Independent Auditor's Report

To the Trustees and Management of the
Bosque School Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Bosque School Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by the institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by the qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by the institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Bosque School Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

1) Description of Plan

The Bosque School Defined Contribution Retirement Plan (the "Plan") was established on August 1, 1995 for the benefit of the employees of Bosque School (the "School"). The School acts as the Plan sponsor and administrator. The Plan was amended January 1, 2020 to allow Bosque Ecosystem Monitoring Program ("BEMP") employees to participate in the plan when BEMP became a separate 501(c)(3) entity, effective July 1, 2020. Participants should refer to the Plan document for a more complete description of the Plan.

General

The Plan is a defined contribution plan covering all employees of the School and BEMP except for employees who are students and employees who are normally credited with fewer than 20 hours of service per week, non-resident aliens and employees who are members of a union. Eligible employees can make elective deferral contributions immediately upon date of hire. After completing the service hours requirement as defined by the Plan the employees become eligible for matching and non-elective contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants are allowed to contribute up to 100% of compensation up to the legally allowed limit. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions up to the legally allowed limit. Participants may also contribute amounts representing distributions from other qualified plans. For the years ended December 31, 2022 and 2021, the employer contribution was 5% for School employees and 3% for BEMP employees, based on compensation, as defined by the Plan. As defined in the Plan, contributions are subject to other limitations.

Administrative Expenses

All reasonable Plan administration expenses, including those involved in retaining necessary professional assistance may be paid from the assets of the Plan to the extent permitted by the participant's individual agreements. These expenses may be allocated to all Plan participants, or for expenses directly related to one participant, they are charged against that participant's account balance. The Administrator may, at its discretion, pay a portion or all of these expenses.

Notes to Financial Statements

December 31, 2022 and 2021

1) Description of Plan — continued

Participant Accounts

Each participant's account is credited with the participant and employer contributions, account earnings, gains and/or losses. Allocations of employer contributions are based on employee contributions made during the Plan year. Employees can direct their accounts to be invested in any combination of available funds.

Vesting and Forfeiture

Employees are immediately vested in their contributions plus actual earnings thereon. Employees are 100% vested in employer contributions after three years of service. Amounts forfeited from a participant's account shall be used to reduce future employer contributions. There was approximately \$14,000 and \$5,000 of forfeited nonvested accounts at December 31, 2022 and 2021, respectively.

Investment Options

Upon enrollment in the Plan, a participant may direct their account balance in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes Receivable from Participants

Under the Teacher Annuity Association of America and College Retirement Equities Fund (TIAA-CREF) recordkeeping system, the loans offered were referred to as "Plan Loans," however; these loans were issued directly from funds owned by TIAA-CREF and not from a participant's account. Therefore, there were no plan loans accounted for by the Plan and included in Plan assets for any investments held by TIAA-CREF.

Under the Nationwide Financial Services, Inc. (Nationwide) recordkeeping system, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate established at the inception of the loan and set by the plan administrator on the basis of relevant factors including but not limited to the rates charged by commercial U.S. banks available within a reasonable geographic vicinity for loans of similar duration and security level. Principal and interest are paid ratably at least quarterly. Participants are not allowed to have more than one loan outstanding at any one time.

1) Description of Plan — continued

Payment of Benefits

Benefits may be paid to a participant or beneficiary upon the following events: death, disability, termination of employment, or attaining age 59 ½ as defined in the Plan. In addition, a participant may qualify for a hardship distribution as defined in the Plan. The payment of benefits under the Plan is governed by the IRS Code 403(b) and the investment contract distribution restrictions.

2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2) Summary of Significant Accounting Policies – continued

Tax Status

The Plan Administrator believes that the Plan has been designed to comply with the requirements of section 403(b) of the IRS Code and, therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2019.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through September 27, 2023, which is the date the financial statements were available to be issued.

5) Fair Value Measurement

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs consist of inputs that are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurement – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5) Fair Value Measurement – continued

The following are descriptions of the valuation methodologies used for assets measured at fair value:

Registered Investment Company Shares – Valued at the net asset value of shares held by the Plan at the end of each day, which is determined by quoted prices in an active market.

Fixed Annuity Contracts – Valued based on the accumulated cash contributions, interest credited to the contract and transfers less any withdrawals. For non-benefit responsive contracts fair value approximates contract value.

Pooled Separate Account – Consists of investments in real estate properties and real estate-related investments whose value is principally derived from the market value of the underlying real estate holdings or other real estate investments.

Cash and Cash Equivalents – Valued at cost which is consistent with fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31,:

	Fair Value Measurements Using:			
	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Cash and cash equivalents	\$ 4,482,473	\$ -	\$ 4,482,473	\$ -
Registered investment company shares	2,946,617	2,664,192	282,425	-

Bosque School Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

5) Fair Value Measurement – continued

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2022 and 2021 are reported in net appreciation in fair value of investments.

6) Investment Contract

The Plan has a fixed annuity investment contract with TIAA-CREF. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

For investment contracts that are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA-CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. At December 31, 2022 and 2021, one of the Plan's investment contracts was fully benefit responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the non-benefit responsive fixed annuity contract at December 31, 2022 and 2021, was \$978,659 and \$964,839 respectively. The contract value of the benefit responsive fixed annuity contract at December 31, 2022 and 2021, was \$23,439 and \$34,720 respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but, as of December 31, 2022, it may be between 1% and 3%. Such interest rates are reviewed on an annual basis for resetting.

The average yield for 2022 and 2021 was 4.24% and 3.58% respectively.

The Plan entered into a fully benefit responsive guaranteed investment contract with Nationwide Life Insurance Company (the "Company") during the year ended December 31, 2019. The Company maintained the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

6) Investment Contract – continued

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment contract value. There was no contract value at December 31, 2022. The contract value of the benefit responsive guaranteed investment contract at December 31, 2021 was \$10,326.

The fixed contract rate is reset annually, the fixed rate for 2021 was 1.87%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the custodial account to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Investment contracts that are fully benefit responsive are included in the financial statements at contract value as reported by TIAA-CREF and Nationwide.

7) Related Party Transactions

Certain Plan investments are issued or managed by TIAA-CREF and therefore these transactions qualify as party-in-interest.

8) Plan Termination

Although it has not expressed any intent to do so, the sponsors have the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9) Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts which may have been issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such potential accounts have also been excluded from the statements of changes in net assets available for benefits.

10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11) Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements. The reclassifications had no effect on total assets, net assets available for benefits or changes in net assets available for benefit.
