To the Plan Administrator
Penn Veterinary 401(k) Plan
Lancaster, Pennsylvania

We have audited the financial statements of Penn Veterinary 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit) for the year ended December 31, 2022, and have issued our report thereon dated September 27, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Reliance Trust Company, the trustee, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 5, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Penn Veterinary 401(k) Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

The disclosure related to unaudited information certified by the trustee in Note 3 to the financial statements.

The disclosure of Plan investments and fair value measurements in Note 4 to the financial statements.

The disclosure of investment contracts in Note 5 to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We identified the following reportable finding:

Hardship Distribution Documentation We selected two hardship distributions for Plan participants as part of our audit testing related to distributions. Upon request for documentation to support the hardship distributions, we were informed that the Plan utilizes the Summary Substantiation Method which allows participants to self-certify that they are eligible for a hardship withdrawal. Under this method, the participant is required to provide the documentation to the Plan Administrator upon request. The Plan Administrator did not have access to such documentation from either of the selected participants as they had terminated employment. In order to meet regulatory requirements (i.e. promulgated by the Department of Labor or Internal Revenue Service), it is important for the Plan to support all Plan activity, including hardship distributions, to avoid any possible Plan status or qualification issues.

We recommend the Plan Administrator proactively obtain hardship documentation from participants during the disbursement process instead of after the fact. Additionally, we

recommend the Plan discuss this matter with its third-party advisors and consider changing from the Summary Substantiation Method and instead requiring hardship documentation be provided prior to disbursement of funds. We also recognize that the hardship distributions selected for testing, and for which the supporting documentation was not immediately available, were not material to the Plan's financial statements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 27, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

There were delays in the receipt of necessary audit documentation. Accordingly, the completion of our audit was delayed past the completion date originally communicated to you.

Our responsibility for the ERISA-required supplemental schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

This information is intended solely for the use of the Plan Administrator of Penn Veterinary 401(k) Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully yours,

A handwritten signature in black ink that reads "Trout CPA". The signature is written in a cursive, slightly stylized font.

September 27, 2023

To the Plan Administrator
Penn Veterinary 401(k) Plan
Lancaster, Pennsylvania

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Penn Veterinary 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as of and for the year ended December 31, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Reliance Trust Company that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency that we consider to be a significant deficiency. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A reportable finding is an indication of deficiencies in internal control identified during the audit that have not been communicated to management by other parties and that, in the auditors' professional judgement, are of sufficient importance to merit management's attention. We consider the following deficiency in Penn Veterinary 401(k) Plan's internal control to be a significant deficiency and a reportable finding:

Hardship Distribution Documentation

We selected two hardship distributions for Plan participants as part of our audit testing related to distributions. Upon request for documentation to support the hardship distributions, we were informed that the Plan utilizes the Summary Substantiation Method which allows participants to self-certify that they are eligible for a hardship withdrawal. Under this method, the participant is required to provide the documentation to the Plan Administrator upon request. The Plan Administrator did not have access to such documentation from either of the selected participants as they had terminated employment. In order to meet regulatory requirements (i.e. promulgated by the Department of Labor or Internal Revenue Service), it is important for the Plan to support all Plan activity, including hardship distributions, to avoid any possible Plan status or qualification issues.

We recommend the Plan Administrator proactively obtain hardship documentation from participants during the disbursement process instead of after the fact. Additionally, we recommend the Plan discuss this matter with its third-party advisors and consider changing from the Summary Substantiation Method and instead requiring hardship documentation be provided prior to disbursement of funds. We also recognize that the hardship distributions selected for testing, and for which the supporting documentation was not immediately available, were not material to the Plan's financial statements.

During our audit, we also became aware of certain matters that we consider to be of interest to the Plan. Attachment A, which accompanies this letter, summarizes our comments and suggestions concerning these matters.

We will review that status of these comments during our next audit engagement. We will be pleased to discuss this comment in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations. This communication is intended solely for the information and use of management, the Plan Administrator, and others within the Plan, and is not intended to be, and should not be, used by anyone other than these specified parties. In the event a third party requests and obtains a copy of this letter that third party will need to exercise an appropriate level of independent due diligence. Accordingly, the use of this information by a third party is solely their responsibility and their judgment.

We thank all those who assisted us during the course of our audit and we look forward to a continued working relationship.

