INDEPENDENT AUDITOR'S REPORT

To the Employee Benefit Plans Committee of The Boeing Company

Opinion

We have audited the financial statements of The Boeing Company Employee Retirement Plan, Boeing North American Retirement Plan, BSS Retirement Plan, BSS Retirement Plan for Bargained Employees, Employee Retirement Income Plan - Hourly East, Employee Retirement Income Plan - Hourly West, Non-Contributory Retirement Plan, and The Pension Value Plan for Employees of The Boeing Company (collectively, the "Plans"), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plans as of December 31, 2022 and 2021, and the changes in their net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instruments, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

1. DESCRIPTION OF THE PLANS

The following is a brief description of the following plans (collectively, the "Plans"), and provides only general information:

The Boeing Company Employee Retirement Plan ("BCERP Plan")
Boeing North American Retirement Plan ("BNA Plan")
BSS Retirement Plan ("BSS Plan")
BSS Retirement Plan for Bargained Employees ("BSSB Plan")
Employee Retirement Income Plan – Hourly East ("Hourly East Plan")
Employee Retirement Income Plan – Hourly West ("Hourly West Plan")
Non-Contributory Retirement Plan ("NCRP Plan")
The Pension Value Plan for Employees of The Boeing Company ("PVP Plan")

Each of the Plans is sponsored by The Boeing Company (the "Company"). Eligible participants as defined by the Plans ("Participants") should refer to the plan documents for a more complete description of the Plans' provisions.

General —

BCERP Plan:
The BCERP Plan is a noncontributory defined benefit pension plan covering certain bargained employees of the Company. The BCERP Plan is closed to various unions. These closure dates range from January 1, 2009 through December 31, 2016. Effective January 1, 1999, the assets and liabilities under the BCERP Plan attributable to accrued benefits of active nonunion salaried Participants were transferred to the PVP Plan. Benefit accruals under the BCERP Plan were also frozen to various unions with freeze dates ranging from December 31, 2015 to December 31, 2018. For certain Participants who are members of the Society of Professional Engineering Employees in Aerospace, their benefit service was frozen effective December 31, 2018, however, their benefit accruals continue to grow based on pay increases.

BNA Plan:
The BNA Plan is a noncontributory defined benefit pension plan covering certain employees formerly of Boeing North American, Inc. (formerly Rockwell International Corporation), a subsidiary merged into the Company effective December 1996. The BNA Plan is made up of various sub-plans with varying plan provisions. Since 2000, the only sub-plan with active employees is the BNA Sub-Plan R02/Aerospace Hourly Plan ("R02 Sub Plan"). Effective January 1, 2009, the R02 Sub Plan was closed to new entrants and all benefit accruals in the R02 Sub Plan were frozen effective December 31, 2016.

BSS Plan:
The BSS Plan is a contributory defined benefit pension plan covering certain nonbargained employees formerly of Boeing Satellite Systems, Inc. ("BSS"), a subsidiary merged into the Company effective October 2000. The BSS Plan was closed to new entrants for the contributory benefit structure effective January 1, 1991. Noncontributory benefits of the BSS Plan were transferred to the PVP Plan on April 1, 2003. All benefit accruals under the BSS Plan were frozen as of December 31, 2015.

1. DESCRIPTION OF THE PLANS (CONTINUED)

BSSB Plan:
The BSSB Plan is a defined benefit pension plan with both contributory and noncontributory benefit structures covering certain bargained employees formerly of BSS. Eligible active employees are located in Southern California represented by Cabinet Makers, Millmen and Industrial Carpenters, Local No. 721 (formerly Electronic and Space Technicians Local No. 1553). The contributory portion of the BSSB Plan has been closed to new Participants since 1992. Effective January 1, 2012, the noncontributory portion of the BSSB Plan was closed to new entrants. Benefit accruals under the BSSB Plan were frozen effective December 31, 2018.

Hourly East Plan and Hourly West Plan:
The Hourly East Plan and Hourly West Plan are noncontributory defined benefit pension plans covering certain employees formerly of McDonnell Douglas Corporation ("MDC"), which merged with the Company effective August 1997. The Hourly East Plan and Hourly West Plan are closed to all unions. These closure dates range from January 1, 2012 through January 1, 2014 for the Hourly East Plan and January 1, 2010 through February 1, 2014 for the Hourly West Plan. All benefit accruals under the Hourly East Plan and Hourly West Plan were frozen by December 31, 2018.

NCRP Plan:
The NCRP Plan is a noncontributory defined benefit pension plan covering certain bargained employees of the Company, represented by United Automobile, Aerospace and Agricultural Implement Workers of America, Local 1069, in Ridley Park, Pennsylvania. Effective January 1, 2014, the NCRP Plan was closed to new entrants. All benefit accruals under the NCRP Plan were frozen effective December 31, 2016.

PVP Plan:
The PVP Plan is a noncontributory defined benefit pension plan covering certain nonunion salaried employees of the Company. Effective January 1, 2009, the PVP Plan was closed to new entrants. Benefit accruals under the PVP Plan were frozen, other than interest credits applied to Participants' cash balance hypothetical accounts to the extent required by law, effective December 31, 2015.

The assets of the Plans, along with two other plans sponsored by the Company and not included in the accompanying financial statements, are held in The Boeing Company Employee Retirement Plans Master Trust (the "Master Trust"). J.P. Morgan Chase, N.A. ("J.P. Morgan") serves as the trustee for the Master Trust. The Employee Benefit Plans Committee has the overall responsibility for the operation and administration of the Plans. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The "Total (Memorandum Only)" columns in the accompanying Statements of Net Assets Available for Benefits and Statements of Changes in Net Assets Available for Benefits represent the total activity for the Plans and are provided for information purposes only.

1. DESCRIPTION OF THE PLANS (CONTINUED)

Employee Contributions —Prior to January 1, 2019, for the BSSB Plan, and prior to January 1, 2016, for the BSS Plan, a Participant's current rate of contribution was 3% of eligible compensation. Participants could suspend contributions, but they did not accrue benefit service for periods when they did not contribute; however, contribution suspension did not interrupt their continuous service or years of vesting service. If contributions were suspended, Participants had to wait 12 calendar months before they could begin to contribute again, provided they were still eligible. Participants are always vested in their own contributions to the respective BSS Plan and BSSB Plan. Effective January 1, 2016, employee contributions were no longer allowed under the BSS Plan as all benefit accruals under the BSS Plan were frozen. Effective January 1, 2019, employee contributions were no longer allowed under the BSSB Plan as all benefit accruals under the BSSB Plan were frozen.

Employer Contributions — The funding policy of the Company is to contribute an amount at least equal to the minimum required contribution under ERISA to each of the Plans. The Plans have met the minimum funding requirements of ERISA, and no cash contributions were required under ERISA for the years ended December 31, 2022 and 2021. Although no contributions were required under ERISA, the Company may make discretionary contributions to the Plans.

Pension Benefits — Generally, except as noted for the specific Plans below, Participants with five or more years of vesting service are entitled to benefits under the Plans. The Plans generally provide for normal retirement benefits upon reaching age 65 and have provisions for early retirement benefits. Benefits are payable in the form of a joint and survivor annuity, a single life annuity, or other payment forms, as specified in the applicable plan document. Monthly pension benefits beginning at normal retirement age are generally determined as follows:

Plan	Determination of Benefit Payment Amount
BCERP Plan	The greater of (1) a final average monthly earnings formula, or (2) a rate, based on union affiliation, multiplied by each year of credited service
BNA Plan	For the BNA R02 Sub Plan (the only sub-plan with Participants who were actively accruing benefits prior to the Plan freeze), benefits are based on a rate multiplied by each year of benefit service. Other benefits vary per applicable sub-plan.
BSS Plan	The contributory benefit is funded by the Company, as well as employee contributions. The contributory benefit is the best of three formulas: 1) a career average formula, 2) a final average monthly compensation formula, and 3) a minimum benefit formula. *Cost of Living Adjustment ("COLA") —* Monthly benefits under the contributory benefit may be adjusted annually to reflect changes in the cost of living. The adjustment is made every January 1 and is based on the change in the Consumer Price Index ("CPI") relative to the year before; however, if the BSS Plan is terminated, no COLA will be provided except to Participants who are already receiving retirement payments. To be eligible for a COLA, Participants must have retired on their early, normal, or late retirement date.

