INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Mitchell Lewis & Staver Co. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Mitchell Lewis & Staver Co. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section-

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of the Mitchell Lewis & Staver Co. 401(k) Profit Sharing Plan (the Plan) provides only general information. Reference should be made to the underlying plan document for a more complete description of the Plan's provisions.

General. Established by Mitchell Lewis & Staver Co. (the Company) on November 1, 1968, the Plan is a tax qualified defined contribution plan formed for the benefit of all eligible employees of the Company. The Plan includes a salary deferral arrangement commonly called a 401(k) plan. Under such provisions, participants are able to make tax deferred contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, all non-union employees of the Company who have attained the age of 21 are eligible to participate in the Plan after fulfilling the service requirement of one calendar month of employment in which an employee completes at least 83 1/2 hours of service.

Sponsors. The Plan has been adopted by the following companies and the net assets available for benefits include those allocated to participants of the group:

- Mitchell Lewis & Staver Co.
- Mitchell Wine Group LLC

The above employers are a control group and are treated as a single employer for Department of Labor's reporting purposes.

Contributions. Participant elective deferral contributions represent amounts by which an eligible employee has elected a reduction in compensation in consideration of the Company contributing such amounts to the Plan. Such elective deferral contributions are excluded from the participant's taxable income until received as a distribution from the Plan. Participants over 50 years of age may make additional annual "catch-up" contributions as allowed by the Internal Revenue Code (IRC). Total elective deferral contributions are limited by various IRC provisions. The Plan also provides that refunds may be made to certain participants in order to comply with various statutory limits.

A participant will be eligible to commence elective deferrals on the first day of the month following the satisfaction of the eligibility requirements. After initial participation, a participant may commence, recommence, change the amount of the elective deferral, or cease elective deferrals at any time. Elective deferral changes become effective on the first day of the next payroll period. As part of an automatic enrollment provision, a participant will be treated as having elected to make a deferral contribution equal to 3% of compensation for each payroll period unless the participant affirmatively elects otherwise.

1. Description of the Plan (Continued)

The Plan provides for discretionary employer matching contributions which are made at the option of the board of directors. During 2022 and 2021, authorized employer matching contributions were allocated on a payroll-by-payroll basis in an amount equal to 50% of the first 6% of eligible compensation deferred by the plan participants. All participants making elective deferral contributions are eligible to receive an allocation of employer matching contributions. For the years ended December 31, 2022 and 2021, employer matching contributions allocated were \$285,908 and \$272,278, respectively.

The Plan also provides for discretionary employer profit sharing contributions which are made at the option of the board of directors and are allocated annually to eligible participants, by group, based on the ratio of each participants eligible compensation to the total eligible compensation of all participants in that group. Participants are eligible for employer profit sharing contributions on the first day of the month after fulfilling the year of service requirement. A year of service is defined as 12 consecutive months during which an employee completes at least 1,000 hours of service. Once eligible, a participant does not need to be employed on the last day of the plan year or work a minimum number of hours to receive an employer profit sharing contribution allocation. There were no employer profit sharing contributions allocated for 2022 and 2021.

Participant Accounts. Individual accounts are maintained for each plan participant to reflect the participants' elective deferral, rollover, and employer contributions. These individual accounts are self-directed by the participants, allowing the participants to choose the investment combination they wish from numerous available funds. Income and loss is allocated to the participants' accounts based on the investment performance of the investments the participant has chosen. The benefit to which a participant or beneficiary is entitled is the benefit that can be provided from the participant's vested account.

Investment Options. Each participant instructs the recordkeeper as to how the assets in their accounts are to be invested. The plan trustees have selected a menu of registered investment companies and an investment contract from which the participants can choose. The Plan also provides model investment portfolios as an investment option in which participants may elect to invest. These model portfolios are created from the various registered investment companies the Plan provides and are monitored by the plan's investment advisor to ensure they maintain the portfolio's stated investment risk tolerance profile. The Plan maintains no investments which are not directed by the Plan participants.

