Report of Independent Auditors

The Plan Administrator
Mission Pharmacal Company
Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mission Pharmacal Company Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Mission Pharmacal Company Retirement Savings Plan

Notes to Financial Statements

December 31, 2022

1. Plan Description and Benefits

The following description of the Mission Pharmacal Company Retirement Savings Plan (the Plan) provides general information about the Plan's provisions. Mission Pharmacal (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering substantially all employees of the Company immediately upon date of hire. The Plan is for the exclusive benefit of its eligible participants and their beneficiaries. The Plan is designed to meet the requirements of Internal Revenue Code (the Code) Section 401(a) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, (ERISA) as amended.

Contributions

Participants can contribute up to the amounts permitted by the Internal Revenue Service (IRS). Also, the Company may make a discretionary matching contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matched 10% of employee contributions up to a maximum annual employer contribution of \$1,950 through October 31, 2021. Effective November 1, 2021, the employer match was increased to 25% of employee contributions up to a maximum of \$4,875. Effective August 1, 2022, the employer match was increased to 50% of employee contributions up to a maximum of \$10,250.

Eligible participants are automatically enrolled in the Plan with a contribution rate of 6% of base salary each payroll period, unless the employee elects an alternative deferral amount or elects not to defer under the Plan. Once an employee reaches six months of service with the Company, this automatic enrollment contribution rate increases by 1% every January 1 until the automatic enrollment contribution rate reaches 10%.

All contributions are participant-directed into various mutual funds and common/collective trust funds offered by the Plan.

1. Plan Description and Benefits (continued)

Vesting and Benefit Provisions

Participants are at all times 100% vested in their contributions. Earnings on the amount that the participant elects to contribute are also 100% vested at all times. Vesting with respect to Company contributions occurs at the rate of 20% per year of service beginning after the second year of service. A participant is fully vested in Company contributions after completion of six years of service.

Upon the death, disability, or retirement of a participant, vested benefits are paid to the participant or his or her designated beneficiary. Benefits are payable in the form of cash, as outlined in the Plan.

In the event a participant dies or becomes totally and permanently disabled prior to the commencement of benefits, the participant's account balance becomes fully vested. Upon termination of employment with the Company, a participant is not eligible to make further contributions to the Plan. A terminated participant may share in Company discretionary contributions in the year of termination if the minimum service requirements for the participant as outlined in the Plan are met. A terminated participant may elect to withdraw the vested balance from his or her account or may leave the account intact to be distributed at a later date.

The Plan incorporates a normal retirement age of 65. The Plan does not provide for an early retirement benefit. Participants who do retire early will be vested in accordance with the plan vesting schedule and will receive their benefits in the same manner as in termination of employment. Participants may elect to postpone retirement beyond the normal retirement age of 65 and continue to make contributions and share in the Company discretionary matching contributions. Further, participants may elect to receive funds from their 100%-vested accounts at any time after attaining the age of 59-1/2.

Distributions of plan benefits are not permitted before the age of 59-1/2 except in the event of the following: (1) death, (2) disability, (3) termination of employment, or (4) reasons of proven financial hardship. In the case of financial hardship, distributions are limited to the participant's vested account.

1. Plan Description and Benefits (continued)

Forfeitures

Forfeitures represent amounts not vested at the date of a participant's retirement or withdrawal from the Plan.

Unallocated forfeitures of \$21,736 and \$19,127 at December 31, 2022 and 2021, respectively, are available to reduce future Company discretionary contributions or pay qualified plan expenses. During 2022, forfeitures of \$81,281 were used to reduce employer contributions and \$27,177 were used to pay qualified plan expenses. During 2021, forfeitures of \$218,946 were used to reduce employer contributions and \$83,319 were used to pay qualified plan expenses.

Administration

The Plan is administered under a written agreement entered into by the plan trustee and the Company. Fidelity Management Trust Company (Fidelity) serves as the trustee of the Plan. The Company is the plan administrator. The plan trustee is responsible for investing the plan assets, and all investments are held with the trustee. The Company is responsible for all significant administrative costs that are not specifically related to participant investment election options.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Retirement Savings Plan

2. Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in various investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits and participant account balances.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion on fair value measurements. Investments in mutual funds and certain common/collective trust funds are stated at fair value based on quoted market prices. Investments in certain common/collective trust funds are stated at net asset value (NAV) per units held by the plan as determined by the issuer. The NAV is used as a practical expedient to estimate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments bought, sold, and held during the year.

3. Tax Status

The underlying pre-approved plan has received an opinion letter from the IRS dated June 30, 2020, stating that the written form of the underlying pre-approved document is qualified under Section 401 of the Code. Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401 of the Code, and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments and interest and dividend income for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity, the trustee of the Plan as of, and for the years ended, December 31, 2022 and 2021.

5. Fair Value Measurement

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted market prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data, correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation techniques and inputs described in Note 2 may produce a fair value calculation that may not indicate net realizable value or reflect future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different techniques and inputs or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the techniques or inputs used at December 31, 2022 or 2021.

5. Fair Value Measurement (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 16,899,186	\$ —	\$ —	\$ 16,899,186

Common/collective trust funds measured at NAV ^(a)				5,101,256
Total assets at fair value				<u>\$ 55,370,981</u>

^(a)This category includes a common/collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

6. Related-Party and Party-in-Interest Transactions

Investments of the Plan are managed by the trustee and certain investments are issued by affiliates of the trustee. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules under ERISA

7. Subsequent Events

Effective January 1, 2023, the Plan's vesting with respect to Company contributions was amended to occur at a rate of 25% per year of service. A participant will be fully vested after their fourth year of service.

Management evaluated subsequent events for the Plan through September 27, 2023, the date the accompanying financial statements were available to be issued.
