Independent Auditor's Report

To the Plan Administrator
The Wheeler School Defined Contribution Retirement Plan

Scope and Nature of ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of The Wheeler School Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income (loss) and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income (loss) and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue our auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule.

December 31, 2022**

Note 1 - Description of the Plan

The following description of The Wheeler School Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan is a contributory Internal Revenue Code (the "Code") Section 403(b) defined contribution retirement plan covering all eligible employees of The Wheeler School (the "School"). Eligible employees can begin to make salary deferral contributions to the Plan as soon as administratively feasible following their date of hire. Employees who normally work less than 20 hours per week are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Code. The Board of Trustees is responsible for oversight of the Plan. The Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Trustees.

Contributions

Each year, participants may make salary deferral contributions to the Plan equal to a percentage of their pre-tax annual compensation, as defined by the Plan, up to Code limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The School makes a matching contribution to the Plan on behalf of each eligible participant. A participant becomes eligible for the School's matching contribution upon the completion of one year of service (minimum 1,000 hours per year), as defined. For those participants who contribute at least 5% of their annual eligible compensation, as defined by the Plan, the School will provide a matching contribution equal to 5% of the participant's eligible compensation. The School will not make any matching contributions to participants who elect to defer less than 5% of their compensation. Participants also direct the investment of all School contributions. Contributions are subject to certain Code limits.

Effective October 1, 2022, the Plan was amended to change the School's matching contributions to 7% of eligible compensation provided that a participant's salary deferral contributions equal or exceed 5% of eligible compensation.

Participant accounts

Each participant's account is credited with the participant's contributions and the School's matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions to their account plus actual earnings thereon.

**The Wheeler School
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022**

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of certain portions of their account balance. The loans are secured by the balance in the participant's account. The loan interest rates are determined by the source of the participant's investments. For participant account balances invested in mutual funds or annuity contracts, the interest rate will be fixed for the term of the loan using the Federal Reserve Board Bank prime rate plus 1% at the time of the loan origination. For participant account balances invested in Group Supplemental Retirement Annuity Contracts and Retirement Loan Contracts, the loan will be charged a variable interest rate, as defined by the Plan. Principal and interest payments are made directly by participants to TIAA and CREF.

Payment of benefits

Upon termination of service for any reason, a participant with an account balance of \$5,000 or less will receive a lump-sum distribution. Participants with an account balance greater than \$5,000 may elect to receive a single lump-sum amount, installment payments for a specified term or purchase of an annuity contract equal to the value of the participant's interest in his or her account.

Withdrawals from the salary deferral portion of a participant's account may be made in the event of a financial hardship, disability, qualified reservist distribution, or deemed severance distribution in accordance with the provisions specified in the Plan. Withdrawals from a participant's rollover account may also be made at any time in accordance with the provisions specified in the Plan. Additionally, in-service withdrawals are allowed in accordance with the provisions specified in the Plan for participants who have attained age 59½.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in two types of fixed annuity contracts, of which one is considered fully benefit-responsive.

The Plan was originally established in 1945 and was historically viewed as an amalgamation of individual annuity accounts and the Plan administrator and its service providers did not maintain financial information at the Plan level. Because historical records were not maintained or are not available at the Plan level, the Plan may have excluded from the accompanying statements of net assets available for benefits certain annuity accounts, and the related activity, issued to current and former employees prior to January 1, 2009. In recognition of these recordkeeping matters, the Department of Labor ("DOL") released Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* ("FAB 2009-02"), as transitional relief to address situations where a Plan's management is not able to obtain historical records. If FAB 2009-02 is implemented, the DOL has indicated that it will not reject the Form 5500 where contracts are excluded, as long as certain conditions were met. Due to the length of time since the inception of the Plan, there is uncertainty that all contracts have been included. However, the Plan administrator believes that excluded annuity accounts or custodial accounts would meet the conditions of FAB 2009-02. As discussed in

**The Wheeler School
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022**

Note 3, the Plan has received investment statements certified as complete and accurate from TIAA and CREF as of December 31, 2022 and 2021, and for the year ended December 31, 2022.

As part of historical records not being maintained since the Plan was established in 1945, participants may have individual balances with legacy custodians which are not reflected in the net assets available for benefits.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value (see Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The School's Investment Advisory Committee determines the Plan's valuation policies utilizing information provided by Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"). See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Fees related to the administration of notes receivable from participants and certain investment advisory services are charged to participant accounts and are included in administrative expenses. Other investment-related expenses are included in the net depreciation in fair value of investments.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated events through July 18, 2023, the date the financial statements were available to be issued.