1. DESCRIPTION OF THE PLANS (CONTINUED)

BSSB Plan	Participants could accrue benefits in one of two benefit structures of the BSSB Plan (contributory and noncontributory); however, if they were accruing in the noncontributory structure, they may also have prior contributory accruals. The noncontributory benefit is funded solely by contributions made to the BSSB Plan by the Company, as defined by the plan document. Benefits are based on a formula, including final average monthly earnings, service, and covered compensation. The contributory benefit is funded by the Company, as well as employee contributions. The contributory benefit is the best of three formulas: 1) a career average formula, 2) a final average monthly compensation formula, and 3) a minimum benefit formula. *COLA* — Monthly benefits under the contributory benefit may be adjusted annually to reflect changes in the cost of living. The adjustment is made every January 1 and is based on the change in the CPI relative to the year before; however, if the BSSB Plan is terminated, no COLA will be provided except to Participants who are already receiving retirement payments. To be eligible for a COLA, Participants must have retired on their early, normal, or late retirement date and with a contributory benefit.
Hourly East Plan	A rate, based on union affiliation, multiplied by each year of benefit service while employed with a covered group
Hourly West Plan	A rate, based on union affiliation, multiplied by each year of benefit service while employed with a covered group
NCRP Plan	A rate multiplied by each year of credited service

<tr>
<td>PVP Plan</td>
<td>Participants with three or more years of vesting service and Participants who are at least age 62 at termination with one or more years of service are entitled to benefits under the PVP Plan.

PVP Plan features that are relevant to the benefit include, but are not limited to:

• Participants in the PVP Plan maintain a hypothetical separate account similar to a defined contribution plan, although the Company makes all contributions to the PVP Plan. Participants are not permitted to make contributions.

• Interest credits applied to Participants' hypothetical accounts are based on the yield of the 30-year U.S. Treasury bond (but not less than an interest credit minimum rate of 5% (5.25% prior to January 1, 2016) or greater than an interest credit maximum rate of 10%). The crediting rate was 5% as of December 31, 2022 and 2021.

• Benefits relating to prior service and transferred to the PVP Plan ("Heritage Benefits") were generally earned under the BCERP Plan, BNA Plan, BSS Plan, and the former McDonnell Douglas Corporation — Salaried Plan ("MDC-Salaried"); Heritage Benefits increased in relation to growth in base pay but not for service earned after these benefits were transferred into the PVP Plan.

Monthly pension benefits beginning at normal retirement age (65) equal the greater of the combined benefits described in (1) plus (2) or the benefit described in (3) below:

1. The benefit credits, including a percentage of eligible pay based on the Participant's age for each year he or she works for the Company, plus interest credits divided by an annuity conversion factor of 11. This annual benefit is then divided by 12 to calculate a monthly benefit.

2. Heritage Benefits transferred to the PVP Plan, plus growth due to increases in base pay after the transfer date.

3. A rate multiplied by each year of benefit service.

Benefits for certain frozen plans have been merged into the PVP Plan. Those benefits remain frozen and are payable based on the provisions of the specific related plans merged into the PVP Plan.</td>

</table>

Death and Disability Benefits — Death benefits are payable from the Plans under certain circumstances. See plan documents for specific provisions.

There are no provisions for disability benefits from the BSS Plan and BSSB Plan. Since December 1, 2004, the PVP Plan has not provided for disability benefits. Disability benefits for the other Plans are payable from the other Plans under certain circumstances. See plan documents for specific provisions.

1. DESCRIPTION OF THE PLANS (CONTINUED)

Termination — Although it has not expressed any intention to do so, the Company has the right under each of the individual plans, in certain circumstances, to discontinue its contributions at any time and to terminate any of the Plans subject to the provisions set forth in ERISA. In the event a plan terminates, the net assets of the specific plan will be allocated for payment of plan benefits to Participants in an order of priority determined in accordance with ERISA and the applicable plan document.

Certain benefits under the Plans are insured by the PBGC if the Plans terminate. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions; however, the PBGC does not guarantee all types of benefits under the Plans, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plans are guaranteed at the level in effect on the date of the Plans' termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all Participants receive their benefits should a plan terminate at some future time will depend on the sufficiency, at that time, of the net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Plan Amendments — Effective July 1, 2022, Fidelity Investments took over administration of the Plans from Conduent. During the course of transferring administration, the Company made changes to the plan documents to simplify or clarify plan administration and correct certain provisions. None of these changes had a significant impact to the Plans' Present Value of Accumulated Plan Benefits ("PVAB").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial PVAB at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Master Trust utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Market risks include global events, such as a pandemic or international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the values reported in the financial statements.

Plan contributions are made and the actuarial PVAB is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation of Investments — Investments in the Master Trust are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. The Master Trust's investments stated at fair value are valued as follows:

- Corporate bonds, government bonds, mortgage-backed and asset-backed securities, and municipal bonds are primarily valued using a market approach using matrix pricing, which considers a security's relationship to other securities for which quoted prices in an active market may be available, or alternatively based on an income approach, which uses valuation techniques to convert future cash flows to a single present value amount. The valuation approach is designed to maximize the use of observable inputs, such as observable trade prices, multiple broker-dealer quotations, related yield curves, and other assumptions about the security (prepayment projections, cash flows, other security characteristics, etc.) and minimize unobservable inputs. The securities are valued as of the last trading day of the year.

- Common and preferred stock and certain other investments, including real-estate investment trusts, American depository receipts, global depository receipts, rights, and warrants traded in active markets on national and international exchanges are primarily valued using a market approach based on the closing market prices of identical instruments on the last trading day of the year.

- Mutual funds, which are registered investment companies, are valued using quoted market prices to represent the net asset value ("NAV") at year-end.

- Short-term investments include treasury bills, commercial paper, certificates of deposits, and discounted notes with original maturities of up to one year. These investments are primarily valued using a market approach based on matrix pricing as referenced above. In the event that an instrument with an original maturity of less than three months does not have a market price, then those investments are valued at amortized cost, which approximates fair value.

- Other investments include physical commodities and over-the-counter ("OTC") derivatives, such as options and swap contracts. Physical commodities are valued on a market approach using spot prices for the specific commodity. OTC derivatives are valued based upon the expected amount that the Master Trust would receive or pay to exit the derivative at the reporting date. The valuation methodology uses the income approach and relies on inputs, including, but not limited to, benchmark yields, swap curves, cash flow analysis, ratings updates, and interdealer broker rates. Credit risk of the derivative counterparties is offset by collateralizing the expected amount that the Master Trust would receive or pay to terminate the derivative.

- Investments in funds that do not have a readily determinable fair value and meet the criteria of investment companies are valued using the NAV, as the practical expedient. The NAV or its equivalent, such as member units or membership units in partners' capital to which a proportionate share of net assets is attributed, is based on the value of underlying investments. The NAV measurement may be adjusted to estimate net asset value per share for the investment

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

in a manner consistent with measurement principles for investment companies. There were no adjustments in 2022 or 2021.

- Investments in commingled funds, which include common/collective trusts/pooled funds ("CCTs") are valued based on the year-end unit values. Unit values are determined by the issuer, investment manager or third-party administrator by dividing the fair values of the total net assets at year-end by the outstanding units.

- Investments in partnerships are recorded based upon year-end valuations at NAV, which represent the unit of account, and are determined by the general partner and reflected in the audited financial statements of the partnerships. Where necessary, adjustments may be made to general partner valuations to reflect fair value when such valuations are inconsistent with NAV practical expedient criteria.

- Investments in hedge funds consist of direct hedge funds. Direct hedge fund NAV is based on valuation of the underlying holdings including other assets and liabilities of the fund.

- Forward and spot currency contracts are valued using a market value approach based on spot foreign currency rates if the contract tenor is two days or less and interpolated forward rates for any contracts with a tenor greater than two days. Forward and spot currency contracts are included in other receivables and other liabilities on the Master Trust's statements of net assets.

