To the Administrative Committee of
the Mimaki USA 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Mimaki USA 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Mimaki USA 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mimaki USA 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and

maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mimaki USA 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mimaki USA Company 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mimaki USA Company 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MIMAKI USA 401(K) Plan
Notes to the Financial Statements
December 31, 2022 and 2021

Note 1: Description of the Plan

The following description of Mimaki USA (the “Company”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan’s provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by the Company for the benefit of its employees and their beneficiaries. The purpose of the Plan is to enable participants and their beneficiaries to share in the Company’s profits and to encourage the loyalty and continuity of service of the participants. An employee becomes eligible to participate in the Plan upon obtaining age 18 and completing 30 days of continuous employment, as defined by the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

The Plan’s custodian is Nationwide Trust Company, FSB and the Plan’s record keeper is Nationwide Financial Services, Inc. Private Sector Retirement Plan Administration.

Contributions

Eligible participants may make annual contributions to the Plan through a salary deferral election up to a certain percentage or dollar amount, not to exceed the annual limit set by law. Eligible participants are allowed to make “Pre-Tax” and “Roth” deferral contributions. Employee rollover contributions are also permitted. Catch-up contributions are allowed by participants aged 50 and older. The Plan has an automatic deferral enrollment feature for newly eligible participants of 4% of compensation. There is no automatic escalation of the automatic deferral amount. The Company will make matching contributions to all eligible participants’ accounts in the amount of 50% of participants’ deferral contributions not to exceed 4% of participants’ deferral contributions. The Company may also elect to make a discretionary matching contribution based on participants’ deferral contributions not to exceed 4% of participants’ deferral contributions. The Company elected not to make discretionary matching contributions for the years ended December 31, 2022 and 2021.

Contributions are subject to certain limitations. Forfeitures are used to either pay Plan expenses or reduce Company contributions.

Participant Investment Account Options

Investment account options include various types of investment securities offered by the Plan. Each participant has the option of directing his or her contributions into any of these investment securities and may change their allocations daily.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, the Company’s matching contributions, the Company’s discretionary matching contributions (if any) and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1: Description of the Plan (continued)

Vesting

Participants are immediately vested in their deferral and rollover contributions, plus earnings thereon. Vesting in the Company's matching contributions portion of their accounts plus earnings thereon is based on years of credited service. A participant will become 100% vested in the Company's matching contributions upon completing five years of service, as defined by the Plan.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. A participant may only have one outstanding loan. The minimum amount of a loan is \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repaid over a period not to exceed five years (unless the loan is used for the purchase of a primary residence in which case the Administrator may permit a longer repayment term). Loan repayments are made through payroll deductions. The interest rate will be 2% above the prime rate. The interest rate shall remain fixed throughout the duration of the loan. Participants will be deemed to have defaulted on their loan if they fail to remit payments in a timely manner as required under the loan agreement, breach any of their obligations or duties under the loan agreement or terminate employment.

Payment of Benefits

Hardship withdrawals may be requested for medical expenses, purchase of a principal residence, prevention of eviction from or foreclosure on a principal residence, pay for post-secondary education, payments for burial or funeral expenses, pay expenses for the repair or damage to a principal residence, or any other immediate and heavy financial need as determined based on Internal Revenue Service regulations.

Starting in the calendar year in which a participant reaches the age of 72, an election must be made to receive distributions calculated in the same manner as Minimum Required Distributions.

Certain types of in-service withdrawals may be obtained.

Upon termination of service due to death, disability, or retirement, a participant is entitled to 100% of his account balance. For termination of service due to other reasons, a participant is entitled to the value of his vested account balance.

Forfeited Accounts

Forfeitures consist of unvested company contributions in participants' accounts at the conclusion of their participation in the Plan. Forfeitures are held in the Plan and are used to either pay administrative expenses or reduce future Company contributions. At December 31, 2022 and 2021, there were \$2,836 and \$10,838, respectively, in forfeited non-vested accounts. During 2022 and 2021, Company contributions were reduced by the same amounts from forfeited non-vested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting, except for benefit payments, which are recorded when paid.

Investment held by a defined contribution plan are required to be reported at fair value. Fair value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to mutual fund accounts and the general account because fair value less a surrender or withdrawal charge is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

The investments of the Plan are stated at fair value as of the end of the year. Fair value measurements are determined in accordance with GAAP, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. See Note 4 for information related to the Plan's valuation methodologies. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

For detailed information on each fund's investments and concentrations of credit risk, the Prospectus and the Annual Report are available from Nationwide Trust Company, FSB.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Note 3: Certification of Plan Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Trust Company, FSB, has certified the following information for the years ended December 31, 2022 and 2021, included in the accompanying financial statements and supplemental schedule, is complete and accurate:

- Investments and notes receivable from participants as shown in the accompanying statements of net assets available for plan benefits as of December 31, 2022 and 2021
- Investment income and interest income from notes receivable from participants as shown in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2022 and 2021
- Investments and notes receivable from participants' information included in the accompanying schedule of assets (held at end of year) as of December 31, 2022

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

Note 4: Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- | | |
|----------------|--|
| Level 1 | Quoted prices in active markets for identical assets. |
| Level 2 | Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets. |
| Level 3 | Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets. |

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for plan benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall as of December 31, 2022 and 2021:

The Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) depreciated in value by \$1,249,946 in the year ended December 31, 2022 and appreciated in value by \$732,301 during the year ended December 31, 2021.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for plan benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2022 and 2021.

MIMAKI USA 401(K) Plan
Notes to the Financial Statements
December 31, 2022 and 2021

Note 4: Fair Value of Plan Assets (continued)

The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases, where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Investments in the general account fund are considered to be a fully benefit-responsive investment contract. This contract is valued at contract value which approximates fair value. The terms of the contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans or transfers to other investment choices within the plan and reasonable access to their assets. The occurrence of an event that limits the ability of the investment to transact at contract value between Nationwide and a participant holding the investment is not probable.

Note 5: Party-in-Interest and Related-Party Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, and a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Participant loans are loans made to employees/participants of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Plan parties-in-interest included Pension Financial Services (“PFS”) who acted as the third-party administrator, Nationwide Trust Company, FSB who acted as the custodian, and Nationwide Financial Services, Inc. Private Sector Retirement Plan Administration who acted as the record keeper.

Direct expenses paid to service providers during the years ended December 31, 2022 and 2021 were approximately \$66,742 and \$80,200, respectively. Indirect expenses paid to service providers during the years ended December 31, 2022 and 2021 were approximately \$5,762 and \$6,100, respectively

The Company provides certain administrative services at no cost to the Plan.

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the accompanying statements of net assets available for

MIMAKI USA 401(K) Plan
Notes to the Financial Statements

Note 6: Risks and Uncertainties (continued)

plan benefits.

Note 7: Tax Status

The Plan operates under a Volume Submitter 401(k) Profit Sharing Plan adoption agreement in connection with a retirement plan and trust/custodial document sponsored by Pension Financial Services, Inc. This plan document has been filed with the appropriate agency and has obtained an opinion letter dated June 30, 2020. The Plan has not obtained or requested a determination letter. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.