**The Wheeler School
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022**

Note 3 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2022 and 2021, and investment income (loss) and interest income on notes receivable from participants for the year ended December 31, 2022, that are disclosed in the accompanying financial statements and supplemental schedule were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"), the insurance entities holding certain investments of the Plan, and also the record-keeper as agent for TIAA, FSB, the custodian of the other investments of the Plan.

Note 4 - Investment contracts with insurance company

The Plan has entered into fully benefit-responsive fixed annuity contracts with TIAA, an insurance company, referred to as the TIAA Traditional Annuity. Participants who choose to invest in these contracts make contributions that purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis.

As described in Note 2, because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contracts. Contract value, as reported to the Plan by TIAA, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer and ranges between 1% and 3% and has the potential for additional interest if declared by TIAA.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers, and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's

**The Wheeler School
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022**

investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

The fixed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurement*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Variable annuity contracts: The Plan invests in variable annuity contracts with CREF. The CREF accounts are valued at the unit value as reported by the account. The unit values are listed on the National Association of Securities Dealers Automated Quotations ("NASDAQ") website and updated overnight for each day that the NASDAQ is open. The accounts held by the Plan are deemed to be actively traded (Level 1).

The Plan also invests in variable annuity contracts with TIAA in the form of TIAA Access accounts. The accounts are valued at the accumulation unit value ("AUV") of units held by the Plan at year-end. The AUV is based on the value of underlying investments, which are valued using market quotations or prices obtained from independent pricing sources who may employ

**The Wheeler School
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022**

various pricing methods to value the investments including matrix pricing less its liabilities and account charges, plus any applicable dividend income, then divided by the number of units outstanding. The accounts allow for daily redemptions and contributions (Level 2).

Nonfully benefit-responsive fixed annuity contracts: Valued based on the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. These annuity contracts are not available for sale or transfer on any securities exchange. Withdrawals under the retirement annuity contracts may be made in the form of a life annuity or in 10 annual installments. The fully benefit-responsive fixed annuity contracts are valued as described in Note 4.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate account: Valued at the unit value reported by the account. The unit value is listed on the NASDAQ website and updated overnight for each day that NASDAQ is open. The pooled separate account held by the Plan is deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

**Notes to Financial Statements
December 31, 2022**

For the year ended December 31, 2022, there were \$853,842 of purchases of Level 3 assets. There were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Quantitative information about significant unobservable inputs used in level 3 fair value measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

GRA = Group Retirement Annuity
RA = Retirement Annuity
RC = Retirement Choice

Note 6 - Plan termination

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Plan loans

Participants may borrow from TIAA using certain assets in the participant's account as collateral. Under this arrangement, TIAA has the right to collect the collateral in the event of a default. Principal and interest payments are made directly by participants to TIAA. At December 31, 2022 and 2021, Plan loans totaling \$45,586 and \$74,541, respectively, were outstanding under this arrangement, of which \$2,258 and \$2,165, respectively, have been defaulted.

Note 8 - Tax status

The Plan has been designed using a volume submitter 403(b) plan document designed by TIAA. TIAA received an advisory letter dated August 7, 2017, in which the IRS stated that the volume submitter 403(b) plan document satisfies the applicable requirements of the Code. Although the Plan itself has not received an IRS determination letter, the Plan administrator believes that the

**The Wheeler School
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022**

Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, the Plan is qualified and deemed to be tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Related party and party-in-interest transactions

Certain Plan investments are proprietary investments managed by TIAA and CREF. TIAA and CREF are the insurance entities who hold certain investments of the Plan and are also the record-keeper as agent for TIAA, FSB, the custodian holding other investments of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Indirect fees incurred by the Plan for investment management services are included in the net depreciation in fair value of investments. Direct fees of \$8,449 for the year ended December 31, 2022 were charged directly to participant accounts for administrative services. The School pays directly any other fees related to the Plan's operations. The Plan allows participants to take loans against certain portions of their account balance, which are also considered party-in-interest transactions.

At December 31, 2022 and 2021, the Plan's revenue sharing account totaled \$227,496 and \$179,808, respectively. This account may be used to pay Plan expenses or may be reallocated to individual participant accounts. The Plan received revenue sharing credits from TIAA in the amount of \$47,014 for the year ended December 31, 2022, which is shown as other income in the accompanying financial statements. During 2022, \$5,890 from the revenue sharing account was utilized to pay Plan expenses.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
