INDEPENDENT AUDITOR'S REPORT

To The Plan Administrator of the Rain CII Carbon LLC Salaried Employees 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Rain CII Carbon LLC Salaried Employees 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section -

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis of Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets held at December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures,

including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion –

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
December 31, 2022

1) Description of Plan

The following description of the Rain CII Carbon LLC Salaried Employees 401 (k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for complete description of the Plan’s provisions.

(a) General

The Plan is a defined contribution plan sponsored by Rain CII Carbon LLC (the “Company”) covering all salaried employees who have attained age 21, excluding leased employees, non-resident aliens and those employees covered by a collective bargaining agreement. A participant becomes eligible to participate on the date of hire and may enter the Plan on the first day of any month. The Plan allows participants to make before tax contributions in accordance with the provisions of Section 401 (k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

(b) Participant Contributions

Participants may elect to contribute a percentage of compensation not to exceed the limits of Code Section 401 (k) of the Internal Revenue Code. In addition, a participant who has attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with limitations under the Internal Revenue Code. In 2022, the limitations on participant contributions were \$20,500, with an additional \$6,500 allowed after age 50. Effective June 2, 2014, all newly eligible participants and those making no contributions at that date are automatically enrolled at a participant contribution rate of 6% unless they opt out to a different contribution rate.

The Plan has been amended, resulting in several new provisions becoming effective January 1, 2017. New provisions of the Plan include permitting participants to make Roth contributions in addition to or instead of pretax contributions and making a managed investment account program available to participants who chose to use these advisory services provided by an affiliate of the Trustee. The amended Plan also provides for an automatic contribution increase feature for those who were autoenrolled, with 1% annual increases in their contribution rate until the participant’s contribution rate reaches 10%. Effective March 1, 2017 participants deferring 1% to 9% will be included in the automatic contribution increase feature, with 1% annual increases in their contribution rate until the participant’s contribution rate reaches 10%. A participant can opt out of the automatic contribution features.

(c) Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their investment options via an automated system as often as they choose.

NOTES TO FINANCIAL STATEMENTS
December 31, 2022

(d) Company Contributions

(i) Basic Matching

The Company may make matching contributions equal to a discretionary percentage of the participant elective deferrals, which is determined by the Company. In determining the match contribution, only elective deferrals up to the percentage or dollar amount specified by the Company will be used in determining the contribution to be allocated on a uniform basis to all contributing participants. In 2022 the Company match was 100% of the first 6% of employee deferrals of gross compensation.

(ii) Profit Sharing Contributions

The Company may make a profit sharing contribution at its discretion, allocated on a uniform percentage of included compensation or a uniform dollar amount. No separate profit sharing contribution was made for the 2022 plan year.

(iii) Qualified Non-Elected Contributions (QNEC)

The Company may designate all or any portion of the profit sharing contribution as a QNEC. Participants are 100% vested in QNECs. Highly compensated employees are not eligible to share in any QNECs. As there was no profit sharing contribution for 2021, the Company did not use the QNEC designation.

Participant and company contributions are funded to the Plan's underlying trust shortly after each pay period.

(e) Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's matching and profit sharing contributions portions of their accounts is based on years of continuous service. An employee must complete at least 1,000 hours of service during a vesting computation period to receive credit for a year of service, which is based on the 12 month Plan year. Participants are vested 25% after one year of service, 50% after two years, and 100% after three years of service credits.

(f) Forfeitures

If a participant terminates employment before becoming 100% vested in their account balance and does not take a distribution from the Plan, the non-vested portion of the participant's account balance will be forfeited as of the date the participant has five consecutive one-year breaks in service. If a participant terminates employment before becoming 100% vested in their account balance and receives a full distribution of their account, the non-vested portion of their account will be forfeited. In 2022 forfeitures of \$28,118 were used to reduce the Company's funding of matching contributions. The balance in the forfeiture account at December 31, 2022 and 2021 was \$11,237 and \$14,743, respectively.

(g) Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) allocations of Plan earnings and fees, and (c) the Company's contributions.

RAIN CII CARBON LLC SALARIED EMPLOYEES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022

(h) Payment of Plan Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive their benefits in installment payments or a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions are permitted after attaining age 59 ½. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Additional hardship withdrawals were permitted in 2020 for those affected by COVID-19 under provisions the CARES Act. For vested benefits of a terminated participant not exceeding \$1,000, the Plan Administrator has the discretion to pay such benefits to the participant. For a terminated participant with a vested benefit balance greater than \$1,000 and not exceeding \$5,000, the Plan Administrator has the discretion to roll over the benefits into an Individual Retirement Account.

(i) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(j) Notes Receivable from Participants

The Plan allows participants to borrow from the Plan up to 50 % of each participant's vested account balance (not to exceed \$50,000). The minimum amount that can be borrowed is \$1,000. Loans must be repaid through payroll deductions with a maximum loan term of five years, unless the loan is for the purchase of a participant's primary residence. Interest rates are based on the certain published prime rates plus 2%. Interest rates on the loans ranged between 4.75% and 8.5% at December 31, 2022.

(k) Plan Expenses

Certain administrative expenses, primarily participant initiated loan or withdrawal transaction fees, are paid by reduction of the initiating participant's account balance in the Plan as described in the Plan documents and service agreement. Plan expenses incurred also include certain investment related expenses which serve as a reduction of the account balances of those participants holding the related investments (resulting in a lower reported net appreciation in fair value of investments in the statement of changes in net assets of the financial statements). Other administrative expenses are allocated to participants based on their account balance. Certain other administrative expenses related to the Plan are paid by the Company on behalf of the Plan without reimbursement by the Plan and are not included in these financial statements.

2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on an accrual basis of accounting.