- To-be-announced securities ("TBAs") and treasury forwards, which have a delayed future settlement, are valued similarly to securities in active markets. The unrealized market appreciation or depreciation is included in other receivables and other liabilities on the Master Trust's statements of net assets.

Cash and Cash Equivalents — Cash and cash equivalents include cash and cash collateral. Cash includes cash collateral received from counterparties on derivatives. Cash collateral is related to the collateral posted on derivatives.

Investment Income — Net investment income or loss reflected in the statements of changes in net assets includes the Master Trust's net appreciation/depreciation in fair value of investments, interest income, and dividend income, less administrative expenses. The net appreciation/depreciation in fair value of investments includes both realized and unrealized gains and losses and is calculated as the difference between the fair value of the investments as of the beginning of the year or the purchase date in the current year and either the sales price or the end-of-year fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Valuation Oversight — Management of the Plans has implemented processes that are designed to ensure that fair value measurements used by the Master Trust are appropriate and reliable, that they are based on observable inputs wherever possible, and that the valuation approaches are consistently applied and the assumptions used are reasonable. The valuation framework has a set of processes that provides for oversight and validation of the fair value methodologies, as well as valuations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Board of Directors of the Company has delegated the fiduciary oversight of plan assets over various retirement plans held within the Master Trust structures to the Employee Benefit Investment Committee ("EBIC"). The EBIC has sub-delegated this responsibility to the Chief Investment Officer ("CIO"), who manages Trust Investments and chairs the Valuation Committee. Trust Investments is responsible for the oversight of the Master Trust assets including selection and monitoring of investment managers, asset strategies, and risk management. The Valuation Committee is responsible for the oversight of the valuation practices of the Master Trust and is represented by members of Trust Investments, including Risk Management and Trust Operations, Public Markets, and Investment Strategy. The Valuation Committee meets periodically with the purpose of fulfilling the following responsibilities and provides an annual review to the EBIC of its findings and actions:

- Review and approve annually the valuation practices, including those used by third parties
- Review and approve the year-end valuations, including the methods used to develop and substantiate the unobservable inputs used in the fair value measurement
- Review analysis and benchmarks used by the Company and the Master Trust to assess the reasonableness of the year-end valuations and changes in fair value measurements from period to period
- Review and approve annual financial statement disclosures of the investments held in the Master Trust

Investments in funds are generally valued using the NAV or its equivalent. This includes partnerships, hedge funds, and other commingled investments. Valuations provided by the funds are reviewed at least quarterly. The fund's audited financial statements are used in the Master Trust's annual financial reporting process, where applicable. Assessments of reasonableness include regular asset manager meetings and review of quarterly reports, third-party reviews and reconciliations, which includes escalation to Trust Investments for exceptions, quarterly CIO investment reviews, and reviews of manager valuation policies. Valuation policies are reviewed when a new mandate is entered into with an asset manager, on a rolling three-year basis for existing managers, or as changes to policies are provided by managers.

Corporate bonds, government bonds, mortgage-backed and asset-backed securities, municipal bonds, common and preferred stocks, mutual funds and derivative instruments are generally valued using valuations obtained from pricing vendors. Pricing vendor valuation methodologies and custodian pricing controls and related documentation are assessed for reasonableness on an annual basis. The pricing vendor due diligence process includes reviews of pricing controls and procedures, as well as discussions in order to maintain a current understanding of the valuation processes and related assumptions and inputs that may be used by the vendors to price instruments. The custodian due diligence process includes reviews of pricing controls and procedures that are carried out on the Master Trust's behalf. This includes various levels of tolerance checks on price changes, review of stale or unchanged prices, multiprice source comparisons, and vendor price challenges. Additionally, on a monthly basis, the custodian reconciles its valuations to valuations obtained from each investment manager and any exceptions are reported to Trust Investments for resolution, which may include escalation to the Valuation Committee.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Securities Purchased with an Agreement to Resell — Resale agreements are treated as financing arrangements in receivables and are carried at contract amounts reflective of the amounts at which the securities will be subsequently resold, as specified in the respective agreements. Resale agreements are collateralized by high-quality, fixed-income securities. The Master Trust's policy is to take physical possession or control of the securities purchased under agreements to resell and is permitted by contract to sell or repledge. The Master Trust monitors the market value of the underlying securities as compared to the related receivable, including accrued interest, and requires additional collateral where deemed appropriate. At December 31, 2022, the fair value of the securities received as collateral for resale agreements of $10,800,000 was $11,023,671. There were no resale agreements as of December 31, 2021.

Benefits — Benefits are recorded when paid.

Administrative Expenses — Necessary and proper expenses of the Plans are paid from plan assets, at both the Plan and Master Trust levels, except for those expenses the Company is required by law or chooses to pay.

Subsequent Events — Subsequent events were evaluated through September 20, 2023, the date the financial statements were available to be issued.

In 2022, the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, U.A.W., and its Local 1069 (the "Union") entered into a new bargaining agreement with the Company. The new bargaining agreement provides for ongoing lump sum benefits for participants in the NCRP Plan. Effective January 1, 2023, a terminated participant may elect to receive their benefit in a lump sum at any time following termination of employment.

3. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments and lump sum distributions attributable under the Plans' provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated vested employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The PVAB has been determined by an independent actuary and is the sum of accumulated benefits adjusted to reflect the probability of payment (by means of decrements, such as death, disability, termination, or retirement) and the time value of money (through discounts for interest) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the December 31, 2021 valuations, the latest valuations, were as follows:

Actuarial cost method: Unit Credit

Assumed rate of return: 6.25%

Mortality: RP-2006 tables without collar or amount adjustments, projected to 2015 with scale MP-2017, but adjusted based on a study of annuitant mortality experience during the 2013-2017 plan years. Rates are projected generationally from 2015 using an adjustment to the MP-2021 scales based on the Social Security Administration's intermediate estimate long-term rate of mortality improvement.

Average retirement age range: 57 – 63

Cash balance interest indexing rate (applicable to the PVP Plan only): 5.00%

The foregoing actuarial assumptions are based on the presumption that the Plans will continue in operation. If a plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial PVAB.

Assumption changes for the year ended December 31, 2021 include an update in the mortality MP scale and a change in the discount rate from 6.50% to 6.25%.

For the BSS Plan, the accumulated contributions of active employees are presented as of the beginning of the plan year. As of December 31, 2021 and 2020, the accumulated contributions of active employees, including interest credited on those contributions, amounted to approximately $11,349,000 and $16,386,000, respectively. As of December 31, 2021 and 2020, the rates for which interest was credited on the contributions were 1.01% and 1.77%, respectively.

For the BSSB Plan, the accumulated contributions of active employees are presented as of the beginning of the plan year. As of December 31, 2021 and 2020, the accumulated contributions of active employees, including interest credited on those contributions, amounted to approximately $1,815,000 and $2,322,000, respectively. As of December 31, 2021 and 2020, the rates for which interest was credited on the contributions were 1.01% and 1.77%, respectively.

4. MASTER TRUST

The Master Trust facilitates the commingling of employee benefit plan assets for investment and administrative purposes. Assets are invested in accordance with the Master Trust's investment policy and are diversified among various asset classes. These assets are invested in individual investment accounts, separately held assets, and investments held in various types of funds, all of which are managed in accordance with established investment guidelines and are valued based on the fair value.

On a daily basis, the Plans may have contributions, withdrawals, asset transfers (in combination with a liability transfer), and/or expense charges. The trustee calculates a market value for each plan for each day of the month. At month-end, these "dollar days" are aggregated to determine a daily dollar-weighted-average market value for each participating plan in the Master Trust. This average is then used to allocate to each participating plan its share of realized gains/losses, unrealized appreciation/depreciation, income, and expenses in order to arrive at each plan's ending beneficial interest in the Master Trust. All expenses that are plan specific are recorded on that basis.

