INDEPENDENT AUDITOR'S REPORT

To the Retirement Plan Committee
The Lick-Wilmerding High School Retirement Plan
San Francisco, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of The Lick-Wilmerding High School Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Lick-Wilmerding High School Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of The Lick-Wilmerding High School Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Lick-Wilmerding High School Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Lick-Wilmerding High School Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Lick-Wilmerding High School Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of The Lick-Wilmerding High School Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution savings plan sponsored by Lick-Wilmerding High School (the "School" or the "Employer") pursuant to Section 403(b) and related provisions of the Internal Revenue Code ("IRC"), was established effective January 1, 1996, and restated effective January 1, 2020. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination of employment, active-duty military call-up or financial hardship. The Plan is subject to the provisions of the Department of Labor's ("DOL") and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective March 27, 2020, the Plan administratively adopted the provisions of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), related to distributions. The Organization has until December 31, 2025, to amend the Plan for changes allowed by the CARES Act. The Plan has not been formally amended to adopt these provisions as of December 31, 2022.

An expansion of Setting Every Community Up for Retirement Enhancement Act of 2019 ("SECURE 2.0") was signed into law on December 29, 2022, as part of the Consolidated Appropriations Act of 2023. The effective dates of provisions within SECURE 2.0 vary through 2026. The Plan Sponsor has until the first Plan year beginning on or after January 1, 2025, to amend the Plan for the changes related to SECURE 2.0. The Plan has not been formally amended to adopt these provisions as of the date the financial statements were available to be issued.

Plan administration

The School is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The School has delegated certain responsibilities for the operation and administration of the Plan. Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equity Fund ("CREF"), and as agent for TIAA, Federal Savings Bank ("FSB"), Matrix Trust Company ("Matrix") and Equitable Financial Life Insurance Company ("AXA") serve as the asset custodians of the Plan (collectively the "Custodians"). TIAA and CREF, Aspire Financial Services, LLC ("Aspire") and AXA, serve as the recordkeepers of the Plan.

Eligibility

All employees of the School, except for those who normally work less than 20 hours per week, are eligible to participate in the Plan on their date of hire. There are no age requirements in order to be eligible for Plan participation.

The Lick-Wilmerding High School Retirement Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. DESCRIPTION OF THE PLAN (continued)

Eligibility (continued)

In order to be eligible for the School's contributions, participants must be an employee of the School with at least 75% full-time status and be scheduled to work 30 or more hours per week. For any participants who do not meet this requirement, one year of service is required, as defined by the plan documents. Participants become eligible to receive the School's contributions on the first day of each month following the date that eligibility requirements are met.

Participant accounts

Each participant's account is credited with the participant's contributions, rollover contributions, School's contributions, and Plan earnings, and charged with Plan losses and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of all their contributions into various investment options offered by the Plan.

Participant contributions

Participants may elect to contribute through payroll deduction amounts up to 100% of their annual compensation, as defined by the plan document, on a tax-deferred or after-tax basis (as Roth contributions), up to a maximum amount allowed by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified employer-sponsored retirement plans (rollovers).

Employer contributions

The School makes a non-elective contribution equal to 5% of each participant's eligible compensation. The School also makes matching contributions equal to 2% of each participant's eligible compensation, as defined by the Plan, provided the participant's elective deferrals equal or exceed 5% of their eligible compensation. The School made non-elective and matching contributions to the Plan totaling \$937,802 for the year ended December 31, 2022.

Vesting

Participants are immediately fully vested in all contributions plus actual earnings thereon.

1. DESCRIPTION OF THE PLAN (continued)

Notes receivable from participants

Participants may borrow against their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable (or "participant loan") terms are generally five years or less, but may exceed five years if the purpose of the participant loan is to purchase a principal residence. Participant loans are secured by the remaining balance in the participant's account and bear interest at prevailing market rates. Outstanding participant loans at December 31, 2022 bear interest at rates ranging from 4.25% to 8.00% and mature at various dates through November 2027.

Plan loans

Plan loans, which are no longer offered, were available to participants through TIAA, subject to certain limitations. Adequate security was required and a portion of the participant's account was reserved or held in collateral, to cover 110% of the outstanding loan in case of default. The loan interest rate for these Plan loans were fixed or variable and the initial rate was determined by the terms of the controlling contract as were the rate adjustment details and frequency.

For loans having collateral held in the Group Supplemental Retirement Annuity contract, principal repayments increased the amount of TIAA Traditional Annuity funds available for the participant's use. For retirement loan contracts, principal repayments were transferred to the CREF Money Market investment option in the participant's Retirement Annuity or Group Retirement Annuity contract. The determination between which investment the principal payments increased was determined by the participant's investment selections at the time of the loan and the collateral was established. Loan interest was paid directly to TIAA and CREF. Plan loans are not considered part of the Plan's assets. Plan loan balances outstanding and due to TIAA and CREF totaled \$25,793 and \$41,143, as of December 31, 2022 and 2021, respectively. Plan loans in default totaled \$14,439 as of December 31, 2022.

