozen non-contributory defined benefit plan. The original plan was effective in 1960. The Plan is administered by the Americas Benefits Administration Committee as authorized by AECOM, the parent company of The Hunt Corporation. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility – The Plan covers substantially all salaried and office or field engineer hourly employees of The Hunt Corporation and certain of its wholly-owned subsidiaries (together, the "Company"), except craft hourly employees, leased employees, and independent contractors, as defined in the Plan document. Effective January 1, 2008, the Plan was frozen, and no new participants are allowed into the Plan.

Pension Benefits – Covered employees are entitled to a benefit equal to one percent of their highest consecutive five year average compensation for each year of credited service determined as of June 1, 1999, plus one-half of one percent of their average compensation for each year of credited service accrued after June 1, 1999. Early retirement is permitted beginning at age 57 or for disability at reduced benefit levels. Employees may elect to receive their benefit in the form of a lump sum distribution upon termination of employment, regardless of age. The normal form of payment for married employees is a joint and 50 percent surviving spouse annuity. Employees may also elect to receive the benefit in the form of a single life annuity, installments over a certain period of years as specified in the Plan document, an annuity plus installment payments to designated beneficiaries over a certain period of years as specified in the Plan document, or a 50 percent, 75 percent, or 100 percent survivor annuity with a designated beneficiary. Covered employees' benefit rights are fully vested after five years; all participants in the Plan are fully vested. Effective January 1, 2008, the Plan was frozen, and pension benefits ceased to accrue.

Death Benefits - If an active employee dies after age 18, a death benefit is paid to the employee's beneficiary based on terms of the Plan document.

Disability Retirement Benefits - Active employees who become totally and permanently disabled may start their benefit under the Plan immediately. This benefit will be reduced for early commencement based on the terms of the Plan document.

Funding Policy – Contributions from the Company for each fiscal year of the Plan are accrued based on minimum amounts required to be funded under the provisions of ERISA or, if greater, amounts committed to be contributed for the Plan year. Voluntary employee contributions are not permitted. The Company met the minimum funding requirement for the years ended December 31, 2022 and 2021.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

Basis of Accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. See Note 4 for a description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits - Benefit payments are recorded upon distribution.

Administrative Expenses - The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. Fees for administration, investment advice, actuarial, and other services are generally charged to the Plan based on customary or contracted rates for such services. The Plan's assets are managed by independent investment managers who charge a management fee based on assets under management.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results may differ from these estimates.

NOTE 3 – RISKS AND UNCERTAINTIES

Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amount reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 4 – FAIR VALUE MEASUREMENTS

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

The Plan's investments, which are stated at fair value, are disclosed in accordance with the established framework and disclosure requirements described in the FASB Accounting Standards Codification ("ASC") No. 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10"), which defines fair value, establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements. ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction, which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1	Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for investments measured at fair value, including a general classification of such instruments pursuant to the valuation hierarchy. There were no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds – A mutual fund is an investment company registered under the Investment Company Act of 1940 that pools the capital of many investors and invests it in stocks, bonds, short-term money market instruments and/or other securities. These investments are public investment vehicles valued at the closing price reported in the active market in which the investments are traded. These investments are classified within Level 1 of the valuation hierarchy.

Collective investment trusts – A collective investment trust is a trust for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one plan. These investments are valued using the net asset value ("NAV") provided by the administrator of the collective trust. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

The NAV is used as a practical expedient to estimate fair value. The collective investment trusts are not classified within the fair value hierarchy; however, the amounts measured using NAV is disclosed to permit reconciliation of the fair value of investments to the Statements of Net Assets Available for Benefits.

Privately-held securities – Investments in privately-held securities are investments in closely held instruments for which there is no available market. These funds seek capital appreciation and current income by investing in various financial instruments. The funds may invest in publicly traded equity and debt securities, as well as derivatives thereof. In addition, the funds may pursue a value-oriented strategy through short selling and investments in private or less liquid instruments (financial instruments and other obligations for which no market or only a limited market may exist). The funds may also leverage its portfolio with borrowed funds. The fair value is determined by the Plan's management using NAV as a practical expedient. The Plan's management considers subscription and redemption rights, including any restrictions on the disposition of its interest in its determination of fair value. For information regarding restrictions on redemptions, see Note 5. Privately-held securities are not classified within the fair value hierarchy; however, the amounts measured using NAV are disclosed to permit reconciliation of the fair value of investments to the Statements of Net Assets Available for Benefits.

