INDEPENDENT AUDITOR'S REPORT

The Members
Siemens Energy, Inc. Benefits Committee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Siemens Energy, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements, as a whole, are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2020 Financial Statements

The 2020 financial statements of the Plan were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their report dated September 29, 2021, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Siemens Energy, Inc. Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions. Certain groups of employees who participated in pension plans that have been merged into the Plan may be subject to terms and conditions that differ from those described below.

General:

The Plan is a defined benefit plan sponsored by Siemens Energy, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established on September 28, 2020 to accept a spin-off of the accumulated participant benefit liabilities and associated net assets related to employees of the Company that were held by other defined benefit plans sponsored by Siemens Corporation (an indirectly wholly-owned subsidiary of Siemens AG), the Siemens Pension Plan and the Siemens Pension Plan for Union Employees (collectively, the Prior Plans).

JPMorgan Chase Bank, N.A. is the Trustee of the Plan and, accordingly, holds the Plan's assets and executed the Plan's investment transactions since the Plan's inception.

Plan participants primarily were originally enrolled and accrued benefits upon meeting the eligibility provisions of the Prior Plans. Participation in the Plan is closed to new entrants. Benefits under the Plan were generally frozen under the Prior Plans, except for interest credits under the cash balance formulas of the Plan.

Administration:

The Siemens Energy, Inc. Benefits Committee (Benefits Committee) is responsible for administering the Plan's operations and for selecting and monitoring investments held by the Plan.

Pension Benefits:

Generally, benefits are determined using a cash balance formula and a final average pay formula as described herein. Benefits for certain participants are determined based on a formula other than a cash balance or final average pay formula.

Participants subject to the cash balance formula receive a monthly interest credit. The interest credit, which is a percentage of the participant's monthly beginning balance, is based on the annual interest rate of the 30-year U.S. Treasury bonds as of August of the previous year, subject to a minimum annual interest rate of 4.06% for most participants. The annual interest crediting rate using the 30-year U.S. Treasury bonds was 1.36% in 2021 and 2.12% in 2020 and, therefore, the minimum annual interest rate was applied.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Prior to benefits being frozen under the Prior Plans, participants under the cash balance formula received pay credits based on the participant's years of vesting service, pay and the level of contribution applicable to their employing company. Pay credits increased as the participant's pay and service increased. Participants who have a vested benefit under the cash balance formula may elect either a lump-sum payment or, if the amount of the benefit is greater than \$5,000, monthly annuity payments.

Participants who have a benefit under the final average pay formula are entitled to an annual pension benefit beginning at normal retirement age, which is the later of (i) attainment of age 65 or (ii) generally the completion of at least five years of employment or at least five years of participation. The annual pension under the final average pay formula is the greater of (i) 1.125% of the first \$12,000 of the participant's average final compensation, as defined by the Plan, plus 1.5% of the portion of the participant's average final compensation in excess of \$12,000, multiplied by the number of years and completed months, expressed as a fraction of a year, of benefit service or (ii) the minimum benefit, as defined by the Plan, for employees entitled to such benefit, all based on compensation and years of service prior to the date benefits were frozen under the Prior Plans.

Alternate benefits are available to certain participants who qualify based on certain provisions, as specified in the Plan. If the present value of the vested benefit under the final average pay formula is less than \$5,000, the Plan provides for the automatic lump-sum payment of pension benefits to participants. If the amount of the distribution is between \$1,000 and \$5,000 and if the participant does not elect to receive the distribution directly or to have the amount distributed as an eligible rollover, the plan administrator will direct that the amount be directly rolled over to an individual retirement plan designated by the plan administrator.

The final average pay formula of the Plan permits early retirement at a reduced benefit provided the participant has reached age 55 and has completed at least ten years of employment at the time of retirement. The reduction factors for early retirement under the final average pay formula are shown in the table below. There is no reduction in benefits for early retirement for participants that are age 62 and older when payments start.

62 or later	—%
61	5
60	10

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Under the cash balance formula, if a participant dies while employed, the participant's beneficiary can leave the benefit in the Plan until a later date, or can receive the benefit as a lump sum or as a single-life annuity payable for the life of the beneficiary based on the beneficiary's age when benefits begin.