Respectfully yours,

Trout CPA

ATTACHMENT A

Adoption of New Provisions

The CARES Act was passed and effective March 27, 2020. Provisions of the CARES Act which may impact the Plan include the following:

- Qualified participants who have been impacted by the pandemic who request and certify eligibility under the CARES Act prior to December 31, 2020, may request to have a distribution equal to the lesser of \$100,000 or their entire account balance. The 10% early withdrawal penalty is waived for participants under age 59½. The participant may also pay taxes due on the withdrawal over a 3-year period and can chose to repay the hardship back over a 3-year period.
- Required minimum distributions due for 2020 may be waived.
- Required minimum distributions already paid in 2020 may be rolled over to an IRA or back into the retirement program to defer applicable income tax.
- Qualified participants who request and certify eligibility under the CARES Act prior to 180 days subsequent to March 27, 2020, may request a loan not to exceed \$100,000.

Plan Sponsors have until the end of 2025 to adopt an amendment for the provisions of the CARES Act.

We recommend that you consider amending your Plan Document to be in accordance with the provisions of these Acts.

Maintenance of Timecard Records

During our audit, we noted that the corporation does not have access to electronic timecards that are older than a year. We would encourage the Plan Sponsor to maintain complete timecard records for the period under audit, in case the Plan was to be selected for DOL or IRS audit and such records were requested for review.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Penn Veterinary 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **Penn Veterinary 401(k) Plan**, (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **Penn Veterinary 401(k) Plan** and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **Penn Veterinary 401(k) Plan's** ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **Penn Veterinary 401(k) Plan's** internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **Penn Veterinary 401(k) Plan's** ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and assets (acquired and disposed of within year), as of or for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Penn Veterinary 401(k) Plan
NOTES to FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION of PLAN

The following description of the **Penn Veterinary 401(k) Plan** (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General and Plan Amendment

The Plan is a defined contribution 401(k) plan covering all employees of Penn Veterinary Supply, Inc. (the Corporation). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan, determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Eligibility

Employees are eligible to participate in the Plan after completing one year of eligibility service and upon attaining age 18. A year of eligibility service is accomplished after completing 1,000 hours of service during the first 12 months of employment. If 1,000 hours of service is not completed in the first 12 months of employment, the employee will be credited with a year of eligibility service, provided they complete 1,000 hours of service in any following calendar year. Once an employee has met the eligibility requirements, he or she is automatically enrolled in the Plan at a 2% deferral percentage on the first day of the calendar month coincident with or following the time he or she meets the stated eligibility criteria, and an automatic increase will occur on the first day of each Plan year and will be made in increments of 1% per year up to a maximum elective deferral of 6% of compensation. If an employee does not want to participate in the Plan, he or she must proactively opt out of Plan participation. The Plan will also allow eligibility for long-term part-time employees to participate in the Plan under the provisions of the Setting Every Community Up for Retirement Enhancement Act (SECURE Act) of 2019.

Contributions

Participants may contribute a portion of their annual pre-tax or post-tax compensation, as defined in the Plan Document; however, the participant's contribution cannot exceed amounts allowable under applicable federal regulations. Participants who have attained age 50 by the end of the Plan year are eligible to make additional contributions in the form of catch-up contributions. Participants may also contribute amounts representing distributions from qualified plans and IRAs. Participants direct the investment of his or her deferrals into various investment options offered by the Plan.

The Corporation may make discretionary matching contributions or nonelective contributions to the Plan. No discretionary matching contributions or nonelective contributions were made during the Plan years ended December 31, 2022 and 2021.

Participant Accounts

A record-keeping account is set up in each participant's name to show the value of his or her retirement benefit. Each participant's account is credited with the participant's contributions and allocations of (a) the Corporation's discretionary matching contributions and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Penn Veterinary 401(k) Plan
NOTES to FINANCIAL STATEMENTS
(Continued)

NOTE 1 - DESCRIPTION of PLAN (Continued)

Vesting

Participant salary deferrals, plus or minus any earnings or losses, are 100% vested. If a participant in the Plan terminates employment other than by retirement, disability, or death, employer contributions and earnings or losses thereon vest in accordance with the following table:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum of the lesser of \$50,000 or the participant's vested account balance. Loan terms range from one to five years or for a period up to 30 years for the purchase of a primary residence. Participant loans are secured by the balance in the participant's account. All loans bear a reasonable rate of interest in accordance with the Plan Document that is equal to the prime rate plus 2% at time of inception. Principal and interest are paid ratably through payroll deductions. Only one loan at a time is permitted. Notes receivable are stated at their unpaid principal plus accrued unpaid interest.

Retirement Benefits and Distributions

Upon termination of service due to death, disability, retirement, or other separation of employment, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or have the payment paid as a direct rollover to an individual retirement account or another employer's tax qualified plan. In the absence of an affirmative participant election, vested balances of less than \$5,000 will be automatically paid out. If a participant is determined to be eligible for distribution and he or she fails to make a distribution election, the portion of the account balance attributable to the Roth Elective Deferral Account and Roth Rollover Contribution account, if any, will be automatically rolled over to a Roth IRA (excluding any outstanding loan balance) if that portion is greater than \$1,000. The remaining portion of the account balance will be separately rolled over to a traditional IRA if that portion is greater than \$1,000. If either portion is less than \$1,000, that amount will be distributed to the participant in a lump sum.