The Plans' ownership interest percentages in the Master Trust were as follows as of December 31, 2022 and 2021:

Plan	2022	2021
BCERP Plan	34.5%	34.7%
BNA Plan	5.1%	5.2%
BSS Plan	1.1%	1.3%
BSSB Plan	0.2%	0.3%
Hourly East Plan	3.0%	2.9%
Hourly West Plan	3.6%	3.5%
NCRP Plan	1.2%	1.1%
PVP Plan	51.0%	50.6%

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 for financial assets and financial liabilities are described below:

Level 1 — Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical and unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 — Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 — Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who owns an asset or owes a liability. Accordingly, when market observable data is not readily available, assumptions are set to reflect those that market participants would be presumed to use in pricing the asset or liability at the measurement date. Prices and inputs are used that are current as of the measurement date, including during periods of market disruption. In periods of market disruption, the ability to observe prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2, Level 1 to Level 3, or Level 2 to Level 3.

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

The following tables set forth by level within the fair value hierarchy a summary of the Master Trust investments by general types of assets and liabilities measured at fair value on a recurring basis as of December 31, 2022 and 2021. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

*The amounts not leveled are related to investments using NAV as a practical expedient to estimate fair value, and non-investment assets and liabilities.
The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Master Trust's statements of net assets.

Master Trust net assets at fair value classified within Level 3 primarily consisted of investments in corporate bonds, mortgage-backed and asset-backed securities and municipal bonds as of December 31, 2022 and 2021. Such amounts were 0.54% and 0.29% of net assets as of December 31, 2022 and 2021, respectively.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

During 2022, $29,987,324 of corporate bonds, $73,731,276 of mortgage-backed and asset-backed securities, and $23,551,143 of municipal bonds were reclassified from Level 2 to Level 3, as valuation used significant unobservable inputs. In addition, $8,675,985 of government bonds, $20,488,235 of asset-backed securities and $15,794,497 of municipal bonds were reclassified from Level 3 to Level 2 as valuation used significant other observable inputs. Lastly, $3,580,570 of common and preferred stock was reclassified from Level 3 to Level 1, as valuation used quoted prices.

During 2021, $8,987,000 of corporate bonds, $23,563,593 of mortgage-backed and asset-backed securities, and $1,084,880 of municipal bonds were reclassified from Level 2 to Level 3, and $3,902,469 of common and preferred stock were reclassified from Level 1 to Level 3, as valuation used significant unobservable inputs. In addition, $26,390,866 of mortgage-backed and asset-backed securities and $51,248,865 of municipal bonds were reclassified from Level 3 to Level 2, as valuation used significant other observable inputs.

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

Other Financial Instruments — The Master Trust and the Plans hold other assets and liabilities not measured at fair value on a recurring basis, including cash and cash equivalents, receivables and liabilities. The fair value of these assets and liabilities approximates the carrying amounts in the Master Trust's and the Plans' accompanying financial statements due to the short maturity of the instruments.

6. INVESTMENTS MEASURED AT NET ASSET VALUE

In accordance with ASC 820, the following is a summary of the Master Trust investments in which the NAV per share of the investment is used to estimate its fair value. The summaries below are categorized by general types of assets as disclosed in the Master Trust's statements of net assets. For each general type of assets utilizing the NAV, the fair value, redemption frequency, and redemption notice period as of December 31, 2022 and 2021 are disclosed.

Commingled Funds — This category includes investments in U.S. and non-U.S. securities held by a CCT, real estate and real asset investments via commingled funds and insurance company pooled separate accounts. Generally, redemptions may occur daily, weekly, monthly or quarterly depending upon the fund. For a majority of the funds, redemption notices may be given daily or up to five business days in advance, with redemption notices of up to 30 to 90 days in advance for certain funds. If the fund determines that it would be detrimental to the interests of remaining fund investors to pay wholly or in part with cash based on availability of cash for distributions, distributions may also include securities in kind. Additionally, for large withdrawals, the portfolio manager of the fund may require additional time (up to several weeks) to liquidate assets to satisfy the withdrawal requests. Under extraordinary circumstances, some of the funds may temporarily delay distributions or make distributions of securities in kind. For the CCTs with a quarterly redemption frequency, the notice period ranges from 30 to 90 days in advance of quarter-end. These funds are restricted to a redemption queue. A redemption queue is a restriction on withdrawals from a fund due to liquidity restrictions. The fund manager restricts the percentage of the fund that is available for redemption during each redemption period. All investors in the queue receive an equal portion of the available liquidity. The queue continues until all investor redemption requests are satisfied or the queue is lifted in its entirety.

6. INVESTMENTS MEASURED AT NET ASSET VALUE (CONTINUED)

Partnerships — This category includes investments in private equities held by limited partnerships that may include buyout, venture, special situations, distressed debt, or fund-of-fund strategies. This category also includes investments in private real estate (such as office, retail, apartment, and industrial properties) and real assets (such as infrastructure, energy, farmland, and timber) made through limited partnerships. Generally, limited partnerships require investors to commit to contribute additional capital during an investment period and do not provide redemption rights. As such, the Master Trust may receive distributions from the proceeds as the underlying assets are sold or income is distributed. The Master Trust maintains an active portfolio of private equity and real estate/real asset limited partnership investments that are in various stages of investment. The current portfolio of investments is expected to liquidate over a period of up to ten years.

		As of December 31, 2022		As of December 31, 2021	
Redemption Frequency	Redemption Notice Period	Fair Value	Unfunded Commitments	Fair Value	Unfunded Commitments
Quarterly	From 45 up to 90 days	$ 720,459,498	$ -	$ 895,653,017	$ -

Hedge Funds — This category includes investments in direct hedge funds. Common hedge fund strategies include event-driven, relative value, long-short, and market neutral. Each hedge fund has its own redemption rights and distribution process specified in the fund prospectus. Redemption is generally allowed subject to liquidity and certain restrictions. These restrictions generally include fund-level gates and lockup periods. A "gate" provision allows a hedge fund manager to limit the amount of withdrawals on any withdrawal date to not more than a stated percentage of a fund's net assets — often 10% to 25%, depending on how frequently investors have a right to withdraw capital. A "lock-up" provision restricts an investor's ability to withdraw capital from a hedge fund for some stated period of time. It is common for hedge funds to lock-up an investor's investments for one or two years. As of December 31, 2022, the lock-up restrictions had expired based on each individual fund's contractual terms. For the funds in liquidation, $35,995,455 was fully liquidated in January 2023. For the remaining funds in liquidation, the timing of liquidation has not been communicated by the funds.

7. DERIVATIVE FINANCIAL INSTRUMENTS

ASC 815, *Derivatives and Hedging*, requires disclosures on how and why derivatives are used, accounted for, and affect the results of operations and financial position. Derivative instruments held by the Master Trust are not designated as hedging instruments under ASC 815. The Master Trust investments are exposed to the following financial instrument risks:

Interest Rate Risk — Interest rate risk is the risk of change in the market value of the assets due to a change in interest rates. Bond futures, interest rate swaps, and interest rate swaptions are generally used to manage interest rate risk or adjust portfolio duration. A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Interest rate swap agreements involve the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments, with respect to the notional amount of principal. Interest rate swaptions are options to enter into an interest rate swap based on predetermined conditions.

Credit Risk — Credit risk is the risk of change in the market value of assets due to the change in creditworthiness of the underlying issuer. Credit default swaps are used to manage the credit exposure of a security or basket of securities. Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation, or index. Credit default options (also known as credit default swaptions) are options on credit default swaps. A credit default option gives its holder the right, but not the obligation, to buy (call) or sell (put) protection on a specified reference entity for a specified future time period for a certain spread.

Foreign Currency Risk — Currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Generally, currency futures and forward contracts are used to achieve the desired currency exposure, or generate value-added performance. Foreign currency futures and forwards are agreements between two parties to buy and sell a set of currencies at a set exchange rate on a specified future date. A currency option gives the buyer the right, but not the obligation, to buy one currency or sell another currency at a set exchange rate on or before a given date.

Equity Risk — Equity risk is the risk of a change in market value of assets due to the change in equity or equity index prices. Equity futures, contracts for difference, and equity swaps are generally used to manage the market exposure of a security or index, or rebalance the total portfolio to the target asset allocation. An equity futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. A contract for difference is an agreement between two parties in which the seller will pay to the buyer the difference between the current value of an asset and its value at contract time (if the difference is negative, then the buyer will pay the seller). Equity swaps generally exchange the return on a stock or stock index for the return of another financial instrument such as a different stock or equity index or SOFR (Secured Overnight Financing Rate) or other similar alternative reference rates.