Under the final average pay formula, if a participant dies while still employed or before the Plan benefits commence, the participant's spouse will receive an annuity payment for life equal to the 50% joint and survivor annuity benefit, not to be less than \$360 per year. If the spouse is more than 15 years younger than the participant, the minimum yearly pension benefit of \$360 is reduced by 1% for each year, or fraction thereof, by which the difference in age exceeds 15 years. If a retired participant receiving benefits dies, the surviving spouse or qualified domestic partner shall receive 50% of the pension which the participant would receive unless the participant has chosen one of the other optional forms of payment provided under the Plan.

If a participant becomes disabled and ends his/her employment, the cash balance account can be payable as a monthly annuity or a lump-sum payment. If a disabled participant begins to receive a benefit from the Plan while receiving a long-term disability benefit, the disability benefit will be reduced by the Plan benefit. If a lump-sum payment is elected from the Plan, the disability payment will be reduced each month by the single-life annuity value of the Plan benefit.

Prior to benefits being frozen under the Prior Plans, if a participant with a benefit under the final average pay formula incurred a total and permanent disability and (a) had worker's compensation payable in connection with the disability or (b) had completed at least ten years of service, the disability period was treated as benefit service and employment. Disability service ended on the earliest of the date on which the participant recovered, upon the participant's death, or upon the commencement of retirement benefits. Effective December 31, 2010, any participant who was out on a total and permanent disability ceased accruing any benefits under the Prior Plans but will, up to the earlier of the time the participant starts to receive his or her benefit or reaches age 65, continue to receive credit towards meeting any early retirement requirements under the final average pay formula.

Note 2. Summary of Accounting Policies

Basis of accounting:

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Accounting Policies (Continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein in the financial statements and accompanying notes and supplemental schedules, as applicable. Actual results could differ from those estimates.

Risks and uncertainties:

The Plan invests in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Benefits Committee has diversified the net assets of the Plan with the intention of appropriately addressing significant concentrations of risk. Since the Plan's inception, the Plan's net assets were managed as separate investment funds by multiple investment managers.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect amounts reported and disclosed in the financial statements.

Investment valuation and income recognition:

The investments of the Plan are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefits Committee determines the Plan's valuation policies utilizing information provided by the Trustee and investment advisers. See Note 9 for discussion of the Plan's fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Investment income is reduced for investment related fees and expenses.

Payment of benefits:

Benefit payments to participants are recorded when paid.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Accounting Policies (Continued)

Administrative expenses:

Only expenses of the Plan that are permitted to be charged to the Plan in accordance with applicable law and with the provisions of the plan document are charged to the Plan. The Plan's administrative expenses primarily are related to insurance premiums paid to the Pension Benefit Guaranty Corporation (PBGC), recordkeeping, benefit processing and certain other administrative items. Expenses that are paid directly by the Company are excluded from these financial statements.

Subsequent events:

Subsequent events have been evaluated through October 7, 2022, which is the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan is generally funded solely by contributions made by the Company and its affiliates whose employees participated in the Plan. Employee contributions are not required or permitted by most participants under the Plan.

Contributions are determined annually based on actuarial valuations of the Plan by Willis Towers Watson, an independent consulting actuary. Willis Towers Watson determines the maximum amount permitted by law or regulation as a Federal income tax deduction and the minimum amount necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA. The minimum funding requirements of ERISA were met for 2021 and 2020.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for employee services already rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation during the last five years of credited service or the total cash compensation during the year. The accumulated plan benefits for active employees are based on their average compensation during the four years ending on the date as of which the benefit information is presented (the valuation date) or the total cash compensation during the year. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employees' service rendered and compensation received up to the valuation date.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits for the Plan was determined by Willis Towers Watson, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the December 31, 2020 and September 28, 2020 valuation were:

1. Life expectancy of active participants – the Pri-2012 mortality table with a fully generational projection from the 2012 base tables using the 2022 and 2021 US SSA Intermediate long-term rate of improvement scales for December 31, 2020 and September 28, 2020, respectively. A blue collar adjustment to the Pri-2012 was made for former participants in the Siemens Pension Plan for Union Employees.
2. Rate of return – 5.20% as of December 31, 2020 and September 28, 2020.
3. Weighted-average retirement age – 63 for the Plan
4. Cash balance interest crediting rate of 4.06% for salaried employees and 3.50% for union employees.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue even though benefits are frozen. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits as of December 31, 2020 were made as of January 1, 2021. Had the valuations been performed as of December 31, 2020, there would be no material differences.

