INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
ATA Engineering, Inc. 401(k) Retirement Plan
San Diego, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of ATA Engineering, Inc. 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (an ERISA 103(a)(3)(C) audit). The financial statements comprise the statements of net assets as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of ATA Engineering, Inc. 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ATA Engineering, Inc. 401(k) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ATA Engineering, Inc. 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ATA Engineering, Inc. 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ATA Engineering, Inc. 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule (Schedule H, Part IV, Line 4i as of December 31, 2022), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements December 31, 2022

NOTE 1. DESCRIPTION OF PLAN

The following description of the ATA Engineering, Inc. 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective in May 2000, is a defined contribution plan covering eligible employees of ATA Engineering, Inc. (the "Company") who are at least 18 years of age. Employees who are (i) nonresident aliens with no U.S. source income, (ii) subject to collective bargaining agreements, (iii) residents of Puerto Rico, (iv) students on co-op or professional practice assignment, or (v) certain classes of temporary employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the provisions of the Internal Revenue Code ("IRC") and is maintained for the exclusive benefit of the participating employees and their beneficiaries.

Participant Contributions

Elective Contributions – The Plan allows eligible participants to make elective salary reduction contributions. Participant contributions include those made by election of the employee in an amount up to 100% of eligible compensation, as defined by the Plan and subject to limitations imposed by the IRC. The Plan allows both traditional (pre-tax) deferral contributions and Roth (after-tax) contributions.

Participants who are age 50 or older are eligible to defer additional amounts (called "catch-up contributions") to the Plan up to the maximum allowed by the IRC. Participants may also contribute amounts representing distributions from other qualified sources.

Automatic Enrollment and Contributions – The Plan has adopted automatic enrollment and automatic contribution escalation features, such that all participants (except those who affirmatively elect to not participate, or who elect a specific contribution percentage other than 6%) automatically have 6% of their eligible pre-tax compensation deferred into the Plan. Additionally, the Plan automatically increases by two percentage points, deferral percentages for participants who were subject to the automatic enrollment provisions described above, on the first day of each calendar year subsequent to a participant's automatic enrollment date (unless a different date is selected by a participant) until the participant's deferral percentage reaches 20%. Unless participants affirmatively elect otherwise, the automatic escalation provisions apply to all participants contributing less than 20% of their eligible compensation.

At any time, participants are able to affirmatively elect deferral percentages of their choosing and/or request automatic escalations to occur in a future period. Also at any time, participants may decline participation (opt out) and/or decline to have their deferral rates escalated automatically.

Employer Contributions

The Plan includes provisions for discretionary employer matching contributions as well as discretionary non-elective contributions. To be eligible for any employer matching contributions, a participant either must (i) be employed at the end of the plan year, or (ii) have completed at least 501 hours of service during the plan year if the participant had separated from employment. Participants who separated from service during the plan year due to retirement, disability or death are also eligible for any employer matching contributions for that plan year. For 2022, the discretionary employer matching contribution is equal to 50% of a participant's deferral contributions up to 6% of the participant's eligible compensation during the plan year. There were no discretionary non-elective employer contributions for 2022.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements December 31, 2022

NOTE 1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, any employer matching contributions, and allocations of (i) any employer non-elective contributions, (ii) Plan earnings or losses, and (iii) any administrative expenses. Allocations are based on participant contributions, earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions, including rollover contributions as well as any earnings/losses thereon, are immediately vested. Vesting in employer contributions and earnings/losses thereon is generally based on years of service. Employees become 100% vested in employer contributions upon completion of three years of credited service, with a year of credited service defined as a plan year during which an employee works at least 1,000 hours. A participant may also become fully vested in the entire balance of his or her account upon attaining normal retirement age, becoming disabled, or in the event of death or Plan termination.

Forfeitures

Forfeitures of terminated participants' accounts are held in an unallocated asset account. These amounts may be used to pay Plan administrative expenses and reduce employer contributions. During 2022, \$4,159, including \$53 of investment earnings, was added to the forfeitures account, and \$22,082 of forfeitures were used as a reduction of employer contributions. As of December 31, 2022 and 2021, the forfeitures account balance was \$4,159 and \$22,082 respectively.