Commodity Risk — Commodity risk is the risk of change in the market value of the underlying commodity due to a change in the price of the commodity. Commodity futures, swaps, and options are generally used to achieve the desired market exposure to commodities. A futures contract is an agreement between two parties to buy and sell a commodity at a set price on a future date. Commodity swaps are agreements involving the exchange by the Master Trust, with a counterparty, of respective commitments to pay or receive cash flows, e.g., an exchange of payments based on the price

7. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

movement for the commodity, with respect to the notional amount of principal. Commodity options give the buyer the right, but not the obligation, to buy one commodity or sell another commodity at a set price on or before a given date.

Future Settlement Risk — Future settlement risk is the risk of counterparty nonperformance resulting in not receiving the asset or associated gains specified in the contract. Gains are derived from the change in market value of the contract due to a change in price of the underlying security. Mortgage TBAs are used to manage the market exposure of a security or asset class. A TBA is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed-upon date.

As of December 31, 2022 and 2021, the Master Trust has invested in derivative contracts, which are reflected in the Master Trust's statements of net assets as follows:

7. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

The following tables summarize the gross notional value of derivative contracts outstanding as of December 31, 2022 and 2021. The gross notional amounts give an indication of the volume of the Master Trust's derivative activities and significantly exceed the fair value of the derivative investments, which is more representative of the theoretical economic exposure associated with derivatives in the Master Trust.

Derivatives are generally used to manage the market exposure of a security, index or currency, interest rate risk, or adjust the portfolio duration. Derivative contracts are instruments that derive their value from underlying assets, indices, reference interest rates, or a combination of these factors. Refer to Note 2 for further description of how derivative instruments are valued. Certain cash instruments, such as mortgage-backed TBAs, meet the definition of a derivative instrument under U.S. GAAP.

The nature of the counterparty and the settlement mechanism of the derivative affect the credit risk to which the Master Trust is exposed. For OTC derivatives such as swaps, forwards, options and TBAs, the Master Trust is exposed to the credit risk of the derivative counterparty.

For exchange-traded derivatives, such as futures and options, and "cleared" OTC swaps, the Master Trust is generally exposed to the credit risk of the relevant exchange or clearinghouse. Where possible, the Master Trust seeks to mitigate its credit risk exposures arising on derivatives transactions through the use of legally enforceable master netting arrangements and collateral agreements.

7. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

The Master Trust is also exposed to liquidity risk in the following situations:

1) When the derivative contracts require the Master Trust to post additional cash or securities collateral with counterparties as the fair value of the contracts moves in the counterparties' favor and the Master Trust's receivables under related contracts are unavailable for offset or insufficient in value to offset the payment obligation to the counterparty.

2) When certain derivative contracts have credit-related contingent features under the International Swaps and Derivatives Association Master Agreement (generally swaps) with counterparties for contracts in a net liability position.

The Master Trust has liquidity risk if its assets decline by various, pre-specified rates over predetermined time periods. If this occurs, the Master Trust is required to post more collateral or may be required to pay off the open liability contracts given the counterparty's right to terminate the contract. At December 31, 2022 and 2021, the Master Trust had a fair value of $50,214,200 and $27,113,703, respectively, in contracts in a net liability position with contingent features. $5,001,000 and $28,878,734, respectively, were posted in collateral against derivative contracts. There was no additional collateral required to be posted in the event that a contingent event had occurred at December 31, 2022 and December 31, 2021. Certain derivatives contracts also provide for the right to terminate the contract if a contingent event occurs. At December 31, 2022 and 2021, these terminations would have required the Master Trust to settle trades with a fair value of $68,302,543 and $30,178,599, respectively.

The Master Trust holds credit derivatives which are included in other investments and other liabilities on the Master Trust's statements of net assets. The fair value of credit derivatives where the Master Trust is the seller of the credit derivatives is $1,597,293 and $7,814,317 as of December 31, 2022 and 2021, respectively. The total gross notional value of credit derivatives where the Master Trust is the seller is $369,024,960 and $445,156,377 (0.75% and 0.66% of net assets) as of December 31, 2022 and 2021, respectively.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are managed by J.P. Morgan Asset Management. J.P. Morgan Asset Management is an affiliate of J.P. Morgan, the trustee for the Master Trust and the Plans; therefore, these transactions qualify as related party and party-in-interest transactions. The investment management fees to J.P. Morgan Asset Management are paid at the Master Trust level.

At December 31, 2022 and 2021, the Master Trust held 9,352,727 shares of common stock of the Company, with fair value of $1,781,600,966 and $1,882,891,000, respectively and a cost basis of $1,677,505,115. The common stock of the Company is included in common and preferred stock on the Master Trust's statements of net assets as of December 31, 2022 and 2021.

The EBIC has delegated exclusive authority for management and disposition of the common stock of the Company held within the Master Trust to Newport Trust Company ("Newport"), an independent fiduciary and investment manager. When Newport disposes of shares, the proceeds are used for liquidity needs or reinvested into other asset classes.

9. TAX STATUS

The Internal Revenue Service ("IRS") determined and informed the Company by letters dated March 6, 2015 (for the BCERP Plan, BNA Plan, BSSB Plan, Hourly East Plan, and Hourly West Plan), May 7, 2015 (for the NCRP Plan), June 9, 2015 (for the BSS Plan) and July 8, 2021 (for the PVP Plan) that the Plans and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plans have been amended since receiving their determination letters. The Plans' administrator believes that the Plans are designed and are currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plans' administrator believes the Plans' tax-exempt status has not been affected, and no provision for income taxes has been included in the Plans' financial statements. The Plans are subject to routine audits by taxing jurisdictions. The BCERP Plan is currently under examination by the IRS.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

■ Applicable month	September 2021
■ Interest rate basis	3-Segment Rates

Interest rates:	Reflecting Corridors	Not Reflecting Corridors
■ First segment rate	4.75%	1.07%
■ Second segment rate	5.18%	2.68%
■ Third segment rate	5.92%	3.36%
■ Effective interest rate	5.38%	2.83%

Annual rates of increase in:

■ Salary	N/A
■ Cost of Living Adjustments	2.50%
■ Social Security Wage Base	3.00%
■ Consumer Price Index	2.50%
■ Statutory limits on compensation and benefits	N/A
■ Assumed earnings rate on investments	6.11%[1]
■ Plan related expenses	Plan-related expenses are assumed to be the actual prior year administrative expenses adjusted for the expected change in PBGC premium rounded up to two significant digits. The assumed administrative expenses is $430,000 for 2022 and $440,000 for 2021.

[1] Used to develop the expected return in 2021 for the development of the actuarial value of assets. Represents the lesser of the long-term expected asset return and third segment rate used for the 2021 valuation.

SCHEDULE SB ATTACHMENTS

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, as well as a 5.0% floor on each segment rate before application of the corridor, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to dertermine the deductible limit, PBGC FTAP, and the PBGC 4010 FS.

Demographic Assumptions

Mortality

Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2020) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2020) (Exhibit A).

Termination

Representative termination rates not due to disability, retirement, or mortality.

Age	Contributory	Non-Contributory
30	0.032	0.192
35	0.027	0.162
40	0.022	0.132
45	0.018	0.105
50	0.000	0.075
55	0.000	0.000

Rates are 0.0% if eligible to retire.

Disability

None.

Form of payment

For contributory participants, 90% are assumed to elect a five-year certain annuity and 10% are assumed to elect a single life annuity. For non-contributory participants, 60% are assumed to elect a ten-year certain annuity and 40% are assumed to elect a single life annuity. Actuarial equivalence for certain payment options is assumed to be the greater of the funding target liability interest and IRS unisex mortality for 2022 or the IRS Revenue Ruling 2001-62 mortality table and a select and ultimate interest rate. The rates used are 1.92% for commencements in 2022, 2.25% for 2023 and 2024, and 2.50% for 2025 and thereafter.