The actuarial present value of accumulated plan benefits as of December 31, 2020, is as follows:

Vested benefits:	
Active participants	\$ 211,935,110
Participants and beneficiaries currently receiving payments	311,870,970
Terminated vested participants	82,083,808
Nonvested benefits	<u>1,787,574</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 607,677,462</u></u>

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The changes in the actuarial present value of accumulated plan benefits during the period ended December 31, 2020 are as follows:

Actuarial present value of accumulated plan benefits as of September 28, 2020	\$ 597,567,402
Increase (decrease) during the period attributable to:	
Benefits accumulated	447,472
Actuarial losses	14,279,537
Decrease in discount period	7,547,096
Actual benefits paid	(12,575,706)
Assumption changes	411,661
Net increase	<u>10,110,060</u>
Actuarial present value of accumulated plan benefits as of December 31, 2020	<u>\$ 607,677,462</u>

The changes in the assumptions are generally related to the change in mortality improvements.

Note 5. Plan Termination

Even though the Plan is frozen, the Company intends to continue the Plan indefinitely without interruption, but reserves the right to discontinue the Plan at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding the Plan's termination.
- (c) Other vested benefits insured by the PBGC up to the applicable limitations
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

NOTES TO FINANCIAL STATEMENTS

Note 5. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 6. Parties-in-Interest

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of a plan, any party rendering services to a plan, the employer, certain participants, and others.

The Trustee serves as the custodian for certain investments in which the Plan participates. Therefore, transactions within these investments and transactions with the Trustee qualify as party-in-interest transactions.

Alight Solutions, LLC provides recordkeeping services to the Plan and, in addition to various other service providers, provides certain other administrative services to the Plan. Willis Towers Watson provides actuarial services to the Plan. The Plan receives investment advisory services and certain other trust and custodial administrative services from various service providers. Therefore, transactions with these various service providers qualify as party-in-interest transactions.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 5, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision has been made for Federal income taxes.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Information Certified by the Plan's Trustee

The following is a summary of the Plan's asset information as of December 31, 2021 and 2020, and for the year ended December 31, 2021 and for the period September 28, 2020 through December 31, 2020, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by the Trustee. The plan administrator has obtained certifications from the Trustee that information provided to the plan administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedules related to the following assets:

	2021	2020
Investments, at fair value	<u>\$ 725,236,297</u>	<u>\$ 732,054,485</u>

The Trustee has also certified to the completeness and accuracy of the following information for the year ended December 31, 2021 and for the period September 28, 2020 through December 31, 2020:

	2021	2020

	<u>\$ 18,509,700</u>	<u>\$ 11,401,225</u>

NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 as compared to December 31, 2020.

Equity Securities: Equity securities primarily consist of common and preferred stocks in which the Plan holds a share directly. These assets are valued at the closing price reported on the active market on which the individual securities are traded and are included in Level 1.

SIEMENS ENERGY, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Value Measurements (Continued)

Fixed Income Securities: Investments are valued utilizing data furnished by an independent pricing service (Level 2), incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, model processes such as the Option Adjusted Spread model to assess interest rate impact and develop prepayment scenarios. Both models and processes take into account market conventions.

Commingled Funds: Commingled funds are investments similar to mutual funds in that the fair value of these investments are quoted at the net asset value (NAV) per share at each valuation date which is also the basis for current transactions (Level 1). These funds can also provide diversification by holding various equity and debt securities.

Registered Investment Funds: Registered investment funds are open-end mutual funds valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan are deemed to be actively traded (Level 1).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value as of December 31, 2021 and 2020:

	2021

	All other participants are assumed to elect a life annuity payable at age 61 (age 65 for former Dresser-Rand participants).
Percent married	80% of males; 80% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement. For former Dresser-Rand participants, 85% of males and 55% of females are assumed to be married at retirement.
Spouse age	Wife three years younger than husband
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Methods	
Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the prior plan year, discounted using the effective interest rate for the prior plan year.
Benefits not valued	Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.
Decrement Timing	The approach used is called rounded middle of year(rounded MOY) decrement timing. Most events. Are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with methodology generally used to create those rates.