Money market mutual fund – The fair value of these investments is based on quoted market prices of the fund in active market and are classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Angeles Absolute Return Fund – Angeles Absolute Return Fund Ltd. is an incorporated Cayman Islands exempted company. This investment fund is registered with the Cayman Islands Monetary Authority under Section 4(3) of the Mutual Funds Law. The principal activity of this fund is to invest in other offshore hedge fund vehicles to achieve long term capital appreciation. Angeles Investment Advisors, LLC (“Angeles”) is responsible for selecting the investments and determining their weight within this fund’s investment portfolio.

Angeles Diversified Income Fund – Angeles Diversified Income Fund LLC was formed as a limited liability company under the provisions of the Delaware Limited Liability Company Act. The investment objective of this fund is to achieve attractive risk-adjusted returns by investing in assets primarily in fixed income and credit strategies. Angeles expects to access independent investment managers through managed account arrangements but may also invest in underlying

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

investment funds advised by them. Angeles is responsible for selecting the investments as well as the independent investment managers and determining their weight within this fund's investment portfolio.

Angeles Global Equity Opportunities Fund – Angeles Global Equity Opportunities Fund LLC was formed as a limited liability company under the provisions of the Delaware Limited Liability Company Act. The investment objective of this fund is to achieve attractive risk-adjusted returns versus its benchmark index by investing assets primarily pursuing long-only public equity strategies. Angeles expects to access independent investment managers through managed account arrangements but may also invest in underlying investment funds advised by them. Angeles is responsible for selecting the investments as well as the independent investment managers and determining their weight within this fund's investment portfolio.

NOTE 6 – INFORMATION CERTIFIED BY THE TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and ERISA required supplemental schedules, including investments held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by US Bank National Association, the trustee of the Plan.

NOTE 7 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by employees as of the valuation date, however, no compensation or service subsequent to January 1, 2008, will be taken into account in calculating plan benefits. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for employees or their beneficiaries are based on compensation and years of credited service. The actuarial present value of the accumulated plan benefits is determined by the Plan's actuary, Mercer (US) LLC - by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information, as determined by the Plan's actuary, is as follows:

	December 31, 2022	December 31, 2021
Vested benefits:		
Participants and beneficiaries currently receiving benefits	\$ 1,786,975	\$ 1,835,852
Other participants	<u>7,731,058</u>	<u>10,239,999</u>
Total vested benefits	<u>9,518,033</u>	<u>12,075,851</u>
Total actuarial present value of accumulated plan benefits	<u>\$9,518,033</u>	<u>\$12,075,851</u>

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2022 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$12,075,851</u>
Increase (decrease) during the year attributable to:	
Actuarial losses	(24,394)
Benefits paid	(1,336,189)
Interest due to the decrease in the discount period	595,984
Change in assumptions	<u>(1,793,219)</u>
Net decrease	<u>(2,557,818)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$9,518,033</u>

The computations of the actuarial present value of the accumulated Plan benefits were made as of January 1, 2023. Had the valuation been performed as of December 31, 2022, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2022 and 2021 are as follows:

Mortality basis	- 2022 and 2021	- Pri-2012 sex distinct, no collar, separate annuitant and non-annuitant mortality table with 2021 generational Mercer Modified Projection factors (MMP-2021)
417(e) lump sum	- 2022	- 2023 lump sum interest rates (November 2022 rates)
		- Pri-2012 Unisex, no collar mortality tables with 2021 generational Mercer Modified projection factors (MMP-2021)
	- 2021	- 2022 lump sum interest rates (November 2021 rates)
		Pri-2012 Unisex, no collar mortality tables with 2021 generational Mercer Modified projection factors (MMP-2021)
Discount rate	- 2022 and 2021	- 5.25%
Retirement rates	- 2022 and 2021	- 25% at ages 62 through 69
		- 100% over age 69

The foregoing actuarial assumptions are based on the assumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

NOTE 8 - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan paid certain expenses related to Plan administration and investment activity to various service providers. These transactions also qualify as party-in-interest transactions. The Plan paid fees of \$8,125 to the trustee during the year ended December 31, 2022. These transactions qualify as party-in-interest transactions.