Notes Receivable from Participants (Participant Loans)

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum generally equal to the lesser of \$50,000 or 50% of their vested account balance. Loans bear interest at a reasonable rate as determined by the Plan administrator at the time of application and are generally secured by the participant's vested account balance. Participants are generally permitted to have only two loans outstanding at any time. Principal and interest are paid ratably through payroll deductions over a term not to exceed five years unless the loan is used toward the acquisition of the participant's principal residence, in which case the loan term may be longer. As of December 31, 2022, the interest rates on outstanding loans ranged from 4.25% to 8.00%.

In April 2020, the Plan operationally implemented the provisions of the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") (Note 9). Participants requesting relief under the CARES Act were permitted (i) an increased loan limit to the lesser of \$100,000 or 100% of the nonforfeitable account balance (available until September 23, 2020), and (ii) a delay in loan repayments due through December 31, 2020 for up to one year.

Payment of Benefits

Upon disability, death, termination, or attaining age 59½ or normal retirement age (65), participants (or, if applicable, their beneficiaries) may elect to receive a distribution of their vested account in a lump sum, or defer distribution if their vested account balance exceeds \$5,000.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements December 31, 2022

NOTE 1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits (Continued)

Pursuant to the Setting Every Community Up for Retirement Enhancement Act of 2019 (the "SECURE" Act), which became law on December 20, 2019, participants may defer taking distributions as follows:

- If a participant reached the age of 70½ in 2019, the participant may defer receiving distributions until the later of April 1, 2020, or the April following the calendar year in which the participant retires;
- If a participant reaches the age of 70½ in 2020 or later, the participant may defer receiving distributions until the later of the April following the calendar year in which the participant reaches age 72 or retires.

Upon termination of employment, if a participant's vested account balance is below \$5,000, and if the participant has not elected to receive a cash distribution or have the balance rolled over into an individual retirement account ("IRA") of his/her choosing, the Plan may transfer the participant's account balance into an IRA separately managed and maintained by a trust company engaged by the Plan.

In February 2018, Congress passed the Bipartisan Budget Act (the "Act"). Among other things, the Act provides relief with respect to hardship withdrawal requirements including the following: (1) a participant will not be required to obtain a plan loan before requesting a hardship withdrawal, (2) a participant's deferral contributions will not be suspended after receipt of a hardship withdrawal, and (3) earnings on elective deferral contributions in a participant's account will be eligible for hardship withdrawal purposes. The provisions of the Act may be implemented operationally beginning January 1, 2019 prior to formally amending the Plan document. Effective September 3, 2019, the Plan adopted the provisions of the Act with respect to hardship withdrawal requirements.

In April 2020, the Plan implemented the following provisions for CARES Act related distributions: (i) participants may withdraw up to \$100,000 without a 10% early distribution penalty, (ii) such distributions can be repaid within three years of the date of distribution, and (iii) required minimum distributions were temporarily suspended for 2020.

In August 2021, the Plan was amended to enable participants to withdraw Roth balances in connection with age 59½ distributions and to limit the number of hardship distributions a participant may receive during a year to two.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Recognition of Income or Loss

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2022

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Recognition of Income or Loss (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation or depreciation in fair value of mutual funds and common/collective trusts includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants (Participant Loans)

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Administrative expenses of the Plan are those paid to the recordkeeper, trustee, and auditor of the Plan as provided in the Plan document. Other than certain fees paid to service providers of the Plan, substantially all costs of administering the Plan are paid by the Company. Certain distribution and loan fees, which may be incurred by the requesting participants, are paid from those participants' accounts.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through the date of the independent auditors' report, which is the date these financial statements were available to be issued (Note 11).

NOTE 3. INFORMATION CERTIFIED BY THE TRUSTEE

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and the ERISA-required supplemental schedule (Schedule H, Part IV, Line 4i), including investments and notes receivable from participants held at December 31, 2022 and 2021, and net appreciation or depreciation in fair value of investments, dividends, interest income on notes receivable from participants, and other income for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by T. Rowe Price Trust Company, the trustee of the Plan.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements December 31, 2022

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs are unadjusted, quoted market prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs are either directly or indirectly observable for the asset or liability through correlation with related market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 – Inputs are both unobservable and significant to the overall fair value measurement for the asset or liability at the measurement date. These inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and in the inputs to the model.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodology used for investments measured at fair value at December 31, 2022 and 2021. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as quoted by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the net asset value of units of the respective collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer may reserve the right to require a notification period in order to ensure that securities liquidations will be carried out in an orderly business manner.

