Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Retirement Plans Committee and Management of
Crestline Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Crestline Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of or for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

1. DESCRIPTION OF PLAN

The following description of Crestline Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored and administered by Superior Fabrication Company, LLC (the Company), a company related to Creative Engineered Polymer Products through common ownership. On September 20, 2006, Creative Engineered Polymer Products filed for bankruptcy and all plant employees were terminated as of October 31, 2006. On July 31, 2007, the Plan was frozen. Then, during 2007, the Plan was transferred to the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2009, the Creative Engineered Polymer Products Pension Plan for Bargaining Unit Employees – Canton, a separate noncontributory defined benefit pension plan of Creative Engineered Polymer Products, was merged into this Plan.

Eligibility

To be eligible to participate in the Plan, a person must have been employed by (or had seniority status with) Creative Engineered Polymer Products at its Crestline or Canton, Ohio plants. The person must have been a member of the bargaining unit represented by Local Union No. 563L1 of the United Steel Workers of America and a participant in the Plan as it existed at December 31, 1975 (Crestline) or have been a member of the bargaining unit represented by Local Union No. 761 of the United Rubber, Cork, Linoleum and Plastics Workers of America or have been a skilled tool shop employee and have been a participant in the Plan as it existed at December 31, 1984 (Canton), or have completed one year's uninterrupted employment with at least 1,000 hours since that date (Crestline and Canton) until the Plan was frozen.

Funding

The Company makes contributions to the Plan in amounts determined by actuarial computations in order to fully provide benefits for the participants when they meet their retirement age. All contributions required to fulfill the minimum funding requirements of ERISA were made on a timely basis during the years ended December 31, 2022 and 2021.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Pension Benefits and Vesting

The annual pension benefit payable at a participant's normal retirement date is based on a fixed benefit multiplied by the years of credited service as follows:

Crestline:

<u>Date of Retirement</u>	<u>Amount Per Year of Credited Service</u>
Prior to February 25, 2002	\$ 90 - \$222
February 25, 2002 – March 31, 2003	228
April 1, 2003 – March 31, 2004	234
April 1, 2004 – March 31, 2005	240
On and after April 1, 2005	246

As of October 31, 2006, all employees of Creative Engineered Polymer Products - Crestline became fully vested in the Plan and continued to accrue credited service through July 2007.

Canton:

<u>Date of Retirement</u>	<u>Amount Per Year of Credited Service</u>
Prior to January 1, 2001	\$ 84 - \$180
January 1, 2001 - December 31, 2001	192
January 1, 2002 - December 31, 2002	204
January 1, 2003 - December 31, 2003	216
On and after January 1, 2004	240

As of October 27, 2006, all employees of Creative Engineered Polymer Products - Canton became fully vested in the Plan and continued to accrue credited service through July 2007.

The normal retirement date is the first day of the month following the participant's 65th birthday. All pension benefits payable under the terms of the Plan commence the first day of the month following actual retirement and are made under one of the optional forms of payment as defined in the plan document.

As defined in the Plan, other plan benefits available include early retirement benefits, disability pension benefits, deferred vested benefits and pre-retirement death benefits.

During 2021, the Plan purchased a group annuity contract from Great America Life Insurance Company for \$3,414,866, which is recorded on the statements of changes in net assets available for benefits. Effective November 1, 2021, under the terms of the contract, Great American Life Insurance Company became responsible for the administration and benefit payments of those annuitants identified in the contract.

1. DESCRIPTION OF PLAN (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. The Plan pays certain investment advisory and plan administration fees from plan assets. Certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America (US GAAP) and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plans Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through September 26, 2023, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Description	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,363,878	\$ -	\$ -	\$ 4,363,878
TOTAL INVESTMENTS AT FAIR VALUE	\$ 4,363,878	\$ -	\$ -	\$ 4,363,878

4. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements and supplemental schedules as of and for the years ended December 31, 2022 and 2021 has been certified as complete and accurate by PNC Bank, National Association, a qualified institution, and has not been audited by the independent auditors for the Plan: investments at fair value, accrued income, dividends, and net appreciation (depreciation) in fair value of investments.

5. ACTUARIAL INFORMATION

Actuarial valuations of the Plan were made by an independent actuary as of January 1, 2022 and 2021. The computations of the actuarial present value of accumulated plan benefits as of January 1, 2022 is as follows:

Vested benefits:

Participants currently receiving benefits	\$ 2,771,132
Participants with deferred benefits	<u>2,099,034</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 4,870,166</u>
--	---------------------

The following is a summary of the changes in the actuarial present value of accumulated plan benefits.

