Report of Independent Auditor

To the Audit Committee of the Board of Trustees
Rhodes College Defined Contribution Retirement Plan
Memphis, Tennessee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Rhodes College Defined Contribution Retirement Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institutions”).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i, as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

RHODES COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Note 1—Description of the Plan

The following description of the Rhodes College Defined Contribution Retirement Plan (the “Plan”) provides general information about the Plan’s provisions. Rhodes College (the “College” or “Employer”) is the Plan sponsor. Participants should refer to the Plan document and summary Plan description for a more complete description of the Plan’s provisions, copies of which may be obtained from the Plan sponsor.

General – The Plan is a defined contribution plan covering all employees of the College, except those covered by a collective bargaining agreement, leased employees, student employees who are enrolled and regularly attending classes at the College, employees who normally work fewer than 20 hours, employees whose employment is incidental to their education programs, and employees who are not regular employees of the Employer and who are employed by the institution through grants or contracts. The Plan was established in January 1945, and restated effective January 1, 2019 and amended effective July 1, 2020. Full-time employees are eligible to receive Employer contributions after two years of service. Additionally, if an employee was previously employed by any educational organization, any organization that meets the eligibility requirements of Internal Revenue Code (“IRC”) Section 403(b)(1), any teaching institution, any institution of higher education, or any non-profit research institution, years of service with the previous employer during the 24-month period immediately preceding employment with the College are recognized for eligibility purposes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Administration – The Plan is administered by the College, which serves without compensation. The Plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities. The College has outsourced the recordkeeping function of the Plan to Teachers Insurance and Annuity Association (“TIAA”) and College Retirement and Equities Fund (“CREF”) and AIG Retirement Services (“AIG”), the “Qualified Institutions” of the Plan.

Contributions – For the year ended December 31, 2022, participants may contribute up to \$20,500 of pre-tax annual compensation subject to certain IRC limitations. The Employer withholds a 3% automatic deferral percentage from the participant’s compensation each payroll period unless the participant makes a contrary election. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Once eligible, participants may also contribute amounts representing distributions from other qualified retirement plans, 403(b) tax sheltered annuity plans, government 457(b) plans, and traditional individual retirement accounts. The limit on annual contributions for all Employer contributions and employee elective deferrals is \$61,000 for the year ended December 31, 2022. Unless the employee is part of an excluded class of employees noted above, employees are eligible to make elective deferrals on the date of hire commencing eligibility requirements are satisfied. Participants’ contributions are subject to certain discrimination tests prescribed by the IRC and other limitations specified in the Plan.

Effective January 1, 2022, the College changed the Employer contribution from 6% to a fixed uniform 8% of participant compensation. The College has the discretion to vary the contribution rate and all contributions are subject to certain limitations of the IRC.

Upon enrollment in the Plan, a participant may direct 100% of their allocation of contributions with TIAA and CREF. Within TIAA and CREF, participants may select between several investment options and can change their investment options on a daily basis.

Participant Accounts – Each participant’s account is credited with the participant’s contributions and the College’s contributions and allocations of Plan earnings and charged with benefit payments and allocations of Plan losses. Plan earnings or losses are allocated based on the participant’s share of net earnings or losses of their respective elected investment options. Plan expenses are charged directly to the individual investment funds on a percentage of assets basis and are factors in determining the unit value of each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

RHODES COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Note 1—Description of the Plan (continued)

Vesting – Participants are immediately vested in their elective contributions and the College's contributions plus actual earnings thereon.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50% of the vested portion of their account balance, not to exceed \$50,000. Loan terms range to up to five years or greater for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the greater of Moody's Corporate Bond Yield Average for the calendar month ending two months before the loan is issued; or (2) the interest credited before the participant's annuity starting date, as stated in the applicable rate schedule, plus 1%. As of December 31, 2022, interest rates ranged from 4.25% to 8.00% with maturities through November 2027. Principal and interest are paid through an automatic draft of the participant's checking account by TIAA.

Plan Loans – Participants may also borrow directly from the Qualified Institutions using a portion of their account balance as security for the loan. These loans are not part of the individual participant account balances and are not included in Plan assets. However, the participant's account balance attributable to their elective deferrals and rollovers, if applicable, serves as collateral for these loans. Collateral held in participant accounts is included in the Loan Collateral Fund and Loan Escrow Fund, which are valued at current, outstanding principal value plus earnings. Plan loans are repaid through quarterly installments or automatic payroll deduction and have maximum terms of 10 years. The outstanding balances of the Qualified Institutions' loans were \$110,221 and \$167,193 at December 31, 2022 and 2021, respectively. As of December 31, 2022, interest rates ranged from 1.00% to 4.78% with maturities through February 2027.

