Propulsion Technologies International 401(k) Plan Notes to Financial Statements

1. Description of Plan

The following description of Propulsion Technologies International (“the Company”) 401(k) Plan (“the Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have 90 days of continuous service. Date of eligible participation occurs on January 1, April 1, July 1 or October 1 after the requirements have been met.

The Plan was established on January 1, 1999, under Section 401(k) of the Internal Revenue Code, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan, subject to a maximum of \$20,500 and \$19,500 for the years ended December 31, 2022 and 2021, respectively. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 100% of the first 5% of pre-tax annual compensation that a participant contributes to the Plan.

Participant Accounts. Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s discretionary contribution portion of their accounts plus actual earnings is based on years of continuous service. A participant is 100% vested after five years of credited service for the Company’s discretionary matching contributions.

Notes Receivable from Participants. Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant’s account and bear interest at rates ranging from 4.25% to 7.5%. Principal and interest is paid ratably through payroll deductions.

Investment Options. Upon enrollment in the Plan, a participant may direct their contributions into any of the investment options offered under the terms of the investment contract. There are several different mutual funds and investment options available to the participants.

Payment of Benefits. All distributions from the Plan will be made in one lump-sum payment in cash or, at the election of the Trustee, in property.

In the event of death or total and permanent disability, a participant’s account becomes fully vested. The non-vested portion of a terminated participant’s account is forfeited and allocated to the employer contribution account of all participants who have not had a one-year break in service during the Plan year and who are employees as of the end of the Plan year. The forfeited amounts are allocated to a participant’s account based on the proportion that each participant’s basic compensation bears to the total basic compensation of all active participants.

Administrative Services. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Administrative expenses for the Trustee are paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements are prepared using the modified cash basis of accounting. Contributions and interest income are recognized when collected and administrative expenses and benefits are recognized when paid.

Propulsion Technologies International 401(k) Plan Notes to Financial Statements

2. Summary of Significant Accounting Policies (Cont'd.)

Basis of Accounting (Cont'd.) Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Estimates. The Plan Administrator uses estimates and assumptions in preparing those financial statements in accordance with the modified cash basis of accounting. Those estimates and assumptions affect the reported amounts and disclosures. Actual results could vary from the estimates that were used.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Forfeited Accounts. Forfeited nonvested accounts could be used to reduce future employer contributions.

In 2022 and 2021, employer contributions were reduced by \$5,036 and \$5,453, respectively, from forfeited nonvested accounts.

Subsequent Events. The Plan Administrator has evaluated subsequent events through July 28, 2023, the date these financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

4. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Propulsion Technologies International 401(k) Plan
Notes to Financial Statements

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Information Prepared and Certified by Trustee

Reliance Trust Company, the Trustee holds all of the Plan's investment assets and executes transactions in the assets.

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

	<u>2022</u>	<u>2021</u>
Investments, at fair value:		
Value of interest in common / collective trusts	\$ 243,989	\$ 116,293
Value of interest in registered investment companies	\$ 5,023,921	\$ 5,871,498

Investment (loss) income:		
Net (depreciation) appreciation in fair value of investments	\$ (998,113)	\$ 585,771
Interest	\$ 33,544	\$ 22,963

7. Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
American Funds 2025 Target Date Retirement Fund	\$ 923,343	\$ 1,013,485
American Funds 2030 Target Date Retirement Fund	\$ 1,283,866	\$ 1,426,402
American Funds 2035 Target Date Retirement Fund	\$ 586,729	\$ 739,368
American Funds 2040 Target Date Retirement Fund	\$ 299,037	*
American Funds 2045 Target Date Retirement Fund	\$ 312,832	*
American Funds 2050 Target Date Retirement Fund	\$ 308,145	\$ 356,829

* - Investment did not represent 5% or more of the Plan's net assets available for benefit

8. Fair Value Measurements

The applicable guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

**Propulsion Technologies International 401(k) Plan
Notes to Financial Statements**

8. Fair Value Measurements (Cont'd.)

The three levels of the fair value hierarchy under the applicable guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- c) Inputs other than quoted prices that are observable for the asset or liability;
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common / Collective Trusts: Valued at the quoted net asset value of shares held by the Plan at year end.

Registered Investment Companies: Valued at the closing price reported in the active market in which the fund is traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Fair Value Measurements at December 31, 2022