1. Description of the Plan (Continued)

Participant Notes Receivable. Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by certain participants' notes receivable outstanding at the time the new note is taken or anytime within the 12 months prior to the date of the new note) or 50% of their vested account balance. Note transactions are treated as a transfer between the investment fund and the participant note fund. Note terms are up to five years, or such longer period as the Plan administrator deems appropriate in the case of a note used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The interest rates on notes held by the Plan at December 31, 2022 and 2021 ranged from 3.25% to 5.25%. Principal and interest are paid ratably through payroll deductions.

Vesting. Participants are always fully vested in their elective deferral and rollover accounts. Participants are 100% vested in their employer contribution accounts after completion of three years of service. Prior to that time, they are 0% vested in their employer contribution accounts. A participant earns a year of service during any plan year in which the participant is credited with at least 1,000 hours of service. If termination is due to death, disability, or retirement at or beyond age 65, a participant is considered to be 100% vested in their employer contribution accounts even if the participant has not been credited with three years of vesting service.

Payment of Benefits. On termination of service, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount as soon as administratively feasible following the date of termination. The Plan allows in-service distributions after attaining normal retirement age of 65. The Plan also allows for limited in-service distributions if the participant suffers a hardship, as defined in the plan document.

Forfeitures. When certain terminations of a participant in the Plan occur, the nonvested portion of the participant's account represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements as defined in the Plan, the participant's account may be reinstated. Forfeitures may be held in suspense and can be used to pay administrative expenses of the Plan, restore previously forfeited participant accounts, or to reduce any employer contributions. For the years ended December 31, 2022 and 2021, forfeitures used to pay administrative expenses totaled \$22,788 and \$32,021, respectively. Forfeitures held in the Plan but unallocated at December 31, 2022 and 2021, were \$4,768 and \$3,478 respectively.

Administrative Expenses. The Plan pays some of the costs of administering the Plan. These costs include investment consulting fees, recordkeeping fees, third party administrator fees, and custodian fees. Certain transaction specific amounts are charged to participants accounts. Investment consulting fees are reflected as a reduction in the Plan's investment income. All other expenses are paid by the plan sponsor.

2. Summary of Significant Accounting Policies

Basis of Reporting. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with GAAP. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation. Amounts in the fully benefit-responsive investment contract are stated at contract value. Contract value represents contributions made under the contract, plus interest credited daily, less participant withdrawals and administrative expenses.

Registered investment companies are stated at fair value. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair value.

The fair value framework requires the categorization of assets and liabilities into three levels based upon the ability to observe the inputs used to value the assets and liabilities. The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Level One provides the most reliable and observable measure of fair value, whereas Level Three generally requires significant judgment.

The three levels of the fair value hierarchy are defined as follows:

- Level One - Unadjusted, quoted prices in active markets for identical assets and liabilities.
- Level Two - Observable inputs, other than those included in Level One. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level Three - Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

2. Summary of Significant Accounting Policies (Continued)

Purchase and sales of securities are recorded on a trade-date basis. The cost of investments sold for the purpose of computing gains and losses is based on average cost. Dividends are recorded on the ex-dividend date. Income from the investment contract is reflected as interest income on the statements of changes in net assets available for benefits and is credited daily. The Plan presents in the statements of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Participant Notes Receivable Valuation. Participant notes receivable are carried at unpaid principal balance plus accrued interest. Interest income on participant notes receivable is reported as other income in the statements of changes in net assets available for benefits.

Payment of Benefits. Benefits are recorded when paid. There were no amounts allocated to persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2022 and 2021.