The T. Rowe Price Stable Value Common Trust is a stable value collective trust which primarily consists of indirect investments in fully benefit-responsive investment and security-backed contracts through an investment company. Consistent with FASB ASC 820, the stable value collective trust's contract value is considered its fair value for financial reporting purposes as that is the amount at which participants would normally transact with the Plan.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements December 31, 2022

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	December 31, 2022			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 21,309,313	\$ -	\$ -	\$ 21,309,313

^(a) In accordance with FASB ASC 820, Subtopic 10, certain investments that were measured at net asset value per share (or its equivalent) shall not be classified in the fair value hierarchy. The fair value amounts of the common/collective trusts are presented in these tables to permit reconciliation of the fair value hierarchy to the total investments presented in the statements of net assets available for benefits.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2022

NOTE 5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by T. Rowe Price, an affiliate of the trustee/custodian of the Plan. The Company provides administrative services for the Plan at no cost to the Plan. Certain of the Plan's operating expenses are paid by the Company. These transactions qualify as exempt party-in-interest transactions.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to provision of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the accompanying financial statements.

NOTE 8. TAX STATUS

The Company has adopted a pre-approved defined contribution plan and relies upon the opinion letter from the Internal Revenue Service ("IRS") which states that, in its opinion, the pre-approved plan and related trust are designed in accordance with applicable sections of the IRC. The Company has not applied for a determination letter from the IRS specific to the Plan. Although the Plan has been subsequently amended, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

ATA ENGINEERING, INC. 401(K) RETIREMENT PLAN

Notes to Financial Statements December 31, 2022

NOTE 9. CARES ACT

In response to the effects of the coronavirus on the economy, in March 2020, Congress passed the CARES Act. The CARES Act provides temporary relief for retirement plan sponsors and participants with respect to employer contributions, distributions, and participant loans. The provisions of the CARES Act may be implemented operationally prior to formally amending the Plan document. The Plan has implemented certain relief provisions included in the CARES Act as disclosed in the preceding notes to the financial statements. Plan management expects to formally amend the Plan by December 31, 2025.

NOTE 10. SECURE 2.0 ACT

On December 29, 2022, the SECURE 2.0 Act of 2022 (the "SECURE Act 2.0") became law. The purpose of the legislation is to expand access to retirement plans and to help working Americans increase their retirement savings. The SECURE Act 2.0 includes various required and optional provisions that will become effective between 2023 and 2033, certain of which are described below:

- Beginning in 2023, the age for required minimum distributions will increase from age 72 to 73. Beginning in 2033, the age for required minimum distributions will increase from age 73 to 75.
- Beginning in 2026, catch-up contributions will be made on a Roth basis, unless the participant earns \$145,000 or less.
- Beginning January 1, 2025, a participant from the ages 60 to 63 can elect catch-up contributions up to the limit of the greater of \$10,000 or 150% of the catch-up contribution limit imposed by the IRS.
- Starting January 1, 2025, long-term part-time workers (defined as employees who have worked for two consecutive 12 month periods during each of which they have at least 500 hours of service) will become eligible to enroll in their employer's retirement plan after two years.

Additionally, Plan management has not yet determined which of the optional provisions, if any, the Plan will implement. Plan management expects to formally amend the Plan by December 31, 2025.

NOTE 11. SUBSEQUENT EVENTS

Effective January 1, 2023, the Company increased its discretionary matching contributions from 50% of participant deferrals up to 6% of eligible compensation to 50% of participant deferrals up to 8% of eligible compensation. The Plan was also amended to eliminate the annual service requirement to share in the allocation of employer matching contributions, to change the contribution period for matching contributions from each plan year to each payroll period, and to make the annual true-up of matching contributions discretionary.

Additionally, effective February 27, 2023, the Company changed the auto-enrollment provisions of the Plan to increase the default pre-tax deferral rate from 6% to 8% for those participants automatically enrolled in the Plan, unless the participant affirmatively elects otherwise. In connection with the amendment, the requirement related to eligibility for any employer contributions was changed such that there is no longer a requirement to be employed at the end of the Plan year.
