INDEPENDENT AUDITOR'S REPORT

To the Benefits Committee of
Le Moyne College 403(b) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We were engaged to perform audits of the financial statements of Le Moyne College 403(b) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statements of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (U.S. GAAP) and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of schedule H, line 4i – schedule of assets (held at end of year), as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

LE MOYNE COLLEGE 403(b) PLAN

NOTES TO THE FINANCIAL STATEMENTS

(1) Description of the Plan

The following description of the Le Moyne College 403(b) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of Le Moyne College (the College), except for those classes of employees specifically excluded by the plan document. The Plan was established effective January 1, 1962, amended and restated effective January 1, 2021.

The Plan is subject to the provisions of ERISA.

(b) Plan Administration

The Plan is administered by the College, which acts as the Plan Sponsor. Teachers Insurance Annuity Association (TIAA) and College Retirement Equities Fund Plan Sponsor Services (CREF) are the custodians of the Plan. TIAA-CREF also serves as the Plan's record keeper.

(c) Eligibility

All employees of the College are eligible to participate in the Plan on the first day of employment unless they are students enrolled and attending classes offered by the College or adjunct professors and lecturers (excluded employees).

(d) Contributions

Nonexcluded employees hired with the expectation that the employee will perform at least 1,000 hours of service during the employee's first eligibility computation period shall be eligible to participate in matching contributions beginning on the employee's date of hire.

Plan participants may make voluntary deferrals of their compensation, not to exceed the maximum annual contribution allowed by the Internal Revenue Code (IRC). The limit was \$20,500 in 2022 and \$19,500 in 2021. In addition to voluntary deferrals, for certain nonexcluded employees, the College contributes 9.5% of a participant's base compensation, provided those employees' individual elective deferrals equal or exceed 3.5%. Eligible participants having at least 15 years of service before the end of the plan year may contribute an additional amount up to \$3,000 per year, up to a lifetime maximum of \$15,000. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions of \$6,500 for the plan years 2022 and 2021.

Effective for the first payroll period that began after August 31, 2020, the College matching contribution was amended from a fixed 9.5% of a participant's base compensation to a discretionary matching contribution, initially set at 0%. On May 6, 2021, the Board of Trustees approved the reimbursement of a discretionary 403(b) matching contribution on eligible earnings within the period of September 1, 2020 and May 31, 2021. All amounts recorded were contributed in 2021. Further on June 10, 2021, the Board of Trustees approved the restoration of the discretionary 403(b) matching contribution on eligible earnings to 9.5% effective June 1, 2021.

Participants may allocate his or her contribution and the College's matching contribution among various investment fund options and/or purchase TIAA annuities. The number of units purchased is based on the net asset value (NAV) of the investment unit on the day the contributions are received.

(e) Participant Accounts

Contributions made by the participants and the employer are reported to the Plan's record keeper and are allocated to the respective participant's account. Each participant's account is credited with the participant's contributions, the employer's contributions and investment earnings net of administrative expenses. Allocations of investment earnings are based on NAV for the participant's account balance. The benefit to which a participant is entitled is the monetary value that can be provided from the participant's account balance.

(f) Vesting

Participants are immediately vested in their accounts attributable to voluntary and employer contributions, and accumulated earnings thereon.

(g) Withdrawals and benefits paid directly to participants

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated plan balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, partial payments, or installments. In addition, participants may elect in-service withdrawals of their voluntary deferral account balances after reaching age 59½ or for hardship purposes. Rollover account balances and certain employee deferrals made prior to 1989 may be withdrawn at any time. Minimum required distributions for participants who have reached age 70½ also apply in accordance with Internal Revenue Service regulations.

In the event a participant dies prior to commencement of retirement benefit payments, the current value of the annuity accumulation is then payable to the beneficiary or beneficiaries named by the participant in any one of the options offered by the plan custodian.

(h) Participant Loans

Loans are available to participants through TIAA, subject to certain limitations. Plan loans are issued directly from the funds owned by TIAA and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's account balance is held in collateral in the TIAA Traditional Annuity to cover the outstanding loan amount for the period of time the loan is outstanding. See Note 4 for discussion of the TIAA Traditional Annuity. For active loans, investments are held as collateral equal to 110% of the outstanding loan amount and are reflected in the participant directed investment at fair value in the statements of net assets available for benefits. Investments related to defaulted loan balances are reflected in the statements of net assets available for benefits until a distribution event occurs.

At December 31, 2022 and 2021, participants had outstanding plan loan balances due to TIAA of \$215,583 and \$392,796, respectively.

(i) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 and a maximum of 50% of the participant's vested account balance or \$50,000. The loans are secured by the balance in the participant's account and bear interest of 4.25% to 7.25%. The interest rate is set at 1% above the prime rate, as defined by the Plan's loan policy.

(j) Plan Termination

Although the College has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination or partial termination, the balance of the individual accounts of each participant will be distributed in a lump sum or by delivery of a fully paid annuity contract.

NOTES TO THE FINANCIAL STATEMENTS

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The Plan's financial statements are prepared under the accrual basis of accounting.

