La Costena USA 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of La Costena USA 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of schedule h, line 4i—schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

La Costena USA 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of La Costena USA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan that covers certain full-time employees of the Plan Sponsor, La Costena USA, Inc. (the Company), and its subsidiary. The Plan has been amended throughout the years to comply with tax legislation and was most recently amended on October 1, 2021, and effective as of October 1, 2021. Employees who are at least 21 years of age and complete 90 days of service are eligible to participate in the 401(k) provisions of the Plan and are eligible for the employer matching contribution. Temporary, part-time and seasonal employees who meet the two criteria above and also complete at least 1,000 hours of service, as defined in the Plan document, are also eligible to participate in the 401(k) provisions of the Plan and are eligible for the employer matching contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Under the 401(k) provisions of the Plan, participants are automatically enrolled into the Plan once they satisfy the eligibility requirements. Eligible employees will be enrolled at a contribution rate of 4% of eligible pretax compensation unless the employee elects to decline participation or to defer a different percentage of pretax compensation. Contributions are subject to current statutory limits determined annually and prescribed by the Internal Revenue Service (IRS). The Plan also permits participants to make additional voluntary contributions of qualified rollovers from other retirement plans.

The Company will contribute and allocate to each participant's account an employer matching contribution equal to 100% of the participant's elective deferral not to exceed 1% of the participant's eligible compensation, plus 50% of the participant's elective deferral in excess of 1% but not to exceed 6% of the participant's eligible compensation. Contributions are subject to statutory limitations. Employer contributions are invested in the same funds and increments as directed by the participant for the participant's contributions.

Participant accounts: Each participant's account is credited with the participant's elective deferrals and rollover contributions, and actual earnings thereon, and allocations of the employer's matching contributions, and actual earnings thereon, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferrals and any rollover contributions made to the Plan, plus actual earnings thereon. Vesting in the employer's matching contributions portion of the participant's account, plus actual earnings thereon, is based on years of credited service. A participant will be 100% vested in the employer's matching contributions portion of the participant's account, plus actual earnings thereon, based on a cliff scale after two years of credited service. The Plan defines a year of credited service to be a Plan year (January 1 through December 31) without regard to hours of service. Upon death or total disability of a participant prior to retirement, the participant's account balance shall also become fully vested.

La Costena USA 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: The Plan allows for participants to obtain notes from the Plan. All notes are limited to the lesser of \$50,000 or 50% of the vested portion of the participant's account, must be a minimum of \$1,000 and are reduced by any outstanding note balance. Participants may have a maximum of two loans outstanding at a time, provided that loan repayments are submitted via payroll deduction. The notes must be repaid within five years, except for certain home notes for which the Plan may allow a longer repayment period. All notes will provide for the repayment of interest at rates commensurate with local prevailing rates, as determined by the Plan Administrator, on the date of the note. Principal and interest are paid through payroll deduction. Notes will be considered in default if payments are not made for 90 days or if there is any outstanding principal remaining after the last scheduled repayment date. The participant's individual account serves as collateral for the note and in the event of default, death, total disability or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Because the participant's account collateralizes the note in its entirety, the credit quality of the participant is not assessed by the Plan Administrator. Unpaid notes will be treated as a taxable distribution from the Plan.

Participants' investment options: Upon enrollment in the Plan, a participant directs contributions in whole percentages to various investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Payment of benefits: On termination of service due to death, total disability, retirement or other reasons, a participant whose vested account balance exceeds \$5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments under a systematic withdrawal Plan. Participants with account balances less than \$5,000 must take a lump-sum distribution as soon as practicable following termination. Mandatory automatic distributions under the Plan in excess of \$1,000 may be automatically rolled over to an individual retirement account established on behalf of participants who do not affirmatively consent to receive their distributions. Distributions may also be made at the participant's election prior to termination upon attainment of age 59½.

If approved by the Third Party Administrator, a participant may also withdraw the vested portion of his/her elective deferral account balance to satisfy any of the following immediate and heavy financial needs: unreimbursed medical expenses for qualified persons, the purchase of a principal residence, to prevent eviction from or foreclosure on a principal residence, postsecondary education expenses for qualified persons, funeral expenses or for expenses that qualify as a casualty deduction under the Internal Revenue Code (IRC).