Payment of benefits

Distributions and withdrawals are payable upon termination, death, disability, retirement or upon attaining age 59 $\frac{1}{2}$. Upon termination, if a participant's vested account balance is equal to or less than \$5,000, the balance is distributed immediately into an individual retirement account on behalf of the participant. If the account balance is over \$5,000 upon termination, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan, installment payments, various annuity forms, or to postpone payment and remain in the Plan as described in the plan document.

Upon attaining the age of 59 $\frac{1}{2}$, the participant may, while still employed by the School, request a withdrawal from their account balance. In certain circumstances as described in the plan document and in accordance with IRS regulations, participants may qualify for a hardship withdrawal or qualified reservist distribution.

1. DESCRIPTION OF THE PLAN (continued)

Administrative expenses

Administrative expenses are generally paid by the School, but may, at the discretion of the plan administrator, be paid by the Plan. Transaction fees for certain participant-initiated activity are charged to the specific account of the participant initiating any such transaction. The Plan is not required to reimburse the School for expenses paid on its behalf.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment valuation and income recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally receive if they were to imitate permitted transactions under the terms of the Plan. Contract value generally consists of contributions and interest, less expenses and distributions. See Note 5 for a description of contract value measurement.

The Lick-Wilmerding High School Retirement Plan
Notes to Financial Statements
December 31, 2022 and 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment valuation and income recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on sale on investments bought and sold as well as held during the year.

Contributions and contributions receivable

Contributions from participants are recorded based on the date the contributions or repayments have been separated from a participant's pay by the School, which is the pay date. Employer contributions are recorded in the year earned to coincide with the year in which the School records the contributions in its general ledger. The Plan records receivables for contributions based upon contributions recorded in the Plan year but received by the Plan subsequent to year end. Rollover contributions from participants are recorded based on the date the rollover contribution are received by the Custodians.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. If a participant ceases to make repayments and a distributable event occurs, as defined by the plan documents, the participant loan balance is reduced, and a benefit payment is recorded. No allowance for credit losses were recorded as of December 31, 2022.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Expenses are recorded when incurred.

Reclassifications

Certain amounts in the prior period have been reclassified to conform to the current period presentation. These reclassifications have no effect on the previously reported net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through September 5, 2023, the date the financial statements were available for issuance.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)

The plan administrator, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of ERISA. Accordingly, the Custodians, determined to be qualified institutions by the plan administrator, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021;
- Net depreciation in fair value, interest and dividends, interest income on notes receivable from participants, and other income as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022; and,
- Investments and notes receivable from participants reflected on the schedule of assets (held at end of year) as of December 31, 2022 ("supplemental schedule").

Accordingly, as requested by the plan administrator, the Plan's independent auditors performed no audit procedures on the certified information other than to agree the certified information to the related information included in the Plan's financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy are as follows:

- *Level 1* - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access at the measurement date.
- *Level 2* - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- *Level 3* - inputs are unobservable inputs for the assets or liabilities and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

Mutual funds: registered investment companies (mutual fund investments) are valued at the net asset value ("NAV") of shares held by the Plan at year-end which are quoted in active markets. Investments are valued using market quotations or prices obtained from independent pricing services.

Pooled separate accounts: Pooled separate account investments are valued using the NAV practical expedient as an estimate to fair value based on the market value of underlying investments. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. While the majority of underlying asset values are quoted prices, the net asset value of pooled separate accounts are not publicly quoted. The pooled separate accounts are not considered to be direct filing entities. The strategy of these funds is to invest at least 80% of their net assets in equity securities of issuers whose principal markets are in the United States and other United States registered foreign securities.

TIAA Variable Annuities consist of CREF Accounts and TIAA Access Accounts:

- CREF Accounts consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation Linked Bond, Social Choice, and Money Market accounts. The fair values of accumulation units held by the Plan in CREF Accounts are primarily valued using market quotations or prices obtained from independent pricing sources. CREF Accounts are deemed actively traded, and thus are classified within level 1 of the fair value hierarchy. These investments have a published readily-determinable fair value (RDFV) which are available daily to plan administrators and client investors on TIAA's website and participants may enter into transactions at the published RDFV.
- TIAA Access Accounts are variable annuity products that are funded through the TIAA Separate Account VA-3, a separate investment account of TIAA. VA-3 invests in proprietary and nonproprietary mutual funds through various sub-accounts. The fair values of subaccount units held by the Plan in TIAA Access Accounts are calculated daily by the issuer and the underlying investments are generally valued using market quotations obtained from independent pricing sources. Data for values are available daily to plan administrators and client investors on TIAA's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's value and the values of individual underlying holdings.