Benefit Payments – Upon separation from service with the College due to death, disability, retirement, or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive either a lump-sum payment or may elect annuity payments or installment payments at recurring intervals. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance. Withdrawals prior to attaining age 59½ are not permitted, except in the event of retirement, disability, or as a hardship withdrawal. Certain income tax penalties may apply to withdrawals or distributions prior to age 59½. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the Internal Revenue Service ("IRS") and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Benefit Payments – Benefits are recorded when paid.

RHODES COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Note 2—Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition – Investments in the Plan are reported at fair value, except for fully benefit-responsive investments, which are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in guaranteed investment accounts. Certain of the guaranteed investment accounts are deemed to be fully benefit-responsive contracts, while others are considered non-fully benefit-responsive. In accordance with U.S. GAAP, the fully benefit-responsive contracts are recorded at contract value, while the non-fully benefit-responsive contracts are recorded at fair value. The contract value represents contributions plus earnings, less participant withdrawals, and administrative expenses. Fair value is determined by the issuer of the contracts using the income approach and various inputs, such as board-determined interest rates and discounted cash flows.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments and net appreciation in contract value of investments include the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements – U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

U.S. GAAP describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following are descriptions of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using net asset value ("NAV") provided by the administrator of the fund. NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Guaranteed Investment Contracts and Fixed Income Accounts – The TIAA Traditional Annuity, the TIAA Stable Value, the AIG Fixed Income Account Plus, the AIG Short-Term Fixed Account, and the AIG Loan Collateral and Escrow accounts are considered fixed rate annuity contracts that are fully and unconditionally guaranteed and backed by the issuers.

DECEMBER 31, 2022 AND 2021

Note 2—Summary of significant accounting policies (continued)

The TIAA Traditional Annuity is a guaranteed investment contract valued based on accumulated cash contributions, interest credited to the Plan's contracts, and transfers, less any withdrawals. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. A portion of the TIAA Traditional Annuity is considered fully benefit-responsive and, in accordance with U.S. GAAP, it is reported at contract value and has not been categorized in the fair value hierarchy as of December 31, 2022 or 2021. Due to unobservable inputs, the non-fully benefit-responsive portion of the TIAA Traditional Annuity is classified within Level 3 of the fair value hierarchy.

Crediting rates for the TIAA Traditional Annuity are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates.

The TIAA Stable Value is a guaranteed investment contract valued based on accumulated cash contributions, interest credited to the Plan's contracts, and transfers, less any withdrawals. The TIAA Stable Value is not available for sale or transfer on any securities exchange. The TIAA Stable Value is considered fully benefit-responsive and, in accordance with U.S. GAAP, it is reported at contract value and has not been categorized in the fair value hierarchy as of December 31, 2022 or 2021.

The AIG Fixed Income Account Plus, Short-Term Fixed Account, and Loan Collateral and Loan Escrow accounts are backed by the general assets of AIG, but no specific assets are tied to any particular contract. The accounts are valued as the sum of all purchase payments made to a Fixed Account Option plus amounts transferred from the Variable Account option to the Fixed Account Option plus interest earned less amounts transferred or withdrawn from the Fixed Account Option. These investments have been classified as Level 2 of the valuation hierarchy.

Variable Annuity Accounts – These investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Each annuity account determines its NAV daily; however, they are not traded in an active market. In accordance with U.S. GAAP, the variable annuity accounts are not classified within valuation hierarchy as of December 31, 2022 or 2021. These funds invest principally in equity securities, fixed-income instruments, and short-term investments in accordance with each portfolio's investment objectives. Underlying investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing. Accumulation units in CREF variable annuities are available for transactions at the closing accumulation unit value on any business day. In an effort to reduce market timing and excessive trading, shareholders will be locked out of an account for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period.

Pooled Separate Account – The TIAA Real Estate Account is a pooled separate account of TIAA, an insurance company. It is also a variable annuity. Contributions buy accumulation units whose value is calculated daily as a NAV. In accordance with U.S. GAAP, the TIAA Real Estate Account is not classified within valuation hierarchy as of December 31, 2022 or 2021. The insurance company pooled separate account is a variable separate account of TIAA investing mainly in real estate and real estate related investments. Audited financial statements are available. The account's unit value is principally derived from the market value of the underlying real estate holdings or other real estate related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day. There are no unfunded commitments, redemption frequency is daily, and the pooled separate account requires a 30-day redemption notice period.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Note 2—Summary of significant accounting policies (continued)

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Administrative Expenses – There are no direct Plan administrative expenses. As discussed in Note 8, certain expenses are paid by the Plan and the College pays all other administrative expenses incurred by the Plan as permitted in the Plan document. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Plan expenses are charged directly to the individual investment funds on a percentage of assets basis and are factors in determining the unit value of each fund and are included in net depreciation in fair value of investments and net appreciation in contract value of investments on the statement of changes in net assets available for benefits.