Forfeitures: Forfeitures of terminated participants' nonvested account balances are first used to pay administrative expenses and then are treated as a reduction of the employer's matching contributions. At December 31, 2022 and 2021, forfeited nonvested accounts totaled approximately \$17,000 and \$13,000, respectively. During the year ended December 31, 2022, approximately \$4,000 of forfeitures were used to reduce employer matching contributions paid by the Company.

La Costena USA 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Retirement Plan Committee determines the Plan's valuation policies, utilizing information provided by the Plan's investment advisors, trustees and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2022 or 2021. Delinquent notes receivable from participants are recorded as a distribution based on the terms of the Plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Benefit payments: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are charged against the Plan's investment results.

Subsequent events: The Plan Administrator has evaluated subsequent events through August 23, 2023, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Information Certified or Provided by the Trustees

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021 and for the year ended December 31, 2022, included throughout the Plan's financial statements and supplemental schedule, which was prepared or derived from information provided by Empower Life & Annuity Insurance Company and Empower Trust Company, LLC, the trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that the information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information provided by the trustees:

	December 31	
	2022	2021
Investments, at fair value:		
Registered investment companies	\$ 36,940,726	\$ 43,391,679
Investments, at contract value:		
Guaranteed investment contract	1,386,522	1,519,146
Notes receivable from participants	1,281,651	1,242,950
	<u>\$ 39,608,899</u>	<u>\$ 46,153,775</u>

The trustees also certified to the completeness and accuracy of \$9,112,663 of net depreciation in fair value of investments, \$1,693,770 of dividends and interest related to the aforementioned investments, \$3,774 of other income related to the aforementioned investments and \$66,859 of interest income on notes receivable from participants for the year ended December 31, 2022.

The Plan provides for investments in a variety of investment options. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is possible that changes in the values of investments have occurred since December 31, 2022 and that such changes could materially affect the participants' account balances and the amounts reported in the 2022 statement of net assets available for benefits.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets

La Costena USA 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan's policy is to recognize transfers in and transfers out as of the actual date of the event or change in the circumstances that caused the transfer.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered investment companies: Investments in registered investment companies are valued at the publicly quoted market prices of shares held by the Plan. The total value is calculated by multiplying the price per share by the number of shares held on the last business day of the Plan year. The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value at December 31, 2022 and 2021:

Assets at Fair Value at December 31, 2022				
	Level 1	Level 2	Level 3	Total
Investments, at fair value:				
Registered investment companies	\$ 36,940,726	\$ -	\$ -	\$ 36,940,726

Assets at Fair Value at December 31, 2021				
	Level 1	Level 2	Level 3	Total
Investments, at fair value:				
Registered investment companies	\$ 43,391,679	\$ -	\$ -	\$ 43,391,679

Note 5. Fully Benefit-Responsive Investment Contract

The Plan has a traditional group annuity contract with Empower Annuity Insurance Company that invests contributions in the EI Fixed Account - Series Class IV (1GWAQ20). The fund is credited with interest earned based on the stated interest rates over the life of the contract. Withdrawals can be made at any time for the purpose of participant withdrawals or benefit payments at contract value. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.68%. The crediting rate is reviewed quarterly for resetting. The contract cannot be terminated before the scheduled maturity date. The fund is included in the financial statements at contract value, as it is fully benefit-responsive, as reported to the Plan Administrator by Empower Annuity Insurance Company of America. Contract value represents contributions made under the contract, plus earnings, less any participant withdrawals, benefit payments and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract.

Examples of such events include the following:

1. The Plan's failure to qualify under section 401(a) of the IRC or the failure of the trust to be tax-exempt under section 501(a) of the IRC
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Income Tax Status

The plan is qualified under the appropriate section of the Internal Revenue Code (IRC) and intends to continue as a qualified plan. The IRS has determined and informed the Plan Sponsor, by a letter dated June 30, 2020, that the Plan, as designed, is qualified under the appropriate section(s) of the IRC. The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of a group annuity contract managed by Empower Life & Annuity Insurance Company and Empower Trust Company, LLC, the trustees of the Plan. Therefore, these transactions qualify as party-in-interest transactions. A majority of the fees and administrative costs for the Plan are the responsibility of the Plan. The remainder of the administrative expenses are paid directly by the Company. Administration costs and fees for the Plan are paid to Empower Life & Annuity Insurance Company and Empower Trust Company, LLC, the trustees of the Plan.