The Plan has certain investments that are managed by Angeles. Angeles has the authority to make investment decisions within the guidelines of the investment policy. The Plan paid \$15,531 to Angeles during the year ended December 31, 2022. These transactions qualify as party-in-interest transactions.

These party-in-interest transactions qualify for prohibited transaction exemptions.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to amend or terminate the Plan subject to the provisions of the Plan document and provisions of ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document, in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling is adjusted annually and varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants will receive vested benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company.

NOTE 10 - TAX STATUS

The Plan obtained a favorable determination letter dated May 9, 2012, from the Internal Revenue Service ("IRS"), that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the "Code"). The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan continues to be qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon

AMENDED EMPLOYEES' PENSION AND INVESTMENT PLAN OF THE HUNT CORPORATION AND RELATED COMPANIES

examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 11 – SUBSEQUENT EVENT

The Plan evaluated subsequent events through September 22, 2023, the date the financial statements were available to be issued.

During June, 2023, the investment manager and shareholders of the Angeles Absolute Return Fund agreed to discontinue the Fund and begin to liquidate the assets to return the capital to its shareholders.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2022 funding valuation**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	0	
	Stabilized	Non-stabilized
• First 5 years	4.75%	0.88%
• Next 15 years	5.18%	2.61%
• Over 20 years	5.92%	3.27%
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2006 mortality tables projected with mortality improvement scale MP-2020 to the valuation year plus an additional number of years that varies by age.	
• Disabled participants	N/A	
417(e) Lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and unisex mortality.	
Other economic assumptions		
• Expected investment return	5.00% per year for 2020 (limited by the 2020 stabilized third segment rate (5.94%)). 4.50% per year for 2021 (limited by the 2021 stabilized third segment rate (6.11%)). 5.00% per year for 2022 (limited by the 2022 stabilized third segment rate (5.92%)).	
• Expenses	\$370,000	

Rationale for Economic Assumptions

- Discount rate – This assumption was prescribed by IRS and reflects AECOM's adoption of interest rate funding relief under the American Rescue Plan Act of 2021 (ARPA) starting in the 2021 plan year.
- Expected investment return – This assumption is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix.
- Expenses – Administrative expenses are based on the prior year expenses, adjusted to reflect the expected change in the PBGC premiums, rounded to the nearest \$10,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Demographic assumptions					
• Withdrawal	2003 Society of Actuaries small plan table based on age. See table of sample rates.				
• Disability incidence	None.				
• Retirement age	Attained Age	Retirement Rate			
	Under 62	0%			
	62 - 69	25%			
	Over 69	100%			
• Benefit commencement age for vested deferred participants	25% take lump sum immediately upon termination/retirement and 75% commence benefits at age 62.				
• Spouse assumptions	Male participants	Female participants

Form of payment	Lump sum	Life Annuity	Certain and Life	50% J&S	100% J&S
• Active retirements	90%	5%	0%	0%	5%
• Future/current vested deferred	95%	0%	5%	0%	0%
• Future deaths	95%	0%	0%	5%	0%
• Actuarial equivalence for optional forms of payment and late retirement increases	417(e)(3) interest rates (November 2021) and mortality in effect for the 2022 plan year				
Unpredictable contingent event assumptions	Not applicable				

Table of sample rates

Attained age	Withdrawal
35	12.1%
40	9.4%
45	7.3%
50	5.6%
55	4.2%
60	3.0%

Rationale for demographic assumptions

- Mortality – This assumption was prescribed by the IRS.
- Withdrawal – This assumption is based on an experience study undertaken in 2019 using data from 2014 through 2018, and standard tables published by the Society of Actuaries. We assumed that future withdrawal patterns will not differ significantly from the period studied.
- Disability incidence – The plan has no disabled participants and due to the size of the plan does not have enough credible experience to analyze disability incidence. Therefore, we have assumed the disability incidence is included in the turnover rates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Retirement age – This assumption is based on an experience study undertaken in 2019 using data from 2014 through 2018 and the expectation that the future retirement patterns will not differ significantly from the period studied.
- Benefit commencement age for vested deferred participants – This assumption is based on an experience study undertaken in 2019 using data from 2014 through 2018 and the expectation that the future benefit commencement age patterns will not differ significantly from the period studied.
- Form of payment – This assumption is based on an experience study undertaken in 2019 using data from 2014 through 2018 and the expectation that the future form of benefit payment elections will not differ significantly from the period studied.