Risks and Uncertainties – The Plan provides for various investment securities. These investment securities are subject to various risks, such as interest rate, credit, and overall market volatility. Due to the levels of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 3—Information certified by the Qualified Institutions (unaudited)

The College has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Qualified Institutions, have certified to the completeness and accuracy of the following data included in the accompanying financial statements and supplemental schedule:

- Investments, at fair value, guaranteed investment accounts, at contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Net depreciation in fair value of investments, net appreciation in contract value of investments, interest and dividends, and interest on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Schedule of Assets (Held at End of Year) – Schedule H, Part IV, Line 4i as of December 31, 2022.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(*) In accordance with U.S. GAAP, certain investments that are measured at fair value using NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following tables summarize certain information about investments measured at fair value based on NAV per share, which is not readily determinable, as of each year-end presented:

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Note 4—Fair value measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets (non-fully benefit-responsive portion of the TIAA Traditional Annuity) for the year ended December 31, 2022:

Balance, December 31, 2021	\$ 20,695,462
Investment income	867,375
Purchases	319,316
Sales	(1,135,488)
Balance, December 31, 2022	<u>\$ 20,746,665</u>

Qualitative Information Regarding Level 3 Fair Value Measurements – The following tables present information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the fair value hierarchy at December 31:

December 31, 2022	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
TIAA Traditional Annuity non-fully benefit-responsive investment contract	\$ 20,746,665	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.70% - 6.50%

December 31, 2021	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
TIAA Traditional Annuity non-fully benefit-responsive investment contract	\$ 20,695,462	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	2.75% - 3.90%

Note 5—Guaranteed investment accounts

The Plan invests in guaranteed investment contracts with TIAA and AIG. The AIG fixed account options are supported by the AIG general account and offer guaranteed crediting rates specified in advance of participant investment. Fully benefit-responsive annuity contracts include the Supplemental Retirement Annuity account ("SRA") and the Group Supplemental Retirement Annuity account ("GSRA"). The non-fully benefit-responsive annuity contracts includes the Retirement Annuity account ("RA") and the Retirement Choice Annuity account ("RC"). TIAA maintains the contributions in the TIAA General Account. TIAA groups the premium dollars it receives over defined time periods into vintages, typically composed of one or more contiguous calendar months, for the purpose of determining the crediting rate to participant's accounts. The crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at their stated value.

As described in Note 2, because a portion of the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits. The fully benefit-responsive investment contracts are included in the financial statements at contract value as reported to the Plan by TIAA.

RHODES COLLEGE DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

Note 5—Guaranteed investment accounts (continued)

The guaranteed investment contracts' issuer is contractually obligated to repay the principal and a specified interest rate, generally 3.00%, that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 3.00% for the SRA, GSRA, and RA accounts. For RC accounts, the crediting interest rate floats between 1.00% through 3.00%. The TIAA Board of Trustees may declare additional amounts on a year-by-year basis. These additional amounts, when declared, remain in effect for the 12-month declaration year that begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities; they are not guaranteed for future years. The interest rate credited to participants for the fully benefit-responsive portion of the investment contracts (both SRA and GSRA accounts) for the Plan ranged between 3.85% to 5.85% for the year ended December 31, 2022. The interest rate credited to participants for the non-fully benefit-responsive portion of the investment contract (RA accounts) ranged between 4.60% to 6.60% for the year ended December 31, 2022. The interest rate credited to participants for the non-fully benefit-responsive portion of the investment contract (RC accounts) ranged between 4.85% to 6.85% for the year ended December 31, 2022.

Certain events limit the Plan's ability to transact at contract value with TIAA. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6—Plan termination

The College believes the Plan will continue without interruption but reserves the right to discontinue the Plan. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination. Distribution of participant account balances will occur as soon as administratively feasible upon termination of the Plan.

Note 7—Tax status

The IRS has determined and informed the plan prototype sponsor by a letter dated August 7, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The College has chosen to rely on the determination letter issued to the plan prototype sponsor. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax and, therefore, the Plan and related trust continue to be tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

DECEMBER 31, 2022 AND 2021

Note 8—Party-in-interest transactions

The Plan holds units of guaranteed investment contracts, pooled separate account, mutual funds, and variable annuity accounts managed by the qualified institutions. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Fees paid to TIAA and CREF for investment management services amounted to \$151,765 for the year ended December 31, 2022 and are recorded in net depreciation in fair value of investments and net appreciation in contract value of investments.

Note 9—Subsequent events

In accordance with U.S. GAAP related to subsequent events, the Plan has evaluated all events subsequent through September 12, 2023, the date these financial statements were available to be issued and determined that with the exception of the following, there are no subsequent events that require disclosure.

- Effective July 1, 2023, the Plan executed an amendment to change Employer contribution from 8% to 9% of participant compensation.