4. FAIR VALUE MEASUREMENTS (continued)

Fixed Annuity Contracts - TIAA Traditional Annuities: The Plan's investments in the TIAA Traditional Annuities and TIAA Stable Value Fund are reported by TIAA at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. TIAA Traditional Annuities are segregated into non-fully benefit-responsive and fully benefit-responsive categories. The Plan's investments in the non-fully benefit-responsive contracts are presented as level 3 fair value investments in the fair value hierarchy. The Plan purchased and sold investments in non-fully benefit-responsive contracts of \$216,068 and \$210,950, respectively, during the year ended December 31, 2022. Transfers of non-fully benefit-responsive contracts totaled \$96,671 during the year ended December 31, 2022. The fully benefit-responsive contracts are not categorized within the fair value hierarchy (see Note 5) as they are measured at contract value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, by type, at fair value as of December 31, 2022:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>

5. GUARANTEED ANNUITY CONTRACTS WITH TIAA AND CREF AND AXA

The Plan invests in investment contracts through the TIAA Traditional Annuity and TIAA Stable Value Fund. The TIAA Traditional Annuity and the TIAA Stable Value Fund are guaranteed fixed annuity contracts available as investment options to Plan participants.

The TIAA Traditional Annuity is offered through a variety of contract types, including the Retirement Annuity ("RA"), Group Supplemental Retirement Annuity ("GSRA"), Supplemental Retirement Annuity ("SRA"), and Retirement Choice ("RC"). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

The TIAA Stable Value Fund, GSRA, and SRA contracts (collectively "FBRICs") are considered fully benefit-responsive contracts. The RA and the RC are considered non-fully benefit-responsive contracts.

The FBRICs are fully and unconditionally guaranteed by TIAA, meet the fully benefit-responsive investment contract criteria and are reported at contract value. Contract value represents accumulated cash contributions made under the contract, plus interest credited to the contracts, less participant withdrawals and transfers. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a minimum specified rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting interest rate of the SRA and GSRA contracts was 3.00% as of December 31, 2022 and 2021. See Note 4 for the crediting interest rates for the contracts that are non-fully benefit-responsive.

Contributions to the TIAA Stable Value Fund are deposited into a non-unitized separate account. The contract provides a guaranteed minimum rate of interest between 1% and 3%. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund is included in the financial statements at contract value, as reported to the Plan by TIAA and CREF. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value.

5. GUARANTEED ANNUITY CONTRACTS WITH TIAA AND CREF AND AXA (continued)

The Plan's investment in the AXA Guaranteed Interest Account ("GIA") is a guaranteed annuity contract which pays interest and guaranteed rates and provides an Investment Option in which the value of the principal will not fluctuate. Interest rates are set monthly. All interest rates are effective annual rates net of program and other expenses. The lifetime minimum interest rate is 1.00%, and the current interest rate will never be less than the minimum interest rate. The GIA is backed by AXA's General Account (the "General Account"). Guaranteed interest crediting rates are determined net of AXA's required cost of capital and expenses to manage the General Account. The GIA is included in the financial statements at contract value, as reported to the Plan by AXA. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with TIAA and CREF and AXA. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan's trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with TIAA and CREF and AXA are probable of occurring.

Total fully benefit-responsive insurance company investment contracts as of December 31, 2022 and 2021 measured at contract value were as follows:

	<u>2022</u>	<u>2021</u>
TIAA Traditional Benefit-Responsive Funds	\$ 3,718,282	\$ 3,760,596
TIAA Stable Value Fund	552,326	999,219
Guaranteed Interest Account	<u>12,272</u>	<u>11,921</u>
	<u>\$ 4,282,880</u>	<u>\$ 4,771,736</u>

6. TAX STATUS

The Plan adopted the TIAA ERISA 403(b) Volume Submitter Basic Plan Document #20 (the "volume submitter plan"). The Internal Revenue Service has issued an opinion letter dated August 7, 2017, stating that the volume submitter plan is designed in accordance with the applicable sections of the IRC and is appropriate for use by employers for the benefit of their employees. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PLAN TERMINATION

Although the School has not expressed any intent to do so, the School has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

ERISA defines party-in-interest similar to a related party under U.S. GAAP, except that ERISA's definition is broader and includes all entities and individuals that provide services to the Plan; however, these entities may not necessarily be related parties. Plan management did not identify any related parties to the Plan that were not also considered to be party-in-interest. The Plan did not enter into any material related party transactions during the Plan year related to compensation, arrangements, expense allowances or similar items.

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain fund level fees incurred by the funds in which the Plan invests for such services as investment management, shareholder services and sub-transfer agency fees are paid through fund level asset management charges. These fees reduce fund earnings thereby impacting Plan revenue applied to participants' accounts. The Custodians earn interest on amounts held while certain transactions are pending. This applies to both contributions and distributions. Earnings are at institutional money market rates.

Certain Plan investments are managed by affiliates of the Custodians. Transactions in these funds are considered party-in-interest transactions under ERISA regulations. Such transactions are permitted under provisions of the Plan and are specifically exempt from prohibition of party-in-interest transactions under ERISA.