RAIN CII CARBON LLC SALARIED EMPLOYEES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022

The Plan Administrator has reviewed and evaluated events subsequent to December 31, 2022 through September 14, 2023, the date the financial statements were available to be issued, for their impact on amounts recorded, and related disclosures, in these financial statements, and incorporated the related effects as appropriate.

(b) Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Risks and Uncertainties

The Plan provides for various investment options in a variety of mutual funds, and a guaranteed interest account. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as proscribed by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussions of fair value measurements.

The investments in mutual funds are stated at fair value based on the closing net asset value of shares held by the Plan at year end. Investments in mutual funds have been unitized by the Plan trustee, and the fair values for the mutual funds underlying these investments are evidenced by prices quoted on national exchanges.

The guaranteed interest account with an insurance company (New York Life) is valued using the contract value of \$1.00 per share as this is the price at which participants may purchase and sell shares of the fund. This value does not vary materially from fair value.

Purchases and sales of securities are recorded on a trade basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest and are excluded from investments in the fair value tables in Note 6 as proscribed by Accounting Standards Update 2010-25. Delinquent notes receivable are reclassified as benefits paid based upon the terms of the Plan document.

RAIN CII CARBON LLC SALARIED EMPLOYEES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

(e) Payment of Benefits

Benefits are recorded when paid.

3) Federal Income Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated January 18, 2017, stating that the Plan as then designed, satisfies the applicable provisions of the Internal Revenue Code (the "Code"); therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter, including amendments effective January 1, 2017, however, the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt. The Plan was restated effective January 1, 2022 without significant changes.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2018.

4) Investments

The Plan's committee has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, by having an ERISA Section 103(a)(3)(C) audit performed. The assets of the Plan are held by the custodian. Accordingly, the Plan's custodian, John Hancock Life Trust Company, LLC, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Plan Benefits, and in Notes 5 and 6, as of December 31, 2022 and 2021.
- Investment income in the Statement of Changes in Net Assets Available for Benefits.
- All information included in the Schedule of Assets (Held at End of Year) as of December 31, 2022, as shown in the supplemental schedules.

The Plan's independent auditors did not perform auditing procedures with respect to this information certified by John Hancock Trust Company, LLC comparing such information to the related information included in the financial statements and supplemental schedules.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value in 2022 by (\$7,761,770) and related entirely to investments in mutual funds.

RAIN CII CARBON LLC SALARIED EMPLOYEES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

5) Stable Return Funds

The Plan has entered into a fully benefit responsive investment contract with the New York Life Insurance Guaranteed Interest Account (the "Fund"). This fund seeks to preserve principal, provide liquidity and then provide interest income while minimizing volatility risk by investing in a variety of guaranteed investment contracts and bank investment contracts secured by underlying notes issued by insurance companies, governmental units and corporations, with the use of wrapper contracts to further diversify risk. The account is credited with earnings on the underlying investments and charged for participant withdrawals. The issuer guarantees that all qualified participant withdrawals occur at contract value. Contract value does not vary materially from fair value for The Fund. The Fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rates are reset on a periodic basis, not more than semi-annually for the New York Life contract, generally near the discount rate that would equate the estimated future market value of the fund's portfolio to the contract value. The contractual crediting interest rate was 2.30% during 2022 and 2.30% on December 31, 2022, before an administrative expense charge of 0.05%.

Individual participants may redeem the investment at any time, but must wait 90 days before investing the proceeds of such a redemption in another investment option with similar investment objectives/strategies. Redemptions out of the fund may be limited or prohibited for 12 months in the event of a Plan Sponsor or fiduciary initiated withdrawal from the Fund. Certain actions taken by the Plan Sponsor, such as offering directly competing similar investments, failing to continue the operation of the Plan under existing regulations, or other actions that would have a material adverse effect on the Funds' cash flow, could limit the ability of participants to make withdrawals at contract value for up to twelve months. The Plan has no current intentions to take actions that would limit the ability of participants to transact at contract value. The ability to transact at contract value is in part attributable to the Fund manager having purchased a wrap contract for the collection of investments held by the Fund, which provides a level of insurance that would cover the difference between fair market value and contract value. The issuer of wrap contracts may cancel the contracts with some limitations. There are a limited number of entities that provide wrap contracts and their viability could have an impact on this investment and similar investments in the future.

6) Fair Value Measurement

FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

RAIN CII CARBON LLC SALARIED EMPLOYEES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022

- Quoted prices for identical or smaller assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end based on values per publicly traded market exchanges.

Guaranteed interest account – Stable Return funds: Valued using the contract value of \$1.00 per share as this is the price at which participants may purchase and sell shares of the fund. This value does not vary materially from contract value. As this investment has been valued at contract value, it has been excluded from the fair value hierarchy tables in this footnote.

The methods described above may produce a fair calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, while the Plan Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different measurements at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

<u>Assets at Fair Value as of December 31, 2022</u>				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

There were no Level 3 assets held in 2022 or 2021. There were no changes between levels in 2021.

The tables above do not reflect changes in investment values that may have occurred subsequent to December 31, 2022.

7) Related Parties and Prohibited Transactions

Certain investments of the Plan were managed by John Hancock Life Trust Company, the trustee of the (investments, including administrative fees for trustee services, qualify as party-in-interest transactions. Certain participants have also elected to use portfolio management services provided by an affiliate of the trustee and pay fees to that affiliate from their individual accounts. Participant loans are permitted party-in-interest transactions. All of these transactions are exempt from prohibited transaction rules.

The Company provides certain administrative functions on behalf of the Plan and receives no compensation for those services. The Company also pays certain administrative expenses of the Plan, with no reimbursement from the Plan.