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2021. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate for Salaried Employees	The plan credits interest to cash balance accounts using the 30-year Treasury rate for the August immediately preceding the plan year, but with a minimum interest credit rate of 4.06%. The long term estimate of the 30-year Treasury rate, based on current conditions, future economic expectations and the minimum interest credit rate results in a final assumed interest credit rate of 4.06%.
Cash Balance Interest crediting rate for Union Employees	The plan credits interest to cash balance accounts using the 30-year Treasury rate for the August immediately preceding the plan year. The long term estimate of the 30-year Treasury rate, based on current conditions and future economic expectations results in a final assumed interest credit rate of 3.50%.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2013 for the former Siemens Pension Plan and Siemens Pension Plan for Union Employees, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For former Dresser-Rand employees, the termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.</p>
Disability	<p>Disability rates are based on an experience study conducted in 2013 for the former Siemens Pension Plan and Siemens Pension Plan for Union Employees, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For former Dresser-Rand employees, the disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.</p>

Retirement	<p>Retirement rates were based on an experience study conducted in 2013 for the former Siemens Pension Plan and Siemens Pension Plan for Union Employees, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>For former Dresser-Rand employees, the retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.</p>
Benefit commencement date for deferred vested benefit	<p>Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.</p>

Source of Prescribed Methods

Funding methods	<p>The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.</p>
------------------------	---

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.</p> <p>The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required under IRC §430.</p> <p>The assumed plan-related expenses included in the target normal cost were changed from \$133.333 expected for the short plan year from September 25, 2020 to December 31, 2020 to \$2,254,132 for the current valuation to account for higher expected expenses to be paid from the trust and a full 12 month plan year.</p>
Change in methods since prior valuation	<p>There have been no changes in methods since the prior valuation.</p>

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 7 Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance as of January 1, 2021

As part of the spinoff of the Energy business from Siemens AG to Siemens Energy AG, effective September 28, 2020 ("the spinoff date"), Siemens Energy, Inc. adopted the Siemens Energy, Inc. Pension Plan ("SEPP").

SEPP was created as a result of the spinoff of assets, liabilities and Prefunding Balance ("PFB") from the Siemens Pension Plan ("SPP") and the Siemens Pension Plan for Union Employees ("SPPU") as of September 28, 2020.

Since Siemens Corporation retroactively elected the shortfall amortization and interest rate relief provisions of the American Rescue Plan Act of 2021 for SPP and SPPU, additional PFB was spun off to SEPP as of September 28, 2020. As permitted by IRS Notice 2021-48, Siemens Energy, Inc. did not refile the 2020 Schedule SB to reflect this additional allocation. Therefore, Line 7 of the 2021 Schedule SB, which reflects this additional allocation of PFB, does not match Line 13 of the 2020 Schedule SB.

Final Average Earnings

Average of highest five consecutive years out of the last ten years preceding the earlier of date of termination or normal retirement date.

Primary Social Security

Benefit payable at age sixty-five under the Social Security law in effect at date of termination assuming earnings continue level to age sixty-five.

Accrued Service

A monthly benefit equal to 40% of the participant's final average earnings, provided that if such participant's benefit accrual service does not equal thirty (30) years exactly, such percentage is to be: (i) increased by the product of 1% and the number of years (including fractions) by which the participant's Benefit Accrual Service exceeds thirty (30) years, or (ii) decreased by the product of 1% and the number of years (including fractions) by which the participant's Benefit Accrual Service is less than thirty (30) years. This benefit is then reduced by fifty percent of the monthly age sixty-five primary Social Security benefit. The Social Security offset is reduced for less than thirty years of service by the ratio of benefit accrual service over thirty.

If greater, the accrued benefit is calculated assuming the participant worked to age sixty-five with the same final average earnings multiplied by the ratio of actual years of benefit accrual service at age sixty-five.

The accrued benefit is reduced by forty percent of the excess, if any, of the contributions which the participant was entitled to make had he joined the Plan at his first opportunity over the actual amount of contributions made by the participant.

However, in the case of a participant in the Worthington Corporation Contributory Retirement Plan on December 31, 1969, the monthly retirement pension is not less than 110% of the monthly retirement pension to which the participant would have been entitled under the Worthington Corporation Contributory Retirement Plan and the Worthington Corporation Non-Contributory Pension Plan combined, assuming such Plans, as in effect on December 31, 1969, and the participant's monthly salary on May 1, 1969, had both continued unchanged. If the participant has not made all of the contributions permitted on and after January 1, 1970, such retirement pension is reduced according to the preceding paragraph.