As discussed in Note 1, the Plan was established in 1962 and historically was viewed as an amalgamation of individual annuity and custodial accounts, and the Plan and its custodians did not maintain financial information at a plan level. As of December 31, 2008, the Plan's custodians have begun to provide the Plan Administrator with annual certified statements summarizing the Plan's activities and holdings. Because certain historical records were not maintained or are not available at a plan level, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts, and related activity, issued to current and former employees prior to January 1, 2008. This accounting policy election is permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (FAB 2009-2); however, U.S. generally accepted accounting principles require that these accounts and the related income and distributions be included in the accompanying financial statements. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

(b) Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, see Note 2(g). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(d) Risks and Uncertainties

The Plan provides for various investment options in mutual funds and annuity contracts. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

(f) Benefits

Benefits are recorded when paid.

NOTES TO THE FINANCIAL STATEMENTS

(g) Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuities (SRA) and the Group Supplemental Retirement Annuities (GSRA), are considered fully benefit-responsive. See Note 4 for further discussion of the TIAA Traditional Annuity.

(h) Administrative and Investment Expenses

Operating expenses of maintaining the Plan are paid by the College. Direct plan administrative expenses are paid by the Plan. Investment expenses are paid by plan participants.

(3) Information Certified by the Plan's Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, TIAA-CREF, the custodian of the Plan, has certified as being complete and accurate the investments listed on the statements of net assets available for benefits, the investment activity reflected in the statements of changes in net assets available for benefits, and the investment information included in the notes to the financial statements and the supplemental schedule of the financial statements as of and for the years ended December 31, 2022 and 2021. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the Plan custodian.

	<u>2022</u>	<u>2021</u>
Investments at fair value:		
Participant directed	\$ 177,648,651	\$ 202,925,418
Investments at contract value:		
Participant directed, fully benefit-responsive	\$ 10,831,735	\$ 10,261,253
Institution directed, fully benefit-responsive	\$ 61,541	\$ 41,626
Notes receivable from participants	\$ 533,169	\$ 360,227

Net (depreciation) appreciation in fair value of investments	\$ (25,689,639)	\$ 16,894,208
Interest and dividend income	\$ 3,643,306	\$ 5,593,358

(4) TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuity (SRA), and Group Retirement Supplemental Retirement Annuity (GSRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

NOTES TO THE FINANCIAL STATEMENTS

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting interest rates are as follows:

	Year ended December 31	
	2022	2021
Crediting interest rates:		
Accumulating RA contracts	6.25%	3.70%
Accumulating GRA contracts	6.25%	3.70%
Accumulating SRA contracts	5.50%	3.00%
Accumulating GSRA contracts	5.50%	3.00%

The RA contract does not allow lump-sum cash withdrawals and transfers; all withdrawals and transfers from an RA contract must be spread over 10 annual installments. With the GRA contracts, lump sum withdrawals are available within 120 days of termination of employment and are subject to a 2.50% surrender charge. All other withdrawals and transfers from RA and GRA contracts must be spread over 10 annual installments (5 annual installments for withdrawals after termination of employment). The SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring. The guaranteed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(5) Fair Value Measurements

The Plan estimates fair value based on a valuation framework that uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable inputs, which are categorized in one of the following levels:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTES TO THE FINANCIAL STATEMENTS

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following is a description of the valuation methodologies used for assets measured at fair value:

- TIAA real estate generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Underlying assets are valued using external appraisals and independent pricing sources. The investment is classified as a Level 1 investment.
- CREF fund accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.
- The TIAA-CREF mutual funds invest principally in equity securities, fixed income instruments, and short-term instruments in accordance with each fund's investment objectives. TIAA-CREF mutual funds are registered mutual funds whose fair values are reported on an active market.
- The other mutual funds invest principally in equity securities, fixed income instruments, and short-term instruments in accordance with each fund's investment objectives. The mutual funds are registered mutual funds whose fair values are reported on an active market.
- Investments in non-benefit responsive TIAA Traditional Annuity contracts such as GRA and RA are contract based, therefore observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The fair value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. Investments in fully benefit-responsive TIAA Traditional Annuity contracts such as SRA and GSRA are not required to be reported at fair value and are reported at contract value. As such, fully benefit-responsive investment contracts are not included in the fair value hierarchy tables below. See Note 4 for discussion of the TIAA Traditional Annuity.

LE MOYNE COLLEGE 403(b) PLAN

NOTES TO THE FINANCIAL STATEMENTS

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table summarizes the category, fair value, valuation, redemption frequency and redemption notice period of the Plan's financial instruments under the fair value hierarchy levels as of December 31, 2022:

(7) Related-Party and Party-in-interest Transactions

All Plan investments are managed by TIAA-CREF, the Plan's custodian and record keeper. Transactions between the TIAA-CREF, and the Plan, qualify as party-in-interest transactions.

LE MOYNE COLLEGE 403(b) PLAN

NOTES TO THE FINANCIAL STATEMENTS

(8) Tax-Exempt Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan Administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the code to maintain the tax-exempt status for plan participants under Section 403(b).

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Subsequent Events

Subsequent events have been evaluated through September 7, 2023, which is the date the financial statements were available to be issued.