A post-retirement cost-of-living assumption of 4.00% is applied for eligible participants when converting to alternative benefit payment options.

Percent married

For purpose of valuing the pre-retirement surviving spouse's benefit, 80% of eligible male participants are assumed to be

	married, and 60% of eligible female participants are assumed to be married.
Spouse age	Spouse two years younger than male employee, spouse two years older than female employee.
Interest on employee contributions	It is assumed employee contributions will be credited with interest at the rate of 1.01% annually, which is based on the 24-month average of 120% of the Applicable Federal Rate for the period ending December 2021.
Employees	It is assumed that there will be no new or rehired employees.
Benefit commencement for terminated vested participants	Terminated vested participants are assumed to commence benefits at age 62, or immediately if past age 62. Participants over age 65 are assumed to collect a retroactive payment equal to the sum of their missed payments, increased with interest to their age as of the valuation date.
Missing participants	Terminated vested participants who have been identified by the Plan Administrator as Missing Participants are deemed to have forfeited their benefits. It is assumed that no claim for these benefits will be made.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC *§*430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year, reduced by expected employee contributions as required by regulations under IRC *§*430.
Actuarial value of assets	Average of the market value of assets on the valuation date and the preceding two valuation dates, adjusted for contributions, benefits, administrative expenses and expected return (with

such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of the market value on the valuation date, including contributions receivable (discounted using the effective interest rate for the prior plan year).

Funding policy

The funding policy of the plan is to contribute an amount each year that is at least equal to the minimum required contribution under federal law and that is tax-deductible under the Internal Revenue Code.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Boeing regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Boeing and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Willis Towers Watson used asset data supplied by Boeing. Boeing furnished the dates and amounts of the plan contributions. Boeing, through its third-party administrator, furnished participant data as of January 1, 2022. Data for active plan participants as of January 1, 2022, includes accrued benefits for frozen participants determined by the plan administrator. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. Data estimates and assumptions are documented in a data assumptions memo sent to Boeing on June 21, 2022.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Considerations due to COVID-19

The COVID-19 pandemic has disrupted Boeing's business operations as well as the economic outlook. Accordingly, Willis Towers Watson has reviewed and evaluated the non-prescribed economic and demographic assumptions to determine whether adjustments may be warranted. Below is a summary of this review for applicable significant assumptions:

Termination and retirement from active status – Decrements beyond 2021 have not been changed given the expectation that experience will revert to the long-term assumption.

Payment form conversion rates and cost of living adjustment (COLA) increases and inflation rate (CPI) – Boeing does not anticipate the short or long-term relationships of these assumptions to change

relative to current capital markets and corporate bond rates that are used for assumption setting purposes as a result of the pandemic.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen by the plan sponsor is among the choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cost of Living Adjustment (COLA) and inflation (CPI) assumption	Assumed COLA and CPI represents an estimate of future experience, taking historical data into consideration. CPI is assumed to be 2.5%.
Payment Form Conversion Rate	The BSSB Plan provides that certain-only forms of payment are converted from the life annuity form using 30-year Treasury rates. The 1.92% rate used for commencements in 2022 are the current rates used in the administration of the plan. The rates used for commencements beyond 2022 are select and ultimate rates based on the economic model in Boeing's Long-Range Business Plan (LRBP), including an ultimate rate of 2.50%. The conversion also uses a 4.00% assumed annual cost-of-living adjustment, consistent with administrative practice. .
Pension Plan administrative expenses	Administrative expenses are based on the prior year's actual administrative expenses and expected changes in PBGC premiums rounded up to two significant figures.
Limit on expected return on assets for AVA	The assumed return of 6.11% used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, the expected return on assets assumption chosen by Boeing with the help of their investment advisers under U.S. GAAP for 2021 is 6.50%. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale – Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are among the choices prescribed by IRC §430(h).
Termination	The assumed termination rates are based on actual termination experience by the plan over the period 2011 – 2015, with consideration for future conditions that might be expected to produce different results in the future. The analysis of historical

	termination rates was presented in the experience study delivered to Boeing on November 1, 2016.
Retirement	The assumed rates of retirement from active employment are based on actual retirement experience by the plan over the period 2016 – 2019, with considerations for future conditions that might be expected to produce different results in the future. The analysis of historical rates of retirement from active employment was presented in the experience study delivered to Boeing on October 31, 2019.
Deferred vested benefit commencement date	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement, based on plan experience. The analysis of historical ages of benefit commencement for deferred vested participants was presented in the experience study delivered to Boeing on September 2, 2021.
Form of payment	Form of payment assumptions for the BSS plan was based on experience studies conducted in 2018, with consideration for future conditions that might be expected to produce different results in the future. These assumptions were reviewed and not changed in the experience study provided to Boeing on September 2, 2021.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2020 to September 2021 before application of interest rate stabilization corridors. In addition, the segment interest rates were updated from reflecting interest rate corridors applicable for a January 1, 2021 valuation to those applicable for a January 1, 2022 valuation.

SCHEDULE SB ATTACHMENTS

- The assumed mortality for healthy participants has been updated to use the MP-2020 projection scale as specified in the regulations under §1.430(h)(3)-1.
- The employee contribution interest crediting rate is the 24-month average of 120% of the Applicable Federal Rate for the period ending December prior to the valuation date. That rate was updated to 1.01% from 1.77% in the prior year.
- The interest rate assumption for the actuarial equivalence for the five year certain payment option was updated to 1.92% for 2022, 2.25% for 2023 and 2024, and 2.50% thereafter. The rates used for conversions during 2022 is the rate in effect for the current plan year, and the assumed payment form conversion rate is projected based on Boeing's long-range business plan.
- The assumed percentage of married participants was changed from 85% for both males and females in 2021, to 80% for males and 60% for females in 2022. This change is based on the results of experience study delivered to Boeing on December 2, 2021.
- The spouse age assumption was updated such that spouses of male employees are assumed to be two years younger than the participants, and spouses of female employees assumed to be two years older than the participants. This change is based on the results of experience study delivered to Boeing on December 2, 2021.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

Plan Sponsor	The Boeing Company
EIN/PIN	91-0425694/061
Plan	BSS Retirement Plan for Bargained Employees
Effective Date and Most Recent Amendment	The Plan was established October 6, 2000 (the Closing Date) upon the acquisition of Hughes Space and Communications Company, Hughes Electron Dynamics, Inc., and Spectrolab, Inc., from Hughes Electronics Corporation. The Plan was restated effective January 1, 2015 and last amended effective June 1, 2021 (Amendment No. 11). The amendment allows participants to designate an eligible domestic partner as a beneficiary to receive certain benefits upon the participant's death.
Plan Year	January 1 through December 31.
Coverage and Participation	A U.S. Employee on the payroll of the Company who is represented by a collective bargaining agent if the terms of the collective bargaining agreement covering such Employee specifically provide for coverage under the Plan. An Employee covered by any other defined benefit plan maintained by a member of the Controlled Group is not eligible to participate in this Plan. With respect to any Employee subject to a participating collective bargaining agreement, if as of the specified Election Date the participant did not elect to participate in the non-contributory benefit structure, they shall remain a participant in the contributory benefit structure. Subsequent to the appropriate Election Dates, after 1,000 hours of service in 12 months, the Employee participates in the non-contributory benefit structure unless a specific employee election was made to participate in the Contributory Plan. No employees will become participants after December 31, 2018.