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** All current and former employees who are due a benefit as of the valuation date are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Status of the plan	The plan was closed to new employees and all benefit accruals were frozen as of January 1, 2008.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Employees of the Hunt Corporation hired on or before January 1, 2008.
• Participation	An eligible employee of The Hunt Corporation shall become a participant on the January 1 following the completion of six months of service and the attainment of age 20½. An eligible employee is an employee who is a salaried employee of one or more participating employers, was a participant in the plan on January 1, 1980, or an hourly employee not classified as a craft hourly employee. Effective January 1, 2008, the plan was closed to new employees.
• Employee contributions	Participants shall not be required or permitted to make contributions under the Plan.
• Vesting service	A full year of service is granted for vesting purposes to a participant who works at least 1,000 hours during the plan year. No service is granted to a participant who works fewer than 1,000 hours during the plan year.
• Credited service	Prior to January 1, 2008, a full year of service is granted for accrual of benefits to a participant who, as an eligible employee, works at least 1,000 hours during the plan year. No service is granted to a participant who works fewer than 1,000 hours during the plan year.
• Accrued benefit	The accrued benefit is determined as 0.5% times career average times Credited Service after January 1, 1999 plus the participant's accrued benefit as of May 31, 1999. Career average pay is determined on compensation earned after January 1, 1999. No pay or service after December 31, 2007 will be used to determine the accrued benefit. The accrued benefit is a 10 year certain & life annuity.
Normal retirement	
• Eligibility	Attainment of age 62 and 5 years of participation.
• Benefit	Unreduced accrued benefit payable immediately.
Early retirement	
• Eligibility	Attainment of age 57 and 5 years of participation.
• Benefit	The greater of the accrued benefit reduced 1/180th for each month by which the participant's early retirement date precedes his normal retirement date or the actuarial equivalent of the accrued benefit payable at normal retirement.
Late retirement	
• Eligibility	Participation continues after normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	Greater of accrued retirement benefit commencing as of the first day of the month following his later retirement date based on plan compensation and credited service at such date or accrued benefit as of normal retirement date actuarially increased for delayed commencement.
Deferred vested	
• Eligibility	100% vesting after 5 years of Vesting Service.
• Benefit	Accrued retirement benefit payable at participant's normal retirement date.
Disability	
• Eligibility	Disabled while employed.
• Benefit	Accrued benefit reduced 1/180 for first 60 months, 1/360 for next 60 months, and actuarially reduced for each additional month that commencement precedes normal retirement date. At the discretion of the administrator, the benefit may be deferred during the period the participant is receiving benefits under a disability insurance contract and then benefit is the actuarial equivalent at date of payment of the accrued benefit at time of disability.
Pre-retirement death	
• Eligibility	Upon death after attainment of age 18.
• Benefit	The greater of 100 times the participant's monthly accrued benefit and the single lump sum actuarial equivalent of the accrued benefit.
Form of benefits	
• Automatic form for unmarried participants	10 year Certain and Life Annuity.
• Automatic form for married participants	An actuarially reduced Joint and 50% Survivor Annuity.
• Mandatory lump sum	A mandatory lump sum if the lump sum value of the benefit is less than \$5,000.
• Optional forms	The optional forms of retirement benefits available are a Life Annuity, Certain and Life Annuity (5, 10, 15 & 20 years), Certain Only Annuity (5, 10, 15 & 20 years), Joint and Survivor Annuity (50%, 75% and 100%), and an unlimited lump sum.
• Optional form conversion factors	Optional forms are valued using the 417(e) actuarial equivalence basis prescribed by the documents governing the plan.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2022, the limit is \$245,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, last amended December 27, 2018 by amendment 3, are included in this valuation:

- **Most recent plan amendments included:** Amendments adopted after the valuation date or effective after the current plans year are excluded from the valuation.
- **Plan amendments excluded:** None.

Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:** Current active and deferred vested participants over normal retirement age are valued including the late retirement actuarial increase. Current active participants who are expected to retire after their normal retirement age are valued including a late retirement actuarial increase at their late retirement decrement.
- **Shutdown Benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- **Scheduled benefit increases:** Not applicable – the plan is frozen.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