Risks and Uncertainties. The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events. The Plan evaluates subsequent events and the evidence they provide about conditions existing at the date of the statements of net assets available for benefits, as well as conditions that arose after the statements of net assets available for benefits date but before the financial statements are issued. The effects of conditions that existed at the date of the statements of net assets available for benefits are recognized in the financial statements. Events and conditions arising after the statements of net assets available for benefits date but before the financial statements are issued are evaluated to determine if disclosure is required to keep the financial statements from being misleading. To the extent such events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions. For purposes of preparing the accompanying financial statements and the following notes to these financial statements, the Plan evaluated subsequent events through September 15, 2023, the date the financial statements were available for issue.

See independent auditors' report.

3. Contract with Insurance Company

Plan participants have the option to invest in the Standard stable asset fund that is available through the Plan's group annuity contract with Standard Insurance Company (Standard). Participant amounts invested in this investment contract are reflected as the guaranteed investment contract, at contract value on the statements of net assets available for benefits. Investments in this investment contract are co-mingled with the general assets of Standard. Because participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in this contract at contract value, the contract is determined to be fully benefit-responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Prior to the first day of each calendar quarter, Standard establishes an effective rate of interest, never below 1.00% per annum, for the guaranteed account for such quarter. Interest will be credited to the guaranteed account daily, based on its daily balance, at a rate of interest which is the daily equivalent of the effective annual rate of interest applicable for each quarter.

Plan sponsor-initiated withdrawals that exceed 25% of total fund assets may be subject to a market value adjustment as defined in the investment contract. The plan administrator does not believe that the occurrence of any such event, which would cause a withdrawal to be transacted at other than contract value, is probable.

Either party to the contract may terminate the contract with advance written notice to the other party. The contract may be terminated by Standard if state and federal law is not followed, necessary performance with terms of the contract are not rendered, the balance in all investment funds fall below \$25,000 or the Internal Revenue Service (IRS) disqualifies the Plan. The contract shall be deemed to terminate once all plan assets have been distributed.

Upon termination, Standard will distribute the contract value of the participants' guaranteed account, less the participants' share of any outstanding charges and fees remaining unpaid on the contract termination date. While assets remain with Standard, they will be subject to all charges and fees outlined in the contract.

See independent auditors' report.

4. Fair Value Measurement

The Plan's only investments recorded at fair value are investments in registered investment companies which are valued at quoted market prices and are categorized at Level One under the fair value hierarchy.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial investments could result in a different fair value measurement at the reporting date.

5. Information Certified by the Custodian and Insurance Company

The plan administrator has elected the method of compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Bank, the custodian of the Plan, and Standard, the issuer of the investment contract owned by the Plan, qualified institutions, have certified that the following investment information included in the accompanying financial statements is complete and accurate:

Total investments and non-interest bearing cash as shown in the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, respectively.

Total investment (loss) income as shown in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, respectively.

All investment-related information in the accompanying supplemental Form 5500, Schedule H, part IV, line 4i - schedule of assets (held at end of year) as of December 31, 2022.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

See independent auditors' report.

6. Income Tax Status

The Plan utilizes a pre-approved plan document and relies on the opinion letter issued to the preapproved document sponsor. The pre-approved document sponsor received an opinion letter on June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the pre-approved document sponsor received the opinion letter. Additionally, the Plan is operating under provisions, required by new laws, but has not yet been amended to reflect these changes. The Plan will be formally amended to incorporate these provisions prior to the deadline required by law for adopting such amendments. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax exempt as of December 31, 2022 and 2021. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Related-Party Transactions

Standard, the issuer of the guaranteed investment contract, also manages the contract. See Note 3. As manager, Standard receives fees from the account, which affect investment performance.

Standard Retirement Services, Inc. (Standard Retirement) has an administrative service contract with the Plan. Standard Retirement and Standard are related companies and both subsidiaries of StanCorp Financial Group, Inc. Under this agreement Standard Retirement is responsible for, among other things, maintaining participant account records and making participant account information available to the participants by means of telephone and internet. Total direct fees paid by the Plan for these services amounted to \$39,257 and \$43,592 for the years ended December 31, 2022 and 2021, respectively.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

See independent auditors' report.