In-service withdrawals are available to participants who attain age 59½.

A participant may request a hardship withdrawal of all or part of the vested balance in his or her account.

Each participant designates a person or persons who are to receive benefits under the Plan in the event of the participant's death.

Forfeitures

Forfeited amounts are used to reduce future employer contributions or offset Plan expenses. No amounts were forfeited during the Plan years ended December 31, 2022 and 2021.

Penn Veterinary 401(k) Plan
NOTES to FINANCIAL STATEMENTS
(Continued)

NOTE 2 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP). Current US GAAP standards are contained in the Accounting Standards Codification (ASC) as set forth by the Financial Accounting Standards Board (FASB).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value) as determined and certified to by the Plan's trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded based upon the terms of the Plan Document for purposes of Form 5500 reporting. However, for purposes of the financial statement, for active participants who have not incurred a distributable event (employment, termination, death, or disability), but have delinquent loans, the participant loans remain outstanding until a distributable event occurs.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS were recorded as a liability and as an offset against participant contributions. The Plan has no excess contributions payable for each of the years ended December 31, 2022 and 2021.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses may be paid out of the Plan; however, the Corporation pays some of the administrative costs of the Plan.

NOTE 3 - INFORMATION PREPARED and CERTIFIED by the TRUSTEE (UNAUDITED)

Reliance Trust Company (the trustee) held the Plan assets at December 31, 2022 and 2021, and for the years then ended. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the trustee as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

	2022	2021
Investments:		
Investments at Fair Value	6,688,757	7,879,082
Investments at Contract Value	222,030	182,327
Notes Receivable from Participants	38,159	45,977

Investment income (loss) for the years ended December 31, 2022 and 2021, totaled \$(1,373,096) and \$1,144,220, respectively. The Plan earned interest income of \$2,259 and \$2,574 on the notes receivable from participants for the years ended December 31, 2022 and 2021, respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset and liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Penn Veterinary 401(k) Plan
NOTES to FINANCIAL STATEMENTS
(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered Investment Companies: Valued at the daily closing price as reported by the funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	6,688,757	-0-	-0-	6,688,757

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	7,879,082	-0-	-0-	7,879,082

Level 3 Gains and Losses

There were no Level 3 investments during the years ended December 31, 2022 and 2021.

NOTE 5 - INVESTMENT CONTRACT with INSURANCE COMPANY

The Plan is invested in the Reliance Trust Company Stable Value Fund, which invests in traditional fully benefit-responsive guaranteed investment contracts with MetLife. The investment in these funds were \$222,030 and \$182,327 at December 31, 2022 and 2021, respectively. The contracts are administered and assets are managed by MetLife. Reliance Trust Company maintains ultimate fiduciary authority over the management of and investments made in this fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0 percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Penn Veterinary 401(k) Plan
NOTES to FINANCIAL STATEMENTS
(Continued)

NOTE 5 - INVESTMENT CONTRACT with INSURANCE COMPANY (Continued)

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by MetLife, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA and (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

NOTE 6 - TAX STATUS

The Plan adopted a Non-Standardized Pre-Approved Plan which received an opinion letter on October 6, 2020, in which the Internal Revenue Service stated that the Non-Standardized Pre-Approved Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving this opinion letter. However, the Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore, believes that the Plan is qualified and tax-exempt.

US GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain tax positions requiring recognition or disclosure.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Penn Veterinary 401(k) Plan
NOTES to FINANCIAL STATEMENTS
(Continued)

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8 - RISKS and UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - RELATED PARTY and PARTY-in-INTEREST TRANSACTIONS

For the years ended December 31, 2022 and 2021, certain Plan investments were in the stable value fund which is managed by Reliance Trust Company. Reliance Trust Company is the trustee for the Plan assets and, therefore, these transactions qualified as party-in-interest transactions. At December 31, 2022 and 2021, the contract value of these investments managed by the trustee totaled \$222,030 and \$182,327, respectively.

As previously discussed, the Plan may issue loans to participants that are secured by participant account balances. Participant loans totaled \$38,159 and \$45,977 at December 31, 2022 and 2021, respectively. Interest income from participant loans was \$2,259 and \$2,574 for the years ended December 31, 2022 and 2021, respectively. All of these transactions qualify as party-in-interest transactions.