Actuarial present value of accumulated plan benefits, January 1, 2021	\$ 7,291,890
---	--------------

Increase (decrease) during year attributable to:

Actuarial loss	1,128,908
Change in discount period	374,897
Change in actuarial assumptions	13,517
Benefits paid to participants	<u>(3,939,046)</u>

Actuarial present value of accumulated plan benefits, January 1, 2022	<u>\$ 4,870,166</u>
---	---------------------

Accumulated plan benefits are those future periodic payments for plan benefits that have accrued on the basis of each participant's service history as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

5. ACTUARIAL INFORMATION (Continued)

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2022 and 2021 are as follows:

- Discount rates – 7.00% for years beginning January 1, 2022 and 2021.
- Mortality rates – Pri-2012 Employee and Healthy Annuitant Mortality Tables, with Generational Projection Scale MP-2021 for the plan year beginning January 1, 2022 and Generational Projection Scale MP-2020 for the plan year beginning January 1, 2021, for males and females.
- Spousal assumptions – 75% of males and 50% of females are assumed to be married. Female spouses are assumed to be 3 years younger than their male spouses.
- Retirement age – Retirement eligible employees are assumed to retire at 65.
- Form of payment – The benefit payable to a participant who has been married at least one year is an actuarial equivalent 50% Joint & Survivor benefit. For unmarried participants, the benefit payable is a single-life annuity.
- Expected return on plan assets – The lesser of the plan sponsor's long-term rate of return on assets or the third segment rate in the Internal Revenue Service (IRS)-Prescribed Three Segment Rates. The expected return on assets was 5.92% for plan year beginning January 1, 2022 and 6.11% for plan year beginning January 1, 2021.
- Effective interest rates – The effective interest rate used to determine the funding target for minimum required contribution purposes was 5.38% for the plan year beginning January 1, 2022 and 5.54% for the plan year beginning January 1, 2021.

Changes in actuarial assumptions due to a change in the mortality assumption, which was changed to reflect the rates and factors in effect for the applicable period, as required.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Had the valuation been performed as of December 31 rather than January 1, there would be no material differences in the values presented.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated February 27, 2013, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

CRESTLINE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

7. TAX STATUS (Continued)

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Appendix B

Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates	24-month segment rates averaged through the end of August 2021 and published in September 2021 (as prescribed by IRC 430) and adjusted to reflect ARPA: - Segment 1 (0 – 5 years) 4.75% - Segment 2 (5 to 20 years) 5.18% - Segment 3 (more than 20 years) 5.92% - Effective Interest Rate 5.38%
Maximum Deductible Annual Interest Rates	24-month segment rates averaged through the end of August 2021 and published in September 2021 (as prescribed by IRC 430) as follows: - Segment 1 (0 – 5 years) 1.07% - Segment 2 (5 to 20 years) 2.68% - Segment 3 (more than 20 years) 3.36% - Effective Interest Rate 2.87%
Annual Expected Return on Assets	Interest Rate for developing Actuarial Value of Assets; limited to third segment rate 7.00% Rationale: Selected by the Plan Sponsor based on a review of historical returns and after consulting with the investment advisor.
PBGC Annual Interest Rates	24-month segment rates averaged through the end of August 2021 and published in September 2021 using the Alternative Method (as prescribed by IRC 430) as follows: - Segment 1 (0 – 5 years) 1.07% - Segment 2 (5 to 20 years) 2.68% - Segment 3 (more than 20 years) 3.36% - Effective Interest Rate 2.87%
ASC 960 Discount Rate	7.00%
Salary Scale	Not applicable
Mortality	Funding: Mortality as provided in Notice 2020-85, male and female, with different rates for annuitants and nonannuitants (as prescribed by IRC 430).
Rates of Retirement	100% at Age 65.
Rates of Turnover	N/A because there are no active participants.

Appendix B (Continued)

Rates of Disability	N/A because there are no active participants.
Assumptions Made In Valuing Spouse's Benefit	75% of male participants and 50% of female participants included in the valuation are assumed to be married. This percentage is used as the probability that survivor benefits will be payable due to preretirement deaths. Wives are assumed to be three years younger than the husband.
Optional Form Election	All employees are assumed to elect the normal form of payment.
Provision for Expenses	The expected administrative (i.e. non-investment) expenses, if any, that will be paid from the assets, which were assumed to equal actual administrative expenses paid during the prior year were added to the Target Normal Cost for minimum contribution purposes.
Standing Elections	The plan sponsor has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
Funding Method	Pure Unit Credit The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model are checked for accuracy and reviewed for reasonableness.

Appendix B (Continued)

Employees Valued

Only participants as of January 1, 2022 were valued.

Changes in Assumptions and Methods since the last Valuation

The interest rates used for determining the funding target were 4.75%, 5.36%, and 6.11%. These rates were updated to the rates required for the current plan year.

The mortality table for the funding target was changed as required under PPA '06.

Justification for Changes in Actuarial Assumptions

The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