SCHEDULE SB ATTACHMENTS

Benefit Accrual Service	Contributory Benefit Structure Months of service when Employee contributions were made by the participant, or as a participant in the Income Insurance Plan. Benefit accrual service will not increase after December 31, 2018. Non-Contributory Benefit Structure Months of service while not participating in contributory structure and while employed by the Company plus applicable service while employed by appropriate Hughes divisions prior to the Effective Date. Benefit accrual service will not increase after December 31, 2018. No Employee will have any Benefit Accrual Service attributable to employment with the Boeing Controlled Group for any period before the Closing Date. No Employee will have any Benefit Accrual Service attributable to employment with the Hughes Controlled Group for any period on or after the Effective Date.
Total Accrued Service	Benefit Accrual Service in this Plan, plus the appropriate Benefit Accrual Service pursuant to the BSS Retirement Plan.
Continuous Service	Current period of employment with the Boeing Controlled Group including Military Service, but excluding other periods of unpaid absence. Each period of approved unpaid leave from and after January 1, 2020 will be counted as Continuous Service when determining a participant's eligibility for early retirement and unreduced early retirement benefits.
Compensation	Contributory Benefit Structure Regular base pay, shift differential pay, Company sick leave or paid time off, payments of state unemployment compensation for disability while receiving Company sick leave pay, payments of workers' compensation for disability while receiving Company sick leave pay or paid time off, payment for overtime hours, paid time off actually taken, holiday, bereavement, personal leave, jury duty, military training pay when such payments are made by the Company (or paid by a governmental agency and used as an offset by the Company), sea duty premium, hazard area premium, domestic field allowances, flight pay, compensable travel pay, capture and detention pay, foreign service premiums (including mobility allowances), working leader bonuses, sales commissions or bonuses, bonus payments made under the Business Performance Program, cost of living allowances, amounts paid prior to a Separation from Service but before the Closing Date under the Hughes Result Sharing Plan, and amounts deferred by a Participant which are contributed by the Company under a cash or deferred arrangement under Section 401(k) of the Code and

SCHEDULE SB ATTACHMENTS

	amounts deferred by a Participant to the flexible spending account in a Company cafeteria plan under Section 125 of the Code. Non-Contributory Benefit Structure Regular base pay, Company sick leave or paid time off, payments of state unemployment compensation for disability while receiving Company sick leave pay, lead person and shift differentials, payments of workers' compensation for disability while receiving Company sick leave pay, payment for overtime hours, paid time off actually taken, and holiday, bereavement or personal leave pay, sales commissions or bonuses, jury duty, military training pay when such payments are made by the Company (or paid by a governmental agency and used as an offset by the Company), amounts paid prior to a Separation from Service but before the Closing Date under the Hughes Result Sharing Plan, and amounts deferred by a Participant which are contributed by the Company under a cash or deferred arrangement under Section 401(k) of the Code and amounts deferred by a Participant to a flexible spending account in a Company cafeteria plan under Section 125 of the Code.
Final Average Compensation/Salary	Average monthly Compensation for five highest years out of the final 10 years while an Eligible Employee and prior to January 1, 2019. For purposes of determining Final Average Monthly Compensation before the Closing Date, in the event a Participant transferred employment to a member of the Hughes Controlled Group that was not a Company, and if a reciprocal arrangement existed between the Company and such member, then such member was treated as a Participant for purposes of determining Final Average Monthly Compensation unless doing so produced a smaller benefit for the Participant under the Plan than otherwise. As of January 1, 2002, the IRC Section 401(a)(17) limit of $200,000 was applied retroactively for all compensation earned prior to January 1, 2002 for active participants only. Participants who left active status prior to January 1, 2002 are not eligible for this amendment. Before the amendment, all compensation earned prior to January 1, 2002 was limited to the historical IRC Section 401(a)(17) limit for the applicable plan year. Compensation earned for each 12-month period beginning January 1, 2002 and later will be subject to the annual IRC Section 401(a)(17) limit adjusted for cost-of-living increases.
Compensation for Career Average Benefit	For purposes of calculating this benefit, compensation earned for each 12-month period will be subject to the compensation limit of IRC Section 401(a)(17) in effect for each plan year. The retroactive pay cap limit as of January 1, 2002 described on the prior page does not apply for this purpose.

SCHEDULE SB ATTACHMENTS

Social Security Primary Insurance Amount	Monthly primary insurance amount of old age insurance benefit payable on Normal Retirement Date under the federal Social Security Act as in effect on the date of Separation from Service, or December 31, 2018 if sooner. The actual compensation paid to the participant by the Company during the last 10 years of service of the Participant for the Company prior to January 1, 2019 are used in determining the Participant's projected Primary Insurance Amount. Assumed prior compensation starting at age 21 is determined by regressing compensation as of the determination date at 6% per annum.
Social Security Covered Compensation	Monthly average of the Social Security wage bases during the 35 calendar years ending with the calendar year before the year in which the employee reaches Social Security retirement age, or December 31, 2018 if sooner, assuming no change in the wage base after the calendar year of determination, adjusted for each Plan year.
Cost of Living Adjustment (COLA) Eligibility	Participants in the contributory benefit structure are eligible for COLA if separated from active service at age 55 or later, or on account of layoff at age 50 or later with at least 15 years of Continuous Service and at least 70 years of age plus Continuous Service. ▪ Contributory Benefit Structure Annual cost of living adjustments for benefits in payment from 0.96 up to 1.04 based on the annual change in CPI-U, as of the September before the applicable calendar year. ▪ Non-Contributory Benefit Structure None.
Employee Contributions	▪ Contributory Benefit Structure An active Participant contributes 3.00% of Compensation earned in a Plan Year. Contributions cease as of December 31, 2018. ▪ Non-Contributory Benefit Structure None.
Normal Retirement Date	First day of the month coincident with or next following the date on which the Participant reaches age 65.
Early Retirement Eligibility	▪ Regular

Any day after the Participant reaches age 55 and completes five years of vesting service, but before Normal Retirement Age.

- Rule of 75 (Contributory benefit structure only).

  Any day after the Participant separates from active service at age 55 or later and completes the sum of 75 years of age and Continuous Service.

- 50/15 (Contributory benefit structure only).

  If the Participant was laid-off after January 1, 1991, any day after the Participant reaches age 50, completes 15 years of Continuous Service, is within five years of fulfilling the Rule of 75, and executes an Agreement to Arbitrate Claims.

- 62/10 (Non-contributory benefit structure only).

  Any day after the Participant separates from active service at age 62 or later and completes 10 years of Continuous Service.

Late Retirement

Any day after the Participant reaches Normal Retirement Age.

Disability Retirement

None.

Vesting Date

The earlier of five years of vesting service and age 65 for accrued benefit derived from company contributions. Accrued benefit derived from Employee Contributions is non-forfeitable. Employees other than acquired Hughes Participants will have no years of vesting service attributable to any period before the Closing Date.

Normal Retirement Benefit

a. Contributory Benefit Structure

Greatest of the following, including COLA if applicable:

- Final Average Monthly Compensation Benefit:

  i. 1¾% of Final Average Earnings per year of Benefit Accrual Service, less

  ii. Social Security Primary Insurance Amount at the Normal Retirement age times a factor of: 1½% of Total Accrued Service (up to 33-1/3 years), times the ratio of Benefit Accrual Service over Total Accrued Service. For retirements prior to age 62, the factor is not greater than

Age at Separation	Maximum Factor
55	.37
56	.39
57	.42
58	.44

59	.47
60	.49
61	.50

- Career Average Benefit:

  i. 1/24 of total Employee Contributions through December 1, 1985 (net of unrepaid withdrawals), plus

  ii. Accrued Benefit as of December 31, 1975 less 1/24th of Employee Contributions as of December 31, 1975, plus

  iii. 1/12th of [1% of first $3,600 of annual pay plus 2% of annual pay over $3,600] for all Benefit Accrual Service years after 1985.

- Minimum Benefit:

  $13 + ½% of Final Average Earnings, per year of Benefit Accrual Service.

- Equivalent Mandatory Contributions:

  Actuarial equivalent of mandatory Employee Contributions with interest.

b. Non-Contributory Benefit Structure

Monthly benefit equals to i. plus ii. less iii., reduced per Early Retirement reductions if actual retirement is before Normal Retirement Age:

i. 1½% of Final Average Earnings per year of Benefit Accrual Service included in the first 35 years of Total Accrual Service, plus

ii. ½% of Final Average Earnings per year of Benefit Accrual Service included in the Total Benefit Accrual Service in excess of 35 years, less

iii. 0.6% of Final Average Earnings not in excess of Social Security Covered Compensation per year of Benefit Accrual Service included in the first 35 years of Total Accrual Service.

