Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan
Granite City, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States ("GAAP").
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan

Notes to the Financial Statements

Note 1: Description of Plan

The following description of the Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1997 and most recently amended January 1, 2021, by Walters Metal Fabrication, Inc. (the "Plan Sponsor"). Collectively, the Plan is a multi-employer plan covering all non-collectively bargained employees of the Plan Sponsor, Metro Marble and Granite of Columbia, Missouri Steel Fabrication, Inc., Metro Marble and Granite, LLC, CDS Engineering Company, Midwest Tile and Granite, LLC, and Premiere Hardwoods, LLC.

The Plan is a defined contribution plan for the benefit of its employees who are age 21 or older. An employee will become eligible for participation after completing the Plan's eligibility requirements as stated in the Plan Agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants may defer salary up to an annual maximum of the lesser of 100% of eligible compensation or the amount specified by the Internal Revenue Service for the years ended December 31, 2022 and 2021. The total of participant and employer contributions for a given year cannot exceed the lesser of the amount specified by the Internal Revenue Service for the years ended December 31, 2022 and 2021, or 100% of the participant's annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover distributions from other qualified defined benefit or defined contribution plans.

The Plan was amended January 1, 2011, to allow elective deferrals to a Roth individual retirement account (Roth IRA). The Plan will also permit a rollover contribution to a Roth IRA elective deferral account on or after the effective date of the amendment. Roth IRA elective deferrals will be included in the participant's gross income at the time of deferral. Those deferrals, along with gains and losses, will be separately accounted for as sub-accounts of each participant account. Neither the Roth IRA elective deferral account, nor the Roth IRA rollover account may be withdrawn as a participant loan, but can be withdrawn for a hardship distribution.

Each year, the Plan Sponsor may make matching contributions to be determined annually based on a percentage of participant salary deferrals. For the year ended December 31, 2022, the Plan Sponsor did not elect to make matching contributions. In addition, the Plan Sponsor may make a discretionary profit-sharing contribution to be determined by the Plan Sponsor. Each eligible participant will receive a portion of this discretionary profit-sharing contribution based on their eligible compensation. The Plan Sponsor did not elect to make a discretionary profit-sharing contribution for the year ended December 31, 2022.

Note 1: Description of Plan (Continued)

Participant Accounts

Each participant account is credited with the participant's contributions, employer matching contributions, if any, an allocation of the Plan Sponsor's discretionary contribution, if any, and Plan earnings. Each account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. Participants vest in their employer contributions plus actual earnings thereon at a rate of 20 percent per year and are fully vested after five years of credited service.

Participant Hardship Withdrawals

Participants may withdraw from the Plan the portion of their account resulting from salary deferrals in the event of undue financial hardship. The maximum hardship withdrawal is the total of a participant's vested balance.

Payment of Benefits

The Plan provides for retirement benefits to begin upon retirement age of 59 ½, but no later than April 1 of the calendar year in which participants attain age 70½. Upon death and total or permanent disability of a participant while employed, the account balance becomes fully vested. On termination of service, participants with vested account balances less than $5,000 will receive a lump sum amount equal to the value of their vested account balance. The distribution will be made as soon as administratively feasible. Participants with account balances greater than $5,000 may elect for an immediate lump sum distribution for the value of their vested account balance. Participants may elect to receive the distribution or have the distribution paid as a direct rollover to another qualified plan.

Investment Options

Upon enrollment in the Plan, participants may direct contributions in any of the applicable investment options available to Plan participants.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States (GAAP).

Admnistrative Expenses

Administrative expenses of the Plan are paid both by the Plan Sponsor and the participants of the Plan.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value with the exception of the common collective trusts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (quoted market prices). The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. The common collective trusts are measured at net asset value and contract value. See Note 3 for discussion of fair value measurements and investments measured at net asset value and Note 4 for discussion of investments measured at contract value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through September 18, 2023, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

> Level I - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
>
> Level II - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.
>
> Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

> *Mutual funds (registered investment companies):* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.
>
> *Common collective trust*s: Composed primarily of fully collective investment funds that are valued at net asset value (NAV) of units of the fund's collective trust. Each collective trust has a different risk/reward profile with diversified holdings. The NAV is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an account different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 3: Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value:

		Fair Value Measurement Using:		
December 31, 2022	Fair Value	Quoted Prices In Active Markets for Identical Assets Level I	Quoted Prices in Active Markets for Similar Assets Level II	Significant Unobservable Inputs Level III

Note 3: Fair Value Measurements (Continued)

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2022 and 2021, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Note 4: Investments Measured at Contract Value

The Galliard Stable Return Fund C (formerly the Wells Fargo Stable Return Fund G) (the "Fund") is a collective trust fund that invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics to a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; and the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. The contract value of the stable value fund as of December 31, 2022 and 2021, totaled $589,975 and $156,381, respectively.

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

Note 5: Tax Status

The Plan is designed to be a qualified trust under Section 410(a) of the Internal Revenue Code (IRC) that provides that a qualified trust is exempt from federal income taxes. The Plan is required to operate in accordance with the Plan Agreement and the applicable federal laws in order to maintain its qualification. The prototype plan received a favorable opinion letter dated April 2, 2018, stating that the Plan is a qualified plan under the applicable section of the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan is not aware of any action or event that has occurred that might affect the Plan’s qualified status.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2019.

Note 6: Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Charles Schwab Trust Company ("Schwab"). Schwab is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in the net depreciation in fair value of the investment. Retirement Plan Services, LLC is the third-party administrator for the Plan and is, therefore, also considered a party-in-interest. As disclosed in Note 2, the administrative fees are paid by both the Plan and the Plan Sponsor.

Note 7: Information Prepared and Certified by the Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to be complete and accurate by Schwab at December 31:

	2022	2021
Non-interest-bearing cash	$ 7,092	$ -
Investments, at fair value - registered investment companies	2,536,596	2,669,371
Investments, at net asset value - common collective trusts	2,046,226	3,131,291
Investments, at contract value - common collective trust	589,975	156,381
Net depreciation in fair value of registered investment companies	(659,237)	
Net depreciation in fair value of common collective trusts	(476,866)	
Dividend income	142,323	

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