Regular Early Retirement Benefit

Benefit payable at retirement is the greater of:

- Vested accrued benefit determined as for Normal Retirement, based on credited service to Early Retirement Date with a reduction equal to 6.00% for each year (and a proportional

	reduction for partial years) that the participant's Early Retirement Date precedes age 65. ▪ Vested accrued benefit as of April 30, 2003 (to the extent such accrued benefit is vested upon the participant's separation from service), actuarially reduced from age 65 to the retirement date using an interest rate of 4.00% and the 1971 Group Annuity Mortality Table blended 80% males and 20% females.
50/15 Early Retirement Benefit applicable for post-1990 layoffs only (Contributory)	Benefit determined as for Normal Retirement, based on credited service to Early Retirement Date, payable immediately with reduction of 1½% for each month from the date benefits commence to age when they would have fulfilled the Rule of 75, but no less than Actuarial Equivalent. Termination Benefit applies if commencement is deferred.
62/10 Early Retirement Benefit (Non-contributory benefit structure only)	Benefit determined as for Normal Retirement, based on credited service to Early Retirement Date, payable immediately without reduction as long as the Participant has reached age 62.
Rule of 75 Early Retirement Benefit (Contributory)	Benefit determined as for Normal Retirement, based on credited service to Early Retirement Date, payable immediately without reduction.
Late Retirement Benefit	▪ Contributory Benefit Structure Benefit determined as for Normal Retirement, based on Participant's credited service to actual retirement date with an actuarial equivalent adjustment for the accrued benefit derived from participant contributions. ▪ Non-Contributory Benefit Structure Normal Retirement Benefit payable immediately with Benefit Accrual Service, Social Security Covered Compensation and Final Average Compensation determined as of the Late Retirement Date.

SCHEDULE SB ATTACHMENTS

Termination Benefit

On termination of employment after five years of vesting service, a Participant is entitled to a deferred vested benefit determined as for Normal Retirement, based on credited service to date of termination. The deferred vested benefit is payable without reduction beginning at age 65, or at any time after age 55 based on the plan provisions for Early Retirement.

Pre-Retirement Death Benefit

- Contributory Benefit Structure

  i. If not vested, a lump sum of the Employee Contributions Account is paid to the beneficiary.

  ii. If vested, but not age 55, the surviving spouse of a married Participant or domestic partner is entitled to a choice of a lifetime benefit of 50% Survivor Annuity, without COLA, or a lump sum of the Participant Contributions Account and 50% Survivor Annuity of Employer paid benefit, without COLA. Payments commence on the first day of the month following death or, if later, the earliest date on which the Participant would have been eligible to retire based on service at death.

  iii. If a vested former Participant dies after age 55, the surviving spouse or domestic partner is entitled to a choice of lifetime benefit of 100% Survivor Annuity, without COLA, or a lump sum of the Employee Contributions Account and actuarial equivalent of Employer paid benefit, without COLA.

- Non-Contributory Benefit Structure

  The surviving spouse of a married vested Participant or domestic partner is entitled to a lifetime benefit of a 50% Survivor Annuity, payable at what would have been the Participant's Early Retirement Date.

Death Benefits While Eligible for Retirement

- Contributory Benefit Structure

  If a Participant dies while active and eligible for retirement, the surviving spouse or domestic partner may choose:

  i. 100% Survivor Annuity that would have been paid to the Participant if retired on the day before death, including COLA (aggregate payments not less than Participant Contributions Account); or

  ii. Lump sum of the Employee Contributions Account, and actuarial equivalent of Employer paid benefit, including COLA.

  The Surviving Spouse Death Benefit is the remaining amount in the Employee's Contribution Account.

SCHEDULE SB ATTACHMENTS

- Non-Contributory Benefit Structure

  The surviving spouse or domestic partner receives an immediate 100% Survivor Annuity that would have been paid to the Participant if retired on the day before death.

Normal Form of Payment	Single Life Annuity for unmarried participants, and 50% Joint and Survivor Annuity for married participants.
Optional Forms of Payment	▪ Contributory Benefit Structure i. Single Life Annuity ii. Joint and Survivor Annuity of 50%, 66-2/3%, 75% or 100% iii. Certain and Continuous Annuity of 5, 10 or 15 years iv. Certain Only Annuity of 5, 10 or 15 years v. Temporary Modified Cash Refund Annuity of 5, 10 or 15 years (TMCR) vi. Accelerated Income Option, available in conjunction with the Single Life Annuity, Joint and Survivor Annuity, or Certain and Continuous Annuity of 10 years ▪ Non-Contributory Benefit Structure i. Single Life Annuity ii. Joint and Survivor Annuity of 50%, 75% or 100% iii. Certain and Continuous Annuity of 10 years iv. Certain Only Annuity of 10 or 15 years
Actuarial Equivalence for Annuity Conversion	Certain only annuities and TMCR are actuarially equivalent using interest equal to 30-year Treasury yields from August or October preceding the plan year, whichever is lower, and GAR-94 mortality. Other optional forms of payment are generally determined using actuarial equivalence with 6% interest and RP-2000 mortality projected to 2015 with Scale AA, blended 50/50 male/female, or simplified factors if greater. Actuarial equivalence reflects 4% annual assumed COLA for COLA eligible benefits. Optional forms to which 417(e) apply are not less than the amount using 417(e) minimum conversions with Applicable Interest Rates from August or October preceding the plan year, whichever produces a greater benefit. For participants who made contributions, do not withdraw their contributions, and elect certain only annuities and TMCR, the actuarial equivalence assumes that the benefit is payable as a Life Annuity with 30 Monthly Payments Guaranteed then converted to the elected payment form. Other factors apply in limited cases.

SCHEDULE SB ATTACHMENTS

Other Plan Benefits	Special heritage benefit provisions apply to former employees of General Dynamics Corporation, PanAmSat, HE Holdings (or its subsidiaries) and various other entities formerly associated with Hughes, and to certain participants transferred to General Dynamics Corporation or Hughes Missile Systems Company, or employed by Delphi Automotive Systems. These provisions are not valued in this report, since only a limited number of participants are eligible, and their impact has been deemed immaterial.
Voluntary Lump Sum Window	Certain participants who terminated employment before February 1, 2015, who are entitled to a vested benefit, and have not commenced benefits by November 1, 2015, are eligible to elect to receive their benefits in the form a lump sum (or immediate annuity) as of November 1, 2015. The lump sum window does not apply to all terminated vested participants. Participants that elected the lump sum and were cashed out during November 2015 are no longer participants in the plan.

Changes in Plan Provisions since Prior Valuation

These plan provisions reflect all amendments to the BSS Retirement Plan for Bargained Employees adopted before January 1, 2022 and effective during the 2022 plan year.

- The pay and dollar limits were updated in accordance with legislative changes effective for 2022, as follows:
    - The IRC Section 401(a)(17) compensation limit increased to $305,000 for the 2022 plan year from $290,000 in the prior year.
    - The IRC Section 415 dollar limit increased to $245,000 for the 2022 plan year from $230,000 in the prior year.
- Amendment No. 11, effective June 1, 2021, allows participants to designate an eligible domestic partner as a beneficiary to receive certain benefits upon the participant's death.

There have been no other changes in plan provisions since the prior valuation, and to our knowledge, no plan amendments are pending.

Schedule SB, Line 24
Change in Actuarial Assumptions

- The employee contribution interest crediting rate is the 24-month average of 120% of the Applicable Federal Rate for the period ending December prior to the valuation date. That rate was updated to 1.01% from 1.77% in the prior year.
- The interest rate assumption for the actuarial equivalence for the five year certain payment option was updated to 1.92% for 2022, 2.25% for 2023 and 2024, and 2.50% thereafter. The rates used for conversions during 2022 is the rate in effect for the current plan year, and the assumed payment form conversion rate is projected based on Boeing's long-range business plan.
- The assumed percentage of married participants was changed from 85% for both males and females in 2021, to 80% for males and 60% for females in 2022. This change is based on the results of experience study delivered to Boeing on December 2, 2021.
- The spouse age assumption was updated such that spouses of male employees are assumed to be two years younger than the participants, and spouses of female employees assumed to be two years older than the participants. This change is based on the results of experience study delivered to Boeing on December 2, 2021.
